Sub Sanitary Officer's Report.

6th October, 1925

Inspected 70 premises and served two notices for sanitary purposes which have been complied with. The usual flushing of the main drainage and the disfecting of Gully-traps and Urinals on the North and South Quays has been carried out weekly during the month.

The main drain in Castle Street, is choked with sand and requires to be tapped to clean out pipes, I wish the Council's permission to tap same. The pipes carrying water from well (known as Colley Well) is choked and requires to be opened up and cleared, the concrete slab on the top of same has been removed by some persons.

On the morning of the 21st ultimo, a fire was reported to me which broke out in a premises on St. Patrick's Road. I had eight men engaged with the fire hose and after about three hours we succeeded in having the fire put out.

With the Council's instructions I had the Gully-traps at High Street and Kilmantan Hill, connected with main drain, and the Well at Upper Monkton Row filled in with cement and stones, to road level.

During the month the Council's men were also engaged on the Church Hill Road, Brickfield Lane, Marlton Road, Cooper's Lane and St. Patrick's Road, clearing up water-tables and trimming

briars, and clearing river-bed at Woodenbridge.

I had the public seats removed off the Piers and Murrough to Stores.

Order:- That the Main Drain at Castle Street be cleared and also Colley Well.

Orders to be issued for the following:-

1. 2 Road Shovels Heads.
2. 1 pt. M. Spirits
3. $\frac{1}{2}$ doz. Sulphur candles
4. 2 boxes of disfecting Tablets
5. 6 lengths of Fire Hose.

Waterworks Overseer's Report

6th October, 1925.

During the month I had fresh water Chamber cleaned out, and one of the Filtering Beds scraped and raked.

Repaired Fountains at Kilmantan Hill, Fitzwilliam Road and Strand Street. I erected a new Fountain in New Street and fitted new stop-cock to same. The usual night tests were carried out.

On examining connection from main ~~drain~~ to Colliers yard I found same quite clean, and a good supply of water going through it.

There is 10 ft. 6ins. of water in Reservoir.

In case of burst in service to houses on Fitzwilliam Road, lately purchased by Tenants, who will be responsible for repairs

to the Service that supplies all the houses?

Order:- Referred to Town Clerk.

Electrical Engineer's Report.

6th October, 1925.

During the month ended September, 30th, the lighting of the Street and Harbour was commenced on 19th inst., and services have been maintained continuously during the month. I have been requested to place a public lamp on Church Hill, in the vicinity of Milton Villas, this could be done at a very slight cost as one of the overhanging *truss* can be utilised to support the lamp, and if the Council gives their sanction I will have it done at once.

I will require to renew my stock of Service Material, to meet some new consumers who are coming on, also some more meters will be required, the total cost will be about £50, I have furnished a detail Account of same, as this material will be required at once.

The Accounts for September Quarter are being prepared and will be furnished to Consumers during the week.

Order to be issued for the following:-

1. 500 yds Copper Wire (No 10)
2. 100 yds. 7.029 Twin Cable
3. 18 House Meters 5.Amp.
4. 200 yds. 1.044 Twin Cable
5. Switches, Fittings etc.

Two Tenders were received for the supplying of Workmens' Oil Suits viz:- C. MaGee, Oil Coats 18/6 each, Leggings 5/- per pair, Black leather Leggings 8/- per pair, and Sou'westers 2/6 each.

Healy & Co., Oil Coats 34/- each, Leggings 9/6 per pair, and Black leather Leggings 3/4 per Pair.

We recommend that the Irish Transport & General Workers Union, be granted an additional 5ft. of frontage instead of 9ft. on Plot on South Quay.

RESOLUTION.

Proposed by Councillor James Nichols

Seconded by Councillor D.H. Haskins

Resolved:- "That Committee's Report dated 6th October, be adopted".

ENGINEER'S REPORT.

The making of the section of the Rathnew-Wicklow Road is proceeding fairly satisfactorily.

The stones from the beach, which had been raised prior to my arrival in Wicklow, have proved, as I thought and said at the time, a difficult proposition. The rolling and consolidation of these stones requires double the time, of that required in ordinary rolling.

I found it impossible in several cases during the work to follow the Specification as handed to me when I took over the work.

The use of local stone is indicated in this Specification and I was forced to reject this stone as it was of a slaty nature and unsuitable for use in a surface coat, though it may be consolidated as a first coat.

I procured several cubic yards of good stone from Ballylusk Quarry and have a gang of men working in Murren Hill Quarry, for the past four weeks. The expense of hauling from these Quarries

and the double carting from the Mill-Yard crusher, of coarse raised the cost of the material very much above that allowed in the Specification, but this factor is not to be considered when good material is obtained.

The portion of the road between the White Gates and Mr Steven's entrance has always been, and is, in a very bad condition and here again I found it necessary to go outside the Specification and am compelled to give the road two layers of material, first a spread of 3 to 6 inch stones and then a surfacing of 5 inches. That will require of coarse, a large quantity of stone, about twice the specified amount, but this will put the road in a proper condition

Six hundred yards of road has been raised and rolled.

About one hundred yards has been tarred.

Town Hall, Wicklow.

9th October, 1925.

A Special Meeting of the Wicklow Urban District Council, was held this evening in pursuance to a Requisition signed by Messrs E. Lalor, W.J. Haskins., Joseph Darcy, Patrick Murphy, John Barlow and D.H. Haskins.

Sub Sanitary Officer's Report.

3rd November, 1925.

Inspected 30 premises and served 2 notices for sanitary purposes, and in both cases the owners have promised to comply with the notices.

The usual flushing of the main drainage and the disinfecting of the Gully Traps and Urinals on the North and South Quays has been carried out weekly during the month.

With the Council's instructions I had the main drain in Casile Street opened up and cleaned by the Council's men.

Owing to a premises on the South Quay been flooded with water I had the drainage of two premises at the rear of same, opened up by the Council's men, and found in both premises the drainage defective, both owners have promised to lay new drainage ~~to~~ to replace the old one.

During the month the Council's men were engaged on all roads throughout the district, cleaning out Gullies and repairing roads that were torn up by the heavy rain storms, and in several cases drains had to be opened up and cleared, and in one case an old disused cellar on footpath at Morton's Lane, fell in, I had same filled in.

I had three iron plates laid under flags on footpath on St. Patrick's Road.

There is a large heap of screening in Mill Yard which would do to spread on paths. I wish the Council's permission to use same

I had nine loads of small stones off Rathnew Road, which are not suitable for steamrolling spread on the Marlton Road.

I require stones for Summer Hill, Castle Street, High Street and Leitrim Place, and a extra carter for two days weekly during the month.

ORDER:- That extra carter to be engaged when required.

Waterworks Overseer's Report.

3rd November, 1925.

During the month I repaired Fountains at Upper Strand Street, Monkton Row and St Patrick's Road.

Usual night tests were carried out.

There is a big flow of water coming into the Reservoir through all inlets.

Since rain came it has come up 4 ft. 6 ins.

It will be necessary to have a lot of sand washed when the water comes up a few feet more. I would like to have permission to have same washed.

Order:- Waterworks Overseer to have sand washed in Filter Beds.

Electrical Engineer's Report.

During the month ended 31st October, the Public Services Lighting and Private Consumers Services have been maintained continuously.

Two new Consumers have come on during the month and two new Services have been run, a third Services to supply Messrs Collier's yard on North Quay is also in hand and will be completed during this week.

With reference to this particular section of our overhead lines, I have to report another breakage of our wires by the Rialway Co's Steam Crane, on the 19th ult., on this occasion the pole was also pulled down, if this is to continue it will be impossible to maintain our supply on this section, and I would request the Council to press this matter with the Rialway Co., as it may result in a serious accident. With the help of the Council's workmen I replaced pole and wires temporarily same evening and fixed all permanently next day.

ORDER:- That the Railway Co., be requested to pay for the damages caused to the Electric Cable and Pole by being knocked down with their Steam Crane.
