The Sub San Officer reported that during the past month there were three cases of typhoid fever two of which were still in hospital One of the cases did not arise within the Township, the general health of which was good And drew attention to a report of the Medical Officer Dr Halpin read at last meeting relative to the Main Sewer in Abbey St and also mentioned that the pump at Summerhill was out of order. As the Board had decided at their meeting held on April 6th that the Sewer referred to was a Surface water Channel and a County Work. The Board now decided to take no action thereto and with reference to the pump in Summerhill made an order to have the necessary repairs executed. Read letter from Mr. E Ryder the Mall Complaining of the defective Sanitary Condition of the pere of his premises and the absence of General Sanitary accommodation. After Consideration the matter was referred to the managing Committee. Read report from the managing Committee recommending the annexation of the County Hotel to form Officers quarters &c and to increase the facilities for the Market &c.

Mr Murray proposed that the matter be again referred to the managing Committee who should be delegated to direct the Boards Engineer to examine the premises and make a report preparatory to applying for a loan. Which course was adopted

Read. Letter from Mr. Shuppe as follows.

Dear Sir re. County Hotel.

Owing to the accumulation of debris there is difficulty in taking particulars of the building for the purpose of preparing the plan - I shall be glad if you will ask the Town Commissioners to give directions to have the debris so far removed as to enable the particulars to be obtained shortly after which I hope to have the outline of the Existing Structure shewn in a way to Enable the Commissioners to consider the best way to deal with the matter. After discussion it was decided to Expend £2 in clearing away the debris. In reply to Mr. Doolittle the Sab. Sanit. Officer said the two Cases of typhoid fever in Hospital last month were residents of Main St. - Mr. Doolittle Stated that it was evident the Water Supplied by the fountain in Main St. was bad and ought to be analysed. After consideration it was resolved that the Press representatives present and the Chairman should take Samples of Water from the Fountain Pump in Fitzwilliam Square and the Waterworks fountains and Send them on to the County Analyst for Analysis Read letter from the Local Government Board Enclosing a letter received by them from Mr. J.H. Buckhall relative to the refusal of the Commissioners to clean out the Main Sewer in Abbey St and the Board requested the Commissioners observations thereon - After discussion it was decided to have the Sewer referred to cleaned. Mr. Murray thought it a great hardship that the Corporate Estate should be made to pay for cleansing and lighting a portion of the Town from which the Commissioners derived no advantage whatever. After consideration it was resolved that the Town Clerk should write to the Local Government Board stating that although the Commissioners received no income from the North West portion of the Town they were lighting and cleansing it free and to Enquire if the Commissioners could levy a Sanitary rate on the portion refered to - Read Water Works Caretakers report as follows Gentln. I furnish you with a report for the Month of may The reservoir is down 2ft from overflow On the 16th all it wanted then was 10½ in from overflow - On the 29th I tested Murrough Main No 1 mast. Keenan & Cakes 12½ gals per hour ¼ to 12 pm. No 2. Mr. St. Leger 25 gals per hour 3 past 12 am. No 3. Capt. Walsh 12½ per hour at 25 to 1 am. No 4. Mr. Mulhall 200 gals per hour 33 to 1 am No 5 gashouse 25 gals per hour 5 to 2 am. No 6 fountain 12½ gals per hour 4 to 3 am. No 7 Militia Barracks 25 gals per hour 17 past 3 am. The amount of Waste in all 312½ gals per hour - On the 23rd I put a diagram on the meter the waste at midnight and all the mains working was 1875 gals per hour.

Mr. Deane Commended on the Continuance of the Waste and proposed that the Water be turned off at night After discussion the Caretaker was ordered to prosecute the parties named in the report at the Next Petty Sessions

Mr. Deane mentioned that for some weeks past the Post master General had made arrangements by which a Post was delivered in Wicklow about 3.30 Pm. This arrangement proved of great service but persons in Dublin sending a letter to Wicklow would require to post it before 1. o'clock and that hour was rather Early for the mercantile classes. He proposed that the Post master General be asked to change the hour to 5 Pm. so that letters could come by the 6.15 train and be delivered in Wicklow about 8. o'clock. This would give ample time for persons to answer their letters the same night and would prove of great advantage The proposition was agreed to unanimously.

Dear Sir

Referring to our interview today and your request that I would more fully inform the Commissioners as to the disposal of the £20 deposit money to be lodged with the Memorial. I beg to state that the £20 if lodged will be held by the Secretary to abide the orders of the Judge of Assize &c. If any person appeared and successfully opposed the Memorial and Presentment the Judge could order the cost of such person to be paid out of the £20 and the balance if any would be repaid to the Memorialist that is the Town Commissioners and if there was no opposition or if the opposition failed the whole £20 would be returned to them I wish to state particularly that there is a great difficulty in fixing the Barony of Arklow with any of the Expenses on account of the fact that the South End of the Bridge does not

actually touch the Barony of Arklow. The fact that the Grand Jury had voted money off the Barony of Arklow for the stone Bridge illegally vested not authorize them to vote money for the foot Bridge illegally and unless the words locally situate at the End of the 56. sec. of the Grand Jury Act vested enlarge their powers as I argued at Presentment Sessions we vested have a very weak case on memorial before the Judge. It is for the Commissioners to say whether they will risk the £20 and any charges for the purpose of calling the Judges attention to the necessity for this Bridge and on the chances of getting it.

After consideration it was resolved to deposit £20 with the Secretary of the Grand Jury. On the motion of Mr. Mc Carroll it was decided to call a Public Meeting under the auspice of the Board to express indignation at the arbitary course adopted by the County Authorities in refusing to renew the Wooden Bridge and subsequently closing it against traffic

Read managing committees report as follows. In accordance with the ruling of the Board at last meeting the managing committee visited the yard on North Quay and recommend that the gateways be closed and that 6 per load be charged for gravel taken from the Murrough. The limit from which the material can be removed to be defined by the Town Sergeant. The Committee further visited the fountain opposite Mr. Chapmans premises and found that the water passing through it is carefully preserved from contamination by means of a cistern cemented and enclosed with a heavy cover. Stone from which it flows through a lead pipe to the fountain complained of - Mr Chapman states that there is a sandy sub soil through which refuse matter from the Sewer in High St might percolate and the Committee recommend that this sewer be opened at once. The Committee also visited the Mall holdings and recommended that the occupiers build a protecting wall at the rere for which the Board will grant permission. After discussion it was ordered that Mr. Doyle should take a sample of Water from the cistern, in order to test its purity.

I beg to state that the health of your Township relative to sickness for the past month was one case of fever in hospital which proved fatal. However at present the general health of the Township is in a Satisfactory state. According to instructions I had the Main Sewer in High St opened up for examination. I found it in good working order in my opinion there is nothing passing through it likely to cause injury to the Spring that Supplies the fountain in Main St. By direction of your Board the Public lamps were lighted on the 15 ult during which time they appear to have been well attended to. Gentlm. the last Fair day several Cattle dealers complained to me of a quantity of broken stones that is deposited at the side of the forty foot road or Fair Green they state the danger there is to the Cattles feet. referring to your letter of the 3rd June last I am desired by the Post Master General to state for the information of the Town Commissioners of Wicklow that he has very carefully considered the question of postponing until 6.10 pm the despatch of the day mail from Dublin to Wicklow but he has reason to believe that the substitution of a delivery at 8 Pm in Wicklow for the present delivery at 4 Pm as suggested would not be generally acceptable to the inhabitants while the circumstances of the case do not warrant the establishment of an evening delivery in addition to that now made at 4 Pm Mr Raikes is sorry therefore that he is unable to comply at present with the Commissioners request He desires me at the same time to express his regret that so long a time should have Elapsed before replying to your letter.

security of the Works to sustain any pressure of water that they may be subjected to during the greatest floods. As to the difficulty the caretaker was placed in when Endeavouring to regulate the supply to the filtering beds I find this arises mainly from leakage through fissures due to settlements in the Work on the Exposed face of the Concrete wall for which simple repairs are necessary and it can be readily staunched by caulking - A great deal of discussion has taken place on the Question of leakage through the main structure of the dam and I have always held that no serious leak can exist and that the sum of water at the toe of the Embankment is due to the issue of water from Side Springs - However to set this question at rest and it will also be attended with greater facilities in cleaning the filtering beds. I would propose to lay a new floor of Concrete in the filtering and the Collecting chambers which will not be an Expensive work but which cannot be so satisfactorily undertaken immediately as during the dry Summer Weather. Meanwhile it is most important to execute the works of the relief tank and the direct main along the Dargle Valley which I have the order of the Commissioners to proceed with which when Settled will Enable the supply of water to be Kept on to supply the Town and as it will afterwards lay on the supply at a diminished pressure it will result in a Considerable diminution in the Excessive Consumption of water which now takes place in the Town for it is quite wrong to permit the midnight Consumption to continue as it now does to be nearly as Considerable as that during the day It has been thoroughly Established that in Towns Comparable in population and in domestic requirements with Wicklow that a Consumption at the rate of 20 gallons per head of the population is more than ample This sufficient quantity in Wicklow is Equal to 66,000 gals per 24 hours but the present Consumption is close upon double this quantity I Consider that the reduction of pressure which will result from the introduction of the new relief tank will be instrumental in diminishing the Eccessive Consumption of the Water in a very marked way

I Remain &c.

The Chairman remarked that an order of the Commissioners had been made directing Consumers of Water to provide a Cover Stone for the taps leading to their premises. He thought some steps should be taken to compel Consumers to Comply with the terms of this resolution After discussion it was resolved to adopt Report and direct the Caretaker to supply the Town Clerk with a list of persons requiring Cover Stones in order that they might be notified to procure them - The Sub Sam Officer drew attention to the fact that it was necessary to provide a Copy of the revised Valuation book. The ordinary monthly meeting of the Board was held here to day. Present Messrs P O'Brien presiding P. Carr A. Doolittle J. Flanagan T. Gregory J Hamilton J. Ketchum T. Delahunt.

Mr. J. Nolan appeared before the Board and made a statement to the effect that he had recently met Sir C. Cameron and that a conversation Ensued between them which owed he considered be interesting to the Commrs. inasmuch as Sir Chas had informed him that he had been appointed on the committee to Select sites for the Erection of Militia Barracks in Ireland. it being the intention of the Govt to devote 40000 000 sterling to improve the present accommodation for troops he Mr J. suggested to Sir Chas not to overlook Wicklow whereupon Sir Chas assured him that he would especially bear the advantages of Wicklow in mind. Mr Nolans concluded by requesting the Commrs to forward a memorial to the War office authorities and that copy of such memorial be forwarded to Sir Chas Cameron with a view of having Wicklow made a permanent Military Station when on the Motion of Mr Desane it was

The ordinary monthly meeting of the members of the Board was held here at 12. noon present Messrs. J. Delahunt presiding W. & Murray J. D'Arcy. Arthur Doolittle Mcg. Byrne J McC Carroll T. Doolittle.

Read. Waterworks. report as follows.

Gentlemen.

I send you report for the month of Sept. I am sending the water into the Town for two or three hours each day since the 22. The consumption is about 6000. gals. per day but as the springs are very low the pressure is not strong Owing to the fine weather great progress has been made in stopping the leak. I Expect it to be completed this day week. I will want to get the hole where I inserted the lead pipe in the main filled up and the pipe taken up. It is necessary that I concrete around the filtering beds and repair the boundary wall in some places. It would also be well to have the iron work on the outside of the wall painted - The large heap of clay taken from the bottom of the wall is lying in the bed of the reservoir & Will it be taken away by the men or by Contract.

Resolved that report be adopted and that the Waterworks Committee inspect the reservoir & decide what further action should be taken in the matter.

The sanitary Officer Mr Doyle reported The state of your Township relative to sickness is five cases of typhoid fever of which three are in hospital but I might add that of the five cases three only belong to the district. The public lamps were lighted on the 15 the Sept and appear to have been fairly well attended to. I am unable to put up sheep pens owing to broken stones on Jas Green.

Resolved that report be adopted and that a notice be served on Contractor to remove stones.

Read letter from Mr Keeley Parkmore giving notice of his intention to lay before the Commrs. Re a proposal with reference to Establishing a pork factory in Wicklow.
