### SECRETARY'S REPORT.

To the Wicklow County Council, 26th February, 1906. Gentlemen,—The estimates for the rates for the financial year 1906-7 have been forwarded to you, giving the various items of expenditure, and also the receipts upon which they are based. The following table shows the comparison between the rates now to be struck, and those struck in 1904 and 1905. In the last year the balance in hand credited to Baltinglass and Shillelagh Rural Districts brought the current rates down below their normal; these districts therefore show a corresponding rise on this occasion. As the New Public Bodies Order allows the Urban Districts to delay their payments to the County Council till the end of each quarter, while the Council has to pay the District and Union Demands in advance, we have to retain a balance in hands to meet these advances till the rates begin to come in. As Naas Union had no balance available, we have had to recharge its account with the balance we credited it with last year, which has raised the rate on that district on this occasion above the normal:—

Rural District.	1906. s. d.	1905. s. d.	1904. s. d.
Baltinglass	3 10½	2 10½	3 7½
Naas	4 4½	3 0½	3 6½
Rathdown	3 4½	3 9½	2 11½
Rathdrum	3 8	3 11½	3 3
Shillelagh	3 10	2 11	3 10½

Your Finance Committee has recommended that you appoint a committee to examine and report on the state of the County Court-house and the Council's Offices, in connection with the County Surveyor's report. I hope this recommendation will be carried out, as your offices, as they now stand, are inconvenient and dangerous, and certainly not a credit to your Council. The Joint Committee appointed to enquire into and report on the management and working of the Dublin and Blessington Steam Tramway, met at last on the 23rd of this month. Unfortunately, only one of the Dublin Council's Representatives was present, the others having to attend an enquiry before the Privy Council that day. The Committee therefore adjourned the meeting for a month, having first passed two resolutions, which will be laid before you. My views, and those of your solicitor, regarding the rates upon Avondale Estate are borne out by a letter received from the Department of Agriculture, in which they say that the Treasury declines to pay any bounty in lieu of rates for that estate; the Department is therefore considering a scheme whereby they will make an annual payment to the Council instead. I think the natural arrangement would be that they should pay the rates as assessed, and I fancy had Collector Smith defended his action the Department would

have been beaten. The Rathdown Rural District has asked that the loan of the £3,500, approved of by the Local Government Board, should be applied for, and the first instalment obtained; you should therefore pass a resolution applying to the Commissioners of Public Works for the loan on the prescribed terms, and pass a second resolution (to be forwarded so soon as we are informed that the consent of the Treasury has been obtained to the loan) applying for the payment of the first instalment of said loan.—I am, gentlemen, yours faithfully,  
E. N. WYNNE.

Proposed by Councillor E. C. Walsh, seconded by Councillor P. J. Carey. Resolved—That, in accordance with the Department's circular-letter, dated 15th December, 1905, we hereby appoint the following Councillors as Members of the new Council of Agriculture, to hold office for the three years ending 31st March, 1909, under Sections 8 and 27 (1) of the Agriculture and Technical Instruction (Ireland) Act, 1899:—Dr. R. Norman Thompson, J.P., Kindlestown, Delgany; D. J. Cogan, M.P., 115 Thomas-street, Dublin. Passed.

Secretary read the advertisement published in the "Wicklow People," "Wicklow News-Letter," and "Leinster Leader," relative to the appointment of a Veterinary Inspector for the portion of Baltinglass Union within the County of Wicklow:—

Wicklow County Council. Veterinary Inspected Wanted. The above Council will, at their Quarterly Meeting to be held in the Council-Chamber, Court-house, Wicklow, at 11 a.m., on Monday, the 26th February, 1906, proceed to Elect a duly qualified Veterinary Surgeon as Inspector under the Diseases of Animals Acts for the portion of Baltinglass Union within the County of Wicklow, at a Salary of £30 (Thirty Pounds) per annum, to cover all expenses. The Inspector appointed shall perform all the duties required by the said Acts, and the several Orders from time to time issued in connection with them, and carry on the various inspections required at Fairs and elsewhere. Applications for the above appointment, giving name, address, and qualifications, to be lodged with the undersigned not later than 2 o'clock, p.m., on Saturday, the 24th February, 1906.—EDWARD N. WYNNE, Secretary to the County Council.

And also four applications for the position received from:—George G. Ashe, V.S., Narraghmore, Ballycore, County Kildare; Christopher Black, V.S., Naas; A. F. Walshe, M.R.C.V.S., Veterinary Establishment, Carlow; and Christopher McGuire, Esq., Ballymore-Eustace.

The Councillors having voted as follows:—For Walsh—Councillors E. C. Walsh, Wm. Osborne, Wm. Burke, R. Norman Thompson, Wm. Costello, J. J. Reilly, James Byrne, J. McCarroll, Alfred Zeller, P. J. Carey, Wm. Byrne, and James Galvin—12. For Ashe—Councillors Michael Byrne, T. Sheppard, and E. J. Byrne—3.

It was proposed by Councillor R. Norman Thompson, seconded by Councillor Joseph McCarroll. Resolved—That Aiden F. Walsh, V.S., Carlow, be appointed Veterinary Inspector under the Diseases of Animals Acts for the portion of Baltinglass Union within the County of Wicklow, in accordance with the terms of the advertisement, at a salary of £30 per annum. Passed.

## COUNTY SURVEYOR'S REPORT.

Wicklow County Council. County Surveyor's Report. Winter Quarterly Meeting, 26th February, 1906. Mr. Chairman and Gentlemen,—The contracts coming before you for confirmation are:—39 road maintenance contracts and 25 for other works. Contracts Nos. 241 to 248 inclusive, in Rathdown No. 2 Rural District, are to be paid for out of money obtained on loan. These works are urgent, and should be commenced at once, but although the Local Government Board have sanctioned and approved the plans, specifications, etc., you have not yet been in a position to make application for the actual loan. I would request that you carefully consider your position in the matter, having regard to the conditions set forth in the formal sanction of the Local Government Board, to the application. The provisional proposals are two in number: One in Rathdrum for the rebuilding of a bridge and repairs to a road leading to Calary Church, half to be paid by Rathdown No. 2 Rural District; this work was passed in Rathdrum and rejected in Rathdown No. 2. The other provisional proposal is in Shillelagh, for the construction of a footpath in Tinahely. In accordance with your instructions, I attended the Dublin and Blessington Steam Tram Conjoint Committee, on 23rd inst. The roads, etc., in your county have been generally well maintained during the past quarter. I request that you consider the dates by which the contractors must have their metal ready for measurement, as there must be some definite order made on this matter.—Your obedient servant, S. G. GALLAGHER.

Proposed by Councillor E. J. Byrne, seconded by Councillor J. McCarroll. Resolved—That the measurement of road metal be commenced on September 20th, annually, by which date all contractors must have the full quantity specified ready in the depots—no second measurement allowed. Passed.

## COUNTY SURVEYOR'S REPORT.

Wicklow County Council. Spring Quarterly Meeting, 17th May, 1906. Mr. Chairman and Gentlemen,—The contracts coming before you to-day are of the usual character, and with one exception, below set forth, do not call for particular report. The Contract No. 567, Rathdrum Rural District, to keep in repair for one year 298 perches of road between the Post Office, Annamoe street and the county road at Bichwood. This road is a new road, as it has not been in contract (if ever it has been) for at least 25 years, but as it joins two roads already in contract, it is presumably a work of public utility. The only question you need consider is whether the road is of sufficient general utility as would justify the expenditure of the amount of the contract. In accordance with your instructions, I made a recommendation to Rathdrum Rural District Council that they should formulate a proposal to maintain the road from Sally's Bridge to the Kelly's ford. The Council did formulate a proposal, but the work was not tendered for. At the inspection for the quarter ending 31st of March last, the roads were generally found in fair order, but with large quantities of unbound metal. This latter is caused by: 1—The late spreading of the metal supply, which does not give sufficient time to enable the metal to be beaten into the roads while they are in a suitable condition. 2—The unusual dryness of the winter. Since the inspection it has been found that many contractors have completely neglected their contracts, being apparently under the impression that their whole duty consists in having the road in good order at the time of the quarterly inspections. In other cases the contractors, utterly ignoring the instructions given them to blind loose repair patches, have, as soon as the quarterly inspection was past, promptly set to work not only to rake off the loose metal, but actually to dig the half consolidated metal from out of the road. I much regret to inform you that the War Department have again started trains of heavy wagons drawn by traction engines, on the roads leading to camps in West Wicklow. On Thursday, 10th inst., two large engines, identified as A.S.C. No. 14, and A.S.C. No. 17, each drawing four heavily loaded wagons, passed through Dunlavin en route from the Curragh Camp to a temporary camp at Snugborough—returning therefrom on 11th inst., and again coming into County Wicklow on 12th. The damage caused by these trips is as follows:—1—A gullet broken in Dunlavin street. 2—A length of 12 feet of a 2 foot gullet broken down between Dunlavin and Donard. 3—The whole length of a gullet broken west of Donard. 4—A length of 15 feet of gullet or sewer broken in Donard street. 5—A length of 80 yards of road near Donard torn up and broken. 6—Other isolated injuries to road surfaces besides general distortion of the cross section of the road. About this time last year the War Department started similar trains to Imaal Camp, damaging the roads from Dunlavin to Carrigower Bridge; but, I understand, on petitions being presented by people in the district they stopped the trains, and gave it to be generally understood that they would not again run engines in the district. My communications to them on the subject were, and have been completely ignored. I beg to refer to you the following matter:—A Mr. John Armstrong of Ballymanus, Glenealy, erected a wooden railing in front of, and enclosing a small plot at a cottage which he owns in Glenealy. On his attention being called to the fact that it was a breach of the law, and that he should have the

fence removed unless he obtained your consent, he has written an application asking for your permission to keep the fence there. I can produce a map which will show you the line of the fence which, in my opinion, is no obstruction or injury to the road. I also wish to refer to you the matter of clearing a stream known as the Cock Brook, which crosses the road between Ballyknockan and Blackditches Chapel and flows into the King's River about a mile and a half from the road. This stream should be secured for its whole length, and last year I served notice on the occupiers of the lands requiring them to scour it. The occupiers of the lands immediately adjoining the county road complied with my request, but those whose land did not join the road declined to do so. I request that you would refer this matter to your legal adviser to ascertain what steps should next be taken. I may add that the representatives of that district on the Naas No. 2 Rural District Council are pressing to have the whole stream cleared.—I remain, your obedient servant, S. G. GALLAGHER. Wicklow, 17/5/06.

Proposed by Councillor P. J. Carey, seconded by Councillor J. McCarroll. Resolved—That our solicitor be instructed to take proceedings against the War Office, or Secretary of State for War, for damages and compensation for injuries to the roads, gulleys, and bridges, between the county bounds and Snugboro' Temporary Camp, and the roads adjoining. Passed.

Proposed by Councillor A. Zeller, seconded by Councillor James Byrne. Resolved—That the opinion of counsel be obtained with reference to the non-compliance of certain parties with the County Surveyor's requirements in not clearing out the stream known as the Cock Brook, and that such proceedings be instituted as may be necessary. Passed.

County Surveyor's Office, Courthouse, Wicklow, 17th May, 1906. To the Chairman, County Council, Wicklow. Dear Sir,—I shall be much obliged if you will grant me two weeks' leave of absence, and direct that the Assistants carry on the work during that time.—Your obedient servant, S. G. Gallagher.

On the motion of Councillor J. McCarroll, seconded by Councillor P. J. Carey, the required leave of absence was granted.

Proposed by Councillor John J. Reilly, seconded by Councillor W. Byrne. Resolved—That the County Council support Philip Doyle in his proceedings to recover the rates from Earl Fitzwilliam, and that our solicitor be instructed to retain counsel and appear on the hearing of the case.

A vote being called for, the Councillors voted as follows: For—Councillors D. Condren, J. J. Reilly, James Galvin, J. McCarroll, P. J. Carey, R. M. Barrington, R. R. Drought—7. Against—Councillor James Byrne. The Chairman, Councillor Michael Byrne, being one of

## MEETING OF MINUTES ON 29TH MAY, 1906.

Special Meeting of the Council, held in the Council Chamber, Courthouse, Wicklow, on Tuesday, the 29th May, 1906, at 11 a.m. o'clock.

The following members attended:—Councillors William Burke, R. Norman Thompson, R. R. Drought, James Byrne, John Storey, W. H. McFarland, John J. Reilly, Joseph McCarroll, R. M. Barrington, Thomas Sheppard, James Galvin, and W. Byrne.

## BUSINESS:

1—To execute Deed of Mortgage in connection with Loan of £3,500 for road and bridge improvement in Rathdown No. 2 Rural District.

2—To receive and consider Reports from Committees.

3—To receive and consider Reports from County Officers.

4—To receive and consider Official Correspondence.

5—To receive and consider General Correspondence.

On the motion of Councillor R. R. Drought, seconded by Councillor J. J. Reilly—It was resolved that Councillor William Burke take the chair. Passed. The chair was then taken by Councillor Wm. Burke.

A letter was read from the Solicitors of Public Works, Dublin, dated 26th May, 1906—stating that for the purposes for which this loan of £3,500 is sought, the District Council of Rathdown No. 2 have no borrowing powers, and stating that he is advised that in such a case the Local Government Board have not power to fix an area of charge less than the County at Large, and further that in the Local Government Board's letter to his Board recommending the loan, the local area to be charged with the loan is "the County of Wicklow."

Proposed by Councillor R. M. Barrington, seconded by Councillor R. Norman Thompson. Resolved—That our Corporate Seal be affixed to the Deed of Mortgage of this date, now read, whereby security is given to the Commissioners of Public Works in Ireland for the repayment of the sum of Three Thousand Five Hundred Pounds (£3,500) proposed to be advanced by them to us under the Local Government (Ireland) Act, 1898, and the Public Works Loans Act, 1898. Carried unanimously.

The Secretary was instructed to ask for a resolution from Rathdown No. 2 Rural District, indemnifying the County Council against all charges in connection with the said mortgage.

Proposed by Councillor R. M. Barrington, seconded by Councillor R. Norman Thompson. Resolved—That, inasmuch as this Council does not immediately require from the Commissioners of Public Works in Ireland, the total amount of the sum mentioned in the Deed of Mortgage to them, this day executed by this Council, but prefer to receive

the same by instalments as occasion may require, it is resolved that the requisitions for each advance shall be intimated to the said Commissioners by the Chairman of this Council for the time being, countersigned by Councillor Joseph McCarroll, and that each such requisition shall be forwarded to the Accountant of the said Commissioners, and that all such advances shall be lodged to our account as "Rathdown Floods Loan Instalment," in Wicklow Branch of the National Bank. Passed.

### THE SECRETARY'S REPORT.

29th May, 1906. Gentlemen,—You may recollect you applied for a loan for the repair of the damages caused by the floods in Rathdown No. 2 Rural District, giving in accordance with the Act, as security for said loan of £3,500, the rates leviable upon the entire Rural District of Rathdown No. 2, and to this application and to the security thus offered, the Local Government Board notified its consent. When the draft mortgage for this loan came up for execution at the last meeting, it was found that the Board of Works had made the entire county fund liable, and not only that, but every rate and every source of revenue in any way available by the County Council was also included in said mortgage. I was therefore directed to draw the Board of Works attention to the matter, and to ask for an amended form of mortgage deed. This I did, and in reply received the mortgage back with a short refusal to alter it in any way. I therefore drew the Board's attention to the wording of the statute in the matter, and as the time was very limited, I went to town and saw the solicitor to the Board of Works, and explained the position to him. He promised to look into the matter, and lay it before the Board and write me the result in time for this meeting. You have his letter before you, in which he says the Local Government Board (in spite of its consent to the area of charge given by the Council) had recommended the loan on the security of the entire County, and therefore the mortgage must stand as drafted. Since your last meeting a voluminous report has appeared in the local paper from one W. C. Ribbeck; about seven-eighths of this report consists simply of a copy of the County Council's books, which any voter can see. The net result arrived at is given in the last paragraph of the report, which gives, in his opinion (the authority, I observe, is not quoted) the deductions set out which the demands should be reduced by. For Bray Urban District the only deduction given is the proportion of the £1,000 County at Large contribution towards the repair of the damage caused by the September floods. This contribution was passed by the County Council at a meeting specially summoned for the purpose on notice served on the members of the County Council, including the representatives of each Urban District. At that meeting, after hearing the County Surveyor's report detailing every item of damage, to provide a means for the repair of which, the meeting was specially summoned, two resolutions were proposed, one, that half the cost should be charged on the County at Large, and half on the respective districts concerned (excluding Bray Urban District). This was lost. The other resolution, that £1,000 should be granted towards the necessary repairs, and be charged on the County at Large, including the Urban Districts, was passed by a large majority, the representatives of both Urban Districts voting in favour of it, but, of course, at the time they had not the

advantage of Mr. Ribbeck's opinion. With regard to the Wicklow Urban separate charge account, the report states, that the estimated charge is in excess of the amount that should be charged by £39 10s. 10d. That upon his pointing this out to the Secretary, he was told he was aware of the error, and that a rectified demand would be sent. This statement is not in accordance with facts. A debit balance on Wicklow Harbour loan, which had been explained to the Wicklow Commissioners, was charged in the first estimate over the whole area of charge. In checking all the figures, as usual, by the books, it was found that the Urban District portion had been adjusted already, so the correct figure to be demanded from Wicklow Urban District was entered on the face of the estimate in red ink, and this before the inspection of the books was mentioned; in fact, the actual demands to be sent to each Urban District were written out and lying in the pigeon hole ready to be signed at the approaching Council meeting. So far from Mr. Ribbeck pointing this out to the Secretary, when his eye was caught by the figures in red ink, he brought the form to me to ask me about them. I explained them then as above, and showed him the correct and only demands lying ready for signature. This gentleman was shown every book and document in our possession, and given every assistance while in our office, a straightforward statement might therefore have been expected in return. The report states that no portion of the interest allowed on the credit balance in the Bank has gone to credit of the Urban Districts, but it does not point out that these districts do not contribute to this credit balance, nor does it point out that the loss of interest caused to the county by its having to pay in advance at the beginning of each quarter the Union charges for each Urban District which those districts do not refund till the end of the quarter, is not charged against them. The deductions given for Wicklow Urban demand are:—(1) Proportion of the £1,000 for damage by floods, £23 9s. 2d.; (2) Separate charges overestimated for year to 31st March, 1906, £55 5s.; (3) Ditto to 31st March, 1907, £39 10s. 10d.; total, £118 5s. No. 1—I have already dealt with and shown is correctly charged. No. 2—The report neglects to state that this is the amount of the harbour loan repayment accrued due from 1st November, 1905, to 31st March, 1906, and therefore correctly charged. No. 3—Mr. Ribbeck has already in his report stated this was rectified in the demand, and, therefore it should not be again given here, as it is not an overcharge. After a lengthened examination of your accounts the report therefore goes to show there is no figure in them open to question, although the Council's action in granting relief to the districts damaged by floods does not meet with approval.—I am, gentlemen, yours faithfully, E. N. WYNNE.

#### COUNTY SURVEYOR'S REPORT.

Courthouse, Wicklow, 27th August, 1906. To the County Council, Wicklow. Mr. Chairman and Gentlemen,—The roads in your

county have been fairly attended to by the contractors. Of the contracts coming before you to-day the only two requiring special mention—viz.: Rathdown No. 2, No. 259, "To place a low weir, etc., across Enniskerry bridge"; and Rathdown No. 2 and Rathdrum, "To build a bridge at Calary Church, etc." The Rathdown No. 2 Rural District wish to have these works paid for out of the loan of £3,500 obtained for that district. The payment for above works should be paid (as provided by Procedure of Council's Order, 1905) through Subsidiary Account. Through the intervention of your Chairman and your county members, most satisfactory arrangements with the War Office await your sanction, pending which I have made special arrangements in regard to the contracts involved by the military traffic. Your solicitor informs me that the War Office have offered a sum of £15 5s. 5d. as against our estimate of £16 10s. for the damage done in May last. I am glad to report that all the damages wrought by the floods last August are now repaired.—Your obedient servant, S. G. GALLAGHER.

Order—The Solicitor to be directed to accept £15 15s. 5d. from the War Office in respect of the damage done in May last.

#### COUNTY SURVEYOR'S REPORT ON BLESSINGTON TRAMWAY.

County Surveyor's Office, Courthouse, Wicklow. Gentlemen,—In compliance with the Dublin and Blessington Tramway's Order, 1887, I carried out the annual inspection of the line on the 20th and 25th of August. A very slight improvement is noticeable in the appearance of parts of the line, but generally the permanent way is overgrown with grass and weeds, and is badly drained. The fastenings are still loose and defective in many places, especially on the old sleepers. The use of sleepers of untreated wood still continues, and the indications of decay referred to in my report last year are now more defined. The points to the branch leading to the ballast pit near Blessington are not efficiently protected from accidental displacement. The other defects pointed out in my previous reports have not been remedied; however, in the case of the broken walls at Blessington, I understand it is proposed to erect waiting rooms and a booking office, which will necessitate the removal of these walls. A boundary fence has been erected at the yard at Templeogue, which is a most useful work. Many improvements have been made in the rolling stock; nearly all the wagons have been fitted with buffer couplings, and the connecting tubes of the vacuum brakes have been improved; these alterations should save much in the wear and tear of the stock. One of the composite coaches has been fitted with Acetelyne gas lamps, which I understand work satisfactorily. A new locomotive has been provided, and which has some small but most useful improvements, which tend to economy in fuel. The train mileage for the year 1905-6 was 73,447 miles, being 1,218 less than the previous year; the running (loco.) shows an increase of £30 2s. 9d., and the locomotive repairs an increase of £49 15s. 1d. The gross receipts amount to £6,746 13s. 3d., being £91 0s. 1d. less than the previous year; the gross expenditure amounts to £6,072 5s. 5d., an increase of £157 8s. 10d.; the total receipts exceed the expenditure by £674 7s. 10d.; the County Wicklow contribution towards dividend and

working expenses amounts to £662 16s. 1d. The costs per train mile are as follows:—

	04-5. d.	05-6. d.	Inc. d.	Dec. d.
Running (loco.) expenses	5.911	6.107	.196	—
Repairs (loco.)	2.165	2.363	.198	—
Traffic expenses	2.249	2.395	.146	—
General charges	1.352	1.488	.136	—
Repairs (way and works)	4.049	3.538	—	.501
Repairs (rolling stock)	1.638	1.180	—	.458
Sundries	1.634	2.763	1.129	—
	18.998	19.834	1.805	.959
Gross receipts p. t. mile	21.939	22.038	.099	—

I remain, gentlemen, your obedient servant, S. G. GALLAGHER,  
County Surveyor. 27th August, 1906. To Wicklow County Council.

Order—Report adopted. The County Surveyor and Councillor William Osborne to give evidence before the Railway Commission.

CHARLES A. CAMERON.

Proposed by Councillor Joseph McCarroll, seconded by Councillor Michael Byrne. Resolved—That Notice of the Sheep-Dipping Order being put in force in the County Wicklow be published by poster, and by one advertisement in the local papers under contract, and that the posters be forwarded to the Clerks of the several Unions for posting in their Unions, and a copy to be sent to each Police Barrack. Passed.

Proposed by Councillor D. J. Cogan, M.P., seconded by Councillor Edward P. O'Kelly. Resolved—This Council notes with satisfaction that the Government have withdrawn the Lunacy (Ireland) Bill. As the Provisions of this Bill were calculated to inflict a serious hardship upon the Local Ratepayers in Ireland by re-imposing upon them a burden, from which they were properly relieved by the Lunacy Act of 1901, for the maintenance of Patients who became insane while in the public service, and the cost of whose maintenance would, in justice, be still borne by the Treasury from State Funds. We therefore hope that no further attempt will be made by the Government to re-introduce this measure in the next, or any other succeeding Session of Parliament. That copies of the above resolution be sent by the Secretary to the Prime Minister, the Chief Secretary, and the Secretary to the Treasury; and that copies be sent to the Secretary of each County, County Borough, and Urban District Council in Ireland, requesting him to submit it to his Council for adoption. Passed nem con.

The Reports from the Deputy Checkers of the various Unions on the attendance of the Poor Rate Collectors, and the state of their collections, were submitted.

No. 50,075/1906; Wicklow County. August, 1906. Gentlemen,—I have the honour to report that I have audited the Accounts of the County Council of Wicklow for the half-year ended March last, and I forward herewith a certified Abstract thereof, in pursuance of your order in that behalf made. In checking the Forms forwarded from the Rural Districts I found in many instances there was carelessness in their preparation by the Clerks of the Rural District Councils, with the exception of those prepared by the Clerk of Shillelagh. In many cases the dates and particulars of the contracts were inaccurate. I trust this may be rectified in the future, otherwise I should feel compelled to summon the Clerks to attend the County Audit. One item of expenditure I felt called upon to surcharge, the Application of Enactments Order not having been complied with. The Town Clerk of Wicklow Urban District appeared before me in reference to the last demand by the County Council. The points raised and all the charges made on the Urban District in the Accounts under Audit received my most careful attention. The Accounts were prepared and submitted for Audit in a most satisfactory manner.—I have the honour to be, gentlemen, your obedient servant, C. D. BARRY, Auditor. To the Local Government Board, Dublin.

## SECRETARY'S REPORT.

Gentlemen,—The Patriotic Assurance Company, from whom this Council hold several Fidelity Bonds for Rate Collectors, is now, according to a letter I received, in liquidation; it has therefore become necessary that the Rate Collectors who hold bonds from this Company should supply fresh security. I therefore submit to you letters from Mr. Thos. Tutty, rate collector for Baltinglass No. 1 Rural

District, and from Mr. John Murphy, rate collector for Rathdrum Rural District, submitting the names of two personal sureties each. According to your standing instructions I have forwarded the names of these sureties in each case to the Chairman of the respective Rural District for which they collect, and lay their letters, along with those from the collectors before you. In each case, the District Chairman, or the Clerk of the Union at his request, has stated the sureties are satisfactory. Mr. Charles S. Sutton, rate collector for Rathdown No. 2 Rural District, has also forwarded a new bond under the same circumstances, issued by the Yorkshire Insurance Company. This bond is in strict accordance with the prescribed form contained in the Public Bodies Order. I would ask your approval, or otherwise, to these new sureties and bond. I have to inform you that the War Department has, in accordance with their agreement, lodged the £500 to the credit of this county on account of the Glen Imaal Camp roads, and the Bye-laws, in accordance with the agreement, come before you to-day for your approval. I have had them compared with the Bye-laws first submitted, and find that they agree. It is with sincere regret that I have to announce a vacancy on your Council, caused by the death of the late Councillor Richard R. Drought, who was always a most regular attendant at all your meetings, and a most useful business member of your Council.—I am gentlemen, yours faithfully,

E. N. WYNNE.

Order—Approved.

#### COUNTY SURVEYOR'S REPORT.

Mr. Chairman and Gentlemen.—I beg to report that during the last quarter the road contractors were generally attentive to their work. The measurement of materials was carried out according to instructions, and the metal returns were more satisfactory than in previous years. It was necessary to serve notices threatening legal proceedings on contractors for the following contracts:—Rathdrum, 554, 579 per., streets of Rathdrum; do., 475, 830 per., Three-Mile-Water to Brittas Bridge; do., 356, 556 per., Wicklow Urban District to Wologhan's Bridge; do., 318, 700 per., 3 roads Toghermore and Shramore; do., 170, 384 per., Ashford Bridge to 3 roads at Newrath Bridge. In all cases the contractors or their bails have since started work, but in the case of No. 554, 579 per., the streets of Rathdrum, the contractor states he cannot obtain metal necessary to complete his contract, and that it will be impossible for him to fulfil his contract. The Rural District Council do not consider it desirable that I should take legal proceedings, and have passed a resolution referring the case to you. I respectfully solicit definite instructions from you on this case.

I submit plans forwarded to me by Dublin Corporation shewing proposed road alterations at new reservoir, Roundwood. I consider the alterations will be an improvement.

In accordance with instructions I met the officer appointed by the War Department and, accompanied by him, inspected the roads used by Military at Glen Imaal. I will be glad to place suggestions before you (or a committee appointed for the purpose) as to a suitable arrangement.

I have received communication from the Secretary of the Railway Commission asking for an abstract of the evidence to be given at

the Commission. I request that you will give me definite instructions as to the matters (if any) which you desire to place before said Commission.—Your obedient servant,

S. G. GALLAGHER.

Orders—Paragraph 1—County Surveyor to proceed with the work unless the contractor, McEvoy, takes steps within 20 days to fulfil his contract. Paragraph 2—Approved, County Surveyor to facilitate the Dublin Corporation as far as he can. Paragraph 3—County Surveyor to confer with Mr. E. P. O'Kelly. Paragraph 4—County Surveyor to give evidence on Dublin and Blessington Tramways before the Commission on Irish Railways.

#### COUNTY ANALYST'S REPORT.

City Laboratory, 17 Castle-street, Dublin, 29th October, 1906. Report of Sir Charles Cameron, C.B., M.D., public analyst for the County Wicklow, on articles submitted to him for analysis during the quarter ended 30th September, 1906.

Eighty articles were received from the Food Inspectors, R.I.C., as follows:—Article—butter, number—27; milk, 24; whiskey, 23; buttermilk, 2; mustard, 1; pepper, 1; cheese, 1; margarine, 1; total, 80.

Certificate sent to Sergeant Watson, Hollywood, for specimen of whiskey which was 26 degrees under proof, and was therefore adulterated with 1.33 per cent. of water.

For the Guardians of Shillelagh Union seven drugs and a specimen of water were analysed. The drugs were correct. The specimen of water had the following composition:—On imperial gallon contained in grains—Total solid matters, 19.880; including—albuminoid ammonia, 0.038; saline ammonia, 0.041; nitric acid, trace; chlorine, 1.491; sulphuric acid, 4.3236; equal to calcium sulphate, 6.0000. A polluted water, unfit for use.

For the Guardians of Rathdrum Union eighteen drugs and two specimens of water were analysed. The following drugs were defective:—Dilute phosphoric acid contained an excess of phosphoric acid; compound mixture of senna high in gravity, and crystallized magnesium sulphate and two specimens of solution of ferric chloride contained excess of iron. The specimens of water had the following compositions:—One imperial gallon contained in grains—

	No. 1.	No. 2.
Total solid matters	25.340	32.900
Including—		
Albuminoid Ammonia	0.009	0.009
Saline Ammonia	0.006	0.031
Nitric Acid	Trace	2.220
Chlorine	5.964	5.964
Sulphuric Acid	5.7648	5.7648
Equal to Calcium Sulphate	8.0000	8.0000

No. 1 was a tolerably good water, but No. 2 contained an excess of ammonia.

For the Guardians of Baltinglass Union twelve drugs were analysed. One of them—namely, ammoniated liniment of camphor, contained an excess of ammonia and camphor.

There were three specimens of butter analysed by directions

from the Department of Agriculture and Technical Instruction for Ireland, Upper Merrion Street, which were taken up in the County of Wicklow. They were pure.

For Naas Union, which is partly situated in the County Wicklow, twenty drugs and two specimens of milk were analysed. One of the drugs, namely, Compound Tincture of Chloroform and Morphine, high in morphine hydrochloride and low in chloroform. The specimens of milk were under the average quality of pure milk.

The waters examined for Rathdrum Union were taken by myself personally from a newly-erected pump at Ovoca. Several previous analyses of the water had given such discordant results that I went down at my own expense to see the pump and its surroundings and to take fresh samples. A curious result was that the water taken at first pumping (the pump not having been some hours previously used) gave different results from those obtained from the water pumped out later on. This showed the inconstancy of the water. A grave yard is near the pump. Some persons complained of the water from this pump. The quality of the water appears to be much affected by heavy rains on its gathering grounds, and probably by the occurrence of interments in the adjacent graveyard.

Total analyses, 145; adulterated and defective articles, 7.

CHARLES A. CAMERON.

Proposed by Councillor J. McCarroll, seconded by Councillor W. H. McFarland. Resolved—That the best thanks of the Council be tendered to our Chairman, and also to Mr. James O'Connor, M.P., for their great ability in settling the long-outstanding dispute between the War Office and this Council, and we hope our Chairman may be long spared to safeguard the interests of the Council. Passed.

Proposed by Councillor R. Norman Thompson, seconded by Councillor Joseph McCarroll. Resolved—That the Secretary be instructed to procure without delay a supply of blotting books for the use of the Council. Passed.

Proposed by Councillor E. J. Byrne, seconded by Councillor Wm. Byrne. Resolved—That this Council, having heard that the Dublin, Wicklow, and Wexford Railway Company intend to take off the mid-day train up and down from Wicklow—should such be the case—protests against the change as being injurious to all the towns of East Wicklow, inconvenient to the people of the whole district, and especially inconvenient to the members of this and other Councils in the County. Passed.

Proposed by Councillor Joseph McCarroll, seconded by Councillor E. J. Byrne. Resolved—That we direct the Secretary to continue to deal with Article 8 of the Public Bodies Order as heretofore, and in accordance with the reply received from the Local Government Board to this Council's protest against that Order. Passed.

The reports from the Deputy Checkers of the various Unions on the attendance of the Poor Rate Collectors, and the state of their collections, were submitted.

## SECRETARY'S REPORT.

To the Wicklow County Council, 25th February, 1907. Gentlemen,—I would draw your attention to the provisions of the Workmen's Compensation Act, which comes into force on the first of July next, under which it will be necessary for the Council to provide for compensating all persons employed under it in manual labour, and not receiving £250 per annum; this includes those engaged in clerical work. Compensation is payable in all cases of accident, injury or illness incurred bona fide in your employment, up to £300 in case of death, or half the average wages during incapacity. This liability may be met by insurance. The Guardian Insurance Company, with which your public buildings are insured, I observe has fixed the lowest scale of premiums I have yet seen—3s. per annum. As directed at your last meeting, I wrote the Department of Agriculture that the Council will require the contribution in lieu of rates for Avondale Estate to be calculated on the same basis as for other Government property, and cannot accept the arbitrary proposal of the Department. To this I have received no reply. I would recommend the Council to request Clerks of Petty Sessions and Clerks of Unions, when magistrates or guardians are sending persons to the Lunatic Asylum, to make full inquiry and inform the clerk of the asylum whether the relatives of the lunatic can contribute anything, and if so, how much to his support. The estimates for the coming year's rates will be laid before you to-day, and when they are being considered, I can answer any matter which may arise upon them, but for your information, the following comparison between this year's gross rates and those of last year, may be of interest.

The figures include all separate charges, as well as ordinary rates:—  
This year's:

Rates on Baltinglass	are	6d. lower
" Naas	"	5d. lower
" Rathdown	"	2½d. higher

Than those on these areas last year.

When the Sheep-dipping Order came in you desired it should be carried out with as little expense as practical. I find there is a very large amount of work to be done in connection with it if it is not to become a dead letter. There are 2,500 sheep-owners or flocks in our county. This means some 10,000 certificates and notices to be dealt with annually, classified and registered, then all the police reports on these, and correspondence connected with them. Not half the owners (985) reported to me by the constabulary have complied with the order. I would ask you to give some directions as to your wishes in this matter, and would advise that the original committee appointed be directed to confer with me, and report to your next meeting.—  
Your obedient servant,

E. N. WYNNE.

Proposed by Councillor Michael Byrne, seconded by Councillor Bartle. McDonald. Resolved—That the Dipping Periods in the County Wicklow Sheep Dipping Regulations be and are hereby fixed as from the 15th day of June to the 15th day of August, and from the 1st day of September to the 1st day of November in each year. Passed.

#### COUNTY SURVEYOR'S REPORT.

Wicklow County Council. Winter Quarterly Meeting, 1907. 25th February, 1907. Gentlemen,—During the past quarter (ending

on 31st December) the general body of the contractors were fairly attentive to their work. Owing to the unusual dryness and frosts the repair patches have not been worked into the road surfaces. On some of the roads which have been subjected to some additional traffic from timber and stone drawing, the contractors do not appear to be making sufficient efforts to keep the roads in good order. It was necessary to proceed at Quarter Sessions against the contractors for the roads No. 554 (579 perches) and No. 318 (700 perches), in Rathdrum Rural District. Decrees were obtained in both cases, and I recommend that the contracts be cancelled.

Of the contracts and applications from the Rural Districts, the following require attention:—Rathdown No. 2—The Rural District Council has passed, and obtained contractors for, special works which, if carried out, will cause the limit of expenditure to be exceeded. This was pointed out to the Council at their Quarterly Meeting, but the majority of the Council being of opinion that the instalment in repayment of loan (and of interest) of £3,500 should not be included in the annual expenditure, and there would therefore be sufficient funds available to meet the cost of the special works passed. Rathdrum—All the renewal contracts on roads were only passed for a period of three years, the District Council having, at a previous meeting, passed a resolution to the effect that no contract for a longer period should be entered into.

An application is being made to permit a cottage to be built near Mount Usher gate at a less distance from the centre of the road than is allowed by law; a plan showing the proposed building has been lodged, and which I submit for your inspection.

Baltinglass No. 1—The special road contracts for the roads, subject to military traffic, were all taken at most improvident prices. The War Office have not yet forwarded their decision as to the amount they are prepared to contribute towards the upkeep of these roads, and I recommend that you should not enter into any special contracts on these roads until they do so.

I have received a letter from the Secretary of the Royal Irish Academy pointing out that an Ogham stone near Wicklow is in danger of being destroyed. This stone, which is of great interest, lies unprotected on the edge of the workingway of a lonely country road, and liable at any time to be destroyed by a accident or the destructiveness of ignorant mischievous strangers. It has been suggested to me by an eminent Irish Archaeologist that this stone be removed to one of the museums in Dublin, where it would be safely guarded and cared for. It appears to me that as you have no funds which could be expended in protecting this stone in its present site, it would be advisable to give your sanction (as far as the matter lies within your jurisdiction) to permit this stone to be removed by the persons appointed by either the Royal Irish Academy or Irish Arch. Society and placed in safe keeping. I have examined this stone frequently during the past seven years, and although it has now withstood the weather for over 20 centuries, yet I am of opinion that after the lapse of the short time that I have had it under observation, the markings show less distinctly.

I have received an application from the legal gentlemen attending at Baltinglass Courthouse requesting that an improvement be made in the seating accommodation at the solicitors' table. Additional

accommodation could be provided for about £20, and a great improvement effected.—Yours faithfully,  
25/2/07.

S. G. GALLAGHER.

Paragraph 1—Road Contracts Nos. 554 and 318 in the District Register were cancelled in Rathdrum Rural District.

Paragraph 2—Works Nos. 269 and 270 in the District Register were rejected owing to the limit of road expenditure in Rathdown No. 2 Rural District being exceeded.

Paragraph 3—Allowed.

Paragraph 4—The Council rejected Road Contracts Nos. 123, 124, 125, 126, 127, 128, 129, and 130 in the District Register of Baltinglass No. 1 Rural District, and placed them in charge of the County Surveyor for 3 months at the old price.

Paragraph 5—See resolution.

Paragraph 6—The Council approved of the spending of a sum not exceeding £20 in improving the seating accommodation at the solicitors' table in Baltinglass Courthouse.

The Council referred an application received from Mr. R. J. Mccredy, Vallombrosa, Bray, for permission to cut away about 15 feet of the grass edge opposite Kilbride Church, and to gravel the portion so cut away—to the County Surveyor to inquire into, and give permission if requisite.

Proposed by Councillor D. Condren, seconded by Councillor Wm. Byrne. Resolved—That the stone referred to in Mr. Gallagher's report be removed to Castletimon Cemetery for safety. Approved.

Proposed by Councillor James Byrne, seconded by Councillor J. McCarroll. Resolved—That the County Surveyor be directed to have proper Telephonic Connection made between the Council Chamber and the Secretary's and the County Surveyor's Offices, and to keep same in repair. Passed.

## COUNTY SURVEYOR'S REPORT ON DIRECT LABOUR AND STEAM-ROLLING.

County Surveyor's Office, Wicklow, 27th August, 1907. The Chairman and Members, County Council, Wicklow. Mr. Chairman and Gentlemen,—In accordance with your instructions, I communicated with the County Surveyors of Tipperary (S. R.), Waterford and Limerick, and have ascertained from these gentlemen that they find "Direct Labour" satisfactory in their counties. The wages paid are:—(1) to labourers, who provide their own tools—Waterford, Tipperary and Limerick, 2s. per day; (2) to overseers—Tipperary 21s. per week, Waterford 20s. per week, and Limerick 24s. per week; (3) horse hire—Waterford and Tipperary 5s. per day. In Waterford and Tipperary the Council provide materials; in Limerick they are provided by contract. No one who has to deal with roads will dispute that "direct labour" is the best for the roads, and in obtaining the greatest value for the money spent. The whole question is whether—(1) sufficient labour could be obtained in the county; (2) whether sufficient labour could be obtained at rates which would enable the work to be done at the same or less than the present low contract prices. As to steam-rolling—I wish to point out to you that although your roads are not

good, smooth, up-to-date roads, yet they are not bad roads, and are greatly improved to what they were say, ten years ago; the roads were never properly made. The great defect in your roads is that they are bumpy, and this can only be got rid of by steam-rolling. As to the cost of this, I think a concrete case will explain itself. A road 917 perches in length was rolled in 12 weeks at a cost of £664 16s. 6d., and the maintenance by direct labour cost £34 7s. 9d. per annum. Suppose the life of this road after steam-rolling would be 6 years, and the cost of maintaining for 5 years—£171 18s. 9d.—the total expenditure on road in 6 years would be £836 15s. 3d., as against £382 2s. under old system, or £139 9s. 2½d. per annum, against £63 13s. 8d., which was the annual contract cost under the old system. Although for the six years the average cost per annum after steam-rolling would be more than double what would have been spent under the old system, yet, the road would have been better, and on re-rolling the cost would probably be about half the original cost—thus for the next period of 6 years—the amount expended on the road would be £506 7s. or, but £124 5s. in excess of what would have been expended under the old system. The average annual cost being £84 7s. 10d., or, roughly, about 30 per cent. of an increase, but with a vastly improved road as reward. The last price would be the future cost per annum. The result of the TWELVE years' working by steam-rolling and direct labour would give an average annual cost of £111 18s. 6d., or an increase of £48 4s. 10d. per annum.—Your obedient servant,

25/2/07.

S. G. GALLAGHER.

Order—Rejected.

### SECRETARY'S REPORT.

Secretary's report to the Wicklow County Council, 16th May, 1907. Gentlemen,—An important matter will come before you in the correspondence with the Local Government Board—viz.: the deduction on this occasion of the sum of £3,117 9s. 7d. from the half-year's Agricultural Grant on account of arrears of land purchase payments, or to put it more accurately, a sum of £2,896 10s. 11d. due to this county on account of death duties has been withheld, and a further sum of £220 18s. 8d. has been deducted from the Agricultural Grant to which we were entitled—together making up the £3,117 9s. 7d. as above. This will affect the several Rural Districts roughly as follows:—Equal to over 2½d. in the £1—Baltinglass, £533 16s. 7d.; Naas, £217 10s. 8d.; Rathdown, £375 7s. 6d.; Rathdrum, £1,347 4s. 11d.; Shillelagh, £467 9s. 3d.; Bray Urban, £110 6s. 4d.; Wicklow Urban, £65 14s. 4d.—£3,117 9s. 7d. I hardly think it will be necessary to strike an extra rate at present, as this deduction is so iniquitous, being the result—not of non-payment of the instalments—but of bungling on the part of those responsible for the issue of the Land Stock, that I am satisfied Parliament will be compelled to find means of making this import good to the County Councils.

A Mr. G. W. Burton, of Enniskerry, having been reported by your Veterinary Inspector for that district, and also by the Constabulary as guilty of frequent and defiant breaches of the Sheep Scab Ireland Orders, I thought it best (as some time would elapse before the County Council would meet) to transmit the correspondence and reports to the Department of Agriculture, so that it might in the meantime take any steps it thought proper under the circumstances, and I understand the Department is having the matter sifted with a view to prosecuting or otherwise. Mr. Burton wrote to your Chairman, Mr. O'Kelly, bringing serious charges against your Veterinary Inspector; a copy of this letter was, by direction of Mr. O'Kelly, sent to your inspector, and his reply will be laid before you, as well as an application from said inspector to be authorised to institute prosecutions of offenders on behalf of the Council.

The War Office, you may recollect, after some years of correspondence, and of interviewing the Council, undertook last summer that provided the Council consented to give its approval to the Byelaws for the regulation of the use of Glen Imaal Range, the War Department would, within a certain time, pay the amount claimed for costs incurred in repairing public works and roads which suffered from the

extra traffic in consequence of use of the Military, and would in addition pay an annual sum for the increased expense caused by the Military traffic, such sum to be arranged between your County Surveyor and the Engineer Officers on the spot. The report on the sum thus agreed upon has long since been sent in from the Curragh to the War Office, but no payment has yet been made, or even suggested, by the War Office although we are now in the second year for which it is due. I reported this matter to you at your last Quarterly meeting, and in consequence you cancelled all the contracts then taken up by the District Council for the roads to which the agreement refers. I have since then written several letters to the War Department, but have not even received the courtesy of a reply; and I understand that the Rural District Council on this occasion has taken alternative contracts for these roads to meet this conduct on the part of this Department. I have also written to the latter to inform it that if the payment were not made in time for this meeting I would bring up the resolution consenting to the Byelaws for the purpose of having it rescinded at this meeting. As you will observe, I have placed this on the agenda for this meeting to enable you to do so if you think fit. You have had experience of the dealings of the War Department already, and think you will find my advice at the time was sound—viz.: that you should require payment in cash in advance by that Department prior to any step being taken by the Council on the basis of any proposed payment.

The Department of Agriculture has taken a very high hand with regard to the payment of rates on account of the Avondale Estate. They first stated that the payment would be included in the Government Bounty in Lieu of Rates, but the Treasury wrote repudiating the idea that it was exempt from Rates as Government property, and said no Bounty would be paid in respect of it. The Department then wrote that it would pay an annual fixed sum for it equal to the lowest rate struck upon it since the Local Government Act came in force, and excluding all separate charges. This, by your direction, I informed the Department you would under no circumstances accept, but would require a payment on the same basis as the Bounty in Lieu of Rates; to this no reply has been vouchsafed, nor has any payment whatever been made. I would recommend you to send in a demand to the Department for the rates due made out in the same manner as the certificate for Bounty in Lieu of Rates.

The Veterinary Branch of the Department of Agriculture has issued an order fixing the periods for Sheep Dipping for all Ireland, which I think you will find coincides with the dates which this Council decided upon at its last meeting. This Branch has prepared a large poster on the subject, giving a large amount of necessary information, and offer to supply you with any you may require for posting throughout the county. I sent each member of the Council a circular on the subject.

Should you intend to insure under the provisions of the Workmen's Compensation Act, the following are, I believe, the persons you will require to provide insurance for:—The 4 permanent clerks, 16 temporary clerks, 3 assistant county surveyors, 19 rate collectors, 4 veterinary inspectors, 5 court-keepers, and 2 coroners—53 in all. I presume the Technical and other Committees will arrange for the insurance of their employees. If you so direct me I shall obtain offers

for their insurance, and lay them before you at your Annual Meeting.

Your County Surveyor and I have prepared a list of dates for your Quarterly Meetings; it has not been possible to arrange for the Proposal Committee Meetings to be held up the last Tuesday in the month, as the Quarterly Council Meeting would then clash with Baltinglass Fair. You may recollect those Committee Meetings used formerly to be held on Wicklow Fair Day, but were specially altered by the Council to suit Baltinglass Fair.

Two Vacancies are announced on Baltinglass Veterinary Committee. I do not know if any of these Committees have ever acted, or are required; should they at any future time become necessary, the Council could then take steps to reform them.

A proposal sent forward by Rathdrum Rural District Council for 480 perches of road to Barnbawn Pound, does not appear to me to be a subject for a "Provisional proposal," as it was a road under contract at the time and after the Act came into force, and on which the County Council made more than one payment; and from the expression of the opinions of the Judges in the recent Greystones case, it is a road the Council is bound to maintain until it takes the prescribed steps to have it abandoned under Section 82 (2).—I am, gentlemen, yours faithfully,

E. N. WYNNE.

Approved.

## COUNTY SURVEYOR'S REPORT.

County Surveyor's Office, Court-house, Wicklow, 16th day of May, 1907. County Surveyor's Report, Spring Quarterly Meeting, 1907. The Chairman and Members, County Council, Wicklow. Gentlemen,—The contracts coming before you for approval are nearly all of the usual type, but the following require special note:—

In Baltinglass No. 1 Rural District—The group of loads leading to and about the Camp at Glen of Imaal—These roads are let for one year, and the specifications only provide for such work as is generally required for roads subject to the ordinary traffic. The District Council "passed" these roads at prices which would enable me to provide for such special works as might be rendered necessary by the very extraordinary traffic caused by the movements of guns and troops over these roads; but the District Council in passing these resolutions provided that the War Department should contribute the difference between these prices and the old prices, before the establishing of the Camp at Glen Imaal. As the Officers of War Department declined to state whether they would, or would not, contribute, and, in fact, completely ignored all communications addressed to them, the Rural District Council declined to receive tenders at the higher prices, and only let the contracts on tenders based on the old (before the establishment of the Camp) prices. Last November, at the request of the War Department, and at great personal inconvenience and expense, I met an Officer of Royal Engineers and inspected these roads with a view to ascertaining the amount they would cost to maintain to meet the standard

required by the Military. The Officer, who was most painstaking and courteous, promptly forwarded his report to headquarters, but from the time (last December) we were informed that his report had been handed in, we have heard nothing, and our communications with the War Office have not even been acknowledged.

Naas No. 2 Rural District—A contract for the rebuilding of Annalecka Bridge—The money required for this work is to be obtained on a loan, and before you sanction this contract it will be necessary to take steps to obtain the money. The Local Government Board have approved of the plans, etc. In connection with this Bridge I have received a communication from the Secretary of the Irish Automobile Club asking leave to make some temporary improvements, as the bridge is dangerous to motor traffic. As these improvement would be useful, I recommend that I be permitted to sanction them.

In accordance with your instructions I have ascertained that the Prisons Board will contribute half the cost (not exceeding £20) of rebuilding a wall at the rear of the Gaol and Courthouse. I recommend that this work be now proceeded with.

I have received a letter from the County Court Judge requesting some improvements in Tinahely Court-house. I consider that these improvements would be reasonable, and recommend that I be permitted to have them carried out.

Certain parties in Arklow have erected temporary hoardings in front of new buildings, and as these hoardings completely block the footpath, and the parties responsible have refused to remove them so as to allow some passage for the public, I request that I be permitted to consult with, and employ, your solicitor to protect the public interest.

I have ascertained that the cost of proper telephonic plant, etc., between the Secretary's Office, County Surveyor's Office, and Council Chamber would be between £13 and £14, and request authority to spend such amount in carrying out your instructions given at last Quarterly Meeting.—Your obedient servant,

S. G. GALLAGHER.

Permission granted Secretary, Irish Automobile Club to make some temporary improvements to Annalecka Bridge.

County Surveyor directed to proceed with work of rebuilding wall at the rear of the Gaol and Court-house.

County Surveyor empowered to expend £10 in heating Tinahely Court-house.

Telephonic plant, etc., between the Secretary's Office, County Surveyor's Office, and Council Chamber, at probable cost of £14, allowed.

Proposed by Councillor W. H. McFarland, seconded by Councillor Daniel Condren—That the matter of Lighting of Bray Court-house be referred to Mr. Gallagher, C.E., for report, as to the probable cost of same, and that he be empowered to carry out the work if not over £10. The Chairman declared the motion lost, on a show of hands being taken.

## REPORT ON BLESSINGTON TRAMWAY.

Wicklow, 21st January, 1907. E. N. Wynne, Esq., C.E., J.P., Secretary Wicklow County Council. Dear Sir,—In accordance with a resolution of your Council passed on 17th May, 1906, I attended at Terenure and inspected the audited accounts of the Dublin and Blessington Steam Tramway Company for the half-year ended 31st December, 1906. The receipts of every nature from the working of the undertaking amounted to £3,897 0s. 1d. during the half-year, and the expenses during the same period to £2,949 6s. 1d., leaving a sum of £947 14s. available towards the payment of dividend on the guaranteed capital, as against £725 18s. 10d. in the corresponding period of last year. Credit having been given for the above, there remains due a sum of £52 6s. in respect of dividend for the half-year, one moiety of which, £26 3s., is owing by your Council. Amongst the items charged against revenue is a sum of £302 19s. 8d. for hire of rolling stock—viz.: £283 6s. 8d., an additional payment on account of an engine, and £19 13s., being portion of the cost of building a bogie at Templeogue. Similar payments in respect of engine and bogie appeared in previous accounts, and were referred to by the auditors. I have nothing to add to their remarks thereon. The portion of the running expenses, etc., to be paid by the Phoulaphuca Tramway Company, for the working of their line, has been calculated in accordance with the agreement existing between the two companies, and properly charged in the accounts. The total running expenses during the half-year under the headings—

fuel, oil, and water, amounted to £580 12s. 3d., the total mileage being 46,177 miles. Hence the average cost per mile for these expenses works out at 3,016 pence per mile. Of the above £580 12s. 3d. a sum of £500 10s. 7d. is charged to the Dublin and Blessington Steam Tramway Company for working 38,392 miles, and £80 1s. 8d. to the Phoulaphuca Company for working 7,785 miles. The former amounts to 3.128 pence per mile, and the latter to 2.468 pence per mile. This is all in accordance with the agreement which establishes the principle that the cost of working an average mile of the Dublin and Blessington Company's road is greater than that of working a mile of the other company's. When arranging the through rates between Terenure and Phoulaphuca this view seems to have been lost sight of by both Companies, as a few examples will sufficiently illustrate. Taking the distance from Terenure to Blessington as 15½ miles, and from Blessington to Phoulaphuca as 4½ miles, I worked out the following interesting results:—First class single fare from Terenure to Phoulaphuca 2s. 6d., of which 1s. 8d. goes to the Dublin and Blessington Company, and 10d. to the other, or in other words the former receives only 1.29 pence per mile, while the Phoulaphuca Company receives 2.22 pence per mile. First class return—Total, 3s. 6d.; Dublin and Blessington Company's share, 2s. 4d., or 0.903 pence per mile; Phoulaphuca Company, 1s. 2d., or 1.55 pence per train mile. Third class single—Total, 1s. 9d.; Dublin and Blessington, 1s. 2d., or 0.903 pence per mile; Phoulaphuca, 7d., or 1.55 pence per mile. Third class return—Total, 2s. 6d.; Dublin and Blessington 1s. 8d., or 0.64 pence per mile; Phoulaphuca 10d., or 1.11 pence per mile.—Yours faithfully,

S. J. DOYLE, Accountant.

Order—Copy of this Report to be sent to Arbitrators, and to Secretary of the Tramway Company.

Proposed by Councillor D. Condren, seconded by Councillor E. P. O'Kelly. Resolved—That we learn with wrath and indignation the almost certain closing down of Kynoch's Arklow Factory, brought about by the prosecution and persecution of the Home Office Officialdom, animated, we believe, by the old jealousy and hate of the Irish trade; and we deplore this great wiping out of a great Irish industry all the more as taking place under the aegis of the Right Hon. Herbert Gladstone, whose father was a life-long friend of Ireland; and we now call on the Home Secretary to save Arklow from absolute ruin by ordering:—(I.) That the Kynoch's magazines be released forthwith; (II.) That all further oppressive action be withdrawn; (III.) That the dispute between Kynoch's and the Home Office Inspectors be referred to arbitration, as provided in the Act, section 56; (IV.) By placing the Arklow Factory, as an Irish industry, under the control of an Irish Department, with power to the latter to appoint its own inspectors. And further, that copies of the foregoing be forwarded to the Right Hon. Herbert Gladstone, to Mr. Arthur Chamberlain, to the Irish Leader, Mr. John E. Redmond; Mr. John Dillon, Sir Thomas Esmonde, Mr. Wm. Field, and the County Members, Messrs. D. J. Cogan and James O'Connor, imploring the Irish Party to exercise their strong power to save Arklow and Irish industry, and thus avert an almost national calamity. Passed.

Proposed by Councillor J. J. Reilly, seconded by Councillor James Galvin. Resolved—That we request the County Committee of Agriculture to report to the County Council the names of the

seed merchants in this county whose seeds have been declared by the experts of the Department of Agriculture to be impure and showing a low percentage of germinating power. Passed.

Proposed by Councillor John Storey, seconded by Councillor P. J. Carey. Resolved—That the Secretary be directed to write to the Inspector General of Constabulary to inquire whether any instructions are issued to the constabulary with regard to carrying out the provisions of the Motor Car Acts. Passed.

Proposed by Councillor John Storey, seconded by Councillor P. J. Carey. Resolved—That the Local Government Board be applied to to sanction a limit of speed of six miles an hour for motor cars between Annamoe three roads and the end of the county road at the Upper Lake of Glendalough; also between Annagowln three roads and the three roads at Ballinahinch. Passed.

The Reports from the Deputy Checkers of the various Unions on the attendance of the Poor Rate Collectors, and the state of their collections, were submitted.

### SECRETARY'S REPORT.

Gentlemen,—In connection with the large deduction from the Agricultural Grant, which I reported to you at your last meeting, I have since that meeting received a letter from the Local Government Board dated 17th May, 1907, in which that Board states that all agricultural land is entitled to the benefit of the Agricultural Grant as certified for the standard year. The letter then goes on to point out how this Agricultural Grant is to be dealt with, in the opinion of that Board, in the Council's accounts. I need not trouble you with particulars of this plan, but may mention that there are a number of complications in it. But it is to a very serious point involved in it affecting the ratepayers to which I wish to draw your attention. The Agricultural Grant affects agricultural land and agricultural holdings only, and ratepayers occupying towns, villages, or other hereditaments only have no hand, act or part whatsoever in anything advantageous or disadvantageous in connection with it, and are in no way whatever responsible for the mismanagement which has brought about the deficit on this occasion in the Grant. But now the Local Government Board in this letter to which I refer, directs the Council to raise the whole of this deficiency in the Grant which the Government should have paid in full, by making an additional rate for County at Large charges to be levied off these very ratepayers who have nothing whatever to do with the matter, and pay out these rates when levied solely for the benefit of the agricultural ratepayers—in my opinion a most inequitable and unjustifiable proceeding,—but the matter does not end there, for a proportion of the County at Large charges is in the ordinary course to be raised off Bray Urban District; however in the case of this special Departmental bungle relief rate, it shall not be so raised, but this proportion (amounting to one-tenth of the whole deficiency) as the Local Government Board naively puts it, "might safely be dealt with by putting it into the estimate for rates for separate charges," thereby again further increasing the rates on those very ratepayers who have nothing to do with it. I would recommend the County Council, as the guardian of the ratepayers, through its Finance Committee, to take this letter into very serious consideration before entering upon this rather complicated rate to meet the Government's deductions from the Grant. According to your directions at your last meeting, I have in-

vited proposals from a number of Insurance Companies, for insuring the Council against liability under the Workman's Compensation Act, 1906, and under all similar Acts, and at common law, and have submitted their replies to your Finance Committee, which recommends the Guardian Assurance Company, Suffolk-street, Dublin, who tenders for the 53 employees at £5 3s. per annum. It is my sad duty to announce a vacancy which has occurred in your Council since last you met, through the death of Dr. R. Norman Thompson, the most regular attendant at the meetings of this Council; in him you have lost one of your most efficient, active, and courteous members, and I have lost a very sincere and valued friend. His death also causes vacancies on the Board of Technical Instruction in Dublin, on the Joint Committees of Management of Richmond Asylum, of the County Infirmary, and of the Newtown Fever Hospital, also on your Finance and Proposals Committee, and on the County Committee of Agriculture and Technical Instruction. The balance to credit of the County Council account in the Bank this morning amounts to £7,102 7s. 9d. You have already signed transfers to Unions and to Rural Districts out of this balance, amounting to £6,297 10s., which leaves your net balance £804 17s. 9d.—Yours faithfully, E. N. WYNNE, Secretary.

Order. Adopted—The question of deduction from Government Grants being referred to a special meeting of the Finance Committee.

County Council Office, Wicklow, 14th June, 1907. To Wicklow County Council. Gentlemen,—I should be glad if you would accord me four weeks' leave of absence from the 22nd July next, and that during my absence that the assistants be directed to carry out any necessary work, etc.—Your obedient servant, S. G. GALLAGHER.

Order—Granted.

Proposed by Councillor E. P. O'Kelly, seconded by Councillor D. J. Cogan. Resolved—That the Wicklow County Council calls on the Home Secretary to submit the whole question at issue between the Home Office and Kynochs, Ltd., to an independent board of experts, on which the Home Office and Kynochs shall be equally represented, with the Lord Chancellor of Ireland as umpire, and that pending their decision the magazines be released and all prosecutions withdrawn. That the delegates to attend the deputation to Mr. Gladstone from County Council be E. P. O'Kelly, E. C. Walsh, D. J. Cogan, Joseph McCarroll. Passed nem con.

Proposed by Councillor Patrick Short, seconded by Councillor J. J. Reilly. Resolved—That this Council is of the opinion that Mr. A. Nolan, who has acted with marked ability as Chief Agricultural Instructor in this county during the past five years is, by his training and experience, eminently qualified for the position of Lay Assistant Land Commissioner, and we hereby strongly recommend him for that appointment, and that copies of this resolution be sent to the Chief and Under Secretaries for Ireland. Passed.

To the Chairman and Gentlemen of the County Council. Gentlemen,—I beg to apply to you for as much linoleum as will cover the floor of a room in my apartments.—I am, gentlemen, your obedient servant, THOMAS WILLIAMS, Court-keeper. Granted.

The undertaking required by the Commissioners of Public Works before recommending the loan of £350 required for the purpose of rebuilding Annalecka Bridge to the Lords Commissioners of His Majesty's Treasury for sanction—was signed by the Chairman and Secretary.

In Baltinglass No. 1 Rural District Proposals a payment of £8 15s. was recommended subject to the Local Government Board extending the time within which the same could be made, this being one quarter's salary to Mr. A. The letter from the Local Government Board, dated 17th May, 1907, dealing with the deductions made from the Agriculture and other Government Grants to the County Council under the Land Purchase Act, and suggesting the manner in which the deficit so caused is to be raised, and how it is to be dealt with in the County Council's accounts, having been referred to the Finance Committee by the County Council for their consideration and report was read, the Committee adjourned the further consideration of the same pending the final settlement of the question by the Government, and directed the accountant in the meantime to carry forward in the Council's accounts as a debit balance against the Government the sum of £3,117 9s. 7d. withheld from the last payment of the Government Grants.

The Secretary brought forward for consideration the question of effectively carrying out the Provisions of the Sheep Dipping Order, and informed the Committee that, pending the directions which he had already asked for from the County Council, he had simply filed the various notices received from the Constabulary in pigeon holes in the office, and reported from time to time to the Council any breaches of the Order brought under his notice.

The Committee directed the Secretary to continue to deal with the notices under the Order in the same manner.

The Secretary was further directed to ascertain whether any of the parties reported by the police on this occasion as having failed to dip their sheep prior to fetching them to fairs, had been previously reported for the same neglect.

The Committee recommended for payment, subject to the approval of the Local Government Board, the following Supplemental List of Irrecoverable Rates:—

No. 6. Collector Michael McGrath £1 14s. 2d.

An application was received from Collector Joseph Keane to the Committee to re-consider his application for an increase of salary, or to be put on the same footing as other rate collectors under the Council, and enclosing a printed leaflet showing collector's salaries, etc.

The Committee are unable to see any grounds to alter their previous decision on this application.

An application was received from Collector Geo. Evans asking to be given a fixed poundage rate of 6d. in the £—as in the case of all newly-appointed rate collectors.

The Committee, as in Collector Keane's case, also declined to accede to this application.

#### COUNTY SURVEYOR'S REPORT.

County Surveyor's Office, Court-house, Wicklow, 26th day of August, 1907. Gentlemen,—The contracts coming before you to-day for your approval are not numerous, and are of the usual character. During the past quarter the road contractors have been fairly attentive to their work, but I regret to report a series of sudden damages which took place between the 19th and 21st July. With one exception the contractors went promptly to work and placed the roads in a safe condition. I have received several complaints from residents in Greystones as to the reckless driving of motorists on certain roads in the locality. I annex the letter received from the local District Councillor on the matter.—Your obedient servant, S. G. GALLAGHER. To Wicklow County Council, 26th August, 1907.

The Council made no order on the letter from Mr. Ormsby Vandeleur, Rathlahine, Greystones—submitted by the County Surveyor—complaining of the danger to traffic caused by motors running through Church lane, Greystones.

#### WICKLOW COUNTY COUNCIL.

Summer Quarterly Meeting, 1907.—26th August, 1907.

#### COUNTY SURVEYOR'S REPORT ON DUBLIN AND BLESSINGTON TRAMWAY.

Gentlemen,

On the 23rd inst. I carried out the annual inspection of the Dublin and Blessington Steam Tramway.

A.—The permanent way presents the usual untidy appearance, being overgrown with weeds and grass; the ballast should be repacked under

most of the new sleepers and more attention paid to the drainage. The old sleepers, as yet unreplaced by new, are greatly worn and much decayed. The bolts in fish plates, etc., are loose, with the result that the rail joints are not rigid and considerable pounding takes place at the ends of the rails, which at the slack joints, present a very battered appearance.

New waiting-rooms, offices, etc., have been erected at Blessington, a new goods platform has been constructed, the old cattle bank completely removed, and the old goods platform converted into a cattle bank. All these works are decided improvements tending to greater comfort and convenience of the public.

The rolling stock appears to be well maintained. On the day of my visit to the works at Templeogue, engines Nos. 8 and 9 were having general repairs carried out, engine No. 3 was being thoroughly overhauled and being rebuilt. Two new wagons are in progress and one wagon is being rebuilt. It is satisfactory to note that these are being done in the Company's Works, and that the timber used in the framings is Irish oak grown in the County Wicklow.

The tyres of many of the wheels of the rolling stock are greatly worn and distorted, and should be re-turned; but as the Company have no plant suitable for this work, it has to be sent out, which is inconvenient and very expensive.

B.—I suggest that a suitable lathe be obtained and the work carried out in the Company's sheds. A considerable saving would be effected, not only in the actual cost of the work, but by enabling this turning, etc., to be more frequently and promptly done. The wear and tear on permanent way and rolling stock would be lessened and the comfort of passengers increased.

Your obedient servant,

S. G. GALLAGHER, B.E., etc.

28th August, 1907.

Order—The attention of the Directors to be called to this report—especially to clauses marked A and B.

Proposed by Councillor J. McCarroll, seconded by Councillor E. J. Byrne. Resolved—That the report of Mr. Gallagher be sent to the Blessington Steam Tramway Company, specially desiring the Directors' attention to the necessity of economy in preserving the railway, etc. Adopted.

Church Hill, Wicklow, 26th August, 1907. The Chairman and County Council of Wicklow. Gentlemen,—I beg respectfully to apply for three weeks' leave of absence, for which I have the sanction of your County Surveyor.—Your obedient servant, J. Pansing, Assistant Co. Surveyor.

Order—Allowed.

A circular letter, dated the 12th October, 1907, No. 5234/07 (V.B.) was received from the Department of Agriculture asking for a return under the Sheep Dipping (Ireland) Order, 1907, classifying the sheep, etc., dipped under the Order during the past season.

The Secretary was directed to forward, in reply to the circular, a copy of the direction given by the Council on the 26th August last for the carrying out of the Order, and to state that, as no books are kept in connection with these returns, the Committee desire to be informed whether the Department wish them to have the return asked for, prepared at the Department's expense, as no record of the numbers was kept.

A letter, dated 5th September, 1907, was submitted from the Clerk, Bray Urban District Council—enclosing an account furnished to that Council by Mr. W. J. Richardson, V.S., for examining a cow supposed to be suffering from an infectious disease—and asking the County Council to pay same under the Diseases of Animals Acts.

The Committee decided that the responsibility for this payment rests with the Urban District Council, and not with the County Council, under 49 and 50 Vic., cap. 32, sec. 9 (3) and (8).

An application was submitted from Mr. Thomas Williams, dated 31st October, 1907—for an increase in his salary as Court-keeper of Wicklow Courthouse—and was referred to the County Council, as the Committee did not see their way to deal with the same.

Applications were again received from Collectors Joseph Keane and George Evans, for increased poundage on their collections.

These having been dealt with on two previous occasions, the Committee refer the Council to their reports of the 23rd April, 1907, and the 6th August, 1907—to which they have nothing to add.

The following paying orders, which have not been sanctioned by the Local Government Board, are recommended to be cancelled:—Expenditure book No. 14. Paying order No. 832. December quarter, 1905. A. J. Gorman, £8 15s.

Expenditure book No. 16. Paying order No. 258. September quarter, 1906. Messrs. Sealy, Bryers, and Walker, £3 5s. 3d.

The Committee checked the subsidiary account for the two quarters ended 30th June, 1907, and 30th September, 1907, with the vouchers, and found same correct—and recommend a transfer of £272 17s. 8d. to credit of same.—(Signed), M. BYRNE, Chairman.

### SECRETARY'S REPORT.

To Wicklow County Council, 25th November, 1907. Gentlemen, —I wish to remind you that in spite of the promises of the Department of Agriculture that they would make a payment to the Council in lieu of the rates lost to the Rural District of Rathdrum on account of Avondale property, not one penny has ever been received from them on account of the same; every one of your letters to them, or applications, on the subject that Department treats with absolute contempt, not even deigning to acknowledge the receipt of any one of the applications made by you for the past twelve months, which in itself is gross discourtesy. Unless you take some legal step to recover this loss, which falls on the ratepayers of Rathdrum District, you will lose the amount, which is considerable, and if so you render yourself liable to surcharge. A strong representation on this treatment by the Department should also be made to the Chief Secretary and to Mr. Russell. We applied to the Treasury a year ago to include this payment in the bounty in lieu of rates, but that body replied it was not Government property, or entitled to bounty. I have been in communication with other counties on the subject, and through the Council Secretary for Wexford I hear that recently the Treasury paid for some property taken by the Department in County Tyrone. The Clerk of the Crown applied at last meeting for extra strong room accommodation for storing county records; this should be attended to. Some of the tenders on this occasion have been sent in on forms not prepared by your County Surveyor or you, and omitting very important clauses prepared to protect your Council, and approved by the Local Government Board, although every Rural District Clerk has been supplied with the Council's tender forms. The auditor desired me to draw your attention to a payment made on account of the expenses of a member of your Council attending in London about Glen Imaal Camp and the War Office. This payment, he said, was quite irregular, and a similar one in another county had been declared illegal. He did not wish to remark upon it in his report on this occasion, as he was sure when the Council's attention was drawn to it, it would not occur again. Wicklow Urban Council invariably withholds its payment of the Council's demand until we have to enforce the payment. The auditor drew attention to the importance of not letting the time pass without sending that Council a solicitor's letter of demand, as we may otherwise lose the money, as occurred in the North.—I am, gentlemen, yours faithfully, E. N. WYNNE.

Order—£50 to be expended on strong room in Clerk of the Crown's offices—to give additional accommodation for storing county records. The serious attention of Clerks of Rural District Councils to be drawn to the necessity of using only the tender forms supplied from the Council's offices.

Proposed by Councillor J. J. Reilly, seconded by Councillor John Murphy. Resolved—That the Secretary write to the Chief Secretary and to Mr. Russell, as recommended in his report about Avondale estate, and request a settlement. Passed.

Proposed by Councillor P. Short, seconded by Councillor James Byrne. Resolved—That the deputation to wait on the Department in

connection with Avondale rates consist of the Chairman, D. J. Cogan, and Mr. Joseph McCarroll, together with the County Secretary. Passed.

### COUNTY SURVEYOR'S REPORT.

Wicklow County Council; autumn quarterly meeting, 25th November, 1907. County Surveyor's report. Gentlemen,—The very wet season has caused the roads in your County to be very soft and easily cut up, but notwithstanding the bad weather, etc., the great majority of the contractors were fairly attentive to their contracts. The metal returns were fair as to quantity, but the gauge of the material supplied was generally too large.

The contractor for the road No. 843, 1,500 perches, Ballymanus to Askakeagh, has apparently abandoned his road; notices were served on him and his bails, but without effect. I recommend that this contract be cancelled.

An application has been received from Mr. Brooke, of Coollattin, asking permission to construct a footpath in Tinahely. The Shillelagh District Council approve of the work, and I suggest that permission be granted. The work will be a great improvement.

At the old chapel schoolhouse at Three-Mile-Water a new church has been erected replacing the old house, and a new porch has been constructed, which projects 9 inches (about) on the public road. This was done without your permission. The attention of the Rector was called to it. I annex the Rector's letter in reply to my objection, and request your instructions on the matter.

I beg to call attention to a Bill in Parliament in connection with Greystones Lighting, etc. It will be necessary that certain clauses be inserted in this Bill for the purpose of insuring that the roads will be properly repaired, etc., when interfered with by the Gas Company, and relieving the road authority of all responsibility in connection with breakages of pipes, etc., from road rollers, etc.—Your obedient servant, S. G. GALLAGHER.

Order—Contract No. 843, 1,500 perches, was cancelled, as recommended. Permission was granted Mr. Frank Brooke to construct a footpath in Tinahely.

Proposed by Councillor Patrick Short, seconded by Councillor William Byrne. Resolved—That no action be taken regarding slight trespass on county road by Rev. Mr. Wright at Dunganstown in erecting building; that copy of this resolution be sent to Rev. Mr. Wright. This Council consider County Surveyor acted properly in reporting infringement to the Council. Passed.

Proposed by Councillor Patrick Short, seconded by Councillor J. J. Reilly. Resolved—That the following Committee be appointed to settle the protective clauses in the Greystones Gas Bill of 1908, with plenary powers to act in the interests of the County Council as a road authority:—Messrs. Wm. Byrne, J. McCarroll, P. Short, J. J. Reilly, and J. Murphy. Passed.

Proposed by Councillor Patrick Short, seconded by Councillor J. J. Reilly. Resolved—That this Council approve of the proposed lighting of Greystones with gas, and consider it will tend to the development of the district, and be a great benefit to the inhabitants, and that the Greystones Gas Bill, 1908, is deserving of support. Passed.

Proposed by Councillor W. H. McFarland, seconded by Councillor John J. Reilly. Resolved—That Mr. Gallagher, C.E., be empowered to have the electric light installed in Bray Court-house, the expense not to exceed £10. Granted.

Proposed by Councillor W. H. McFarland, seconded by Councillor Joseph McCarroll. Resolved—That incandescent lights be put into Council Chamber and Council's offices. Passed.

The Committee considered, and recommended for payment, subject to the approval of the Local Government Board, the following arrears of rate claimed as irrecoverable:—

No. 7—Collector C. S. Sutton £29 13 5

The Secretary's estimates of the amounts required to provide for the liabilities and requirements of the Council for the ensuing financial year 1908-9 were approved of, and recommended to the Council for adoption.

An application from the Returning Officer, Mr. S. J. Doyle, for an advance of £300 to defray the expenses of the Local Government Elections, under Article 6 (3) of the Application of Enactments Order, 1898, was submitted, and ordered for payment.

Councillor E. C. Walsh having written indemnifying the County Council against costs or expenses that may be incurred through handing over to Mr. Thomas Nicholson the payments due to his late father, Thomas Nicholson, Court-keeper at Arklow, who died intestate—the Committee recommend that the paying orders be handed over accordingly.

The widow of the late road contractor, Thomas McDonald, wrote applying that payment for his contracts be made to her, he having died intestate, and enclosed letter from the two sureties agreeing to and approving of the payments being so made.

The Committee recommend that the payments be made to the widow, on receiving an indemnity against any liability in connection with the same which has been promised by Councillor McFarland.

A further application was received from Collector Joseph Keane for an increase of poundage fees.

The Committee, having already dealt with this application on four previous occasions, have nothing further to add to their previous recommendations, to which the Council is referred.

A letter from the Department of Agriculture and Technical Instruction, dated 21st December, 1907, No. 34592/1907, was received, in which the Department modified their proposal with regard to the payment of a fixed annual sum to cover all claim in connection with rates from the Avondale School of Forestry.

After considering the same, the Committee recommend that the Council adhere to their former resolution requiring the contribution for the Avondale Estate to be calculated on the basis of all other bounty in lieu of rates, which was communicated to the Department by the Council's letter of the 14th February, 1907. The Committee sees no possible grounds upon which the Council should deviate from this basis of calculation.—(Signed), WILLIAM BYRNE, Chairman. 11th February, 1908.

#### SECRETARY'S REPORT.

To the County Council at the Winter Quarterly Meeting held on the 24th of February, 1908. Gentlemen,—One of the principal matters which come before you to-day is to strike the rates for the ensuing year. As you are aware, since we struck our rates last year the Government notified us that they were withholding from this county a sum of £3,111 out of the grants we were entitled to receive. In addition to this loss of income, the demand from the Lunatic Asylum is no less than £1,323 higher now than it was last year, and we have also to provide some £400 to meet the expense of the triennial elections. These three items in themselves represent about 4½d. over the county. You will therefore not be surprised to hear, that with the exception of one rural district (Rathdrum) which had a balance to its credit, there has been a marked increase all round in the rates necessary to provide for working the county during the coming year, varying from 1½d. in the £ in Baltinglass Rural District to 5½d. in Shillelagh Rural District, and amounting to 5d. in Naas Rural District, and 2½d. in Rathdown Rural District. The figures above given are the general charges rates on "other hereditaments." As £220 odd pounds were deducted from the Agricultural Grant to certain rural districts, there is a further increase on the rate on agricultural land of 4d. in Rathdown, and 1½d. in Shillelagh. The following figures are

the rates for general charges in each district on other hereditaments:—Baltinglass 3s. 6d., gross increase including separate charges, 2½d.; Naas 4s. 2d.; Rathdown 3s. 8½d., do. Delgany and Greystones 3½d., Powerscourt and Enniskerry 5½d.; Rathdrum 3s. 5½d., do. 1d.; Shillelagh 4s. 2½d., do. 5½d. The Local Government Board has notified me that there will be no deduction made from the grants this year, but I wish to point out that the Capitation Grant for the Lunatic Asylum, which we were promised payment of within two months of the close of the financial year for which it is due, has for some time past not been paid us till 11½ months after the year has closed. We are also at a loss by having to pay out the urban districts' proportion of the union demands from two to eight months before we receive it from the urban districts. I see that the County Kildare County Council has had a petition of right drawn up by Mr. Samuels, K.C., and served on the Crown, against the deductions made from their grants on account of the deficiencies in the land purchase monies, and the Crown has entered an appearance to the same; the result will be of importance to our ratepayers. As I have seen a paragraph in a local paper apparently trying to make the county at large charges prepared by the County Council responsible for the increase of the rates, I think it but right to say that the Council's estimate for county at large charges, including provision for election expenses, is £440 less than last year, but this saving is swamped by the large increase in the asylum demand. It is hardly necessary for me to say that the War Department has not made the slightest attempt to fulfil its promises, and not a penny has been paid towards the upkeep of Glen Imaal Camp roads. As a Conference of County Council chairmen and vice-chairmen has gone into the question of Forestry in Ireland, and has forwarded a report for your consideration, I need not go into the matter, but I would draw your attention to Mr. Gill's remarks on the wasteful destruction of timber in Ireland, which he estimates has caused a loss of over four million pounds sterling within the past six or eight years. The vice-chairman of Longford County Council, who proposed the first resolution to come before you, and which I hope you will support, says—"That unfortunately the few forests we have in Ireland are fast disappearing." The chairman of Cork County Council states—"It was a great national and a great local loss that woodlands should pass into the hands of people who cut them down, and were unable to replant them." The vice-chairman of Kerry County Council says—"There could be no doubt but it was a great national loss." In the face of all this may I urge that where there is such a strong feeling arising as to the great necessity of planting timber in this country, that some step may be devised to arrest the wanton and rapid destruction of the timber which we still have in the country. I passed a beautiful wood alongside a main road here, every tree in which was marked for cutting down; if the destruction of timber in this county continues at the rate that it is being carried on at present, the County Wicklow will in a very short time cease to be a resort for tourists, thereby causing a large loss of income to the inhabitants. Surely if it be an advantage to plant additional areas, it must be worth while to preserve the few we still have.—I am, gentlemen, yours faithfully, E. N. WYNNE.

Proposed by Councillor J. McCarroll, seconded by Councillor D. Condren. Resolved—That we hereby confirm and adopt the estimates (Forms 45 and 46) now submitted to us, and determine the rates

in the £1 to be levied in each rural district in the county by means of the poor rate:—

## COUNTY SURVEYOR'S REPORT.

Wicklow County Council. Winter Quarterly Meeting, 24th February, 1908. County Surveyor's report. Mr. Chairman and Gentlemen,—The extreme wetness of the past year, combined with the weak construction of some of the roads and the timber drawing, resulted in leaving many of the roads in bad condition.

The roads subject to timber drawing are in a shocking state, and I regret to state that some of the contractors for these roads have made no effort to cope with this traffic.

The timber is in nearly all cases carried on ordinary carts with narrow tyres, which cut into the thin crust of metal forming the road surface. No proper brakes are used, apparently the braking is performed by putting chains under the wheels, and by running the traffic on the weak sides and unmetalled parts of the road.

The number of road contracts coming before you is heavy, and in some of the contracts the contractors have taken the roads at most improvident prices—notably in Shillelagh Rural District. In this district the Council in some cases decided not to give the contracts to the low tenders. Of course the necessary document stating the reasons for this course will come before you in due order.

The Committee appointed to consider protective clauses necessary in the Greystones Gas Bill met, and certain clauses were decided on. I have received a letter from the agent of the promoters stating that subject to consent of Parliament, the clauses would be inserted in the Bill.

A.—Owing to failure to obtain contract on road, 504 perches, Drumdangan 3 roads to Barnbawn pound, this road has been out of contract for the past two months, and is in a shocking state from timber traffic. I request that the Council, if possible, allow me to expend such money as would have been lawful had the road been given in my charge.

B.—I have received applications for repairs and improvements in Arklow Courthouses and the County Courthouse, and I submit them to you.

C.—I request that the order of 26th November, 1906, requesting ordinary current expenditure on repairs in the Courthouses, be renewed, as the sum placed at my disposal is practically exhausted.

D.—I submit a certain written statement made to me regarding alleged unlawful disposal of road metal in Baltinglass Rural District, and request the assistance of the Council in the matter.

An application has been made asking an extension of the terms of permissible contract obtained at last quarterly meeting—"To erect a weighbridge in Dunlavin." I cannot recommend that this application be granted.—Your obedient servant, S. G. GALLAGHER. 24th February, 1908.

The following orders were made:—Paragraph A—Apparently no precedent. Paragraph B—To be carried out. Paragraph C—Order renewed. Paragraph D—To submit to solicitor for prosecution.

The Secretary was directed to forward a copy of the following instruction to each Assistant County Surveyor, and the County Surveyor was directed to report at each meeting of the County Council whether it has been complied with:—"That the Assistant County Surveyors be directed to start the quarterly inspections of roads on 1st March, 1st June, 20th September, and 1st December, and to proceed with the various inspections promptly and steadily. That they be also

ordered to lodge the quarterly reports, fully complete in all respects, with the County Surveyor not less than twelve clear working days previous to the quarterly meeting of the district in which the roads are situated. That the assistants mention in the report on each road whether the clauses of the specification have been complied with, and, where not complied with, to so definitely state the fact and the extent of the neglect. In making recommendations to the County Surveyor for payment, etc., the sole guides to the assistants are—(1st) the state of the road, and (2nd) the fulfilment of the terms of specification."

The Secretary submitted a proposed Bill in Parliament, Session 1908, for incorporating and conferring powers on the Greystones Gas Company, and for other purposes—copy of which was lodged in the office of the County Council, Wicklow, on 16th December, 1907.

Proposed by Councillor E. P. O'Kelly, seconded by Councillor Michael Kelly. Resolved—That Mr. Pierce O'Mahony be given permission to enclose a small area in front of his house in Grange Con—the line, etc., of such enclosure to be laid out by the County Surveyor. Passed.

Proposed by Councillor E. C. Walsh, seconded by Councillor D. Condren. Resolved—That the Local Government Elections be held on Wednesday, the 3rd June, 1908. Passed.

Proposed by Councillor E. P. O'Kelly, seconded by Councillor D. J. Cogan. Resolved—That, of the 350 millions admittedly due to Ireland, we demand an immediate instalment of one million to rebuild Irish industries, and we call on the Irish Party, and the President of the Department, Mr. T. W. Russell, to take immediate steps to give effect to this resolution. Copies to be sent Mr. John E. Redmond, Mr. Asquith, Mr. Birrell, and Mr. T. W. Russell. Passed unanimously.

The reports from the deputy checkers of the various Unions on the attendance of the poor rate collectors, and the state of their collections, were submitted.

#### SECRETARY'S REPORT.

To the County Council, 25th May, 1908. Gentlemen,—I beg to report that I have had no reply from the War Department on the Council's resolution regarding the upkeep of the roads in connection with Glen Imaal Camp.

The Department of Agriculture and Technical Instruction have made no payment whatever on account of the rates due on Avondale Estate for the past four years, nor have they seen fit even to reply to the County Council's letter.

I see among the proposals sent forward from Rathdown No. 2 Rural District an unusual one numbered 294. I think it right to state that in my opinion this does not come within the powers given to the County Council by the Local Government (Ireland) Act, and further I consider the Council would be undertaking a very serious responsibility in granting any such powers as those contained in the proposal, unless with sufficient legal advice. Your County Surveyor and I beg to submit the following dates for the Council's meetings for the next twelve months—I am, gentlemen, yours faithfully, E. N. WYNNE.

Order—The Secretary to write again to the War Office and to the Department of Agriculture.

21st and 22nd May, 1908. From P. J. Kinlen, contractor to the

New Reservoir, Roundwood—applying to the County Council for their permission to do several temporary works in connection with the road leading from Roundwood to Knockraheen in order to facilitate him in his contract, and enclosing a map showing his requirements. Order—Approved. Mr. Kinlen to satisfy the County Surveyor and indemnify the County Council.

Proposed by Councillor D. J. Cogan, seconded by Councillor Daniel Condren. Resolved—That the following dates be fixed for the meetings of the Rural District Councils, of the Proposals Committee, and of the County Council, for the year 1908-9, as submitted by the Secretary in his report:—

Proposed by Councillor M. Byrne, seconded by Councillor D. Condren. Resolved—That the Clerk of the Crown and Peace be asked, if it suits his business, to give the advertisements from his office alternate years in rotation to each of the different local papers having contracts with the County Council. #### COUNTY SURVEYOR'S REPORT.

Wicklow County Council. County Surveyor's report. Spring quarterly meeting, 25th May, 1908. Gentlemen,—An unusually large number of contracts come before you for approval. None of these are of an unusual character, but certain road contracts in Rural District of Baltinglass should be specially considered—viz., those contracts relating to roads subject to military traffic (a) to which the War Department offer a small sum to keep up to the full standard of military requirements, (b) those relating to roads subject to military traffic,

towards the upkeep of which no contribution is offered. Several roads (especially in Shillelagh R.D.) have been taken at improvident prices. A resolution will come before you from Rathdown No. 2 R.D. Council—(1) relating to the opening of streets, etc., in Greystones, for the purpose of laying electric light cables, etc.; and (2) asking you to assist the Electric Light Company to obtain the necessary authority to supply electricity for public lighting. I consider it necessary to remind you that it would be well to see and fully consider the terms of any Provisional Order or Licence before committing yourselves to any sanction or approval. The works at Roundwood new Reservoir have now begun, and there is very heavy traffic over the roads leading to the works. Considerable damage has been done to road surfaces, etc., by the heavy traction engines used for transport of materials, and some of the damage has been done by the carelessness and indifference of the men employed with the engines. The War Department still continue to use heavy engines on the roads in West Wicklow, and several gulleys are broken. These gulleys were good enough for ordinary traffic, and I wrote requesting the Military Authorities to repair them. Some three weeks passed before I got an acknowledgment to the effect that the matter was referred to Superior Authority, but up to this no repairs have been carried out. Of course I have placed a watchman on the site of the damaged works.—Your obedient servant, S. G. GALLAGHER.

Adopted.

A memorial, dated 22nd May, 1908, was received from road contractors John Manley, Bernard Meath, Patrick Cullen, John Brady, and John Smith—pointing out the injustice they suffer from by their roads being torn up by the heavy traction engines and waggons belonging to Messrs. Thompson, Dublin, drawing stuff to the new Waterworks at Roundwood, and asking to be allowed extra compensation, or to have the contracts cancelled, as they could not possibly keep their roads to the satisfaction of the County Surveyor at their contract prices.

Proposed by Councillor D. Condren, seconded by Councillor Wm. Byrne. Resolved—That the County Surveyor apply to the owners of traction engines for payment of damages done to the county roads by traction engines, and that he use his discretion in selecting a case for prosecution in the event of payment being refused. Passed.

The Revisions of Valuations required were submitted, and the following letter, No. 49,049, dated 11th July, 1908, from the Valuation Office, read:—

No. 49,049.

General Valuation and Boundary Survey of Ireland,

6 Ely place, Dublin, 11th July, 1908.

Sir—I am directed by the Commissioners of Valuation to

acknowledge the receipt of your letter of the 8th instant, and to state that the lists of cases requiring revision referred to therein have been duly received. If your Council require them for their meeting in August, the Commissioners will be glad to let you have them then, provided they are returned at your earliest convenience.

Regarding the change of name from Catherine Toole to Major Cunningham, I am to state that the Revising Valuer was informed by Mrs. Toole that the plot of land, No. 5 in the townland of Knockadreet, was not included in her holding when her rent was fixed, and that it was then in the hands of the landlord.—I am, sir, your obedient servant,

ALFD. BECKETT, Chief Clerk.

To the Secretary, Co. Council of Co. Wicklow, Wicklow.

The Secretary explained that the Revision Lists had been sent forward in consequence of an order received from the Valuation Office in the beginning of July.

Councillor J. J. Reilly read a reply Miss C. Toole received in 1906 from the Valuation Office, and complained that the Secretary had had her name removed from the lists and replaced by R. C. Cunningham.

After a very lengthened discussion on the subject, the Chairman suggested—in order to settle the question raised and to close the matter once for all, so that it might not again take up the time of the Council, as it had done in the past—that if he were given the letter addressed to Catherine Toole, which Councillor Reilly had read, he would himself get from the Valuation Office copies of all correspondence connected with it, to lay before the next meeting, if that would satisfy the Council. Councillors J. McCarroll and J. J. Reilly said if he would add “and personal visits of the Secretary” as well as “correspondence,” it would satisfy all they required.

Proposed by Councillor M. Byrne, seconded by Councillor E. P. O’Kelly. Resolved—That we have considered the changes and alterations in the Valuation Lists, as given in the accompanying Revision Sheets, and request the Valuation Office to have the Lists revised accordingly. Passed.

Proposed by Councillor E. C. Walsh, seconded by Councillor E. J. Byrne. Resolved—That the County Council be appointed Pension Committee for County Wicklow for the purpose of carrying out the Old Age Pensions Act, and that Saturday, the 5th September, be appointed for first meeting of Committee at the hour of 1 o’clock. Passed.

St. Kevins, Baltinglass, 24th August, 1908.

Gentlemen—In accordance with your instructions I (attended by the County Surveyor) waited on the Secretary of State for War, in reference to the cost of the upkeep of the Glen Imaal roads. The interview took place on the 13th July, and was very difficult to arrange. The Secretary of State was attended by Mr. Acland and his Secretaries; your deputation was accompanied by Messrs. John and Wm. Redmond and P. O’Brien. After a long discussion it was agreed that the Secretary of State should nominate a competent person to inspect the roads in conjunction with the County Surveyor, and on the ground fix and agree to a fair price for the upkeep of these roads—in the event of failure on the part of these gentlemen to agree as to the price, the matter is to be referred to an arbitration.

EDWARD P. O’KELLY.

## ANNUAL REPORT ON DUBLIN AND BLESSINGTON TRAMWAY.

County Surveyor’s Office, Courthouse, Wicklow,  
24th day of August, 1908.

The County Council, Wicklow.

Gentlemen—On the 21st inst. I completed the annual inspection of the Dublin and Blessington Tramway.

The line presents the usual grass and weed grown appearance. However, as much of the work of re-sleeping is in progress in the County Wicklow section, some of the weeds may be removed.

Large sections of the line near Crosschapel have been re-sleepered, and the old fastenings replaced by those of better and newer type. The new sleepers do not appear to have been in any way treated with preservatives, and as the old ballast, laden with vegetable matter, etc., is still retained, the life of these sleepers cannot be of long duration. The decay previously noted of many of the longer laid of these untreated timbers is now very marked.

The fastenings (except where on new-laid sleepers) are mostly loose, especially at the rail joints.

The drainage of the line is still defective, and near Blessington most of the sleepers at the joints appear to be, after wet weather, in pools of water.

On my visit to the depot at Templeogue I found the water tank leaking badly. However, I understand some alterations and improvements in the water supply are in contemplation, and possibly this tank may be no longer of use.

Engine No. 3 was undergoing complete repairs, and wagon No. 3 was in for re-construction. The rolling stock generally appears to be maintained in good working order.

Two new weighbridges have been erected, and I understand more accommodation for loading sheep is contemplated at Blessington, which would be an improvement.

Your obedient servant,

S. G. GALLAGHER.

Approved.

County Surveyor’s Office, Courthouse, Wicklow,  
24th August, 1908.

Gentlemen.—During the past quarter, ending 30th June, 1908, the contractors for the various roads were fairly attentive to their works. Much trouble is caused by the road surface breaking up from the dry weather; some of the roads being in a very bad, loose state from this cause, although the contractors appear to be doing their best.

In accordance with your instructions I attended on the Chairman on his mission to London in the matter of the Glen Imaal roads.

I have received an application from Arklow Harbour Board for permission to excavate the side of the road at the Quays, for the purpose of extending and improving the car way to the river.

Application has also been made by the occupier of Ballyteige House, Rathdrum, for permission to alter the boundary fence at the roadside at Ballyteige and replace same by wall 9ft. high.

Many complaints have been made to me by contractors and others as to the damage done by motor cars in loosening the road surface. I fear that these complaints are well founded, but, unfortunately, owing

to the construction of the roads, even if tarred this damage would still continue to be done.

Your obedient servant,

S. G. GALLAGHER.

Order—Paragraph 3. Permission granted.

## BUSINESS:

- 1—To receive a Report from your Solicitor, County Surveyor, and Secretary on the draft Provisional Order about to be applied for by the Greystones Electric Lighting Co., Ltd.
- 2—To consider and deal with an application from the Greystones Electric Lighting Company, Ltd., for the County Council's consent to their application for a Provisional Order for the purpose of carrying out Electric Lighting in the Greystones district, opening up roads, laying of power cables, etc.

Courthouse, Wicklow, 4th September, 1908.

## "RE GREYSTONES ELECTRIC LIGHT COMPANY."

Gentlemen—I beg to report that this matter came before the County Council on the 15th June last, when they decided to take no action in the matter owing to the fact that the Maps and a Draft of the Provisional Order had not been lodged with the Secretary to the Council. Since that date the Maps have been lodged, but a Draft of the Provisional Order was not lodged up to the 4th of the present month, and on that day a draft of the Provisional Order was duly lodged, a copy of which is now placed before you. The notice of intention to apply for a Provisional Order sets out that the application will be made to the Board of Trade on or before the 21st December next, and that the usual notices will be published on or before the 30th November next, consequently the Company cannot take any decisive step until the times already mentioned. We consider that the question of consenting to the Provisional Order is one that involves some difficulty, and we deem it advisable that the opinion of Senior Counsel should be taken upon the whole question, and we also consider that a cash deposit is absolutely essential instead of a paper indemnity. The Council could not give a consent to the Provisional Order at their Meeting to be held on the 5th, inasmuch as there must be one month's notice of the Special Meeting and of the purposes thereof. The Greystones Electric Light Company will not be prejudiced in any manner by the fact of any delay being occasioned. It is right to add that your Secretary only received the formal application for the necessary consent on this date (the 4th inst.), and the said application is now placed before you. Although at your Meeting on the 15th June last

the attention of the representatives of the Company was called to this, and that the Council could not take any step until the said application and a Draft of the Provisional Order were before the Council.—I remain, gentlemen, your obedient servant,

J. H. McCARROLL, Solicitor.

The Secretary's Report on the application of the Greystones Electric Light Company for consent to an application for a Provisional Order:—

Gentlemen—Although the County Council informed the above Company so long ago as the 15th June last that they could take no steps in connection with the matter of their application until the Company had lodged (1) a copy of the proposed Draft Provisional Order, and (2) a formal application for the consent of the County Council, I only received these two documents or either of them this day. I have, therefore, had no opportunity whatever of going through the provisions of the same with your County Surveyor.

I would, however, point out that the County Council have no legal power to deal with the application of the Company at to-morrow's meeting, as the Act requires one month's notice to be given of a Special Meeting to be held for that purpose.

Also, having in view the position of the County in connection with the Dublin and Blessington Tramway, and with the Bray and Enniskerry Light Railway, I would strongly urge the necessity in the present case of having a proper deed executed defining the Council's requirements and completely safeguarding the ratepayers, and having a sufficient cash deposit made by the Company to ensure the compliance with said deed.—Yours faithfully,

E. N. WYNNE.

4th September, 1908.

County Surveyor's Office, Wicklow, 5th September, 1908.  
Chairman and Members, County Council, Wicklow.

Gentlemen—On the 4th inst. I received a copy of the Draft Provisional Order in the matter of the Greystones Electric Lighting Co., Ltd. I have also seen a Map showing the roads or streets in Greystones proposed to be opened in laying mains, etc.

As far as I have had time to look into the Provisional Order, and the Act therein referred to, I have done so, and I think Clauses should be inserted—

(1) To relieve the Councils against liability for any damage to the Company's property which might occur by reason of the works which may be at any time carried out by the Councils in or on the roads or streets mentioned in the second and third Schedules.

(2) That Special Clauses should be inserted to ensure the proper restoration of the surfaces to my satisfaction.—Your obedient servant,

S. G. GALLAGHER.

3rd September, 1908. From Messrs. Bennett, Thompson, and McNeill, Solicitors, 3 Suffolk street, Dublin—enclosing the Draft Provisional Order which the Greystones Electric Light and Power Company are seeking to obtain from the Board of Trade, and also enclosing the formal application from the Company asking for the Council's consent to same.

Proposed by Councillor D. J. Cogan, seconded by Councillor E. J. Byrne. Resolved—That the Secretary be hereby directed to summon a Special Meeting of the County Council, to be held on the date of our next Quarterly Meeting, to consider the application of the Electric Lighting Company for Greystones for the consent of the Council to a Provisional Order to enable the Company to carry out the undertaking in the Greystones district. In the meantime, the County Solicitor, the County Surveyor, and the County Secretary to report on the Draft Order, and that their Reports be printed and circulated among the Members of this Council previous to said Special Meeting. Mr. McCarroll to be hereby empowered to obtain Senior Counsel's opinion on the question raised on the Order. Passed, nem con.

Order—Mr. Clancy, K.C., to be asked to give an opinion. No. 48446/1908; Wicklow County. Local Government Board, Dublin, 3rd September, 1908, Enclosing copy of the Auditor's Report on his audit of the Council's Accounts for the half-year ended 31st March, 1908, as follows:—

(COPY.)

No. 48,446/1908. Wicklow County. August 30th, 1908.

Gentlemen,—I have the honour to report that I have audited the Accounts of the County Council of Wicklow for the half-year ended March last, and I forward, herewith, a certified abstract thereof, in pursuance of your Order in that behalf made. I found that in the Separate Charge Account, No. X (Patrick Miley's criminal injury) the Urban Districts of Bray and Wicklow should have been debited with £4 7s. 0d. and 19s. (shillings), respectively, their proportion of the amount of compensation awarded, by a clerical book-keeping error these charges were omitted to be debited to the said Urban Districts, although the said amounts were duly received from the Urban Districts. This book-keeping omission will be rectified in the next half-year's accounts in the county ledger. The accounts were prepared and submitted for audit in a very satisfactory manner, and no item of expenditure calls for any disallowance on my part.—I have the honour to be, Gentlemen, your obedient servant, C. D. Barry. The Local Government Board, Dublin.

No. 47320/1908; Wicklow County. Local Government Board, Dublin, 29th August, 1908—acknowledging the Council's letter notifying the appointment of the entire Council as the Local Pensions Committee under the Old Age Pensions Act, 1908.

The Chairman stated that, in accordance with the request of the Council at its previous meeting, he had obtained from the Valuation Office copies of the entire correspondence in connection with the change of name on Holding No. 5 in the townland of Knockadreet from Catherine Toole to C. R. G. Cuninghame, and read the letters as follows:—

(COPY.)

Baltinglass, 25th August, 1908.

Letter 41463. 6th July, 1906.

Dear Sir—A letter was sent on the 6th July, 1906, to Catherine Toole, in which it was stated that the change of rating from her name was made on the application of the Secretary of the County Council. The number of the letter is 41463. As friction has arisen between

some members of our County Council and our Secretary in consequence of this letter, I will thank you to let me have as soon as you can copies of the correspondence between your office and our Secretary in connection herewith, that we may have an end to this business. I will also thank you to let me know if there is a record of any personal visits made by our Secretary, Mr. E. N. Wynne, to your office, and if you have any record of same to let me have it. This letter is written by me at the request of our Secretary, and those members who consider he interfered unnecessarily in the matter. Thanking you in anticipation, I am, yours truly, Edward P. O'Kelly, Chairman Wicklow Co. Council. To the Secretary, General Valuation and Boundary Survey, Ireland Office, 6 Ely place, Dublin. P.S.—As we shall have a special meeting of our Council on the 5th proximo, I will thank you for an early reply.

General Valuation and Boundary Survey of Ireland, 6 Ely Place, 28th August, 1908. No. 49557. Sir,—I beg to acknowledge receipt of your letter of 26th instant, and, in accordance with your request, I enclose copies of the correspondence between the Wicklow County Secretary and this office respecting Catherine Toole's holding in the Townland of Knockadreeeth. Please note that names are changed in the Valuation Lists by this Department on the authority of the lists supplied by Secretaries of County Councils merely for the convenience of the rating authorities in making out their rate books, and that this forms no part of the duty of the Department, as defined by statute. The holdings are identified by the numbers on the maps. As to your inquiry, respecting Mr. Wynne's visits to this office, I believe he has been here on a few occasions on official business, but there is no record kept of such visits. I am, sir, your obedient servant, John G. Barton. The Commissioner of Valuation. To E. P. O'Kelly, Esq., J.P., Baltinglass.

Knockadreeeth, Roundwood, Co. Wicklow, July 14th, 1906. Rathdrum Rural District. Electoral Division of Newcastle Upper, Townland of Knockadreeeth, Barony of Newcastle. Rate No. 847. Commons. Area 6a. 0r. 29p. To The Commissioner of Valuation, Valuation Office, Ely Place, Dublin. Dear Sir,—Would you please let me know by whose authority was my name taken off the rate book behind my back, and the following name put on the rate book instead of me for the above Rate No. and area? C. R. G. Cunningham. This latter name appears on the Demand Note which the Rate Collector is now issuing. Your obedient servant (Signed) Catherine Toole.

General Valuation Office, 16th July, 1906. No. 41463. Madam,—I am directed by the Commissioner of Valuation to acknowledge receipt of your letter of the 14th instant, and to inform you that the change of name to which you refer was made at the request of the Secretary of the County Council of County Wicklow.—I am, Madam, your obedient servant, (Signed) W. M. Elliott (for Chief Clerk). To Mrs. Catherine Toole, Knockadreeeth, Roundwood, Co. Wicklow.

No. 41463. Knockadreeeth, Roundwood, Co. Wicklow, July 25th. To the Commissioners of Valuation. Dear Sir—Please insert my name in the Valuation List instead of C. R. G. Cunningham. The Secretary of the County Council had no right to have my name taken off the Rate Book.—Your obedient servant (Signed) Catherine Toole.

No. 41463. General Valuation and Boundary Survey of Ireland, 6 Ely place, Dublin, 1st August, 1906. Madam—With reference to your further letter dated 25th ultimo (received on the 30th ultimo),

I am directed by the Commissioner of Valuation to inform you that this Department has nothing to do with the names in the Rate Book. This Book is made up by the rating authorities (the County Council).—I am, Madam, your obedient servant (Signed) W. M. Elliott (for Chief Clerk). To Mrs. Catherine Toole, Knockadreeeth, Roundwood, County Wicklow.

Edward N. Wynne, Secretary to the County Council, Court-house, Wicklow. The Chief Clerk, General Valuation Office, Ely place, Dublin, 15th August, 1907. Sir—In the Valuation Lists received from your office on the 1st March, 1906, the name of Catherine Toole, No. 5, O.S. 18, in Knockadreeeth Townland, Electoral Division of Upper Newcastle, appeared changed to that of R. C. Gun-Cunninghame. On the lists received on the 1st March, 1907, the same holding appears in the name of Catherine Toole again. Since then a Sheet of Alterations on Appeal was received in April last, in which the name of Catherine Toole again appears changed for that of R. C. Gun-Cunninghame. Would you kindly let me know the grounds on which each of these three changes were made, and whether Catherine Toole received any intimation before the changes were made? Thanking you in anticipation.—I am, Sir, your obedient servant (Signed) E. N. Wynne.

No. 45824. General Valuation and Boundary Survey of Ireland, 6 Ely place, Dublin, 16th August, 1907. Sir—With reference to your letter of the 15th instant, I am directed by the Commissioner of Valuation to reply as follows:—

(1) On the 28th June, 1905, one of the usual name change lists bearing your signature was received, requesting that the name Catherine Toole should be replaced by Major Gun-Cunninghame's in respect of lot No. 5, Knockadreeeth. Attached to this list was a letter from Major Gun-Cunninghame's Agent, a copy of which is sent herewith.

The name change was duly carried out on the representation made in the list referred to, and appeared in the revised Valuation Lists issued to you on the 1st March, 1906.

(2) On the 28th June, 1906, another name change list, signed by you and countersigned "Joseph Keane, Rate Collector," was received. It represented that Catherine Toole was the occupier vice C. R. G. Cunningham, and this further change was made on the authority of the list referred to and issued on the 1st March, 1907.

(3) Your letter of the 29th March last forwarding the usual appeals against entries in the revised Valuation Lists issued on 1st idem was accompanied by letters of the 11th and 13th March from Mr. C. L. Townshend, representing that Catherine Toole had been erroneously entered as occupier of the plot referred to.

As a consequence of these letters of appeal, the name "C. R. G. Cunningham" was restored, the Commissioner of Valuation issuing his decision on the 20th April, 1907, after consideration of the report made to him by the Revising Valuer who visited the holdings. No intimation other than the public notices issued by you is given to persons affected by changes in the Valuation Lists.—I am, Sir, your obedient servant (Signed) W. M. Elliott (for Chief Clerk). To the Secretary, Co. Council of Co. Wicklow, Wicklow.

hame. Description:—Area Statute: Common, 6a. 0r. 29p. P.L. Valuation: Land, 10s.; house, nil; total, 10s.

Dear Sir—Above we give a copy of the Poor Law Valuation. The land in question is bog, and is in the owner's hands. Please, therefore, get the Reviser to put Major Gun-Cunninghame's name in place of Catherine Toole's, and oblige.—Yours truly (Signed) Townshends. The Secretary, Wicklow County Council, Wicklow.

Edward N. Wynne, Secretary to the County Council, Court-house, Wicklow. The Chief Clerk, General Valuation Office of Ireland, 6 Ely place, Dublin. 19th August, 1907. Sir—I beg to thank you for your reply to my letter of the 15th inst., re change of name in the Valuation Lists. Would it be too much to ask if you would kindly inform me whether Catherine Toole was present and had an opportunity of expressing her views to the Revising Valuer who visited the holding as you state? I ask this to complete the information desired by the County Council.—I am, Sir, your obedient servant (Signed) E. N. Wynne.

No. 45854. General Valuation and Boundary Survey of Ireland, 6 Ely place, Dublin, 20th August, 1907. Sir—With reference to your further letter of the 19th instant as to the insertion of the name "C. R. G.-Cunninghame" as occupier of lot No. 5, Knockadreeeth, I am directed by the Commissioner of Valuation to inform you that the Revising Valuer interviewed Catherine Toole in April last and elicited the necessary information from her before reporting to him on the matter.—I am, Sir, your obedient servant (Signed) W. M. Elliott (for Chief Clerk). To the Secretary, County Council of County Wicklow, Wicklow.

Edward N. Wynne, Secretary to the County Council, Court-house, Wicklow. The Commissioner of Valuation, Ely place, Dublin. 8th July, 1908. Sir—In reply to your letter of yesterday, I am sending by this post under separate cover the Lists of Revisions received from the rate collectors and from ratepayers. The same have been dealt with by me in the same way as on every previous year, they have lain open in my office for inspection in accordance with the Statute, and I brought them before the Council for their consideration and recommendations; but on the question of why the name of Catherine Toole was changed to that of Major Cuninghame on appeal, the Council postponed the consideration of the lists till the whole question had been inquired into at the August Meeting. I have more than once recommended that the lists be sent forward, as otherwise they would be late, but was directed not to do so till after the August Meeting. I am now forwarding them in accordance with Act, but have no recommendation of the Council to send with them.—Yours faithfully (Signed) E. N. Wynne.

No. 49049. General Valuation and Boundary Survey of Ireland, 6 Ely place, Dublin, 11th July, 1908. Sir—I am directed by the Commissioner of Valuation to acknowledge receipt of your letter of 8th instant, and to state that the lists of cases requiring revision referred to therein have been duly received. If your Council require them for their meeting in August, the Commissioner will be glad to let you have them then, provided that they are returned at your earliest convenience. Regarding the change of name from Catherine Toole to Major Cuninghame, I am to state that the Revising Valuer was informed by Mrs. Toole that the plot of land No. 5 in the townland

of Knockadreet was not included in the holding when her rent was fixed, and that it was then in the hands of the landlord.—I am, Sir, your obedient servant (Signed) Alfred Beckett, Chief Clerk. To the Secretary, County Council of County Wicklow, Wicklow.

No. 49557. General Valuation and Boundary Survey of Ireland, 6 Ely place, Dublin. Sir—I beg to acknowledge receipt of your further letter of the 29th instant. As to the statement in my letter of the 16th July, 1906, that the change of name from "Catherine Toole" to "C. R. G.-Cuninghame" was made at the request of the Secretary of the County Council, I have to inform you that this "request" was not, as your Council assume, made by letter. The Secretary of your Council forwarded in the ordinary course to this Office a list of Name Changes, copy of which is attached. This was received here on the 28th June, 1905. As you will observe, the last entry relates to Mrs. Toole's case and constitutes the "request" to which reference is made.—I am, Sir, your obedient servant, John G. Barton. The Commissioner of Valuation. To E. P. Kelly, Esq., J.P., St. Kevins, Baltinglass. Please note: The County Council, under Sec. 6 of 23 Vic., Cap. 4, have power to change names in the Valuation Lists when making their rate, if such are necessary, to enable them to make a valid rating, but all such changes must be forthwith reported to me.

Proposed by Councillor E. P. O'Kelly, seconded by Councillor Michael Byrne. Resolved—That we consider the correspondence from the Commissioners of Valuation settles the matter finally concerning the change of the rating from the name of Catherine Toole to C. R. G.-Cuninghame, it having been made in the usual course.

As an amendment, it was proposed by Councillor Joseph McCarroll, seconded by Councillor J. J. Reilly—That the further consideration of this subject be at present postponed till our next meeting, and that Miss Catherine Toole be requested to attend.

A show of hands being taken, the Chairman declared the amendment lost by 7 votes to 6. The resolution was then carried by 9 votes to 6.

Proposed by Councillor Patrick Short, seconded by Councillor William Byrne. Resolved—That the County Council of Wicklow be represented at Inquiry in Arklow to consider Petition to constitute Arklow an Urban Sanitary Authority; to safeguard, if necessary, the interest of County at Large, and to see that in the allocation of the Financial Relations between the two Councils, the County at Large shall not be placed in a less favourable position than it is at present in the case of Wicklow Urban Council. #### SCHEDULE A.

##### GLENDALOUGH.

1. The road between Laragh Bridge and the Upper Lake at Glendalough.

##### NEWTOWNMOUNTKENNEDY.

2. So much of the road from Bray leading through Newtownmountkenedy village to Ashford as extends between the point where the said road meets the boundary between the Townlands of Kilmacullagh and Mountkenedy Demesne and the point where the said road meets the boundary between the Townlands of Kilmacullagh and Killadreenan.

Proposed by Councillor E. C. Walsh, seconded by Councillor John Murphy. Resolved—That the existing Motor Car Acts do not sufficiently safeguard the public against disorderly and unscrupulous motorists who are liable to prosecution only when they commit offences in the county in which they reside, or in an adjoining county, as has been decided in the case of the Great Southern and Western Railway Company v. Leyden, and that we invite co-operation in bringing pressure on the Government to have the law so amended as to afford ordinary protection to the travelling public; and that copies of

this resolution be sent to each County Council in Ireland, to Mr. J. E. Redmond, M.P.; our Members of Parliament, and to the Attorney-General for Ireland, and the Local Government Board. Passed.

Irish 8/446 (L.B.) War Office, London, S.W., 21st September, 1908—stating that the Army Council had made arrangements with the Office of Public Works, Dublin, for the appointment of a Surveyor of standing to make full local inquiries on behalf of the War Office in connection with the upkeep of roads in the neighbourhood of Glen Imaal, with a view to negotiating the terms of a settlement equitable to all parties, and that the gentleman selected for this purpose is Mr. J. H. Moore, President of the Institute of Civil Engineers, Ireland.

Proposed by Councillor Patrick Short, seconded by Councillor William Byrne. Resolved—That we call on the Dublin and South Eastern Railway to restore the 3 o'clock train from Harcourt street, and the 6 o'clock from Wexford, and we do this in the interests of the general public, and in the interests of the shareholders themselves. Passed.

Collector George Evans applied to be paid for collecting rates by a poundage fee instead of by a salary.

Your Committee refer to their four previous Reports and recommendations in the matter, to which they have nothing to add.

## COUNTY SURVEYOR'S REPORT.

Wicklow County Council.

Quarterly Meeting, 30th November, 1908.

Gentlemen,—I beg to call your attention to a Bill which the Alliance and Dublin Gas Company intend to apply for in the Parliamentary Session, 1909. In this Bill the Gas Co. seek to obtain powers to extend the limits of supply to "Delgany in the Barony of Rathdown, and Kilcoole in the Barony of Newcastle, and County of Wicklow"; it is most necessary you should take the precaution to see that satisfactory clauses are included to make certain that the roads will be left in thorough repair, and that you will be relieved from any liability for breakage or injury to the gas mains.

The works at the New Reservoir at Roundwood are causing heavy traffic on the roads leading to the works, and as some of these roads are at best but suited to light local traffic, the result of this heavy work is causing these weak roads to get greatly cut up. Some of the road contractors appear to have done their best to keep the roads at least safe, and, in doing so, have undergone much hardship. Others, especially those whose roads get least of the extra traffic, make it an excuse not only to abandon the parts of the roads so cut up, but also to neglect all their other contracts. If the Railway Clauses Act has been embodied in the Dublin Corporation Waterworks Provisional Order, 1904-5, it will be possible to cause Dublin Corporation to repair or contribute to the repair of these roads.

I regret to report that the contractors for the following roads are persistently neglecting their contracts:—

Baltinglass No. 1.

Road No. 3. 770 per., Crossnoccoole to Highpark road. John Foley.

Road No. 59. 447 per., Woodfield 3 roads to Talbotstown Lower 3 roads. Thomas Byrne. Rathdrum.

Road No. 8. 2,011 per., Laragh to Mountain Lodge. Michael Doyle.

Road No. 12. 1,152 per., Ballinaslaught to Waters' bridge. John Brady.

Road No. 15. 875 per., Five-mile-Point road to Leabeg bridge. John Duffy.

Road No. 40. 771 per., Ballydowling to Glenwood (Ballinacor N. bounds). Laurence Byrne.

Road No. 53. 1,452 per., Rathnew to Five-Mile-Point. G. Byrne.

NOTE.—Nos. 40 and 53 are subject to some timber traffic, but sufficient attention is not paid to these roads by the contractors.

Road No. 82. 664 per., Springfarm to Kilquade Fingerpost. John Brady.

Road No. 84. 960 per., Ashford to Miltown road. Loughlin Cullen.

Road No. 106. 238 per., Miltown cross-roads to Ballybeg cross-roads. M. Connor.

Road No. 116. 1,284 per., Newtown-Mt.-Kennedy to Vartry bridge. John Brady.

Road No. 152. 470 per., "Kilmullen Lane." John Brady.

Road No. 48a. 504 per., Drumdangan Railway bridge to Barnbawn three roads. Patrick Brangan.

This road is subject to heavy timber traffic, but is let at an enhanced price (5s. per perch), yet the contractor does not appear to pay a reasonable amount of attention to the Contract.

Rathdown No. 2.

738 per., Deacon's Lane. John Lamb. Index 17.

796 per., Calary to Agour Gate. Wm. Gaskin. Index 18.

In Shillelagh R. D. the contractor for road 47, 790 perches, has not been attending to his contract, and has, I understand, left the County; however, a brother of his is (to avoid getting the sureties into difficulties) doing the work. Of course this man cannot be paid on the work he is doing, which is a hardship. In general, the contractors have been very dilatory in carrying out their contracts, and the metal supply is most unsatisfactory, both as to quantity and quality.—Your obedient servant,

S. G. GALLAGHER.

No. 64827/1908; Wicklow County. Local Government Board, Dublin, 27th November, 1908. Sir,—The Local Government Board for Ireland have had before them your letter of the 14th ultimo, transmitting a copy of a resolution recently adopted by the County Council of Wicklow, requesting the Board to make regulations limiting the speed of Motor Cars between Killaheen Gate and Glendalough Upper Lake, to six miles an hour; and, in reply, I am to state that the Board do not think that on a country road such as the road in question, they can properly restrict the speed of motor cars to a lower rate than that at which the ordinary hack cars usually travel over the flat. The Board have tested the trotting speed of an average hackney car, and they find that these cars can cover a mile in about five minutes without difficulty. The Board believe that at this rate a motor car is under such complete control that any danger to the public on a country road

is out of the question.—I am, sir, your obedient servant, J. E. Devlin, Assistant Secretary. The Secretary, Wicklow County Council.

Proposed by Councillor D. J. Cogan, seconded by Councillor E. J. Byrne. Resolved—We again respectfully beg to point out to the Local Government Board that they have exceeded their powers in fixing a greater limit of speed than that fixed by Section 9 (1) of the Motor Car Act, 1903, viz.—ten miles an hour, and notwithstanding the ridiculous test applied in their letter of the 27th inst., we again desire to repeat that a limit considerably under the maximum prescribed by the Act is absolutely necessary for the public safety between Killafeen Gate and Glendalough, and we hereby request the Local Government Board to vary their Regulations accordingly. Passed.

No. 25132/1908. Department of Agriculture, Dublin, 9th September, 1908; Enclosing £71 2s. 5d., being the Department's contribution towards rates on Avondale Forestry Station for the year ending 31st March, 1909.

#### BUSINESS.

To consider and deal with an application from the Greystones Electric Lighting Company, Ltd., for the County Council's consent to their application for a Provisional Order, for the purpose of carrying out Electric Lighting in the Greystones district, opening up roads, laying of power cables, etc.

Letters, dated 19th October, and 24th November, 1908, were submitted from Messrs. Bennett, Thompson and McNeill, solicitors, 5 Suffolk street, Dublin, lodging the necessary Plans and Documents, etc., on behalf of the Electric Lighting Co.

#### GREYSTONES ELECTRIC LIGHT. PROPOSED PROVISIONAL ORDER, SECRETARY'S REPORT.

Gentlemen,—As in my former report to you in this matter, I recommended that a proper deed be drawn up and executed, defining the County Council's requirements and powers and safeguarding the ratepayers. That a sufficient cash deposit of £500 be required from the Company to ensure compliance with said deed, and, in the event of the Company becoming bankrupt or failing to complete or carry out the scheme, to cover the entire cost of removing all obstructions, erections, underground cables, etc., which the Company may leave behind it (as in the case of the Enniskerry Railway), and of restoring all roads, works, etc., to the condition they were in before the Company interfered with them. Of course, the Company would receive all interest

accruing from time to time upon such deposit. A personal security I would consider perfectly worthless in the case. In paragraph (7) and in Schedule 4 of the proposed Provisional Order, I observe it provides that the price per unit shall be 8d. I consider this an excessive price. In Bray, where we hear complaints of the price, they only charge 6d. per unit, and I understand elsewhere it is considerably less. The County Council should insist on the maximum price being fixed at least as low as the charge in Bray.—I am, gentlemen, yours faithfully  
E. N. Wynne.

The Council having inserted a sum of £500 as the cash deposit required in paragraph 2, the report was adopted.

GREYSTONES ELECTRIC LIGHT.  
PROPOSED PROVISIONAL ORDER.  
COUNTY SURVEYOR'S REPORT.

In accordance with your instructions I have examined the proposed Provisional Order sought by the Greystones Electric Light and Power Company, Ltd.

In the proposed Order it is intended to incorporate the Schedule to the Electric Lighting (Clauses) Act, 1899, and in the latter Act are incorporated certain Clauses of the Gasworks Clauses Act, 1847, and of the Gasworks Clauses Act, 1871.

It is proposed to except Clauses 83 and 84 of the Schedule to the Electric Lighting (Clauses) Act, 1899; the effect of excluding clause 84, which contains modifications as to the application of the Schedule to Ireland, had best be dealt with by your Solicitor.

I recommend you to consider the advisability of causing modifying Clauses to be introduced into the Provisional Order in reference to the following:—

- 1—That where a notice is to be sent by post by either party, such notice be sent by registered letter, addressed to the Secretary to either party at registered offices, and such notice shall be deemed as fully served.
- 2—That Clause 9 of the Gasworks Clauses Act, 1847, be so modified as to give the County Council absolute and sole authority in the matters therein concerned.
- 3—That Clause 10 of the same Act be so modified as to cause the Undertakers, at their own cost, to continuously maintain and repair any portion of any County road, street, or other County work disturbed or interfered with by the Undertakers, until the County Surveyor certifies in writing that such work has been fully restored and made good to his complete satisfaction, and that the Undertakers, within 36 hours after receiving notice in writing from the County Surveyor so to do, shall carry out any such repairs to such work in the manner and with such materials as the County Surveyor may specify in said notice.
- 4—Clauses 19 and 20 of the same Act to be so modified as to exclude any damage or interference caused by the Co. Council, its Officers, Contractors, or Servants in the discharge of their duties in carrying out works; also that Clause 38 of the Gasworks Clauses Act, 71, be similarly modified.

- 5—That wherever a notice is to be served on the Co. Council by the Undertakers, "one month" before commencing any operation, etc., that such period be altered to, say, 14 days before any quarterly, annual, or other fixed meeting of the Co. Council, and that where such meeting through any cause falls through, notice to be forthwith sent to the Undertakers to that effect and the original notice be deemed not to have effect until, say, 14 days before the next meeting of the Co. Council, and in any case the Undertakers are not to commence any operation, etc., until 7 days after the meeting of the Co. Council at which any such notice is considered.
- 6—That Clause 14, sec. 1. sub-sec. c. of the Schedule to the Electric Lighting (Clauses) Act, 1899, be so modified as to make the decision of the Co. Council final.
- 7—For the purposes of this Order, wherever the term "sewer" is used it shall be understood for the purposes of this Order that where the "sewer" carries road water or is used for draining the road that the sewer be dealt with as a County work.
- 8—That Clauses 16, 17, 18, of the Schedule to the Electric Lighting Clauses Act, 1899, be so modified as to ensure that if at any time on any road, street, etc., or work, which is at that time being repaired or maintained by the Co. Council, the Co. Council resolve to execute any work, the Undertakers, on receiving, say, 30 days' notice from the Co. Council, shall, at their own cost, and within, say, 30 days after receiving such notice from the Co. Council, remove, alter, or change any pipes, wires, drains, sewers, box, pillar, post, or other work, to such position as they may find convenient, and which must be approved of by the Co. Council, and that the Undertakers shall, at their own cost, make such temporary provision as may be necessary to carry on their operations, etc., until the said permanent alterations of their pipes, wires, etc., are complete. Also that wherever in any of their operations at any time they interfere with any County work they shall, at their own cost, make such temporary arrangements to carry on the duty of such County work, as may be approved of by the Co. Council.
- 9—That Clauses be introduced relieving the Co. Council, Rural District Council, their officers, contractors, or servants from all liability for any damage or injury, however occasioned, to any of the property of the Undertakers, and indemnifying the County Council, Rural District Council, etc., from any damage or injury caused in any way to person or property by the action or property of the Undertakers.
- 10—That a map and sections similar to that set out in sec. 60 of the Schedule to the Electric Lighting (Clauses) Act, 1899, be forthwith supplied to the County Council by the Undertakers after commencing to supply energy, and shall be kept up to date in the manner set forth in sec. 60. That if the Board of Trade, or the Postmaster-General, fail to specify the scales of such map and sections the scale of the map shall be 1 inch to 88 feet and of the section a horizontal of 1 inch to 88 feet, and a vertical scale of 1 inch to 10 feet.

S. G. GALLAGHER,  
Co. Surveyor.

20-10-'08.

Adopted.

Proposed by Councillor E. J. Byrne, seconded by Councillor D. J. Cogan. Resolved—That, having read counsel's opinion in the matter of the proposed Provisional Order for the Lighting of Greystones District by Electricity, we hereby approve of same, subject to the insertion of clauses advised by counsel and the County Surveyor. The same counsel is to draft those clauses in consultation with the County Surveyor, and the promoters are hereby requested to embody them in their Order, otherwise the Council will oppose the granting of the Order. The cash deposit to be made to secure the proper treatment of the roads, etc., is to be £500. That the same instructions are to be given, and similar clauses to be inserted in the Dublin Alliance and Consumers Gas Company's Bill, which that Company is also promoting. Passed.

## SECRETARY'S REPORT.

County Council Meeting—22nd February, 1909.

Gentlemen.—As you will have at this meeting to strike the rates for the coming financial year, my estimates for the expenditure and the income for that period, which have already been approved by your Finance Committee, will be submitted for your consideration, as a copy has been sent to each councillor already. I need do no more now than to give the net results so far as the rate on each Rural District is concerned, first mentioning that so far as the County Council's portion comes in we have kept the items as low as we can, so that in spite of an increase of £513 in the Lunatic Asylum's Demand, the County-at-Large Rate remains at the same figure as before. This Lunatic Asylum demand is increasing by jumps of £500 year after year, and while on the subject I would draw attention to the statements of the Chairman of the Asylum Committee, Mr. Jones, which appeared in the public Press, to the effect that the Dublin Corporation took pains to ascertain and inform the Committee whether the patients from its district could be made to contribute to their support, but that the other contributing authorities comprising the Asylum District, gave no assistance in this matter. To this statement, so far as it may refer to this County Council and its officials, I wish to give a most emphatic and unqualified contradiction. Every single case in the list received from that Committee each quarter, receives most careful consideration, and enquiries are set on foot through the Urban and Rural District Councils and their officials, who give me every assistance, and every case where a contribution can be expected is at once reported to the Asy-

lum Committee, and I had recently a letter of thanks from their Clerk for information I myself sent him in a case (which had not been reported from the Committee) that had enabled them to obtain 15s. a week for a patient's maintenance.

The gross Rural District rates show a reduction all round this year as follows:—

Baltingless Rural District	3s. 3 $\frac{1}{2}$ d. or 2 $\frac{1}{2}$ d. below last year.
Naas No. 2 do.	3s. 11 $\frac{1}{2}$ d. or 2 $\frac{1}{2}$ d. do.
Rathdown No 2 do.	3s. 5 $\frac{1}{2}$ d. or 3d. do.
Rathdrum do.	3s. 3 $\frac{1}{2}$ d. or 2d. do.
Shillelagh do.	3s. 8 $\frac{1}{2}$ d. or 6d. do.

There is a greater reduction in the rate on Shillelagh than in any of the other districts in consequence of the increase requisite last year to wipe out their debit balance.

These rates this year correspond very closely with the rates struck in February, 1907.

But I regret to say I cannot promise these rates for 1910, as I have already been notified by the Local Government Board of a deduction which is about to be made from the Government Grants which we are expecting, of no less than £1,943, on account of arrears of Land Purchase instalments; I thought we understood that such deductions would not be repeated.

There is a considerable rise in the rate to meet the Blessington Tramway Guarantee, because of the very heavy demand made on the Rural District last year, namely, £930, against £505 the previous year, and £662 the year before. Had I observed it at the time I would not have paid more than I had estimated for, until this coming year's rate came in, for I had to overdraw the rates from other sources to the amount of £247 to meet this heavy demand.

Your Auditors and others have drawn your attention from time to time to this Company's method of always making up their accounts so as to show a fat and lean half-year alternately.

I think you should clearly understand that this works a serious loss to the guaranteeing ratepayers by depriving them of a considerable portion of the Treasury refund to which they are rightfully entitled. This loss thus worked, amounted to £90 on last year's payments.

The Local Government Board has confirmed the appointment of each of the newly-elected Rate Collectors, and one has already made a good advance with his collection, and the other who has only just been put in a position to commence, asks the Council to ask for an extension of time to the 30th April next to close his collection. This is only reasonable, and of course the Council will comply with his request. The Local Government Board has issued an order granting late Collector Ebbs the pension of £30 voted to him by the Council.

I am, Gentlemen, Yours faithfully,

E. N. WYNNE.

Adopted.

Proposed by Councillor M. Byrne, seconded by Councillor E. J. Byrne. Resolved—That we hereby confirm and adopt the Estimates (Forms 45 and 46) now submitted to us, and determine the rates in the

Resolved—That the resolution passed at last meeting fixing salary of £15 as Attendance Officer and £5 as Secretary of the Newcastle Dispensary School Attendance Committee be rescinded, and that salary of £20 as Attendance Officer and £10 as Secretary be fixed. Passed.

In accordance with Notice of Motion, it was proposed by Councillor J. McCarroll—That the special facilities and advantages of Wicklow County for manufacturing and industrial purposes be set out in pamphlet form, as in the case of Dublin, Cork, and Galway, for the purpose of inducing manufacturers to start industries in our county, and that Mr. Wynne be directed to compile the pamphlet. The motion, not being seconded, was not passed.

In accordance with Notice of Motion, it was proposed by Councillor J. W. Reigh, seconded by Councillor D. Condren—That the Close Season for Hares be from the 1st April to 12th August, and that all resolutions to the contrary be rescinded. At the request of the Council the resolution was withdrawn.

Proposed by Councillor J. McCarroll, seconded by Councillor J. Murphy. Resolved—That all the Insurances of the County Council be given to the Hibernian Insurance Company as they fall due for renewal. Passed.

Proposed by Councillor J. Murphy, seconded by Councillor J. McCarroll. Resolved—That Collector Joseph Keane's salary be increased by Ten Pounds (£10) per annum. Granted by ten votes to six.

Proposed by Councillor William Costello, seconded by Councillor D. Condren. Resolved—That Collector George Evans be paid poundage at rate of Sixpence (6d.) in the £1, instead of salary of £25 as at present. Carried by eleven votes to five.

## COUNTY SURVEYOR'S REPORT.

County Surveyor's Office, 22nd February, 1909.

Chairman and Members County Council, Wicklow.

Gentlemen,—The roads in your County have been generally somewhat better attended to this past quarter.

The Contractor for road No. 169, 446 perches, Rathdrum R. D., has died, and as far as I can ascertain has not left any representatives; the road is now derelict, and I recommend that the contract be cancelled and given in my charge.

A decree at Quarter Sessions having been obtained against the Contractor for Road No. 53, 1,452 perches, Rathdrum R. D., I recommend that this contract be cancelled as from 1st April next and given in my charge.

I have to call attention to a technical breach of the law as to erecting buildings nearer than 30 feet from the centre of the road. The building is a forge on the road from Wicklow to Brittas, and is built

20 feet from the centre of the road. The Council not having objected to similar buildings elsewhere I request instructions in this case.

None of the Contracts coming before you to-day are for works other than (in my opinion) you can lawfully carry out.

Court House Repairs—As the sum of £100 passed in February of last year is now nearly exhausted, I request that it be renewed.

I am, Gentlemen, your obedient servant,

S. G. GALLAGHER.

Adopted.

Order—Paragraph 4—County Surveyor not to interfere.

C. A. CAMERON.

Proposed by Councillor D. J. Cogan, seconded by Councillor M. Byrne. Resolved—That this Council desires to call the attention of the Irish Government to the ruinous condition of the Harbour Works at Greystones, and to point out that their predecessors, the Grand Jury, refused, on the advice of their County Surveyor (who was a highly competent gentleman) to take it over from the Board of Works owing to the numerous defects in the works, and when a second examination was made by the same Engineer a few months later he found them "in a state of partial ruin and positively dangerous." The Grand Jury in March, 1897, again passed a resolution declining any responsibility for the Harbour Works, and refusing to appoint a Harbour Master. Again, when the County Council came into office two years later, they found the whole works in such a state of collapse, the Council declined to have anything to do with, or to take any responsibility for them until the Government, through the Board of Works, would put them into a proper state of repair. Although the County

Council has now paid off the loan originally raised for the construction of the works, nothing has yet been done, and the large sum of £21,000 might just as well have been thrown into the sea. The Council now, at the eleventh hour, calls upon the Government to do its duty to the ratepayers of this important district by putting the work into a safe and proper state of repair, and thus enable the fifty-three fishermen who reside in the district to prosecute their calling. *Passed.*

Proposed by Councillor J. McCarroll, seconded by Councillor D. J. Cogan. Resolved—That the following be appointed a Committee to draft a scheme for a Scholarship in the National University from County Wicklow, in which Irish language shall be made an essential subject:—Councillors D. J. Cogan, E. P. O'Kelly, E. C. Walsh, Michael Byrne, Patrick Short, J. W. Reigh, John Murphy, Joseph McCarroll, J. J. Reilly, and William Byrne. *Passed.*

The following Notice of Motion was handed in by Councillor D. J. Cogan:—This Council strongly approves of the recommendations of the General Council of County Councils affecting the financial provisions of the Land Bill, and we desire to urge the Irish Party to insist upon the Government embodying them in the Bill, as they will give immediate relief to the ratepayers of Ireland, while the burden now imposed upon them is, by the Act of 1903, an impossible and intolerable one, which cannot continue to be borne without bringing to an absolute standstill local administration of any kind.

We are also of opinion that, in addition to the amendments adopted by the National Convention, the Land Bill requires amendment in the following particulars, viz:—

Clause 5 (1) b.—That the full amount of the bonus according to scale should be paid to the vendor.

Clause 12 (1).—That the words "resides on the holding" should be struck out, and the words "cultivate at least 20 per cent. of the holding" should be inserted therefor.

Clause 13.—Should make it clear that any tenancy which may have been created by reason of the re-instatement of a tenant evicted since January 1st, 1908, should not be excluded from the operations of the Land Purchase Act.

Clause 28 (1).—A purchasing tenant should be allowed to acquire lands up to the value of £7,000 under the Bill, as under the Act of 1903.

The reports from the Deputy Checkers of the various Unions on the attendance of the Poor Rate Collectors and the state of their collections were submitted.

### SPECIAL MEETING.

Special meeting of the County Council, under the Borough Funds (Ireland) Act, 1888, held in the Council Chamber, Court House, Wicklow, on Monday, the 22nd February, 1909, at 12 o'clock, noon.

The following members attended:—Councillor Edward P. O'Kelly (Chairman); Councillors Michael Byrne, Daniel Condren, John Murphy, John Storey, William Costello, William Byrne (Coolbeg); Patrick Short, J. W. Reigh, W. H. McFarland, Joseph McCarroll, Edward Byrne, D. J. Cogan, E. J. Byrne, Patrick Kenny, and John J. Reilly.

### BUSINESS:

To consider, and if approved, to adopt the following resolution:—

- (1)—That a Petition be presented to Parliament against that portion of the Alliance and Dublin Gas Act, 1909, which incorporates provisions for the breaking up and restoration of roads, as being insufficient for the protection of the interests of the Council, and for the addition to those provisions of other provisions sufficient for such protection.
- (2)—That a Committee be appointed with all the powers of the Council, to take such steps as may be necessary to safeguard the interests of the Council in connection with the opposition to the Act which this Council has now decided to oppose.

### THE COUNTY COUNCIL OF THE COUNTY OF WICKLOW.

#### NOTICE BY ADVERTISEMENT, PURSUANT TO THE BOROUGH FUNDS (IRELAND) ACT, 1888.

Notice is hereby given, pursuant to the provisions of the Borough Funds (Ireland) Act, 1888, that a Special Meeting of the County Council of the County of Wicklow will be held in the Court House, Wicklow, at 12 o'clock noon, on Monday, the 22nd day of February, 1909, to confirm and approve of the propriety of opposing in the present or next Session of Parliament the Alliance and Dublin Gas Act, 1909, and also to consider, and, if approved, adopt a resolution or resolutions in reference to opposing, and the expense of opposing the said Alliance and Dublin Gas Act, 1909.

Dated this 9th day of February, 1909.

E. N. WYNNE,

Secretary to the County Council of the  
County of Wicklow.

Court House, Wicklow.

9th day of February, 1909.

### THE SECRETARY'S REPORT.

County Council Meeting—22nd February, 1909.

Gentlemen,

The Dublin Alliance and Consumers having refused to put the clauses prepared on behalf of this Council into their Bill, which comes before the present Parliament, the required notice has been published and the Statutory Summons for the Special Meeting given to allow the question of putting in force the Borough Funds Act to come up for consideration to-day, so as to enable you, if you decide that it is proper to do so, to incur expense in opposing said Bill.

As it appears the 19th of this month was the latest date on which the necessary notification of the intention to oppose could be lodged with the Examiners, your Solicitor requested me to affix the Seal of the Council before your meeting, to a Petition against the Bill to be lodged on the date, Parliamentary Agents to be employed for the purpose.

I saw the seriousness and urgency of the situation, but had not the slightest hesitation in saying I could not comply with the request, as I had no power either by Statute or Resolution to do so.

I at once telegraphed the position of matters to your Chairman, who replied that he was forwarding his key to a local Councillor to be available in case the Solicitor and I were satisfied might legally be used, but that if it was ultra vires it must not be done; being clearly ultra vires I did not allow its use.

I wrote explaining matters to your Solicitor, and I requested him to see that no expenses in connection with opposition to the Bill were incurred until the Council gave further orders, and sent your Chairman copies of the letters.

The possession by me of the key of your Seal imposes a trust and involves a responsibility. I will neither betray that trust nor shirk that responsibility.

I have the whole correspondence here should the Council desire particulars.

I am, Gentlemen, yours faithfully,

E. N. WYNNE.

Proposed by Councillor J. J. Reilly, seconded by Councillor John Storey—It is hereby resolved that this Council oppose the Alliance and Dublin Consumers Gas Bill, and that the costs and expenses thereof—not to exceed £250—be paid out of the County Funds or Rates, and that the Petition be now Sealed.

On a poll being taken there voted:—

For—Councillors D. Condren, W. H. McFarland, J. W. Reigh, D. J. Cogan, Wm. Costello, J. J. Reilly, John Storey, E. J. Byrne, J. McCarroll, John Murphy, Patrick Short, and Wm. Byrne—12.

Against—Councillors Michael Byrne, Patrick Kenny, and Edward Byrne—3.

Passed by 12 votes to 3.

The Secretary pointed out that the meeting being held under the provisions of the Borough Funds (Ireland) Act, 1888, the resolution, being one for incurring expense, had fallen through as the requisite majority of votes had not been obtained; Section 5 of that Act provided that every such resolution must be passed by an actual majority of the whole number of the Council, viz.—14, whereas, the majority now obtained was only 9.

The Solicitor explained that it was not necessary to proceed under the Borough Funds Act.

It was finally agreed that a deputation consisting of the Chairman, Councillor Reigh, the Secretary and the Solicitor should call on the Local Government Board the following morning to explain how matters stood, and ascertain whether, under the circumstances, the Borough Funds Act could be dispensed with, etc.

Several Councillors having left,

Mr. McCarroll, the Solicitor, asked that the Petition be signed and Sealed provisionally before the Councillors separated, so that it could be forwarded when the Local Government Board gave its decision.

The Secretary stated he saw a difficulty, as the matter stood, to his taking part in sealing the Petition, for, as they knew, he held the resolution had not been carried, but if they now passed a separate resolution solely as a direction to him personally to affix the Seal for the

purpose of the document being retained by the Chairman till the Local Government Board had been consulted, and not for the purpose of incurring expenditure, he would act on it.

It was, therefore, proposed by Councillor P. Short, seconded by Councillor J. Murphy. Resolved—That the Petition against the Dublin Alliance and Consumers Gas Bill be now signed and sealed, and that the Secretary be hereby directed to have the Seal affixed thereto, and that the Petition be left in the Custody of the Chairman. Passed.

The Petition was thereupon sealed and handed to the Chairman.

Clause 5 (1) B. That the full amount of the bonus, according to scale, should be paid to the vendor.

## COUNTY SURVEYOR'S REPORT.

24th May, 1909.

Gentlemen—Where not used by timber, motor or traction engine traffic, the roads in your county are in much the usual condition and are in reasonably fair order considering their construction and location.

The contracts coming before you to-day are of the usual character and do generally not call for particular report. However, in Rathdown No. 2 R. D., contracts amounting to £90 14s 0d have been entered into. This will cause the limit of expenditure to be exceeded; but, as the R. D. Council have applied for an increase of the limit, I expect that you will be able to sanction these contracts. In Rathdrum there is a permissive contract to build a fence near Clara bridge; there appears to be a dispute as to the ownership of the land to be fenced.

Up to this I have not been able to get a local contractor to undertake the work at Aughavannagh bridge. However, I am in treaty with the Hennebique Ferro-concrete Company, and hope to get a tender.—Your obedt. servt.,

S. G. GALLAGHER.

Court House, Wicklow,

24th May, 1909.

To Chairman and Members, Wicklow County Council.

Gentlemen,—I should be glad if you would grant me leave of absence from the county from Friday, 28th inst. to Friday 4th June.

Your obedient servant,

S. G. GALLAGHER.

Order—Granted.

For the Richmond Asylum four specimens of soap, two of milk, two of soap, and one of cocoa were analysed, and were pure.

For Naas Union, which is partly situated in the County Wicklow, thirty drugs, two specimens of milk, and one of whiskey were analysed. Two of the drugs were incorrect.

Total analyses—165. Adulterated and defective articles—9.

C. A. CAMERON.

Proposed by Councillor Michael Byrne, seconded by Councillor E. Byrne. Resolved—That the seal of the County Council having been attached to a second Petition against the Alliance and Consumers Gas Company's Bill now before Parliament, it is hereby reaffirmed that the entire expenditure under all heads of opposition by this Council against the Gas Company's Bill be limited to the sum of Two Hundred and Fifty Pounds (£250) mentioned in the resolution of the County Council of the 22nd February, 1909. Passed.

The following notice of motion was handed in by Councillor Michael Byrne:—"I hereby give notice of motion that I will move, at the forthcoming annual meeting of the County Council, that the area of charge for all expenditure, under every head, incurred in the opposition to the Dublin and Consumers' Gas Bill, at present before Parliament, be the Rural District of Rathdown No. 2, and that portion of the Rural District of Rathdrum affected by the Bill."

A further application from the County Wicklow Joint Technical Instruction Committee for an additional sum of £125 per annum

for the purpose of building a Technical School in Arklow and for providing and developing a Technical School in Baltinglass, was submitted.

Having heard Very Rev. Canon Staples, P.P., V.F., and Mr. Richard Wake, Principal of Technical Schools, in support of the application,

Proposed by Councillor E. C. Walsh, seconded by Councillor D. Condren. Resolved—That the application of the County Technical Instruction Committee for an annual grant of £125 towards the erection and equipment of a Technical School in Arklow, and another in Baltinglass, be granted, subject to the Department giving a Free Grant of £300 towards building, but not otherwise. Carried; Councillor E. J. Byrne dissenting.

Proposed by Councillor J. McCarroll, seconded by Councillor W. Byrne (Coolbeg). Resolved—That, in view of the monstrous over-taxation of Ireland by England, and her huge indebtedness of 300 millions to the Irish Nation, we protest in the strongest manner against the Budget, which seeks to still further impose an additional impossible burthen of taxation on this country. Passed.

### SECRETARY'S REPORT.

23rd August, 1909.

Gentlemen,—You may recollect that at our last Quarterly Meeting in May, a number of applications under the Poisons and Pharmacy Act, 1908, were considered.

Immediately after that meeting a letter was received from the Privy Council, explaining and emphasising certain points in the Regulations issued under that Act, and as this letter materially affected the decisions come to by the County Council at that meeting, I sent a copy of it to your Chairman and Vice-Chairman, and, in reply, was directed to issue no licence under that Act until that letter was submitted to the next meeting of the Council.

Since then a new set of Regulations with regard to the granting of licences has been issued. This provides:—

- (1) 1st—That a licence shall not be granted unless the Council is satisfied that the person is fit to be entrusted with the sale of poisonous substances, and has made suitable provision for their separate storage in a distinct and separate part of the shop or building.
- (2) 2nd—In granting licences for horticultural purposes preference shall be given to nurserymen, florists and others connected with horticultural business.
- (3) 3rd—No licence shall be granted to a person who is illiterate or under 21 years of age.
- (4) 4th—A licence shall authorise the sale of poisonous substances on those premises ONLY which are specified in the licence.
- (5) 5th—A licence granted to the holder of a licence for sale of intoxicating liquors shall not authorise him to sell or keep open shop for sale of poisonous substances, except in a shop or building which is distinct and separate from the shop or building where the intoxicating liquors are either sold or consumed.
- (6) 6th—Applications for licences or renewals shall be on the prescribed forms, and must be lodged in the County Council's Office fifteen clear days before the Quarterly Meeting of the County Council.
- (7) 7th—Before sending an application for a licence to the County Council the applicant shall send notice by registered post to the police authority of the district where the proposed shop or building is situate, of his intention to make the application. The notice must be on the prescribed form. Forms A and B may be obtained from Messrs Hely, Ltd., Dollard, or Brown and Nolan, or will be posted from this office on receipt of 3d.

- (8) 8th—A licence shall not be granted until after expiration of at least 14 days from the receipt of the application by the County Council, and, before granting a licence, the Council must take into consideration whether in the neighbourhood where the applicant intends to carry on the business, the reasonable requirements of the public with respect to the purchase of poisonous substances are satisfied, and also any objections received from the police.

9, 10, 11, 12, 13 deal with licences already granted.

- (14) 14th—A licensee shall personally manage and conduct the sale of the poisonous substances.

15 to 22 inclusive, affect the licensee and the sale of the poisonous substances.

Prior to the issue of these revised Regulations I had had a set of blank licence forms, etc., printed in conformity with the first regulations. These must now be replaced, as the prescribed form has been entirely altered.

As none of the applications received up to the present, so far as I can see, comply with the new set of Regulations, I do not think licences can be granted on them at this meeting; but as the dipping period is, I believe, over for this year, no inconvenience will be caused thereby.

### THE CHILDREN'S ACT, 1908.

### COUNTY SURVEYOR'S REPORT.

Summer Quarterly Meeting, 23rd August, 1909.

County Surveyor's Office, Wicklow,  
23rd August, 1909.

Gentlemen,—The general condition of the roads in your county is, on the whole, satisfactory, as compared with previous years. On some roads in various places throughout the county heavy timber traffic continues, and in consequence these roads are in very poor condition. None of the contracts coming before you for confirmation appear to be works other than such as can be lawfully carried out by you. I beg to submit to you the tenders I have received from the representatives of the Hennebique Ferro-Concrete Company for the reconstruction of Aughavannagh bridge. However, as the season is so far advanced, if the work were to be undertaken immediately it would cause the road across the river to be closed during September and October. It has been represented to me that this would be very inconvenient. The only alternatives are (1) to delay the work until

next spring; (2) to construct a temporary bridge. The latter would necessitate a fresh notice of motion, and would cause a great increase in the cost of the work. As to repair suggested to old bridge, I would not undertake any responsibility in endeavouring to repair this work as it is so shattered and deformed. Repairs might be a great success but just as likely they would be utterly useless. I may add that eight years ago the late County Surveyor asked for £220 to repair the bridge, and the new bridge proposed would only cost £298.

Your obedient servant,

S. G. GALLAGHER.

Order—Read.

Proposed by Councillor James Byrne, seconded by Councillor J. McCarroll. Resolved—That the County Surveyor be directed to accept the tender of the Ferro-Concrete Company, provided—(1) That the work be carried out during April and May, 1910, and the road opened for traffic by 1st June, 1910; and (2) that the contractor give a satisfactory guarantee that he will maintain and be responsible for the bridge for two years from 1st June, 1910. Passed.

### REPORT ON THE DUBLIN AND BLESSINGTON STEAM TRAMWAY.

SUMMER, 1909.

### TO THE WICKLOW COUNTY COUNCIL.

Gentlemen,—On the 17th August I completed the inspection of the way and works of the above Company in your County. Most of the permanent way presents the usual untidy and weed-grown appearance. However, in some places it is a little improved. Many of the sleepers (especially near Blessington) are greatly worn and decayed and should be renewed at the earliest possible moment. The re-sleepering has been now a long time in progress, and it would appear that it was suddenly suspended, as in a few places I notice that the ballast has been partly removed, and lies in weed-grown heaps by the wayside. The ballast in most places is very bad and should be renewed, as it holds water and hinders the drainage, thus tending to cause decay to the new sleepers, which, as I have frequently pointed out, are not treated with any preservative material. The fastenings and connections are somewhat improved where re-sleepering has been carried out, but not much improvement can be noted where this work has not been done at a comparatively recent date. The older station buildings at Blessington should get a thorough overhauling, and all the buildings would be the better of a few coats of paint. The rolling stock seems to be well maintained—I note that a wagon has been fitted with specially prepared wheels to enable goods and cattle to be carried through over the Dublin Tramways line. The materials for a special mail wagon are being prepared, and the wagon will be constructed at the works. Engine No. 3 has been thoroughly overhauled and is now ready for the road. Engine No. 5 has been out of running for nearly a year, and lies in the yard—it appears to be hardly worth repairing, and it might be well if it were disposed of at as early a date as possible. Three-power lathes have been acquired at a very low

cost. These machines will effect a great saving in the repairs' department. I understand that one small lathe has already more than paid for itself. A great improvement has been carried out by the erection of a ram, which will pump a copious supply of clean water to the works. This will in time reduce the expenses of the locomotive and wagon repairs.—I remain, your obedient servant,

S. G. GALLAGHER.

County Surveyor.

Courthouse, Wicklow, 18th August, 1909.

Order—Approved.

County Surveyor's Office, Wicklow, 23rd August, 1909.

Your obedient servant,

S. G. GALLAGHER.

The Secretary having read an extensively-signed petition, addressed to the Chairman of the Council, protesting against the appointment of any further officials in connection with sheep-dipping, it was proposed by Councillor Patrick Short, seconded by Councillor W. ## COUNCILLOR COGAN'S REPORT ON LOCAL TAXATION.

To the Chairman and Members of the County Council.

GENTLEMEN,—Having been requested by the Council to submit a report containing my views on the reports of the Finance Committee of the Richmond Asylum, relating to the insufficiency of the Local Taxation (Ireland) Account to meet the demands upon it for the upkeep of lunatics in Ireland, and for other local purposes, I beg to report as follows:—

In dealing with the financial position of the Irish Local Taxation Account, there are two aspects of the matter to be considered.

In the first place there is a claim by each of the County and Borough Councils of Ireland against that account for payment of the quarter's grant for the period from the 1st January to 31st March, 1899, amounting roughly to about £38,500, the County Wicklow proportion of which is £423. Prior to the passing of the Local Government Act of 1898, the various public bodies throughout Ireland had different dates for the closing of their accounts, and in the case of lunatic asylums this date was the 31st December. By that Act, however, the local financial year of all public bodies was made to end on the 31st March, and this necessitated separate asylum accounts being made out for three months to cover the intervening period. The Capitation Grant claim for refund of 4s. per head per week of the cost of each lunatic maintained during that period was duly audited, certified, and presented for payment. Payment was refused, the reason given being that the annual grant was not a refund of past maintenance, but a payment in advance on account of future maintenance for the financial year in which actually received, consequently that it was immaterial what financial period was taken as the basis of preparing claims, whether that period ended on the 31st December or 31st March, and that the question of paying an additional quarter in any year did not arise at all. The Richmond Asylum Committee sent me all the particulars of the claim, with a view to having the matter ventilated in Parliament, and I happen to be aware that that explanation is entirely at variance with the true facts of the case, and that the grant is undoubtedly a refund of past maintenance, and, as such, is properly payable for the quarter in dispute. The most extraordinary thing about the whole matter is that the Irish Government made a claim against the Treasury for payment into the Local Taxation Account of a quarter's grant for the first portion of the year 1898, on the very grounds that we now claim out of that account a quarter's grant for the year 1899, and they proved their case so conclusively that a payment of over £37,000 was made by the Treasury to the Account. We, in Ireland, have no particular reason to bless the British Treasury, but in this particular matter the Treasury have acted quite fairly, and it is the Irish Government who are the culprits. They received money to cover the payment of pauper lunatic grants for fifteen months, from 1st January, 1898, to 31st March, 1899, and only paid 12 months, from 1st January, 1898, to 31st December, 1898. I brought the matter under the notice of the Chief Secretary in Parliament on a number of occasions, but got no satisfaction. The Chief Secretary, Mr. Bryce, was evidently not personally aware of the nature of the dispute, and I can readily believe the unfortunate Member of Parliament who happens, for the time being,

to occupy that unenviable post, with its accompanying responsibility for the shortcomings of the 43 Boards he is supposed to control, has very little time to devote to financial questions of a very intricate nature. The official replies delivered by him were masterpieces of ambiguity and evasion. The Irish Government who had arrived at a decision in the matter many years before, could not be got to admit that the local bodies had any claim, and that ended the matter as far as pressing the claim in Parliament went. The only thing to be done was to institute legal proceedings for the recovery of the amount, and this, I understand, has been done by the Corporation of Dublin, with regard to their proportion of the total claim. I am informed that the case was listed for trial over a year ago, but was postponed owing to pressure of business in the Four Courts, and a further postponement became necessary in April last, owing to the illness of Mr. Justice Barton, by whom the action was to have been decided. That, briefly, is a history of the dispute as between the local bodies and the Taxation Account, and it is a matter that is bound to be cleared up one way or the other in the course of a month or so.

The second and far more important matter, than this dispute about a quarter's payment, is the question of the solvency of the Irish Local Taxation Account, out of which account all payments to County Councils in Ireland in relief of local taxation are made. There is, unfortunately, no doubt but that the account is rapidly becoming, if it has not already become, bankrupt. When the Local Government Bill was before Parliament in 1898, a considerable amount of discussion was directed towards the question of the sufficiency or insufficiency of the income of the Irish Local Taxation Account. Parliament had decided that the payment of all local grants, such as pauper lunatic grants, grants in aid of medical charities under the Poor Law Acts, grants in relief of railway and harbour charges, and other grants of a similar nature, should be transferred from the votes to the Irish Local Taxation Account. To meet this liability an income was provided, consisting of the proceeds of certain local taxation licences in Ireland, such as the publicans', spirit grocers', tobacco dealers', auctioneers', and pawnbrokers' licences, etc., but these alone being insufficient in amount to discharge the liabilities, the revenue was supplemented by an annual contribution of £79,000 from the Exchequer, the payment of which amount to the Local Taxation Account is secured by Sub-section (1) b of Section 58 of the Local Government Act. The whole discussion in Parliament was directed towards the inadequacy of this annual payment of £79,000. All the Irish Members who took part in the debate expressed very strongly the view that the grant would prove to be utterly inadequate. General complaint was made that no information was submitted to Parliament to enable members to arrive at a proper decision, and Mr. John Dillon, pointing to the fact that a stationary, unexpansive revenue had been provided to meet rapidly and continuously increasing liabilities, went so far as to say:—

What I would prefer to see would be that one of two courses should happen, either that this part of the Bill should be postponed for future consideration, or that we should be assured of an opportunity within the next year or two of a revision of the whole question.

Mr. Maurice Healy ridiculed the alleged generous proposal of the British Treasury, and stated that the Treasury was always trying

to find out some method of calculation which will serve England and injure Ireland, and that their generosity in this case consisted of having devised a method of calculation to injure Ireland to the extent of £40,000 per annum. Mr. T. M. Healy said that he had not the slightest doubt that the Government thought to themselves that they could throw the asylum expenditure on to the ratepayers, and that before ten years had gone by the 6d. guarantee in aid of light railways, then proposed, would have gone in support of lunatic asylums.

The Chancellor of the Exchequer, Sir Michael Hicks-Beach, was adamant. He said:—

If ever there was a case where the needs of the present only should be looked to it is this. We can say nothing of the future. A point of that kind was made by Mr. Dillon when he spoke of the anticipated increase in lunacy in years to come. We cannot deal with matters of that kind now. So far as the needs of the present are concerned we have dealt in this matter most liberally and generously with Ireland, and we absolutely must decline to increase the grant.

While that statement contains no definite promise of revision, it certainly implies in the most unmistakable manner that the matter would be reconsidered at a future date, should revision become necessary, and that the whole income was fixed to meet the needs of the moment only. I am certain that if the Conservative Government were still in power, and Sir Michael Hicks-Beach still Chancellor of the Exchequer, he and his Government would look upon that statement as a binding and definite promise.

It was provided in Section 59 of the Local Government Act that an annual statement of the receipts and expenditure of the Local Taxation Account should be presented to Parliament, but this remained a dead letter for a considerable number of years, no such statement having been issued until I brought the matter directly under the notice of the Financial Secretary to the Treasury two or three years ago. A full statement of accounts for seven years was then issued, and annual accounts have since been presented.

At a Conference of Asylum Committees of Ireland, held some years ago in the Richmond Asylum, the Most Rev. Dr. Kelly, Bishop of Ross, a political economist of exceptional ability, advocating the establishment of auxiliary asylums as a means of affording relief, both to the ratepayers and to the Local Taxation Account, first drew attention to the fact that the income of that account was not inexhaustible, but that on the contrary, it was rapidly becoming insufficient to meet the expenditure. The Richmond Asylum Committee thereupon instituted inquiries as to the financial position of the account, it being a matter of vital importance to them to ascertain what the resources of the account actually were, in view of the fact that they contemplated the expenditure of a large amount of public money on additional buildings to accommodate workhouse lunatics over and above the sum of nearly half a million pounds expended during the last generation in providing additional lunatic asylum buildings for their district. Owing to the absence of any published accounts these inquiries were considerably delayed, but the result, which is embodied in the document now before you, gives a complete analysis of the account, and is presented by them for your consideration.

It will be seen that the average income of the account is some £291,000, including the Exchequer contribution of £79,000. The expenditure in the first year amounted to £251,500, and in a period of seven years this expenditure increased to £306,000, so that the expenditure is now, and has been for some time past greatly in excess of the income, the excess being met out of the surplus accumulated in the first few years during which the account was in existence. When this surplus is exhausted, as it probably will be by the end of the present financial year, the Lord Lieutenant is authorised to make proportionate reductions from the grants to be paid to County Councils. In the case of pauper lunatics alone the grant has risen from £153,000 in 1899-1900 to £194,000 in 1906-7, an increase of over forty thousand pounds. The increase in the amount of such grants does not in any way depend upon the economy or extravagance of local bodies. The Government contribution is limited to a fixed sum of four shillings per head per week, and the increase in the grants is caused solely by the increase in the number of lunatics. This bears out the contention of the Irish Members of Parliament that the Government, in settling the basis of the Local Taxation Account income, were endeavouring to shirk the responsibility which they had undertaken since 1874 of providing a definite Imperial contribution in respect of the cost of lunacy.

The return prepared by the Richmond Asylum Committee shows that the average annual surplus at the commencement of the Local Taxation Account was £15,589. That surplus had to provide for the increased proportion of the charges under the Medical Charities Act, to be borne by the Government. The Council will recollect that as regards the salaries of Poor Law Union Medical Officers, a long and persistent agitation had been carried on for more adequate remuneration. It had also to bear the annual increase in the amount of pauper lunatic grants, which averaged over £3,000 per annum for the 22 years previous to the passing of the Local Government Act, and it had to provide fresh grants for the pauper lunatics confined in workhouses who were to be transferred over to the lunatic asylums, which grants on the lowest estimate would not amount to less than £32,000 per annum. As the Chairman of the Richmond Committee rightly says, it needs very little knowledge of arithmetic to show that, even without dealing with any charges than those relating to pauper lunatics, the surplus of £15,000 per annum was utterly inadequate to provide for the new charges and increasing amount of the old charges placed on the account, and the bankruptcy of the account has been the inevitable result.

The Richmond Asylum Committee have already brought the facts under the notice of the present Chief Secretary, Mr. Birrell, and have had a long discussion on the subject with him, and I understand that he acknowledges the very serious position of the account. I think it is the duty of this Council to request the Parliamentary Members for the County to bring the matter before the Irish Party, with a view to having the income of the account settled on a more equitable basis by Parliament.

The Richmond Asylum Committee point out that the total payments out of the Local Taxation Account for a number of years past have been greatly in excess of the income of the account, such excess having been met out of an accumulated surplus which had accrued in

the first few years of its existence, and they calculate that after the current financial year that surplus will be exhausted, and the annual income, excluding entirely any provision for grants for transferred workhouse lunatics, will then be some £30,000 less than the sum required to pay the full Capitation Grant now paid.

Having regard to the lamentable annual increase in lunacy, and to the fact that the sum already provided by the Local Government Act, 1898, becomes insufficient to meet the grants paid to Local Authorities on various services, the Treasury may get out of its responsibility by requesting the Lord Lieutenant (as they are empowered to do by the Act) to issue an Order proportionately abating the Grants in Aid of rates, so as to keep the expenditure within the sum fixed by Parliament, although the wealthier British ratepayer will continue to get his full rate in aid, no matter how expansive the demand for the support of lunatics grows.

You will, therefore, I am sure, realise the matter is a very serious and urgent one, and deserves the earnest and immediate attention of every Public Body in Ireland

I have the honour to be, Mr. Chairman and Gentlemen,

Your Obedient Servant,

D. J. COGAN,  
Chairman Finance Committee.

Order—Adopted.

Proposed by Councillor James Byrne, seconded by Councillor E. J. Byrne. Resolved—That a copy of this Report now read be sent to each of the following:—The Dublin Corporation, the Dublin County Council, and the Louth County Council, with a recommendation to these Councils to take whatever steps they deem advisable, to press the matter upon the attention of the Irish Executive Government and the British Treasury, with a view to having this serious defect remedied; and that copies shall also be sent to the Irish Parliamentary Leaders of the Nationalist and Unionist Parties, and the Parliamentary Representatives of the Constituencies which comprise the Richmond Lunatic Asylum District, and the County Councils' General Council. ## REPORT TO THE COUNTY COUNCIL.

Council Chamber,  
Court House, Wicklow.

The following Members of the Committee appointed—"To consider the County Surveyor's Report on the County Court House, and to look into the general condition, etc., of the Court House and Offices, and report to the County Council on the best steps to be taken with regard to the same"—Councillors D. J. Cogan, William Byrne, and William Costello, met on Wednesday, 3rd November, 1909, and read the report submitted by the County Surveyor, and, having visited and inspected the Council's Offices in company with the County Surveyor, the Secretary, and Office Staff, are of opinion that no expenditure will make the Council's Offices either suitable, convenient or safe, the entire building being but one series of patchwork, a great portion of which is decayed and cracked, and does not lend itself even to cross-tying.

The following works we consider are most necessary, and we recommend that they be carried out without delay:—

The large iron tank over the office, which is useless and only a source of danger, to be taken down, the outer wall upon which it rests to be carried up again to its original height, and the roof replaced, retaining the sky-light; one large window to be placed in the south-west wall of the Accountant's office, and one in the south-east wall of the Secretary's office; one press in the Secretary's office to be placed at the opposite side of the room. Any defective ceilings to be taken down, and the three offices to be re-ceiled, papered, and painted.

We find there is no strong or fire-proof room for the safe storage of the County Records; we consider it most important that a fire-proof room should be provided. We have pointed out a position which we consider would be most suitable for such a room, and have desired the County Surveyor to make out a plan and estimate of the probable cost. When we have these before us we shall be in a better position to form judgment on the matter, and will then report further to the Council.

(Signed),

D. J. COGAN, W. COSTELLO, W. BYRNE.

Proposed by Councillor D. J. Cogan, seconded by Councillor Michael Byrne. Resolved—That we approve and confirm these recommendations. Adopted.

### COUNTY SURVEYOR'S REPORT.

Autumn Quarterly Meeting.—22nd November, 1909.

Gentlemen,—I beg to report that during the last quarter the greater number of the roads were fairly maintained, but in some of the districts the metal supply was very bad, many of the contractors appearing not to take any trouble to provide the material. A draft Agreement in reference to the opening of the roads in Greystones for the purpose of laying mains, etc., for electric lighting has been submitted to me, and, so far as I can see, the Electric Light Company appear to undertake to do all I ask in reference to the restoration of the roads and county works disturbed by their operations. None of the contracts coming before you to-day appear to be of an exceptional nature or requiring particular mention.

Your obedient servant,

S. G. GALLAGHER.

Proposed by Councillor Michael Byrne, seconded by Councillor John Murphy. Resolved—That it be, and is hereby a direction to the County Surveyor to use every effort in his power to induce or compel the owners of lands near crossroads in this county, on which high hedges at present grow, to the extreme danger of vehicles, whose drivers cannot see where motors may appear, to have these hedges cut down a sufficient distance to allow of a clear view across the angle from one road to another, for a distance of at least 50 yards in each direction. Passed.

Proposed by Councillor John Murphy, seconded by Councillor John J. Reilly. Resolved—That we hereby direct the County Surveyor to have the proper Notice Boards erected at each end of the Church Lane, Greystones, to regulate motor traffic within this lane, in accordance with the Regulations. Passed.

County Surveyor's Office, Court House, Wicklow, 22nd November, 1909. The Chairman and Members, Wicklow County Council. Gentlemen,—I should be glad if you would kindly accord me four days leave of absence from Tuesday to Friday, 26th inst. (inclusive).—Your obedient servant,

S. G. GALLAGHER.

### ANALYST'S REPORT.

City Laboratory, 17 Castle street, Dublin. Report of Sir Charles Cameron, C.B., M.D., Public Analyst for the County Wicklow, on articles submitted to him for analysis during the quarter ended 30th September, 1909:—Thirty-seven articles were received from the Food Inspectors, R.I.C., as follows:—Article—Butter, 19;

whiskey, 9; milk, 6; cheese, 3; total, 37. Certificate sent to Sergeant McInerney, Arklow, for specimen of whiskey which was 50 degrees under proof, and was, therefore, adulterated with 33.33 per cent. of water. There were four specimens of butter analysed by directions from the Department of Agriculture and Technical Instruction for Ireland, Upper Merrion street, Dublin, which were taken up in the County Wicklow, and were pure. For the Guardians of Rathdrum Union twenty-three drugs, eight specimens of milk, and one of butter were analysed. They were all correct. One specimen of sewage analysed for Rathdrum Rural District Council had the following composition—One Imperial gallon contained in grains—Total solid matters, 49,440, including albuminoid ammonia, 0.015; saline ammonia, 4.400; nitric acid, trace; chlorine, 9.940. It was taken from the out-fall works, and was sewage from which nearly all objectionable matter had been removed. For the Guardians of Baltinglass Union twelve drugs were analysed. One was correct. For the Guardians of Shillelagh Union six drugs were analysed. Two were correct. Two specimens of water analysed for Bray Urban Council had the following compositions. One Imperial gallon contained in grains:—

	No. 1	No. 2.
Total solid matters, including—	57.400	53.200
Albuminoid ammonia	0.044	0.045
Saline ammonia	0.031	0.087
Nitric acid	9.900	9.000
Chlorine	6.750	6.750

Both waters were polluted.

One specimen of water analysed for J. R. Dagg, Esq., E.S.O., Baltinglass, had the following composition. One Imperial gallon contained in grains—Total solid matters, 48.160, including albuminoid ammonia, 0.018; saline ammonia, 0.03; nitric acid, 5.790; chlorine, 0.467. A tolerably good water. One specimen of water analysed for Dr. Hamilton, Arklow, had the following composition. One Imperial gallon contained in grains—Total solid matters, 70.840, including albuminoid ammonia, 0.007; saline ammonia, 0.020; nitric acid, 18.890; chlorine, 20.874. The only unfavourable feature in this water was the large amount of saline ammonia, indicating some polluted source. For Naas Union, which is partly situated in the County Wicklow, twenty-one drugs, four specimens of milk, one of butter and one of soap was analysed. Two of the drugs were incorrect. For Portrane District Asylum one specimen of butter was analysed, and was pure. Total analysis, 124.
