396. The council had under consideration report from Electrical Engineer together with communications from Ministry of War which it appeared that further Petroleum Fuel Oil supplies would be unobtainable. There was only a supply to last until about the middle of March. During the summer months the evening load could be supplied by steam but at enormous cost while it would be necessary to cut off the day supply. He recommended that Tai Oil apparatus should be placed on order as soon as possible. The cost would be £195 but this amount would be saved twice over in reduced cost of fuel oil.

Councillor O'Carroll proposed and Councillor McByrne seconded:

That having heard report of Electrical Engineer we are of opinion that it is absolutely

necessary to have Tai Oil apparatus fixed to Diesel Engines and we instruct the Engineer to take the steps necessary for fixing of same provided that the inquiries regarding working of apparatus in alternating current stations using the apparatus are satisfactory; and order that a short advertisement be inserted for a tender for supply and fixing of the apparatus."
