"That the premises being only surplus land and of small value as compared with the gift of 72 acres of Bray Head by Mr. Frame, and having regard to the fact that the Railway Company will be one of the parties who will benefit most as a result of a White City being established on the site, the Council consider that the action of the Railway Company in stipulating for such a short term may endanger the carrying out of the whole project, and that to encourage this development the Company ought to be giving this surplus land as a free gift in anticipation of the greatly increased revenue that is likely to accrue to the Railway Company as a result of this enterprise being brought to fruition."

"The Council would, therefore, be pleased if the Directors will give their consent to the proposed amendment as to term in the draft Lease as it is provided that the Company may at any time on giving six months notice terminate the Lease if it should ever be required for railway purposes, and that except for railway purposes or purposes of a Public Park or Amusements this surplus land is not capable of being developed in any other manner."
