Re: Fitzwilliam Square, Wicklow town & County Development plan 2016

Dear Sir/Madam,

I believe Fitzwilliam Square is an important Historical Monument and should be protected and preserved for future generations. I ask that it become "a listed structure".

Also The Halpin Memorial within the Square is of HUGE Historical significance to our Cultural Heritage.

Points **AGAINST** the current "proposals" for the area are as follows:-

1. I feel the "Plaza area" is a needless extravagance, and will restrict access to Bridge street/South Quay and the Seafront.
2. Church street is a narrow street and not wide enough for "Loading Bays". The Board of Works have now renovated the "old" Garda station, just in front of Supervalu Car Park, and when it eventually reopens Traffic will greatly increase on that Street.
3. With the Plaza and one way system it would **restrict access for Ambulances/Fire Services etc onto South Quay/Seafront. EMERGENCY RESPONSE TIMES will be RESTRICTED.**
4. Totally against removing any of the Railings around the monument, as they enhance the feature, have great historic value and add to the "Victorian" theme our town "recreates" for Christmas etc.
5. "Cycle lane" starting at Bridge street????? Where would it end?? The Cycle path on the Murrough stops before the Footbridge. Even considering the Footbridge to include the Cycle path would be ludicrous, as it is **not wide enough for Pedestrians AND Cyclists.**
6. So the traffic system you are considering, will mean when traveling from Abbey street to the Seafront or South Quay, you will have to drive down Church street and around by Bacholars Walk!!!!!!!!!!!! Madness considering the heavy traffic flow in the area already with Garda Vehicles etc. This would cause delays for Ambulances also.

Tina Maxwell

Tina Maxwell

ADDENDUM to Tina Maxwell's letter 07/01/2016

This is a clarification of the press release that appears in the Wicklow People on 16/12/2015.

Fitzwilliam square.

A meeting was held on Thursday the 10 of December to discuss the 2016 County development plan. Local historian Stan O'Reilly and a group of concerned Wicklow Citizens are highlighting the fact that Fitzwilliam square, locally known as the Smoothing Iron, is not marked as a listed site in the 2016 County development plan.

The County development plan is currently reopened for submissions until the 8th of January. We will have a petition on the streets of Wicklow Town in the coming weeks and we are pleading to the people of Wicklow town to sign our petition to have the Smoothing Iron **listed as a protected site**.

"The people of Wicklow have said no to any interference by Wicklow County Council on or too the enclosure locally known as the 'Smoothing Iron'" "Wicklow County Council have refused to listen to or respect the wishes of the **people of Wicklow who were gifted the enclosure in 1910**". "

The Smoothing Iron is an important piece of Wicklow Heritage and not just because it encloses the Halpin memorial, it was also the central location for the town market up until 1866" "

As has become the norm in our county, the voices of local people are been ignored solely on the basis of the council using the reduction of the smoothing iron as way of availing of NRA grants to fix the traffic problems in Wicklow town".

"This is our property, this is our town, this is our heritage so hands of, you work for us and we are not for sale" "We will be on the streets asking people to sign this petition please show your support for our square by signing
