To the Chairman
Council of Wicklow Urban District :

Gentlemen,

With reference to your application to the Local Government Board for Sanction to a Loan, it will be necessary before filling up the form, for the Council to decide what sum is required and upon what work it is to be Expended :=

If the amount to be borrowed is only to cover the cost of Enlarging and improving the Waterworks, and of the Sanitary works requiring immediate attention it would consist of the following viz Water Works £300; Sanitary Works, including Sewer in "Edwards Hollow", Do from Mall to Quarantine Hill, ventilating Shafts on Murrough Sewer and Gulley grates £300 total £600

If the Public Park be included £500 more will be necessary making £1100 and if the whole main drainage Loan be sought £3800 must be added making a total of £4900 : This would not include £1000 which may ultimately be required for new filter beds at the Reservoir :=

I would therefore ask the Council to settle on the Amount of Loan as I must prepare detailed plans, specifications and Estimates to accompany the application :=

Perhaps the best course to adopt would be to apply for Sanction of £5000. This need not necessarily be all borrowed at once, but when Sanctioned you would be free to Expend it on the several Sewerage and other works most urgently required in your district, and the cost of the Local Government Board Inquiry would be no more than for this than for the Loan of £600. The Commencement of the main drainage Scheme cannot be delayed much longer :=

As regards Converting the Inner Murrough into a Public Pleasure Ground I find that the cost of Enclosing the portion of it north of that leased to the War Office with Corrugated iron or other unclimbable fencing would alone

amount to over £500 and the laying out of the Enclosed ground as a Park with cycle track say £200 total £700 and this would only comprise one half the length of the Murrough, Therefore it might be better to adopt Mr. Little's plan and rail off, with a substantial iron railing and gates, that part shown by a red line on his plan, and lay out the whole Murrough, thus Enclosed, as a Public Park, Mr Little's Estimate is, I think, much too low for this; I consider it could not be done properly for less than £500=

The Excavations at the Reservoir are progressing satisfactorily, and this portion of the work will be completed in 4 or 5 days, I would however recommend that the full staff of Labourers be retained for a week beyond that time, in order to remove the mud and weeds from that part of the basin between the foot-bridge and the junction of the two inlet-streams, otherwise vegetation will again occur in this place, unless the roots of the weeds are completely removed, Mr O'Connor has all his appliances now ready for the changing of the filters, and when the present work is done a short time will suffice to complete this part :=

I would ask the Council to supply 18 padlocks for the new gates at the Artisans Dwellings, in order to prevent children swinging on them :=

Iam Gentlemen &c
John Fanning
Town Surveyor

Resolved : "That the Town Surveyors Report be referred to the Managing Committee :=

Dear Sir

Referring to my former letter in which I stated that I had become aware that the Wicklow Town Commissioners and Urban District Council had given some of their Civil Bill business to another Solicitor I have since come to the Conclusion that the Commissioners acted in ignorance of their legal ~~rights~~ position, and I am therefore prepared not to regard their having done so as a dismissal, but should it occur again I must proceed to enforce my claim for Compensation as an existing Officer against your Board : =

Yours truly
