The following members of the Committee appointed to go into the question of sewer from Mortons Lane to Bridge Street - Messrs Edward N. Wynne, Jarret Byrne and Nicholas. D. Haskins met on this evening; — Having carefully considered the question directed Jnr Tom Sergeant to have a 12 inch pipe sewer laid from the termination of the present 9 inch pipe sewer at Mortons Lane to a point about central between East End of Fitzwilliam Square and Main St and thence to join with the main sewer in Bridge Street with a gully trap at foot of Mortons Lane; & Loose connections in Main St and a junction piece for future connexion from Green Tree, and a ventilating pipe 2½ inches diameter fixed up at Mr John P. Hopkins west gable; The work to be commenced as soon as convenient —

At the request of Jnr Waterworks Overseer we visited the Reservoir this day and after examining the Embankment wall we beg to report that the Entire wall will require to be cemented all over owing to the innumerable fissures that appear on the face of the Structure; We gave Jnr Overseer directions to stop several large openings some of which he had done previous to our visit; — With regard to the filtering beds and clean water chambers we recommend that Jnr Overseers suggestions to cement them inside be adopted, we are of opinion it will take over £100 to carry out above work which should be done next Summer when the water in the reservoir is down to its lowest.

Jnr Overseer has Evidently stopped a good deal of leaks in the filtering Beds as the amount of water coming out at the toe of the Embankment has considerably reduced since we last saw it, Mr O'Connor certainly deserves credit for the careful manner in which he is looking after our Water Supply; The Bridge at the bottom

of the Embankment over which materials are carted up to the reservoir has Collapsed and we have given directions to Jnr Town Clerk to supply Jnr Overseer with 3 pieces of timber so that same may be repaired whilst he has assistance, and also 18 ft of Earthenware pipes to carry away surface water from Overseers residence; — We saw the new sluice valve working and consider it will be a great benefit to the Water Supply generally;

Wicklow 2nd January 1899

Gentlemen.

I respectfully beg to report that during the past month the Public Lighting of the Town was well attended to — The Street cleaner was careful and attentive to his business: During the past year the number of Sanitary Orders made by your Board was thirteen of this number Eleven have been complied with and the remaining two are in contemplation

The number of repairs to the Main drainage was Eighty — The number of Notices served under the Public Health Acts altogether amounted to 54 of this number 41 was my own — The Medical Officers attention has been directed to some Sanitary matters which will be received in due course:

I have the honour to be
Michael Doyle Sub Sanitary Officer

Head Waterworks Overseers Report showing the reservoir is 3 ft 1½ inches from overflow and stating that by turning the valves from the clean water chamber he proved the most leakage was at Marketown Side and that he run the water through the sluice valve from 8.30 pm till 6 am & let the water out of the filtering beds; On the 8th he got up some tools and cement and made a new steps to work on and saw 4 ft 6 in of water from the reservoir in 76 hours, he stopped between 30 and 40 holes in the face of the Embankment wall, altogether he was 12½ days working at the Reservoir with the assistance of one man: —

Sewerage of Fitzwilliam Square

Sir,

I should strongly advise you to keep the new line of 12 inch pipes as close to the footpath as the present drain will permit from Mr Haskins to point "A" and then continue it as close to Mr Byrnes as convenient: At point "A" there must be a man hole as the turn is sharp and the pipe likely to choke: The Board of Works and the Local Government Board insist on a manhole being placed at each end of a pipe sewer: From my own experience (and I have constructed and am looking over £950 worth of nearly similar pipes for the past six years. — I believe it is absolutely necessary to have a man hole at point "A" I have pointed out to Mr Doyle, the place the road traffic would be much more disturbed by running pipes about the centre of the road than at the path, none of the houses in the East side of the Street require to be drained into the new sewer: Whether you approve of this change or not Mr Doyle can commence work on Tuesday as I will be in Wicklow on that day;—

Faithfully Yours
Thomas Little

F H MacNeill

Proposed by Garret Byrne, seconded by Robert Lees and resolved "That Mr Littles Suggestion with regard to Sewer in Main "Street be adopted and that a Cheque for £20.0.0 "be drawn in favour of our Town Clerk to pay Labour "of Same"—

Wicklow Town Commissioners
Rating Powers

Dear Sir,

We are in receipt of your wire, asking whether it is imperative on the Commissioners to strike a local rate inside this year for 1899

By 9 George IV Cap 82 1828 the Commissioners for the purpose of that Act were directed as soon as conveniently might be after the 1st day of August in every year to Estimate the Expense of carrying out the Act during the Ensuing year and impose and collect a rate for such purpose: This Act no longer applies as the Commissioners are Commissioners under the Towns Improvement Act (Ireland) 1854.

By the Towns Improvement Act 1854 it is Enacted by Section 60 that once in Each year the Commissioners shall assess all occupiers of premises within the Town or boundaries thereof with any sums necessary to be levied for the purpose of the Act and shall fix a day not being less than one months from the date of laying such assessment on which the same shall be payable — By Section 46 of the Local Government (Ireland) Act 1898 it is Enacted that the Expenses of an Urban District Council shall be defrayed partly out of the Poor Rate and so far as the same shall not be payable out of the Poor Rate out of the Fund or Rate out of which the cost of paving and cleansing the streets in such District are, or can be defrayed; — In reply therefore to your question we know of nothing which renders it imperative on the Commissioners to strike a Local Rate, inside this year for the year 1899

Yours truly

Dublin Castle 4th January 1899

Wicklow - 36:

Sir,

Will you please say when your Commissioners will be able to give War Department clear possession of the Field at Black Castle: —

You have a Tenant there at present whose leaving is I am told, the difficulty. Surely you can arrange matters with your Tenant as to giving up the field:

2. I am told that notice cannot now be given him until March and that under that notice he can hold till September 1899: — Hence the value of his holding would not be large and there should be no difficulty in arranging for his vacating at an early date: —

3. If clear possession is not soon given War Department will be unable to construct the practice battery and will have to provide it Elsewhere. May I ask you therefore to let me know if you can arrange for giving speedy possession and by what date

4. Another point is the following — Major Caines R.E. wrote some considerable time ago sending you a plan and asking you to show on it the boundaries of the proposed letting, and also the exact position of the right of way: To this he has had no reply,

5 — If any Agreement is to be come to things must move somewhat quicker, Hence, I suggest that Major Caines should meet you on the ground and go over the boundaries and right of way with the map and settle once and for all.

6 — May I ask your very early attention to this matter.

7 — War Department will take the field at the rent of £10 if they can get it in time and clear

Gentlemen,

I respectfully beg to report that during the past month the public lighting of the Town was well maintained but for one exception and that occured on the night of the 12th January which was a very Stormy night when a number of lamps through the Town were blown out by the force of the wind — The late Board made an order for two additional lamps for the Convent Road they were placed in the position ordered and were lighted for the first time on the night of the 3rd Instant — By directions of the Same Board I had a twelve inch Earthenware sewer laid from the main drain in Bridge St to the main drain in Main St at a point opposite Mortons Lane where it is now connected with a nine inch Earthenware pipe that runs for some distance further up main Street. I have yet to connect the drainage of High Street and Mortons Lane into it when this much of

the Town will in my opinion be well drained. There are a few owners of premises that will have to be served with notices requesting them to have their connections made before I proceed to have the old condemned drain closed up.— Now Gentlemen I beg to state that my time and attention has been given to this work for the past month which leaves other duties a little backward — The Street cleaner was attentive to his business — There is a number of Sanitary subjects that was left over from the old Board that will require your consideration, reference to the Secretary and minutes of previous meetings will make you acquainted with the Subjects:

Iam &c
Michael Doyle Sub San Officer

Proposed by Frank McPhail seconded by Nicholas A. Haskins and resolved: That the Report of the Sub Sanitary Officer be referred to the Managing Committee giving them power to have notices served on the owners of the premises to connect with the new main drain and report thereon"—

Read Waterworks Overseers Report shewing the Reservoir is two inches overflow and enumerating certain works done during the month.

Resolved: That the Waterworks Overseers Report be referred to the Waterworks Committee"—

Wicklow Town
Sir

I am directed by the Local Government Board for Ireland to acknowledge the receipt of your letter of the 23rd Instant relative to the representation of the Urban District Council of Wicklow on the Wicklow Harbour Board, and I am to inquire in what manner the Members of the Harbour Board appointed by the late Town Commissioners have hitherto retired, and of the number of Harbour Commissioners forming a quorum:

I am Sir
Thomas A. Mooney
Secretary.

F. McPhail:
Clerk to the Council

The Clerk was directed to write to the Local Government Board requesting a definite reply to the Councils letters on the subject of the Councils representation on the Wicklow Harbour Board

Proposed by Charles Davis, Seconded by Louis Carroll and resolved "That the following Gentlemen be sent to act on the Harbour "Board Louis Carroll, Patrick Padin, Hugh R McCarroll, "Joseph McCarroll, David Haskins, Christopher Murray "Thomas Gregory

Proposed by Hugh R McCarroll, Seconded by Louis Carroll and resolved— "That Charles Davis be one of the Eight sent to act on the Harbour Board

An Amendment was proposed by Frank McPhail, seconded by Nicholas A. Haskins — That Councillors Thomas Gregory, William Darragh, Christopher Murray and James Fenton, be Elected to fill the vacancies in the representation of this Board on the Wicklow Harbour Board: —

On a vote being taken the Amendment was defeated and the original resolution declared carried: notwithstanding the opinion given by Counsel on the subject as submitted by the Clerk of the Council.
