

ORDINARY MEETING OF WICKLOW COUNTY COUNCIL

HELD AT WICKLOW COUNTY BUILDINGS, WICKLOW TOWN

ON MONDAY, 5TH DAY OF NOVEMBER 2018 AT 2:00 P.M.

Gwen Malone Stenography  
Services certify the  
following to be a true  
and accurate transcript  
of the stenographic  
notes in the above-named  
action.

---

GWEN MALONE STENOGRAPHY

1 THE MEETING COMMENCED ON MONDAY, 5TH NOVEMBER 2018, AS  
2 FOLLOWS:

3  
4 CATHAOIRLEACH: Members, could I have your attention  
5 please? It's a great honour for me as Cathaoirleach of  
6 Wicklow County Council to welcome Ambassador  
7 Deike Potzel, to our Chamber here. It is her first  
8 visit to the Chamber as Ambassador and we're delighted  
9 you accepted our invitation to visit with us here.  
10 There have been many visits of your predecessors over  
11 the years to the Chamber and to the Wicklow and  
12 certainly we've had a wonderful relationship with your  
13 embassy and obviously with our twinning with Würzburg.  
14 That's obviously the main reason for our relationship  
15 here is our twinning arrangement, as we all know, with  
16 Würzburg. Many of our members here have travelled to  
17 Würzburg over the years and we've been really impressed  
18 with what is on offer in Würzburg. A beautiful,  
19 beautiful city. Great historical city as well and  
20 certainly we've been very happy any time we've gone  
21 there.

22  
23 I think it's fair to say the driving force of the  
24 relationship is a man who's on our left here, he's well  
25 known to us, it's George Jones on our side and Matthias  
26 who is on the German side. George has been the driving  
27 force for almost 20 years now at this stage and it's  
28 been our most successful twinning. We've had a number  
29 of twinings throughout the years with various

1 countries and I think it's fair to say I think I speak  
2 on behalf of all the members when I say this has been  
3 the most successful one. To have a successful twinning  
4 it takes work, as we all well know, on both sides, and  
5 George has been the engine that has been driving us  
6 from this side. Certainly now that there's a very good  
7 Committee, the Irish German Society here as well and  
8 that has been driving us as well. Throughout the years  
9 we've had various exchanges between our schools and  
10 business, our music and sporting and civic  
11 organisations in the past 20 years as well. And even  
12 only recently, I know you're well aware, that you had a  
13 dinner for the German people that were over here from  
14 Würzburg on Friday night as well and that was one of, I  
15 think, three groups from Würzburg that had been in  
16 Wicklow in the past month or six weeks. That would  
17 give you an indication of the interaction that's  
18 happening between us and them as well.

19  
20 I don't know if you're aware that in 1946 in the  
21 aftermath of the Second World War - and I presume a  
22 number of people around this Chamber wouldn't realise  
23 this as well - Operation Shamrock was established to  
24 bring children primarily from war-torn Germany to  
25 Ireland. The main reception area for these children  
26 was in Glencree, near Enniskerry and the children were  
27 then placed with families who helped to look after them  
28 for up to three years, and before sending them back to  
29 their relatives in Germany, a small number of the

1 children who had no surviving relatives made Ireland  
2 their home. I know a number of these and they have  
3 made a very significant contribution to Ireland since  
4 then.

5  
6 Also, in the aftermath of the Second World War the  
7 German War Cemetery was established in Glencree. I  
8 don't know if you have been there. If you haven't it  
9 certainly is well worth going to see. The cemetery is  
10 situated in Glencree and contains the graves of several  
11 hundred German military personnel mostly from the  
12 airforce and the naval services who died on Irish  
13 shores during the war.

14  
15 One of the world's best known brands, Siemens, and we  
16 have very strong connections with Siemens because in  
17 the 1870s Siemens got involved in laying the  
18 transatlantic cable connecting Ireland and Britain and  
19 to the United States, and the first cable having been  
20 laid by a Wicklow man, Captain Halpin, of the Great  
21 Eastern, and this the beginning of Siemens presence in  
22 Ireland and they went on to engage in many  
23 infrastructural schemes, including Turlock Hill,  
24 Ireland's only storage pumping station in the Wicklow  
25 Gap in 1974.

26  
27 I think it's fair to say that we in Ireland value our  
28 relationship with Europe and certainly since we have  
29 come in in the early 1970s we have embraced Europe.

1 It's a wonderful project. It has been very beneficial  
2 to Irish people as well. Unfortunately our neighbours  
3 in Britain have decided to leave. I think it's fair to  
4 say that they haven't embraced Europe like we have.  
5 Certainly our relationship with Germany and Würzburg  
6 that will continue and hopefully will strengthen over  
7 time as well because I think it's very important from  
8 us as an economy when we're losing our biggest market  
9 and the relationship we've had with Britain over these  
10 years, that has to be replaced and certainly we would  
11 be looking to the economic engine in Europe, Germany,  
12 and our friendship with the German people to become  
13 even stronger in the future years as well.

14  
15 Could I thank you again for the visit here. You have  
16 been very, very welcome. I know that most ambassadors  
17 here come for a number of years and move on. We hope  
18 that you will have time to experience our county. This  
19 is the Garden County, the most beautiful county in  
20 Ireland, we all think and we all agree with that and I  
21 don't know if you have had time to go around it but  
22 certainly it's to be recommended as well. I hope that  
23 your time spent here will be very fruitful and you will  
24 have happy memories here. Thank you very much.

25 MS. POTZEL: Thank you very much for having me. It's  
26 an honour to be invited to come and see you and speak  
27 to you. First of all, let me also utter a few words of  
28 praise for Wicklow and Wicklow County Council and the  
29 County. I arrived basically exactly a year ago, 1st

1 November last year and three days later I drove up to  
2 the Wicklow Mountains with Irish now friends, then  
3 people who I didn't really know very well but they took  
4 me through the mountains and up to Sally Gap and I was  
5 amazed by the beauty of the surroundings and we stopped  
6 in Laragh obviously and then went walking in  
7 Glendalough. So that happened three days after my  
8 arrival. And I've been back every so often because in  
9 any weather and in any time of the year this is such a  
10 wonderful landscape that you have and it's been looked  
11 after so well that I'm always impressed and I always  
12 take my friends who are coming over in quite big  
13 numbers from Germany, I always take them up there and  
14 we always stop at Glencree as well at the centre for  
15 peace and reconciliation and have a look at the  
16 Shamrock Exhibition and also go and have a look at the  
17 cemetery there, went down to Brittas Bay and Arklow and  
18 all the way up. So it's been fantastic to be here and  
19 to cherish the moments in this wonderful surrounding.  
20 It's really a treasure that you have here.

21  
22 As I said, it's really wonderful that I have the chance  
23 to talk to you today and I'm more than happy to answer  
24 questions later on. Let me, first of all, also thank  
25 George and underline the importance that we as the  
26 embassy attach to this exchange to those twinings. I  
27 said that before and you've heard it before, it's the  
28 most liveliest twinning that we have all over Ireland  
29 and I'm truly, truly grateful for that. So a very big

1           thank you also to here in this room.

2  
3           what I particularly like is that you also include the  
4           young ones. That you opened up to schools. That you  
5           have very vivid school exchanges because I think this  
6           is like the basis for our future, if we bring together  
7           the young ones. And you do that with your full  
8           commitment and it's wonderful to go and see the young  
9           kids at the schools and see how they enjoyed their time  
10          in the other country and that they have learned so  
11          much. We Germans we have seen throughout our history  
12          how important this exchange is, especially youth  
13          exchange. Like when you think of our efforts to  
14          reconciliation, our friendships and twinnings with  
15          France and Poland have really helped us to get on with  
16          reconciliation in Europe and so we have felt ourselves  
17          how important an instrument this is. States can do so  
18          much and yes, politicians can meet and business people  
19          can meet and exchange but it's the people and hopefully  
20          big numbers of people, if they get to know each other  
21          and understand each other better and know about each  
22          other, that is really something that will shape our  
23          European home and it is a joint home.

24  
25          You were already alluding to Brexit. With Brexit, the  
26          European landscape will change. We also are very, very  
27          saddened by the fact that the British are leaving but  
28          we are firmly convinced that we will keep this project  
29          going with the then 27 and we won't spare any effort to

1 support this European project.

2  
3 what we have realised and seen is that Ireland is  
4 opening up more to countries on, as you say, the  
5 continent and we, luckily enough, also profit from this  
6 sort of intensified interest. The Irish Government has  
7 produced, last April, a review on our relations,  
8 bilateral relations, and came up with a number of  
9 recommendations, how to foster and strengthen the  
10 relations on a bilateral level economics, business,  
11 cultural, political exchange and so on and so forth.  
12 And I'm very happy to be here at a time when we can  
13 really see this exchange growing. I would like to  
14 invite you also, everybody around those tables here, to  
15 use the opportunities that are here. We have a very  
16 committed German-Irish Chamber of Commerce, for  
17 instance, in Dublin so if there's anything that comes  
18 to your mind where you feel that would need their  
19 support, they will be more than ready to help and tell  
20 you about also market opportunities, business  
21 opportunities, for instance, in Germany or get German  
22 companies interested to come over here. We now have  
23 300 German companies in Ireland employing some 200,000  
24 people, some of the bigger names are SAP for instance,  
25 who employ more than 2,000 people here in Dublin and in  
26 Galway. So they know the market quite well but I also  
27 think that there is still more opportunities for Irish  
28 companies on the German market and especially now after  
29 Brexit I see that there's also a growing interest.

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25  
26  
27  
28  
29

I would also love to invite you to have a look at our wonderful newly refurbished Goethe-Institut, an institute that is looking into cultural exchange, putting up a lot of cultural programmes but also offers language courses. So if anybody feels compelled to learn this I admit not so easy German language, then do feel invited. Honestly, Irish is not so easy either so you can try at least. Anyways we just reopened it, it's on Merrion Square and is just a beautiful, beautiful, beautiful building. As I say, they also offer lovely cultural nights and it's definitely worth a visit, or if you just want to have a nice coffee there is a cafeteria downstairs and they offer very nice coffee as well. Do you have a look.

As I say, there are so many opportunities on a political level. We are trying to do our best as well. Our Foreign Minister has been here in April, the first German Foreign Minister to visit Ireland in eight years which is far too long a period, but that went really well and the two Foreign Ministers got on very well and they talked a lot about a number of issues and we are very much aligned in very many international topics. Yes, we also disagree on certain topics and there's this famous three-letter word beginning with T and ending with X where we do have certain differences but then there are lots of other areas where we are very, very much like minded and for us, Germany, Ireland also

1 is an important partner in the international scene and  
2 obviously also within the European Union.

3  
4 So with this, as I said, I'm more than happy to answer  
5 questions but do feel invited to work closely with us,  
6 either in the embassy or through the twinings that you  
7 have. Do encourage the young ones to get involved, to  
8 get interested. Germany is a wonderful tourist  
9 destination so I would like to invite you to think  
10 about the next holiday. It's not far away. It's cheap  
11 toll get there and even to spend the holiday there is  
12 not very expensive. And it's beautiful and warm even.  
13 Some people forget about that. Our summers are really  
14 warm. It's a great destination for doing business. As  
15 I said, a lot of market opportunities and it is also a  
16 wonderful destination for cultural experience,  
17 especially like in the big towns there's so much  
18 happening, not that Dublin is void of cultural events,  
19 but then I mean there's a very cultural diverse vivid  
20 cultural scene in Germany too.

21  
22 So we stand ready to support you, if you're interested  
23 in working with us. I'm very grateful to have the  
24 chance to talk to you here today. Thank you very much  
25 for listening. Thanks.

26 CATHAOIRLEACH: Thank you. Thank you, Deike.

27 George Jones now who is the Chairman of our Twinning  
28 Committee will say a few words, then I'm going to open  
29 it up to members, then Cllr. Ryan first and then

1 Cllr. Timmins after that.

2 MR. JONES: Thank you, Cathaoirleach, and thank you for  
3 the invitation to come down here which is only a  
4 temporary visit. I'm not making any permanent visit,  
5 or anything like that. Thanks very much to the  
6 Cathaoirleach and the Executive for inviting me here  
7 along with her Excellency here today. The only point I  
8 would make is that we have a very strong relationship  
9 with the twinning arrangements, Wicklow has an  
10 arrangement. I would ask people to actively continue  
11 to support this partnership. Nineteen years ago the  
12 contract of partnership was signed with the City of  
13 Würzburg in Bray. And since then we have worked and  
14 probably the biggest success of working with the City  
15 of Würzburg has been that it's a community-based  
16 operation. It is not just for politicians because in  
17 time in the past, partnerships and twinings have got  
18 into a bad reputation and has only been a vehicle for  
19 just using visits by each set of politicians but the  
20 Würzburg connection has been nothing like that. It's  
21 been a mixture of all sorts and the Cathaoirleach  
22 listed out there the amount of variety of community  
23 groups, cultural groups, musical groups that have been  
24 exchanged between both cities over that past 19 years.  
25 Next year is going to be a special year for us. The  
26 Lord Mayor will lead a very large delegation of  
27 Würzburg citizens here this time next year to celebrate  
28 the 20 years.

29

1 The other thing I'd like to say, I'd like to thank the  
2 Cathaoirleach and members of Wicklow County Council,  
3 members of Bray Municipal District Council also and the  
4 Chief Executive for their continued support because it  
5 is important that the local authorities do continue  
6 their support. I know we have the Irish-German  
7 Association working now and we're nearly now at a  
8 100-strong membership, but from a financial basis, we  
9 still need the support of the local authorities and I  
10 would like to thank you for that over the last number  
11 of years.

12  
13 The last item, as I say, and her Excellency has  
14 mentioned it very clearly there, and she has visited  
15 already, we have three schools in County Wicklow in  
16 formal arrangements with schools in Würzburg. The  
17 front-runner first was St. Kilian's Community School,  
18 which actually were the front-runner, Kevin Meehan, the  
19 principal of that school was the whole organiser behind  
20 this arrangement of how we ended up in a partnership  
21 between Bray and Wicklow and Würzburg. Then we  
22 followed on with Coláiste Chroabh Abhann in Kilcoole  
23 and only recently we have formally established a  
24 connection between Loreto in Bray, and her Excellency  
25 has already visited the students of Loreto. She will  
26 also be going to visit the other two schools over the  
27 next coming weeks. If anybody else or any Councillors  
28 have any schools in this area, we are in discussions  
29 now at the moment with St. Mary's Secondary School in

1 Arklow, I think there's also a school in west wicklow  
2 that has been talked about twinning. There are no  
3 shortage of getting schools in würzburg to have formal  
4 arrangements. Unlike a lot of the other European  
5 twinings, they are very useful because when children  
6 go over to würzburg, for instance Loreto are just back  
7 from würzburg, they actually attend the school for half  
8 days for the week that they're there, and vice versa  
9 when it happens here in Ireland, they attend in Loreto  
10 or St. Kilian's. So if any Councillors have any other  
11 schools in mind that are willing to - and they don't  
12 have to have German classes in the school but of course  
13 it is of huge benefit if the German classes are there.  
14 So if you have anybody interested we will be certainly  
15 anxious to progress it.

16  
17 Again, just thank you for giving us a hearing today and  
18 look forward to continuing to work with wicklow County  
19 Council and the Bray Municipal Authority in building  
20 upon the foundation of the past 19 years. Thank you.

21 CATHAOIRLEACH: Thank you, George. Cllr. Ryan.

22 CLLR. RYAN: Thanks, Cathaoirleach. You're very  
23 welcome to County wicklow, Ambassador. Before coming  
24 here today, my daughter is off sick today and I  
25 mentioned that the Ambassador to Ireland from Germany  
26 was going to address us and she said: "What's his  
27 name?" And I was delighted to say it's actually her.  
28 She was amazed with that too. So it's lovely to have  
29 you in that position and it's great to -- you have been

1 so welcoming, even having us in there on Friday night  
2 in your own residence. You spoke very eloquently,  
3 obviously again today.

4  
5 Just one of the things obviously that slightly  
6 disappoints me is the recent news that Angela Merkel  
7 has decided that she's going to come to an end very  
8 soon, well 2020. But I think it's really important,  
9 you know, what she did at that time, when the crisis  
10 with the immigrants fleeing from Syria, opening up the  
11 doors and allowing them to come in and find refuge in  
12 Germany. I think that's something that really has to  
13 be recognised that she showed incredible leadership and  
14 I know in some parts that that was met with resistance  
15 but that's fine. I think she showed great bravery in  
16 that decision and it was the right thing to do.

17  
18 Again, you mentioned, you know, Brexit. I think many  
19 people actually have forgotten why Europe was set up in  
20 the first place and I think at the back of all this is  
21 peace in our time. I think it's very relevant when  
22 we're coming up to the anniversaries. But the idea of  
23 the twinning is that sense of relationships and really  
24 getting to know the people in these other countries.  
25 We have been involved in a lot of different twinings  
26 but there's no doubt, the Würzburg twinning is just so  
27 special. And obviously, you know, George, it's good to  
28 have you back here. Never say never by the way! You  
29 have done a fantastic job in terms of driving us on and

1 Matthias from the other side. I think if you don't  
2 have people to do that these things die off. I think  
3 we've been stunningly successful in the schools in  
4 getting the next generation to really connect and  
5 combine and from the community and the cultural side.  
6 I think the one area that we probably haven't managed  
7 to unlock is the economic area and I'd love if you have  
8 any particular ideas with regard to that. I know  
9 Germany are particularly strong on the whole area of  
10 apprenticeships and maybe I think there's European  
11 funding available in some form but if there was some  
12 sort of reciprocal arrangement where we could put in  
13 place to have apprentices travel here from here to  
14 there and likewise. I think that would be the absolute  
15 icing on the cake. So if we could make that happen it  
16 would be wonderful.

17  
18 Thank you again for your wonderful support and you'll  
19 get sick of meetings us so often all the time. Thank  
20 you. Cheers

21 CATHAOIRLEACH: Cllr. Timmons.

22 CLLR. TIMMINS: Thank you, Ambassador. You're very  
23 welcome to County Wicklow. I had the honour of meeting  
24 you in Bray two months ago and we had a good chat about  
25 Germany and the history and that.

26  
27 I'd like to compliment you as well on your approach to  
28 the role. You spoke in the past about you visiting  
29 schools around the country that teach German. I think

1 that's great that you're getting out and meeting people  
2 and promoting the German culture around the country.  
3 And secondly the fact that you're going around visiting  
4 all the twinning partnerships that exist around  
5 Ireland, I think that's great that you're going out and  
6 meeting Irish people and promoting those twinings.

7  
8 I'd also like to pay tribute to Matthias Fleckensten  
9 who is on the Würzburg side. George has done trojan  
10 work on the Irish side. That partnership has worked  
11 equally well because of Matthias' work on the Würzburg  
12 side. Matthias has been able to tell us things about  
13 Ireland and about County Wicklow that we didn't know  
14 ourselves. He has put on exhibitions about stuff we  
15 didn't even know existed.

16  
17 By the way I lived in Würzburg for a while way back.

18  
19 The other things then are Brexit is an obvious thing.  
20 Ireland is going to -- Britain, to be honest was our  
21 main ally in Europe and indeed when you talk to any of  
22 the MEPs they'll tell you that. We're losing that ally  
23 now. So Ireland's actually going to have to look for  
24 new allies and Germany, apart from the tax word, is a  
25 case on point and I'm sure we have a lot in common and  
26 hopefully those relationships will build in Europe.

27  
28 The other thing is you spoke about schools. I know  
29 there's been a new think about Blessington and West

1 wicklow possibly doing a school exchange and hopefully  
2 that will come to fruition in the near future. I'd  
3 also say to members, and I have direct experience of  
4 this myself, to do exchanges in that you don't  
5 necessarily need to go through schools. There can be  
6 informal exchanges done as well and they can work just  
7 as well as school exchanges.

8  
9 Finally, I'd just like to bring up one thing on the  
10 economic side and that's Sparkasse. As you know,  
11 interest rates in Ireland for mortgages are very, very  
12 high. They're among the highest in Europe. Interest  
13 rates in Germany are very, very low and that's  
14 primarily because of this banking model built around  
15 local community banks described as Sparkasse. Every  
16 city in Germany has one of these. I know there has  
17 been talk about bringing that model to Ireland. There  
18 was talk a year ago about it being brought to the  
19 midlands and being set up and the County Council could  
20 have involvement. I'd like to say here today that I  
21 think that's a model that we should look at bringing to  
22 Ireland like, you know, politically it may be a little  
23 bit sensitive given that our Government have a large  
24 ownership in AIB and want the bank to be profitable.  
25 But ultimately it's the people of Ireland that we  
26 should be supporting in relation to getting good value,  
27 cheap loans and people are crippled with mortgages and,  
28 you know, if we had a Sparkasse model in Ireland people  
29 could be saving anything from 2, to 6, 7, 800 a month

1 in repayments. I think that's a model that we should  
2 be looking to promote in Ireland and we need to  
3 overcome the political resistance to it because the  
4 benefits for people are enormous. Thank you.

5 CATHAOLRLEACH: Thank you. Cllr. Ruttle and then  
6 Cllr. Fox.

7 CLLR. RUTTLE: Ambassador, I'd very much like to  
8 welcome you along here today. I think I'm the only  
9 member my the Council with a German background. My own  
10 family were from Speyer in Reinfeld and we came to this  
11 country from war-torn Germany as well and we're very  
12 happy and did okay here. It's always there in our mind  
13 in our background.

14  
15 A previous chancellor, do you remember in 1995,  
16 happened to be in Dublin on German Embassy day and we  
17 spend a very good day of celebration with them in the  
18 RDS that day. A wonderful day when he met us who are  
19 the Irish Palatine community on that day. We made a  
20 great presentation of a book to him that day and we had  
21 a wonderful time. It was great to see the  
22 reunification of the country as well.

23  
24 Speaking on other contexts, certainly as someone from  
25 the farming community I have always been very  
26 appreciative of German support for the CAP, the Common  
27 Agricultural Policy, which is crucial to a country like  
28 Ireland. It's always been, the two things that was  
29 mentioned earlier that formed the EU, as you know was

1 peace and freedom from hunger because, as you know in  
2 central Europe, ten years after the war some people  
3 were still hungry so to give sustainable and have  
4 continuity of food supply and the Common Agricultural  
5 Policy has succeeded in that. For people like  
6 ourselves who are, to a degree, on the periphery of  
7 Europe, physically we're isolated, that policy has been  
8 hugely important. As you know, the Irish Government  
9 have all been hugely defensive of the provisions of the  
10 Common Agricultural Policy and we're very appreciative  
11 that we always had German support, not just by talk but  
12 by inputs of your money and resources to fund the  
13 policy as well.

14  
15 we believe we found, as a Councillor said earlier on,  
16 our main ally in Europe is leaving now with the UK  
17 leaving. But I have to say that the whole Brexit  
18 negotiations, the attitude of your Chancellor of the  
19 German Government has been very solid in supporting the  
20 Irish position and we're also appreciative of that  
21 because it's a huge sea change for us.

22  
23 Like others in the Chamber, I visited Würzburg on a  
24 number of occasions and I was greatly taken by the  
25 wonderful, warm reception that we were given. But none  
26 of these things here locally would have been generated  
27 so effectively were it not for the man on our right  
28 here, George Jones, who did so, so much work to get  
29 this done and get the exchanges going and all the

1 interaction. I think I was over there about four times  
2 myself. It's wonderful. And if we could work through  
3 the schools it's a great benefit as well because that  
4 carries into another generation beyond our own. So  
5 thank you for being with us and we look forward, in  
6 this County, involving any scheme or exchanges or  
7 business or commercial interest that can benefit us and  
8 benefit you and benefit all moving forward in a new,  
9 but slightly changed perhaps, Europe. Thank you.

10 CATHAOLRLEACH: Thank you. Cllr. Fox.

11 CLLR. FOX: Thank you, Chairman. I, too, would like to  
12 welcome the Ambassador, you're very welcome. In actual  
13 fact I was attending St. Kilian's when the twinning  
14 with the late Kevin Meehan, well it wasn't a twinning,  
15 it was an educational twinning, I think it was 1986 or  
16 thereabouts, that that was the seed to the twinning  
17 arrangement and it was a wonderful exchange between the  
18 two schools, my own and St. Kilian's. I'm delighted  
19 that had that has grown. Coláiste Chroabh Abhann and  
20 Loreto I think are the other two schools. In actual  
21 fact my nieces were over in Würzburg and came back -  
22 they attend Loreto - and they had a hugely positive  
23 thing to say about their experience in Germany and  
24 Würzburg. It's great when people come back from a  
25 country and spread a positive message. So certainly  
26 the educational exchange is extremely worthwhile.

27  
28 I, too, would like to thank George Jones and Matthias  
29 in Würzburg, the two men have a very strong

1 relationship. They've become very good friends. And  
2 on the basis of that the twinning has grown between  
3 Wicklow and Würzburg. Though I was in Kilian's in '86  
4 it was only this year that I finally got to go to  
5 Würzburg and it was a wonderful experience, and a  
6 beautiful part of the world and certainly I will return  
7 on a family holiday at some stage.

8  
9 So I, too, also -- Cllr. Ruttle mentioned the economic  
10 links and CAP. I know there are strong ties between  
11 Germany and Ireland economically. I'm in food  
12 production. Again, I'm a farmer. I know Germany is  
13 the fifth largest market for Irish food. I think it's  
14 the third largest source of Irish tourists, the third  
15 largest market for tourists coming to Ireland. So  
16 there are huge economic links between Germany and  
17 Ireland and certainly the week that's in it, which is  
18 the anniversary of the Berlin wall coming down, I think  
19 9th November is the anniversary, that we would kick  
20 down any further barriers, whether economically,  
21 educationally, that we continue to strengthen our  
22 relationship with Germany.

23  
24 Just on Brexit. I won't rehash what everybody else has  
25 said but I think you, Ambassador, have a huge role to  
26 play insofar as you relay back to the Government in  
27 Germany how strong the feeling should be that there is  
28 no hard border in Ireland. I mean that is an  
29 absolutely critical part of the Brexit negotiations

1 from an Irish standpoint. It's amazing how, even after  
2 a hundred years, the Irish question still dominates the  
3 House of Commons but I think it's incumbent on you to  
4 relay back to your politicians in Germany how important  
5 the Irish question is and the border is but I'm sure  
6 you're aware of that already.

7  
8 So, look, continued success to you in your role and I'm  
9 delighted you're here in Wicklow and you're more than  
10 welcome to return again. Thanks.

11 CATHAOIRLEACH: Thank you. Cllr. Sylvester Bourke,  
12 then Cllr. Walsh.

13 CLLR. BOURKE: Thank you, Cathaoirleach. Ambassador,  
14 you're very welcome to County Wicklow. I'm from Arklow  
15 in the south of the County. Myself daughter is just  
16 home for a week exchange, a student exchange in  
17 Würzburg and she had a marvellous and had great things  
18 to say about it. I have a sister who lives in Cologne,  
19 not far from there, so a lot of connections with  
20 Germany. I'm delighted that you've had such a positive  
21 welcome here to you and a lot of our hopes are pinned  
22 on your ability to communicate our feelings back to  
23 your Government, as Cllr. Fox has said.

24  
25 I'm a farmer myself as well and I'm often envious of  
26 reading reports in the papers that German farmers can  
27 borrow money at 1.5% but we have to pay 5% for similar  
28 loans. So it's a big issue that we would love to be  
29 able to ideally go to Würzburg and go to a bank and

1 borrow money there but we're not allowed to do that.  
2 Perhaps you could convince them to come over here or  
3 set up some means of doing business in Ireland because  
4 there's an appetite there because we want to be  
5 competitive with everybody else and we need to have the  
6 same costs structure, so whether it's fertiliser at the  
7 same price or interest rates at the same price, it's  
8 really important that we're all operating at the same  
9 level as food producers in Europe.

10  
11 In relation to the Treaty. It would be great if the  
12 British could be more like the Irish. When the Irish  
13 got a result they didn't like in the Niece Treaty they  
14 had a second referendum! But unfortunately it doesn't  
15 seem like it's going to happen in the British  
16 situation. Thank you very much.

17 CATHAOIRLEACH: Cllr. Gerry Walsh and then I'll finish  
18 with Cllr. Mitchell.

19 CLLR. WALSH: Thanks, Cathaoirleach. Again,  
20 Ambassador, you're most welcome to Wicklow and I'm so  
21 glad to hear you've enjoyed your first year in the  
22 role. You've got to experience and enjoy the Wicklow  
23 landscape, the mountains and of course made some good  
24 new friends.

25  
26 Like some of the others previous speakers, I had the  
27 opportunity to visit Würzburg, I think it's over two  
28 years ago now, and I have to say I really enjoyed the  
29 experience of your beautiful city, the culture and your

1 people, the warmth and friendship of your people really  
2 made the visit so enjoyable. Also, during that visit  
3 there was a group from the Coláiste Chroabh Abhann  
4 school there which really emphasised how well the  
5 student exchange programme is working. I think this is  
6 why this twinning has been so important and works so  
7 well, the fact that it started from an educational  
8 perspective. I'm glad to hear that you've reached out  
9 to three schools now involved in the twinning  
10 arrangement with Würzburg and Loreto Bray are also  
11 there with St. Kilian's.

12  
13 Other speakers have spoken about the Brexit issues.  
14 You referred to the 300 German companies in Ireland  
15 that are employing 200,000 people. It's so important  
16 to our economy and even with Brexit looming now it's  
17 even more important.

18  
19 Again, I just want to thank you for coming here today.  
20 I hope you enjoy the rest of your stay in Ireland and  
21 that we hope to visit Würzburg again sometime soon.  
22 Thank you.

23 CATHAoirLEACH: Cllr. Mitchell and then I'll ask the  
24 Ambassador to respond.

25 CLLR. MITCHELL: Thank you, Cathaoirleach. Just to  
26 welcome the Ambassador here. Glad to have you here. I  
27 think that the twinning with Würzburg is an extremely  
28 worthwhile one. It involves many community groups of  
29 all types, solicitors from Wicklow, various choirs and

1 the schools which have all been mentioned and which are  
2 particularly important. As a country we are not great  
3 at foreign languages and I think it's important to try  
4 to encourage the study of foreign language and culture  
5 and it is important to do this with Germany.

6  
7 This twinning works, I think, particularly well because  
8 a lot of interest and a lot of work is put into it by  
9 George Jones and also Matthias on the German side. I  
10 think some twinings don't really work that well  
11 because they don't get the community involved. But  
12 this has worked and I think it's something to be  
13 strongly encouraged. It's good to see you here. Thank  
14 you.

15 CATHAOIRLEACH: Okay. Ambassador, if you would like to  
16 respond? Thank you very much.

17 MS. POTZEL: Thank you, first of all, for this  
18 wonderful feedback. So glad to hear that so many of  
19 you already have had positive experiences with Germany  
20 and some of you even have a long family history with my  
21 home country. I'm also very glad to hear from so many  
22 of you that you know about the wonderful work George is  
23 doing and that you fully support him and I want to do  
24 the same in my tenure here obviously.

25  
26 Let me just come back to some of the things that you  
27 mentioned and let me start with Brexit. Yes, I mean  
28 from the first day basically we have been a hundred  
29 percent behind the Irish position as regards the border

1 issue and we will continue to do so. I know that here  
2 and there there are question marks, you know, will the  
3 European Union still stick with the Irish? But so far  
4 I don't have any clue that that might be different. On  
5 the contrary, we have said and we continue saying and  
6 we will support Mr. Barnier, and he has also come out  
7 very clearly there will be no agreement if there isn't  
8 a clear-cut backstop for Ireland. When the news which  
9 we had over the weekend indicated that there is some  
10 movement they've said they haven't reached an agreement  
11 yet but let's keep our fingers crossed.

12  
13 I'm trying to stay optimistic because I really believe  
14 and that's not only me but my Government as well that a  
15 no-deal scenario would be so detrimental and terrible  
16 for both sides, the European Union and Great Britain  
17 and obviously also particularly for Ireland that that  
18 is actually not an option that we want to see become a  
19 reality. So that's why I think everybody is trying  
20 really hard to get a deal done to then get into  
21 negotiations about a good and close relationship with  
22 Britain because they are an important partner and they  
23 always will be and we need them politically and  
24 economically so that will then be done. First of all,  
25 we need that agreement now and, as I said, we are a  
26 hundred percent in solidarity with Ireland on the issue  
27 to avoid a hard border between North and South.  
28 On CAP. The proposal on the table by the European  
29 Commission says that there need to be certain cuts but

1 there is, in none of the Member States, very much taste  
2 for this policy. As you rightly alluded to, we  
3 basically have the same take on CAP. On the other  
4 hand, it is quite obvious that the European Union needs  
5 money for new tasks and new challenges, and the  
6 question, especially because Britain now is leaving and  
7 we have one net payer less, is where does that money  
8 come from? So the European Commission will sit down  
9 with the European Member States to discuss exactly  
10 that. So what the outcome will be I think it's very  
11 difficult to say that today but somehow we need to  
12 balance those two really important issues I think.

13  
14 The other thing that I wanted to mention was the  
15 Sparkasse. Yes, as I take it there have been a lot of  
16 talks and the people from the Sparkasse in Germany,  
17 they came over here and talked to people in Ireland and  
18 tried to promote the model but, as you said, apparently  
19 there isn't much support for that idea here because it  
20 would really change the banking sector quite  
21 significantly, apparently. If I understood that  
22 correctly about €170 million would be needed as a first  
23 sort of budget to help get this thing started.  
24 Apparently that money is not going to be allocated. I  
25 think at the moment it's difficult to see how this can  
26 develop further unless the discussion within Ireland -  
27 and that's not something we can sort of influence, but  
28 unless the discussion in Ireland goes another way, I  
29 think then the Sparkasse people would still be open to

1           come and talk and see what can be done. But for the  
2           time being it rather looks as if there is not much  
3           movement in this project at the moment. But I see your  
4           point.

5  
6           Palatines. Yeah, I went to see the museum in Rathkeale  
7           and that was very interesting and talked to the people  
8           there and I just have to commend them on what they are  
9           doing. It's amazing. I mean it's all voluntary work  
10          and there's not much money in it and it's very hard  
11          work, I think, ultimately to promote what they are  
12          doing and to get people interested to come over and  
13          have a look not only at the museum but also in the area  
14          and learn about this history. And I was amazed, I have  
15          to say, also, about the history itself because when you  
16          look at a lot of the migration issues that we discussed  
17          today, 709, that is what the Palatines went through. A  
18          lot of misery back in wartimes, harsh winter, no  
19          future, no money and they left under very difficult  
20          circumstances and some of them found refuge in Ireland  
21          and lots of them went further to the States others went  
22          back, some stayed in Britain. But a few of them also  
23          found a home here and it wasn't easy for them to settle  
24          here. There was a lot of, you know, question marks,  
25          you know: who are those guys? And they look strange  
26          and they work strange and they eat strange things. So  
27          it's amazing to see how things, you know, come back.  
28          So that's why I really think it's worthwhile telling  
29          this story and I really wish also the museum and all

1 the people a lot of success that more people will go  
2 there and have a look and learn about the story because  
3 I think it's really important to learn from the past.  
4 It's been a wonderful trip, I have to say, to be there.

5  
6 Have I forgotten anything? Yeah. I wanted to mention  
7 one other thing in terms of our trade relations.  
8 Actually it's interesting to see Ireland is one of the  
9 very few countries in the world we, Germany, have a  
10 trade deficit with. So it's something you can be proud  
11 of! It shows that there is a lot of opportunity on the  
12 German market. Your products are really sought after.  
13 So it's, I think, a way to, yeah, further our economic  
14 relations as well. You were saying, you know, we still  
15 haven't really developed that part of the relationship.  
16 I think I would agree and I will get in touch with the  
17 MD of the Chamber of the Commerce to see, especially in  
18 the apprenticeship model what we can do, but also apart  
19 from that what can be done. Yes, I'm a very big fan of  
20 our apprenticeships and it has proven to be one of the  
21 pillars really of our job market. It shows people that  
22 you don't need, necessarily, a third level education to  
23 lead a very decent life and be recognised for what you  
24 do and, you know, get a lot of esteem from your work as  
25 a plumber or a carpenter or what have you, or a butcher  
26 or whatever. So, yeah, I will definitely talk to him  
27 and then sort of establish the contact there so that we  
28 can work on that as well.

29

1 I hope I haven't missed anything. Thank you once again  
2 and let me once again encourage everyone to follow  
3 George's foot steps and get involved. You were  
4 alluding, George, also to the schools and looking for  
5 new school contacts. Yes, and I have a long list of  
6 German schools interested with exchange in Ireland in  
7 my office so there is no lack of interest from our  
8 side. So if there's anything, as I say, we can do we  
9 would be more than happy to help. Thank you so much  
10 for having me.

11 CATHAOIRLEACH: Thank you, Ambassador. Ambassador,  
12 you're in Ireland now so you can't leave without us  
13 making a presentation to you. Lorraine will explain  
14 the presentation that we're making on behalf of Wicklow  
15 County Council.

16 MS. GALLAGHER: Yes, Ambassador. You are presented  
17 with a beautifully hand-knitted garment from Shuttle  
18 Knit, it's a knitwear manufacturing company in Wicklow  
19 Town. 70% of the workforce is from the Travelling  
20 Community, all exceptionally skilled machine knitters  
21 and finishers. They are a nonprofit organisation so  
22 all profits made go straight back into the business and  
23 are used for ongoing training and up-skilling.

24  
25 'Knitting communities together' is their tag line that  
26 they use to encompass the ethos of who they are. Which  
27 is one of social inclusion, bringing people from the  
28 traveller and settled communities together, creating an  
29 environment in which all workers are respected and

1 treated equally.

2 CATHAOIRLEACH: Members, can I have your attention  
3 here. we'll start the meeting. Votes of sympathy. I  
4 think there's two votes of sympathy.

5 CLLR. McLOUGHLIN: Yes, Cathaoirleach, for  
6 Mrs. Julia Lambert, mother of Cllr. Mary McDonald; and  
7 Leonard Enright, brother-in-law of Cllr. Tom Fortune.

8 CATHAOIRLEACH: Okay. Can we stand please?  
9

10 [ONE MINUTE'S SILENCE WAS OBSERVED]  
11

12 CATHAOIRLEACH: Item 2 on the agenda: Confirm and sign  
13 minutes of the meeting of 3rd September. Proposer and  
14 seconder?

15 MS. GALLAGHER: Proposed by Cllr. Pat Fitzgerald and  
16 seconded by Cllr. Snell. Thank you.

17 CATHAOIRLEACH: Item 3, could I have a proposer and  
18 seconder for the minutes of 10th September.

19 MS. GALLAGHER: Cllr. Lawless, seconded by  
20 Cllr. Fitzgerald.

21 CATHAOIRLEACH: Item 4: To confirm minutes of the  
22 local property tax meeting on 24th September, proposer  
23 and seconder?

24 MS. GALLAGHER: Cllr. Gayle Dunne, seconded by?  
25 CATHAOIRLEACH: Pat Kennedy.

26 MS. GALLAGHER: Thank you.

27 CATHAOIRLEACH: Confirm and sign minutes of the  
28 Ordinary Meeting of 1st October. Proposed by  
29 Cllr. Snell.

1 MS. GALLAGHER: Seconded Cllr. O'Brien.  
2 CATHAOIRLEACH: Thank you. To confirm and sign minutes  
3 of the special Meeting of Wicklow County Council on  
4 15th October. Proposer and seconder; John Ryan and Pat  
5 Fitzgerald.  
6 MS. GALLAGHER: Thank you.  
7 CATHAOIRLEACH: Item 7: To consider the disposal of  
8 land in Ballinacooley. Proposer John Snell; seconder  
9 Gerry Walsh. Is that agreed?  
10 FROM THE FLOOR: Yeah.  
11 CATHAOIRLEACH: Fully agreed. Thank you very much.  
12 Item 8, can I have a proposer for 8? Cllr. Gayle  
13 Dunne. Seconder John Snell. Agreement on that.  
14 FROM THE FLOOR: Yeah.  
15 CATHAOIRLEACH: Thank you very much. Item 9: To  
16 consider the disposal of the Council's interest at  
17 Darragh Park in Wicklow Town. Proposed by Gayle Dunne;  
18 seconded John Snell. Is that agreed?  
19 FROM THE FLOOR: Agreed.  
20 CATHAOIRLEACH: Okay. The Chief Executive's report.  
21 MR. CURRAN: This is the report on the Arklow waste  
22 Water Treatment Plant which we'll be submitting to An  
23 Bord Pleanála. Needless to say we're recommending a  
24 grant and we've inserted some standard environmental  
25 issues.  
26 CLLR. LAWLESS: Could you turn on the mic?  
27 MR. CURRAN: Sorry. This report is the Chief  
28 Executive's report to An Bord Pleanála. It recommends  
29 the grant of permission subject to some standard

1 environmental conditions. Members have the opportunity  
2 to submit additional conditions if they wish and we'll  
3 attach with the report. What we have first is a report  
4 from Kevin Scanlon who has worked on this project for a  
5 number of years in the Water Services Department.  
6 Maybe if we get the presentation first and then take  
7 any questions.

8 CATHAOIRLEACH: Okay.

9 MR. SCANLON: Afternoon, everybody. I won't keep too  
10 much of your time. I'll just run through these slides  
11 as quickly as possible.

12  
13 Everybody knows there's a long history to the Waste  
14 Water Treatment Plant in Arklow going back many, many  
15 years. But I won't go over the history of it, I'll  
16 just basically take it from where we are currently.

17  
18 Irish Water have lodged the planning application -  
19 it's a strategic infrastructure development - in the  
20 last couple of months. It was actually lodged in  
21 September, 20th September this year. Submissions to  
22 Bord Pleanála on due by 9th November. So under the  
23 Planning and Development (Strategic Infrastructure)  
24 Act, because of the scale of the development it goes  
25 directly to An Bord Pleanála, it doesn't go to the  
26 Local Authority, and they make a decision there.

27  
28 So the gist of the actual application is, it's a Waste  
29 Water Treatment Plant for population equivalent of

1 36,000. There is two major interceptors sewers and a  
2 river crossing. There's also storm overflows; combined  
3 sewer overflows; long sea outfall; revetment works; the  
4 rock armour that's there in front of the wallboard site  
5 will be updated. Irish water have asked for a ten-year  
6 duration on the permission.

7  
8 So basically most people will know this is the site  
9 itself. This is a drone photo taken from out in the  
10 Irish Sea, a couple of hundred metres off towards  
11 looking back, almost eastwards in towards the town.  
12 Purposely the large grey industrial building, if you  
13 like, on the bottom of the screen is what is locally  
14 known as the wallboard factory. It's currently  
15 disused, derelict and attracting a lot of anti-social  
16 behaviour, if you like.

17  
18 That's the site itself. It's the entire building that  
19 you're looking at and I'll show you a little map in a  
20 couple of slides of the actual site layout.

21  
22 The proposal is to demolish everything that's onsite at  
23 the moment and to basically rebuild, there's a little  
24 bit of remediation works on the site to be done, ground  
25 remediation and demolish everything and rebuild the  
26 brand new plant.

27  
28 So the next thing I'll say. Basically all the  
29 information I am giving you here this afternoon is

1 taken from the An Bord Pleanála, dedicated website that  
2 was set up for the strategic infrastructure  
3 application. So it's split into four different  
4 headings. I'll run through the four of them very  
5 quickly and I'll show you some of the maps that go  
6 along with the photos. The first folder is a statutory  
7 document. This is the application form; the fees that  
8 we've paid; the environmental impact assessment portal  
9 that they have to put all the information up on; and  
10 they've also had to put a dedicated website. This is  
11 actually a feature of a strategic infrastructure  
12 application. Nowadays anybody who comes in with an  
13 application of this magnitude, if you like, has to set  
14 up a dedicated website and it's just another way of  
15 getting the information out to people much easier than  
16 hard copies and people coming into offices.

17  
18 The other thing that Irish Water have done is they've  
19 notified the prescribed bodies. There's 17 prescribed  
20 bodies. Wicklow County Council and Arklow Municipal  
21 District are among two of them. They've then done the  
22 usual that you see with the more ordinary planning  
23 applications. Notified in newspapers, two newspapers,  
24 The Wicklow People and The Independent and put site  
25 notices at 21 locations around the town. The Arklow  
26 Council and others will have seen lots of these huge A3  
27 two and three pages dotted around the place over the  
28 last few months.

29

1 So hopefully you can make this out. I think there is a  
2 pointer on this somewhere but I'll just explain. The  
3 red line, if you like, along the bottom, these are the  
4 major elements to the project. The red line along the  
5 south side of the Avoca River is a southern interceptor  
6 sewer. It starts at a site known as the Alps and as a  
7 small enough pipe, probably 300 diameter pipe, and  
8 basically runs, collects all the sewerage along the  
9 southside of the town, runs all the way as far as the  
10 green line bottom right-hand corner. That's where the  
11 sewer crossing. By the time the pipes get down there,  
12 they'll be approximately 1200 millimetres in diameter.  
13

14 The next kind of blue line on the north side is called  
15 the northern interceptor sewer. That will run from the  
16 back of Number One Ferrybank. Again, starts out as a  
17 525 diameter pipe, and it runs down along the North  
18 Quay in front of all the buildings there. Kind of  
19 zigzags itself in around the Marina Village and joins  
20 up to the site, the dark grey buildings on the  
21 right-hand side.  
22

23 The next, I suppose, large engineering element is that  
24 the green line - it's not that clear on that drawing,  
25 it's very clear on my laptop, but it's not that clear  
26 here - that's an actual river crossing. They're  
27 actually going to drill underneath the river and  
28 they're going to start at the southern quay and they're  
29 going to drill underneath the river and head straight

1 for the site. So the dark grey boxes that you see in  
2 the bottom right-hand side, that's the kind of site  
3 layout of the buildings, the actual waste water  
4 treatment plant buildings. There's small buildings, an  
5 admin building, there's an actual treatment plant  
6 building. There's all sorts of technical details going  
7 in there, where they'll actually treat the sewerage on  
8 site.

9  
10 The lighter grey bigger mass that you see on the  
11 seaside of the buildings there is actually the existing  
12 revetment. I think the engineers call it a revetment.  
13 It's basically the stone feature that's put up there  
14 back in 1990. After Hurricane Charlie in 1986 there  
15 was another flood in Arklow in 1989 and in 1990 the new  
16 Cedar fences were built, basically from the North Quay  
17 beyond the caravan park heading for Enereilly Beach  
18 there. There's about 400 metres of the site is  
19 protected by the revetment at the moment but because of  
20 30 years since it's been built, you know, minimum  
21 maintenance, new design standards and also more recent  
22 environmental sort of sea levels and storm damage  
23 levels. The revetment is going to be increased by  
24 about two-and-a-half metres and the width of the basin  
25 is going to be widened by about 40 metres. It's a very  
26 large portion of the construction process.

27  
28 The last kind of dotted line you'll see on the  
29 right-hand side out of that is the long sea outfall.

1 Basically all the treated sewerage will be pumped out  
2 about 900 metres, almost in a northeasterly direction  
3 out into the sea where they have diffusers and it will  
4 be left off where the actual effluent is there. That's  
5 the actual site layout.

6  
7 The next little slide is the actual planning documents.  
8 So there's three sets, three parts to the planning  
9 documents, the actual application where the application  
10 form was filled out with all the details of the actual  
11 project.

12  
13 The planning report is a standalone document done by  
14 not Arups or Byrne Looby, the consultants, but a  
15 different consultant on a description and summary of  
16 the actual project. Then finally as part of the  
17 planning application there's 137 drawings of everything  
18 ranging from the design of the plant, to traffic,  
19 temporary traffic management, the buildings on the  
20 site, landscaping, basically everything that they need  
21 to actually build the site.

22  
23 So this, as I just mentioned the revetment, the rock  
24 armour. Again, it's hard to see on the bigger screen  
25 but on the left-hand side you can almost see a little  
26 bump, it's a little rough kind of dotted line. That's  
27 the existing rock armour as it is in situ. To the  
28 right of it is the brand new engineered structure so  
29 you can see it's raised up by two-and-a-half metres and

1 it's a much more substantial structure. That will  
2 protect the actual the waste water treatment plant from  
3 any future storms. I think the design life of it is  
4 about 40 to 50 years, so it looks like this brand new  
5 structure, the 400-metre long structure will protect  
6 the actual waste water treatment plant over the coming  
7 years.

8  
9 The third set of documents that's actually included in  
10 the application are the environmental documents.  
11 Again, these are a huge part to the strategic  
12 infrastructure process. There's an Natura impact  
13 assessment has been on the site. Most people know that  
14 the Buckroneys-Brittias Bay Dunes and Fen are one of our  
15 protected natural features in the County. They, as a  
16 result of having a development within 20 kilometres of  
17 the site, they actually had to analyse the effect on it  
18 but the analysis has shown that there will be no effect  
19 on it because it's so far north. All the effluent and  
20 waste water treatment will actually be further south,  
21 if you like, just coming out of Arklow.

22  
23 The next thing then is the actual environmental impact  
24 assessment report. So the applicant, Irish water, has  
25 submitted a report on all the environmental issues.  
26 There's four volumes for people that are interested in  
27 it. There's a non-technical summary, which is a very  
28 handy way of copying and pasting all the headings,  
29 especially when you're doing a report like this.

1 There's the actual full report, hundreds and hundreds  
2 of hundreds of pages of the actual effects. Seventeen  
3 chapters of all environmental issues. Noise, odour,  
4 traffic are amongst the most important that I've noted  
5 here.

6  
7 There's lot of figures, calculations and background  
8 work that they've done. Then there's the appendices.  
9 And again amongst the appendices, some of the more  
10 interesting ones are they actually have photomontages,  
11 they actually have drawings and they actually have  
12 other environmental information to read through it.

13  
14 So the photomontages, basically as part of the  
15 environmental assessment, they have to assess what  
16 effect the actual view, what the visual effect will be.  
17 What I've done is I've taken out four in this case but  
18 there's actually probably closer to 40 in the actual  
19 document. I'll just basically run through this.

20  
21 This photo was taken probably earlier this summer,  
22 looking at the weather. This is the existing  
23 situation. That is a photographer standing on the town  
24 side, if you like, on the Bridge Street side of the  
25 Nineteen Arches Bridge in Arklow and they're looking  
26 east, they're looking downstream down the river. So  
27 that's the South Quay on the right-hand side. That's  
28 Bridgewater Shopping Centre apartments on the left-hand  
29 side and that's the Marina Village in the distance.

1 You can actually see, well if you could see it any  
2 closer, the actual spire and the actual top of the  
3 building is there. So what they've done is, they've  
4 done what will actually happen here and while it  
5 mightn't seem a whole lot, basically this is just one  
6 of the effects here. They have to widen South Quay  
7 from the bridge for a distance of about 240 metres to  
8 actually fit the new southern interceptor sewer in.  
9 There's no room for anybody who has collected a Chinese  
10 there at the South Quay, or driven along by the  
11 apartments there. There's no room. The quay is  
12 actually only about three-and-a-half metres wide. So  
13 they're going to widen the quay, you'll see it there.  
14 That's the new shape of it. The new sewer will be put  
15 into that green area, if you like.

16  
17 That's just a photomontage of the before and after when  
18 the job is finished. And in the distance you can see  
19 the height of the buildings, the existing building and  
20 the spire or the chimney stack, if you like, has  
21 disappeared and the new building goes in there.

22  
23 The fourth leg of the SID is actually the CPO  
24 documents. So in tandem with the planning application  
25 Bord Pleanála insist during this process that the CPO  
26 documents are all done at the same time so they can  
27 make a decision at the same time and everything can  
28 flow together, if you like.

29

1 So public notices and information for people was  
2 published back in August. The CPO includes wayleaves,  
3 both temporary and permanent wayleaves. It includes  
4 rights of way and it includes permanent purchases where  
5 Irish Water will actually be buying a little corner of  
6 land or an area to put some of the items that have to  
7 be constructed here.

8  
9 There's also landowner notices. All landowners were  
10 informed of the drawings. They were given maps. They  
11 will were given legal info, solicitors' details. So  
12 Irish Water has a solicitor and landowners are given  
13 the right to a solicitor, which the costs are all  
14 looked after. There's actually only 18 landowners on  
15 the scheme, even though there's probably the guts of 50  
16 pieces of land that are going to be bought. But  
17 generally, as you would imagine on a scheme like this,  
18 it's mainly roads, Wicklow County Council is the main  
19 landowner, if you like, and there are, then, smaller  
20 parcels for individual landowners. So that's the CPO,  
21 that's the fourth and final part of the actual planning  
22 application.

23  
24 The last two little slides that I have here, again, as  
25 part of the photomontage for the environmental  
26 assessment, this is currently the view. So you're  
27 standing in the harbour, you're right down at the end  
28 of the harbour where you can drive now in Arklow before  
29 you turn around onto the Dock Road. You're looking

1 north, north, northeast maybe, you're currently looking  
2 across again you'll see it, that's basically the entire  
3 wallboard site that you can see the extent of the  
4 picture. The other little thing on the left-hand side  
5 is what they call locally the Tank Farm, the Foodie  
6 planning site on the left-hand side. Again that's what  
7 it looks like today. That's what it will look like in  
8 a few years. So you'll see the main part of the  
9 building, starting on the left-hand side, is the actual  
10 treatment plant building where the treatment processes  
11 would take place in that building, the screening.  
12 There's a little gap then to smaller administration  
13 buildings and the larger building on the right-hand  
14 side is actually where the treatment process will take  
15 place. As I said earlier, it's designed to take 36,000  
16 PE of a loading. That's the horizon that they're  
17 looking at over the next 30-40 years. The day it opens  
18 I guess, the calculations currently are about 22,000 of  
19 a PE in Arklow which is made up of approximately 13,000  
20 people living in the town producing sewerage and  
21 another 8-9,000 business/commercial loading from the  
22 town. So it's going to be low 20s and it's going to be  
23 modular construction. So it's going to be done in  
24 banks of 6,000. So the day they open it, let's say, in  
25 a few years, they'll put in the first four modules,  
26 that will get them 24,000 PE. If, you know, more  
27 houses are built and more industry comes to Arklow,  
28 they'll able to increase in lumps of 6,000 to keep  
29 ahead of the actual treatment process and making sure

1 that everything that needs to be treated will be  
2 treated.

3  
4 so basically that's it. The strategic infrastructure  
5 application is in, as I said, on the dates there and  
6 it's really just a matter for the County Council to  
7 have reported on it and take it from there. Is that  
8 all right?

9 CATHAOIRLEACH: That's fine. Thank you. Just open it  
10 up for questions. Lorraine wants to come in on a point  
11 of information.

12 MS. GALLAGHER: Cathaoirleach, just to say to the  
13 elected members that they've been circulated with the  
14 Chief Executive's report and Part 5 of section 37E  
15 states that:

16  
17 "The members of the planning authority may, by  
18 resolution, decide to attach recommendations specified  
19 in the resolution to the report of the authority, where  
20 the members so decide those recommendations, together  
21 with the meetings administrator's record shall be  
22 attached to the report and submitted to the Board under  
23 subsection (4)."

24  
25 CATHAOIRLEACH: Cllr. Fitzgerald, then Cllr. Murphy.

26 CLLR. FITZGERALD: we can ask questions, I presume and  
27 Kevin will answer them.

28 CATHAOIRLEACH: Absolutely.

29 CLLR. FITZGERALD: I warmly welcome what's happened so

1 far on the sewerage treatment plant. There's been many  
2 false starts with the sewerage treatment plant. Back  
3 in 1993 we got permission. Back in 1999 the second  
4 permission was planned and unfortunately didn't go  
5 through. In the meantime we're with a drainage system  
6 in the town where some of the pipes are in since the  
7 1930s and we seriously need the sewerage treatment  
8 plant for the future of the Arklow and the environs and  
9 people of Arklow.

10  
11 I fully support the application that has gone to the  
12 Board. I know there will be concerns. And I just want  
13 to bring up a few there, Kevin, just small ones, if you  
14 can answer them.

15  
16 Ancillary works. You're talking about a temporary road  
17 there from north of the waste treatment plant between  
18 Seaview Avenue and Mill Road, including hoarding. Of  
19 those who were on the Council back in the late 1990s we  
20 remember we tried to do a road across there and there  
21 was a fierce opposition to it. The fact that the  
22 construction is going to last three-and-a-half to four  
23 years, is that temporary road going to be temporary for  
24 three-and-a-half to four years? That's the first  
25 question.

26  
27 The second question is the rock armour of the  
28 revetment. Irish Water got funding to do, let's take  
29 the sewerage treatment plant and the provision of a

1 walkway along of the crest of the rock armour for  
2 consideration and its inclusion in the design was  
3 identified to the applicants on health and safety  
4 grounds. Besides the obvious, what are the health and  
5 safety grounds that that is not now being included?  
6

7 Just on the tunnelling works which will occur 24 hours  
8 a day, these are just a few questions that people have  
9 asked me. Are people homes going to be -- like  
10 tunnelling is fairly loud, let's say. I heard them up  
11 the river doing it, temporary, up the Avoca River. How  
12 is that going to affect people's lives because  
13 tunnelling will occur 24 hours a day, seven days a week  
14 it says in what we have been issued with here. The  
15 other thing is the Seafarers' Garden which we all know  
16 about --

17 CLLR. TIMMINS: To make an omelette you have to break  
18 an egg.

19 CLLR. FITZGERALD: Hard enough to talk. The Seafarers'  
20 Memorial Garden, the work will result in the removal of  
21 the garden. So that will be gone for three-and-a-half  
22 to four years as well, will it? It says here it will  
23 be removed temporary and will be reinstated at the  
24 completion of the works. What does "temporary" mean in  
25 that case?  
26

27 Look, there a few things that people -- I'm fully  
28 supporting it and I'm making no submission and anyone  
29 that asks me I'm fully supporting it.

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25  
26  
27  
28  
29

The other issue is there, the Arklow population went up by 60% from 1996 to 2018. It went from just almost 9,500 to 14,400. I was just checking the figures today. And it is projected to go to 19,500 by 2022 that's pie in the sky at this stage because unless we get planning for percolating systems, whatever, there's going to be very little increase in the population in Arklow. And to 23,000 by 2028. So again with the waste water treatment plant optimistically you would think it's 2024 because if they got permission in the middle of 2019 you're talking about three-and-a-half to four years for completion is what you say. At what stage will Wicklow County Council take the view that plant is just a year away or two years' away and we can let building commence on the north side of town

CATHAOIRLEACH: All right. Okay. Thank you.  
Cllr. Murphy.

CLLR. MURPHY: Cllr. Fitzgerald has asked some questions I was going to ask so I won't go over it again but it's a welcome presentation here today. And the work, I think we've, you know, we've talked about it for so many years and probably the public and ourselves haven't realised the work that has went on behind the scenes and how it is brought before here today. One of the questions for me was the life of the plant, which you've answered that, 40-50 years. Also, I think the temporary road, that needs to be certainly addressed because, you know, it's a small residential

1 area. It's down at our scenic part, the only part of  
2 the town we can boast about, as such.

3  
4 Again, I know the communication has been good and I  
5 really, really would stress that that continues because  
6 if, as you know, what towns and everything is like, you  
7 know, we want -- this needs to be a positive step, you  
8 know, and we as sitting Councillors, need to know the  
9 news before it gets out to the public because I find  
10 sometimes the public do know more than we do, which is  
11 not great. So I really would appreciate that we would  
12 be told, step-to-step, before it gets out to the  
13 public. Also, I would request that we have that  
14 presentation sent to us. I really appreciate your  
15 work. Thank you.

16 CATHAOIRLEACH: Thank you, Councillor. Cllr. Bourke  
17 and Cllr. Whitmore.

18 CLLR. BOURKE: Thank you, Cathaoirleach. I'd just like  
19 to first of all welcome the progress that you have been  
20 making, you and your team in Irish water. It's very  
21 welcome and we hope that it makes the progress to  
22 construction stage. I hope so anyway. Just a query I  
23 have about the cost of it. Originally a budget of  
24 about 30 million but I heard a rumour now that's gone  
25 to 60 million.

26 CATHAOIRLEACH: 50.

27 CLLR. BOURKE: I wonder would that have any effect on  
28 delivering the project? I ask that question number  
29 one.

1  
2  
3

27  
28  
29

Number two, in relation to future planning and development of Arklow I'd like to ask the Director of Planning there, at what stage will we start granting planning permissions for major housing projects again in Arklow? Will it be at the signing of the contract stage, or will it be at the commissioning of the plant because there would be a huge difference in time difference between both of those dates. There's a lot of people looking for clarity on that.

CATHAOIRLEACH: That's fair enough. Thanks.

Cllr. Whitmore, then Cllr. Lawless.

CLLR. WHITMORE: Thanks, Chair. Thanks for the presentation. Like my colleagues, I think this is a very welcome development for Arklow and particularly not only for the town's people but for the environment. It's great to see that the Avoca River, we'll be able to keep it in a better and more pristine condition, particularly in light of the last presentation we had last month with the Blueways, it really demonstrates the potential for Arklow to be included in that.

I just have a couple of questions. In relation to the monitoring of emissions and overspills and things like that, is there a possibility to ask that this information be provided realtime, either online so that it's open publicly, or realtime so that the different agencies can actually have access to it quickly if there are any problems with it?

1  
2  
3  
4

24  
25  
26  
27  
28  
29

Just a question with the actual sewer works, was there ever any potential to have the pipeline going across at the bridge rather than down at the end so that there wasn't going to be disturbance on both sides of the river? I don't know if that was ever an option.

Then just another point which is sort of, I suppose, parallel to this. I know there's work being undertaken as part of this proposal that will assist in the flood development work that's happening and it absolutely makes sense to do that work so that there isn't duplication or, you know, it's a much more efficient way of doing it. But I think the difficulty is that there is not a huge amount of information out there about that flood development programme and perhaps, Sean, this might be something that you might be able to answer because I'm not sure Kevin's worked on this aspect of it. If you go online to have a look to see what the flood defence programme is, there's actually no information about it online. There's a couple of press releases saying that the money's been allocated. My understanding is this is around a €40 million project which is a very significant project and yet we have no information available to the public on it. If you compare that with what Enniscorthy have done on a similar flood defence programme they have a website, they have all the details of where the programme's at. They have visuals. They have montages. They have a

1 video showing what it will look like. I think, you  
2 know, that really as a council we should be provided  
3 that same level of information because I know there's a  
4 lot of concern out there with the public as to what  
5 actually will be provided under the flood defence  
6 scheme and I think really as a council we should be  
7 communicated a whole lot better. This a huge project  
8 and I know it's not necessarily to do with this  
9 particular planning permission but there is an overlap  
10 and duplication. So I would like the Council to  
11 consider putting up a website and looking at this and  
12 duplicating that for the Arklow flood defence programme  
13 as well.

14 CATHAoirLEACH: Cllr. Lawless, then Cllr. Fox.

15 CLLR. LAWLESS: Go raibh maith agat, Cathaoirleach.  
16 Thank you for the presentation and like the other  
17 Councillors here, we really do welcome this. I know  
18 the Arklow Councillors have been crying out for a very  
19 long time and it's great to get it.

20  
21 My questions, I suppose, they're a little bit similar  
22 is so I'll be quite brief. I was also wondering about  
23 the flood defence programme as well and how it would  
24 interact with this particular scheme. As I say,  
25 there's not a lot of information which Cllr. Whitmore  
26 has just said and I would like more information to  
27 interact with yourselves. If that didn't go ahead what  
28 way does that, you know, work with the water treatment  
29 plant? Obviously we don't want any delays or anything

1 that's going to stop this as well. And then also just  
2 in regards to, I suppose, active planning as well. If  
3 this is definitely going ahead it would good to see  
4 active planning for development in Arklow so that when  
5 the plant actually is ready that these planning  
6 permissions are more or less ready to go. So I'm just  
7 wondering on that as well. That's it. Thanks,  
8 Cathaoirleach.

9 CATHAOIRLEACH: That's grand. Cllr. Fox, Cllr. Kennedy  
10 and Cllr. Mitchell and then I'm going for some answers  
11 on this.

12 CLLR. FOX: well obviously the whole waste water  
13 treatment plant in Arklow has been a long and drawn out  
14 saga, as Cllr. Fitzgerald has said and I would welcome  
15 this. Just a few questions. This is going straight to  
16 An Bord Pleanála obviously as a major infrastructural  
17 project and it seems to be the trend now that a load of  
18 applications like multi-house developments are going  
19 down the path of straight to the Board which I'm a  
20 little bit uncomfortable with because it sort of gets  
21 away from public concern and the public getting  
22 information. As Cllr. Whitmore has said, there's  
23 definitely an issue on how the public can engage on  
24 applications that go straight to the Board. What is  
25 the timeframe on the Board? What date do submissions  
26 have to be in by? Because I notice Irish Water now, on  
27 their Local Authority Waters Programme are having a  
28 public meeting in Ballinakill in Rathdrum rather than  
29 coming to this Chamber which I think is an unwelcome

1 development. If you have something like the regional  
2 catchment of water, there are major issues and concerns  
3 that I think Irish water should come to this Chamber  
4 and communicate directly with the elected members. I  
5 don't think necessarily we should be going down the  
6 road of a public meeting somewhere else in the evening  
7 where we have to, you know, go to and try and gather  
8 information. I think on a project like this, or like  
9 the regional catchment areas we should be informed in  
10 this Chairman by Irish water. Thank you, Chairman.  
11 CATHAOIRLEACH: Okay. Cllr. Kennedy and then  
12 Cllr. Mitchell.  
13 CLLR. KENNEDY: Thank you, Cathaoirleach, and thanks,  
14 Kevin, for the presentation. I fully welcome this  
15 investment in Arklow. I think Arklow needs this  
16 investment. Arklow has been stagnated for a great  
17 number of years both for residential houses and for  
18 investment in commercial properties. I fully, fully  
19 support this and welcome this application. Thank you.  
20 CATHAOIRLEACH: Thank you. Cllr. Mitchell.  
21 CLLR. MITCHELL: Thank you, Cathaoirleach. I very much  
22 welcome this project. It has been outstanding for a  
23 very long time and is very necessary. I'm not raising  
24 any objections to it. But I would just say that to use  
25 harbour lands for this purpose I think is a pity. It  
26 may be there are no other lands in Arklow for this and  
27 harbour lands can often look disused or very cheap but  
28 if, for instance, there's a major marine-type project  
29 in the future such as wind farms and things, one needs

1 a fair amount of space in a harbour to deal with issues  
2 like that. I think just in terms of the future  
3 planning of general facilities you should try and  
4 reserve lands around harbours for marine-type purposes,  
5 or for supporting marine developments in some way.  
6 Thank you.

7 CATHAOIRLEACH: Okay. Sean, I'll let you in now.

8 MR. QUIRKE: I'll let Kevin in first.

9 CATHAOIRLEACH: Kevin, please.

10 MR. SCANLON: Thanks. I'll just run down through the  
11 engineering or the Irish water issues that I know.

12  
13 Seaview Avenue: The sewers are going to be installed  
14 in short sections, particularly where they're being  
15 tunnelled and it will take approximately -- sorry, all  
16 of this information is current, you know, preliminary  
17 design from the consultants. It's all open to change,  
18 although not that much from the contractor when he  
19 starts to do the job. But the plan at the moment is  
20 that between each tunnelling Chamber it will take  
21 approximately three months to tunnel those couple of  
22 hundred metre sections. So for the Seaview Avenue  
23 temporary diversion you were asking about, Pat, that  
24 will mean where you are going down the North Quay from  
25 the Ferrybank roundabout down to the Aldi junction,  
26 that will be a three-month section, at the outset about  
27 three months. So what they will do is they'll close  
28 that little section of road and divert the traffic  
29 around. So I know what you're saying that it's a two-

1 or three- or four-year construction but specifically  
2 Irish water have looked for small, if you like, bite  
3 size two- and three- and four-month sections that  
4 they'll take out so that will minimise disruption, if  
5 you like, to traffic management.

6 CLLR. FITZGERALD: Kevin, just one sec there. Are you  
7 saying the traffic that goes down to Aldi is now going  
8 to be diverted down Seaview Avenue?

9 MR. SCANLON: Yes.

10 CLLR. FITZGERALD: That will be impossible.

11 CATHAOIRLEACH: That's an operational thing.

12 MR. SCANLON: So that's the preliminary plan on the  
13 environmental impact assessment. Again it's open to  
14 construction and contractors coming in. But, as I  
15 said, you know, it's a temporary, let's say a  
16 three-month, if you take them in blocks of three  
17 months, that they'll probably divert down there for  
18 three months. That's the plan at the moment on paper.  
19 It could change.

20 CLLR. MURPHY: Is there another option? Has there been  
21 another option looked at?

22 MR. SCANLON: What's going to happen is because you're  
23 going to have a pit in the middle of the roundabout and  
24 another pit at the Aldi junction, the other option is  
25 -- well, you can't just close the road, you have to  
26 have an alternative route for all road disclosures.  
27 The problem here in Arklow, as everybody knows, is that  
28 there's no other way around the bridge, you know, and  
29 there's no other way down the North Quay unless you

1           come at the back of Seaview Avenue. That's just what  
2           -- in terms of assessing the environmental impact  
3           that's what Irish Water and the designers have looked  
4           at as the option. But again that could change.

5           CATHAOIRLEACH: That could change.

6           MR. QUIRKE: I think the important thing to remember  
7           is, you know, on the North Quay there are two outfalls  
8           with raw sewerage going into the river, one at the end  
9           of the bridge and the other down at the Aldi junction,  
10          and they have to be picked up. Unfortunately there  
11          isn't any way around that. There's a pipe that has  
12          could come into them, there's a chamber that has to go  
13          in there, you just have to dig up the road.

14          CLLR. MURPHY: Sorry, when will communication start  
15          with the residents over there?

16          MR. QUIRKE: well as soon as -- they have to have the  
17          permission first, I suppose. That's the important  
18          thing.

19          CATHAOIRLEACH: The first thing, they've to get this up  
20          and running and then there's an operational thing that  
21          will have to be transmitted to the residents there.

22          MR. QUIRKE: we have covered that in the conditions  
23          that these construction --

24          CATHAOIRLEACH: The detail you're talking about down  
25          here is down the road.

26          MR. QUIRKE: In our suggested conditions. It will be  
27          up to the Board.

28          CLLR. ANNESLEY: Chairman, sometimes things look great  
29          on paper but when you put them into practicality they

1 don't work. Two HGV vehicles, two 45-foot lorries, one  
2 going down Seaview Avenue and one coming up Seaview  
3 Avenue, they're not going to fit. It's not going to  
4 work, okay? So that's the first problem. You've the  
5 same problem on the riverbank there. You've a major  
6 interjection there. There's businesses actually  
7 currently operating, creating rates for this Council,  
8 creating jobs for the people of Arklow and they're  
9 going to be cut off. The riverbank you're going to say  
10 it will be a no-go area for three months. There's two  
11 major are intersections there on the riverbank, the  
12 riverwalk. How is that going to be managed?  
13

14 By the way, I didn't speak on this because I wanted  
15 everyone to get their words in. This is not a  
16 political football for people around this room about  
17 flood, about marina or other anything else. This is  
18 the people of Arklow being held to ransom for 30 years.  
19 Kevin, you know that, you've worked very hard on it and  
20 I am one of the biggest supporters of this development.  
21 But there's going to be major concerns from the  
22 business people, the residential people and everyone in  
23 Arklow and the traffic -- you can't make an omelette  
24 without breaking shells but this omelette has to be, a  
25 little bit more effort has to be put in with  
26 communication, with traffic management. We already  
27 have a serious traffic management problem in Arklow.  
28 CLLR. MURPHY: Absolutely.  
29 CATHAOIRLEACH: wait there now.

1           CLLR. ANNESLEY: I understand. Thank you very much,  
2           Chairman. I've sat here and I've listened to this for  
3           30 years.

4           CATHAOIRLEACH: That's fine. Just let him back in.  
5           We're getting into the minute detail of it. This is a  
6           50 million scheme, right, that everyone welcomes so  
7           it's really just a matter of the workings of it, you  
8           know what I mean. It's not gone to the Board yet at  
9           this stage, you know. So I mean let's get it up and  
10          let's get it in there. Right. People have waited long  
11          enough for it.

12          CLLR. ANNESLEY: Absolutely. You're sitting in Bray  
13          with a multi, multi million one. We're in Arklow with  
14          nothing. There's Council members have left the Chamber  
15          the minute Arklow came up. I'm sorry for my  
16          frustration, Kevin, but I am here to work with you and  
17          so is every other Arklow Councillor in this room.

18          MR. SCANLON: In terms of the revetment walkway, the  
19          consultants did look at the redesign of the revetment.  
20          As you can see, it's a substantial design. There are  
21          recent enough engineering guidelines in terms of  
22          walkways on revetments. The other issue is that with,  
23          you know, global warming and these environmental  
24          changes over the course of the next 20, 30, 40 years of  
25          the design life they expect wave heights and  
26          frequencies to increase. So the advice, and again, you  
27          know, take it for what it is, the advice from the  
28          designers of the revetment was that they shouldn't put  
29          a walkway on top of it. And for anybody that knows the

1 jobs that we did down in Arklow, unless you do a  
2 substantial job of revetments and construction  
3 projects, walkways on top of rock armours can be  
4 precarious enough places, you know, before, during and  
5 after storms. Irish Water have decided that they won't  
6 put the walkway currently in the design. The walkway  
7 will finish where it currently finishes at the south  
8 end of the running track. It will come back down where  
9 it comes and then they will do a new walkway from the  
10 northern tip of the site into a landscaped area and  
11 down and around Mill Road and on to the North Quay just  
12 beyond Tyrrell's boat yard. So that's the revetment.

13  
14 Tunnelling, again the proposal is to go 24 hours a day.  
15 I don't know enough about tunnelling, I'll be honest  
16 with you, in terms of noise, but they will set up a pit  
17 and then they will open a pit at one end and open a pit  
18 at the other end and tunnel in between them. I'm not  
19 sure, to be honest with you, but there are calculations  
20 and different details in the environmental impact  
21 assessment report in regards to noise for the  
22 tunnelling operation. So they must be happy enough  
23 that they can do it 24/7, if that's what they're  
24 proposing.

25  
26 Again, in terms of time, the seafarers' garden will be  
27 out of commission for that three-month block. If it's  
28 unlucky enough to be at the end of a run it could be  
29 three months on this run, the pit will be here and

1 three months on the other run and I think in that  
2 location it will be probably be a six-month. So  
3 they'll basically decommission it, they'll clear it  
4 out, they'll do the pits over three to six months and  
5 then they'll rebuild and reinstall whatever's in there.

6  
7 There has been, as Cllr. Murphy said, there's been a  
8 lot of work on communications and talking to, you know,  
9 local groups, the Marina Village being the nearest  
10 resident neighbours down there. Myself and the Irish  
11 Water team have met with them on probably half a dozen  
12 occasions over the last two to three years. We have  
13 met -- there's been non-statutory public consultations  
14 over the last couple of years and they have built up a  
15 fairly good rapport, if you like, on the ground down  
16 there. So this is now the statutory, you're now into  
17 the actual statutory timeframe where people can  
18 actually make their comments to the Board.

19  
20 The temporary road on Seaview Avenue we've just talked  
21 about, yes, if it's okay I can send the PowerPoint to  
22 the members I'll just send it in.

23 CATHAOIRLEACH: Sean, do you want to come in there.

24 MR. QUIRKE: Can I just say, Kevin isn't representing  
25 Irish Water, he's the Wicklow Municipal District  
26 engineer so we just asked him to come along because  
27 he's very familiar with it. So I'd just like to thank  
28 him for doing that. The criticism, if you have of any  
29 Irish Water, please don't direct it to him.

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25  
26  
27  
28  
29

There's a few issues there. There's no doubt about it that this is going to be hugely disruptive from a traffic point of view in Arklow. There is no way to avoid it. There is absolutely no way to avoid it. They've got to pick up the raw sewerage going into the river. The sewers are in roads by and large. They're on the North Quay, which is narrow, which I don't think there's anyway around. If I thought there was a way around closing the road I think we would have suggested it and they would have come up with it because it makes life tough for everybody. We have conditioned in all sorts of monitoring if you have a look at condition 2, in particular. I saw we've conditioned, we're suggesting this to the Board that they put in conditions that we want construction environment management plans, traffic management plans, a communication management plan, which goes to your point about informing the residents, etcetera, and a noise and vibration management plan. So all of those are really important and those hopefully will be taken on board by Bord Pleanála.

Just in relation to planning applications and when they should be submitted. I think first and foremost what needs to happen is that permission needs to be in place, plus and EPA licence needs to be in place before construction begins. We could grant permissions with holding conditions on them that no houses will be

1 occupied, for instance, until the plant has been  
2 commissioned. Given that the construction period is  
3 probably three-and-a-half to four years, and the  
4 duration of a planning application is five, I think  
5 people should judge when they lodge their planning  
6 applications, have them in place for when the plant is  
7 commissioned.

8  
9 As regards the flood scheme. That will be the subject  
10 of a separate process. The flood scheme isn't at a  
11 point where we can put something on display at this  
12 stage. But this won't impact on the flood scheme and  
13 the flood scheme hopefully won't impact on this. So,  
14 as I say, it will be a separate process, it will go out  
15 to the public for consultation and as soon as there is  
16 something that can go on public display we'll ask for  
17 it to put it on public display. Really I think the  
18 frustration was trying to bring these two horses along  
19 at the same time wasn't working and the application for  
20 sewerage treatment plant needed to get ahead and the  
21 town needs it to get it ahead so it is going in in  
22 advance of the other one.

23 CATHAOIRLEACH: Briefly now, Cllr. Murphy and  
24 Cllr. Fitzgerald.

25 CLLR. MURPHY: I'm not a long talker but I say --

26 CATHAOIRLEACH: I know you don't that's why I let this  
27 goes on because this is very important. We have waited  
28 a long time for this, that's why I let the discussion  
29 go on.

1 CLLR. MURPHY: I would like to propose as Cathaoirleach  
2 that a meeting in Arklow be arranged regarding the  
3 serious traffic and I know there is, you know, we've  
4 heard from Kevin and Sean and I appreciate that, but we  
5 always have to be realistic and also the area, the huge  
6 concern delivery lorries, huge lorries both going into  
7 Bridgewater and also Aldi, on a very tight corner as it  
8 is, I'm often down in that area and I've seen long  
9 lorries reversing from the main road down into to. So  
10 you can just imagine. I really would appreciate the  
11 meeting or a possible invited again to one of our  
12 Council meetings to specifically talk about the traffic  
13 management.

14 CATHAOIRLEACH: Okay. Cllr. Fitzgerald.  
15 Cllr. Whitmore, I'm finished with Cllr. Fitzgerald  
16 because these are for Arklow people and that's why I'm  
17 letting them in twice. Right.

18 CLLR. FITZGERALD: Can I just say, there was issues  
19 there because the flood relief scheme is linked into  
20 the sewerage people thought and there was a -- Kevin,  
21 we met people from the South Quay area and they were  
22 concerned about the bend in the river being taken out  
23 of it. And it's quite clear that the sewerage  
24 treatment plant has nothing whatsoever impact on the  
25 bend in the river. That's right, Kevin?

26 MR. SCANLON: That's correct, yes.

27 CLLR. FITZGERALD: I know you're thinking about it but  
28 that is correct, right? So the sewerage treatment  
29 plant stands alone but might, at some stage, when the

1 flood protection comes there might be a link where  
2 there's common areas to work in; is that right?  
3 MR. SCANLON: Following on from what Sean was saying.  
4 Yeah, so we have integrated, Irish water have  
5 integrated, as much as they can, in terms of the South  
6 Quay wall, the crossing point, the actual work at the  
7 first few arches. So there are elements the sewerage  
8 scheme that are going to be constructed which will form  
9 part of the basis of the flood scheme. Let me make  
10 just sure I have that right.  
11 CLLR. FITZGERALD: You have a 1.8 metre wall in height  
12 there for a distance down from the bridge there's a  
13 path going down there, isn't there?  
14 MR. SCANLON: Yes.  
15 CLLR. FITZGERALD: So you're widening the bridge, the  
16 wall is 1.8 metres high; isn't that right?  
17 MR. SCANLON: No, there's no wall.  
18 CLLR. FITZGERALD: Where is the wall in this plan?  
19 MR. QUIRKE: The discussion about the wall is under the  
20 flood scheme.  
21 CLLR. FITZGERALD: Yes, but it's mentioned here as  
22 well.  
23 MR. QUIRKE: But it's not part of the scheme.  
24 CATHAOIRLEACH: Could I just say, we're getting into  
25 technical stuff here. Everyone can make, you know --  
26 CLLR. FITZGERALD: I'm just making it clear that the  
27 bend in the river is not being affected by the sewerage  
28 treatment plant?  
29 MR. SCANLON: No. You have the alignment of the sewer,

1 the alignment of the sewer is not preempted by the  
2 alignment of the quay, the South Quay.  
3 CLLR. FITZGERALD: Can I just make one more point.  
4 CATHAOIRLEACH: Sorry, Councillor.  
5 CLLR. FITZGERALD: Hold on a minute now. The people of  
6 Arklow want the sewerage treatment plant and they will  
7 take some pain for a lot of gain and I think if people  
8 know what's happening there won't be an issue. As  
9 regards the traffic on -- my view on that is, the  
10 permission -- that's in the application, I presume, to  
11 the Board.  
12 MR. SCANLON: It's in the application in so much as you  
13 can assess the environmental impacts of various traffic  
14 management systems.  
15 CLLR. FITZGERALD: At this stage, in my opinion, it  
16 will be premature because we don't know what's  
17 happening. The Board will make a decision quarter 1  
18 next year, quarter 2 next year and then there are many  
19 observations going in, or maybe objections, so they  
20 will be dealt with under that. Is the period for  
21 observations or objections up at this stage?  
22 MR. QUIRKE: It's 9th November which is Friday.  
23 CLLR. FITZGERALD: I think I have never (inaudible)  
24 people coming into the Council offices.  
25 CATHAOIRLEACH: We don't have to -- no proposer or  
26 seconder. Cllr. Whitmore, one minute now.  
27 CLLR. WHITMORE: My questions weren't answered.  
28 CATHAOIRLEACH: They were answered.  
29 CLLR. WHITMORE: They weren't. Sean answered one about

1 the flood defence.

2 CATHAOIRLEACH: What's the other one?

3 CLLR. WHITMORE: The other one was to include the  
4 emissions into the communication aspect of it. It's  
5 not specific in there but I think it is important that  
6 that data --

7 CATHAOIRLEACH: I think Cllr. Murphy raised that.

8 CLLR. WHITMORE: No, realtime emission monitoring and  
9 making it available.

10 MR. QUIRKE: That's the operational phase of it.

11 CLLR. WHITMORE: Exactly.

12 CATHAOIRLEACH: We're moving on.

13 MS. GALLAGHER: Can I just confirm that there are no  
14 recommendations going from this Council by resolution.

15 CLLR. WHITMORE: If you could include that.

16 MS. GALLAGHER: No, no. It has to be proposed and  
17 seconded. There's a resolution to go through.

18 MR. QUIRKE: It might be more applicable to the EPA  
19 licence or the planning process.

20 CATHAOIRLEACH: Okay. Item 11.

21 MS. GALLAGHER: Cathaoirleach, this policy first came  
22 for consideration by the County Councillors at the  
23 meeting of 2nd July. The draft policy sets out a set  
24 of circumstances where the reserved functions under  
25 Part 2 of the local Act may be performed by the  
26 Municipal District members. So the draft policy, as I  
27 said, was considered by the CPG at the meeting of 20th  
28 June last; at the Plenary Council on 2nd July; and by  
29 each of the five Municipal Districts since. The

1 Baltinglass MD, the Wicklow MD, the Arklow MD and the  
2 Greystones MD agreed to recommend the adoption of the  
3 policy. There's one amendment proposed and it is on  
4 page 4, paragraph 7.4:

5  
6 "Where the matter is of strategic importance to the  
7 County as a whole..."

8  
9 And to detract the last line of that sentence:

10  
11 "...for example, the provision of sheltered  
12 accommodation or accommodation of the Traveller  
13 Accommodation Programme..."

14  
15 Because it is considered that that's taken of in  
16 strategic plans of the Council.

17  
18 The Bray MD considered it at their last meeting and  
19 they agreed by a margin of 5 votes to 3 to recommend  
20 the adoption of the policy without amendment.

21 CATHAIRLEACH: So all the five Municipal Authorities  
22 have recommended this. Cllr. Behan.

23 CLLR. BEHAN: Okay, Cathairleach. We've just had a  
24 very interesting discussion on the concern of the  
25 Councillors for Arklow, the detailed concerns that  
26 they've had and in the past in this Chamber we've  
27 discussed areas of vital interest to different  
28 Municipal Districts around the County and Bray would  
29 have been one where there was a number of issues. And

1 I can recall that on those occasions many Councillors  
2 from around the County felt that these issues should be  
3 decided at the Municipal District level, rather than  
4 taking up people's time at the full Wicklow County  
5 Council plenary session. There was a general agreement  
6 that, for instance, Part 8 proposals would be dealt  
7 with at Municipal District. And the Chief Executive  
8 clarified that in fact we always could have dealt with  
9 Part 8 less at Municipal District but no one from the  
10 official side ever told us that before. Secondly,  
11 Local Area Development Plans could also be decided at  
12 Municipal District. I certainly interpreted, from what  
13 Councillors said on those occasions, that Councillors  
14 generally were in favour of making decisions at the  
15 local level as far as we possibly could.

16  
17 Now, I want confirmation first of all on a question on  
18 this: Is it the case that all Local Area Plans and all  
19 Part 8s, as we understood, are now going to be decided  
20 at local level rather than at this table? That's the  
21 first thing.

22  
23 Secondly, with regard to specifically the amendment  
24 that had been put in about traveller accommodation. I  
25 fundamentally disagree that local Councillors should  
26 be, you know, sending a decision on the provision of  
27 traveller accommodation up to this body. The local  
28 Councillors should have the courage to make decisions  
29 on traveller accommodation in their own area. We have

1 proved in Bray in the past well capable of doing that  
2 and I have no doubt that we will do it in the future.  
3 I don't see why a proposal for traveller accommodation  
4 cannot be decided by the people who represent the local  
5 area.

6  
7 So Lorraine has said that particular, you know,  
8 amendment has been taken out but it's been covered  
9 under the heading of strategic developments, therefore,  
10 it's back in again and it's back in in another way.  
11 I'm certainly proposing that traveller accommodation  
12 developments are decided at Municipal District level.

13  
14 The last proposal I want to make is in relation to  
15 number 7 which is major housing developments over 20  
16 units. What is coming here in this document is that if  
17 we have a Part 8 proposal for a housing development in  
18 Arklow, Bray, Greystones, whatever, that if they're 20  
19 units or more, it can't be decided by the local  
20 Councillors it has to be decided here in this body. I  
21 don't see the sense in that. 20 houses or 21 houses  
22 does not have a strategic impact on the entire county  
23 and I'm proposing instead an amendment that that figure  
24 go to 100 houses. That's a major housing development.  
25 A development of 20 or 25 should be decided at local  
26 level. I just want to submit those two proposals now,  
27 Cathaoirleach, thank you. And I would like  
28 clarification on local plans and --

29 CATHAOIRLEACH: Cllr. Fitzgerald. No. It's

1 cllr. Matthews, sorry.

2 CLLR. MATTHEWS: Cathaoirleach, thanks very much. I  
3 particularly want to thank Lorraine for the amount of  
4 work she put into this because there was a lot of  
5 detail to be dragged together and put into a document  
6 we could all understand. We've had a long time to  
7 consider it and I think it is the right move. I just  
8 wish we had done it, say, nine months into the term  
9 rather than nine months away from the Council term. I  
10 don't know do we have to propose and second.

11 CATHAOIRLEACH: I want a proposer and seconder.

12 CLLR. MATTHEWS: I would be happy enough to propose the  
13 policy as put forward us in Bray. Thank you,  
14 Cathaoirleach.

15 CATHAOIRLEACH: Do I have a seconder for that I'm going  
16 for a vote on it now because it's gone through the --

17 CLLR. BEHAN: I've asked a question.

18 CATHAOIRLEACH: You'll get your answer.

19 CLLR. BEHAN: I have proposed an amendment.

20 CATHAOIRLEACH: That's fine. We'll get that. I'm just  
21 saying we've had discussions on this at the Municipal  
22 Authorities and they've all been voted on it. Every  
23 one of them, in fact. We're going to get clarification  
24 on what you're talking about, Councillor.

25 MS. GALLAGHER: Just in relation to cllr. Behan's two  
26 questions. What you're saying is that traveller  
27 accommodation be decided at Municipal District level.  
28 Well it be decided at Municipal District level where it  
29 doesn't affect another Municipal District, where it

1 only affects the Municipal District in where --  
2 CLLR. BEHAN: Thank you for that clarification.  
3 MS. GALLAGHER: And that's the spirit of the policy.  
4 So, for example, if there was a proposal to develop a  
5 transient halting site, that would be something that  
6 would affect the entire county.  
7 CLLR. BEHAN: I accept that.  
8 MS. GALLAGHER: That's fine. What was the second one  
9 in relation to --  
10 CLLR. BEHAN: Local Area Plans and Part 8s being  
11 decided at Municipal District level.  
12 MS. GALLAGHER: Again, within the spirit of the policy  
13 where it only affects the Municipal District, or if  
14 there was an item in a Local Area Plan where it affects  
15 the County as a whole. If you were bringing in a  
16 policy that affected an adjoining Municipal District or  
17 the County as a whole, or flew in the face of strategic  
18 plans like the County Development Plan, I mean this  
19 policy makes sense. It's just giving a guidance for  
20 all Municipal Districts to operate in the same way.  
21 CLLR. BEHAN: That's fine and I accept the spirit of  
22 what you're saying, Lorraine, but in reality Local Area  
23 Plans for various districts have been done here, not at  
24 the local area and the Bray Development Plan was the  
25 most recent one. That should have been decided in Bray  
26 but it wasn't. So I want to tie this down. So it is  
27 agreed then local plans, local areas.  
28 CATHAOIRLEACH: Yeah.  
29 CLLR. BEHAN: Fine. The last one I think we should go

1 to 100 units for Part 8s rather than this 20.

2 CATHAOIRLEACH: Cllr. McLoughlin.

3 MR. CURRAN: we did think about that now and given the  
4 housing crisis that we have in country, housing schemes  
5 of 20 houses and over are vitally important and they  
6 are strategic. We put a lot of thought into that and I  
7 think the 20 houses is reasonable and housing smaller  
8 than that stay within in the local area.

9 CLLR. BEHAN: what's the magic difference between 20  
10 and 19?

11 CATHAOIRLEACH: what's the difference between --

12 CLLR. BEHAN: Sorry, the Chief Executive has said  
13 something here. Can you explain why is 20 strategic  
14 and 19 isn't, please?

15 MR. CURRAN: You have to pick a point somewhere. And  
16 we're looking at schemes, what we would consider are  
17 medium to large schemes. And once you over about 20  
18 you're going over about 5 million and you're into a  
19 different approval process with the Department and  
20 that's the sort of cut-off we'd have for housing  
21 schemes.

22 CATHAOIRLEACH: Cllr. McLoughlin and then

23 Cllr. Winters. I'm going for a vote on this.

24 CLLR. McLOUGHLIN: If you go back to the hundred units  
25 that actually goes straight to An Bord Pleanála as a  
26 strategic housing development so it doesn't apply  
27 there. Having said that, the only thing that worries  
28 me with regards to Part 8s, what types of Part 8s? Are  
29 we talking about something in Greystones with the

1 harbour, will that be going to wicklow or would it not?  
2 And I've said it here before, I fear, it depends which  
3 side you're on, it doesn't really matter, but whoever  
4 is Cathaoirleach, when there's an even amount of  
5 Councillors could have a huge amount of power in any  
6 Council for something that could be a major plan for a  
7 village or town or district so I would worry about  
8 that.

9  
10 I think you're not really clarifying what do you mean  
11 by the Part 8. What exactly are we allowed to vote on  
12 and what we're not? Because I can see rows coming down  
13 the road on this one. Thank you.

14 MR. CURRAN: If it is strategic, and I'll give the  
15 example, let's say if we were doing a major development  
16 here in the County Hall it would be of strategic  
17 importance for the County and that would come to the  
18 main Council. If we were doing something next door to  
19 the fire station, an extension there, that would really  
20 be a wicklow issue and would go to the wicklow  
21 Municipal District. You know, a major harbour  
22 development is strategic nature and affecting all of  
23 the County and would come to the main Council. As  
24 Lorraine says, we need a certain amount of common sense  
25 here to make the thing work. Local issues affecting  
26 local areas should be dealt with by the Municipal  
27 Districts. That's the spirit of it.

28 CATHAOIRLEACH: Cllr. Ryan.

29 CLLR. RYAN: I understand local area issues being dealt

1 with by the local issues but I was elected as a Wicklow  
2 County Councillor for the whole of Wicklow. So if  
3 there's something happening in Greystones I think I can  
4 also have a vote on that and if somebody in Greystones  
5 wants to have a vote on something in Bray, that's  
6 absolutely fine. It's the County of Wicklow and I  
7 think that's been completely forgotten in this. I'm  
8 not just a Councillor for Bray and Enniskerry and  
9 Kilmac.

10 CATHAOLRLEACH: Cllr. Whitmore, I'm going for a vote.  
11 Listen, there's a number of issues that I have to get  
12 to here, the winter initiative which is very important.  
13 There's the CEO's report, and we've already dealt with  
14 this at municipal level. It's already been agreed in  
15 the five municipals, do you know what I mean.

16 CLLR. WHITMORE: I would like to concur with what  
17 Cllr. Ryan has said. Even the last discussion we had,  
18 which was about a strategic development within the  
19 County, I was being told that I shouldn't talk on it  
20 because I wasn't from Arklow. So I do have issues that  
21 there is a risk that, you know, as a County Councillor  
22 that we will not be able to engage on strategic  
23 developments and that needs to be acknowledged in it,  
24 or maybe even a description or outline of what we would  
25 consider strategic, because, you know, we have just  
26 literally in the last five minutes had an example of  
27 where there have been attempts to shut down what I was  
28 asking, very simple questions I should have been  
29 allowed to ask. So I don't think we can allow that to

1 continue to happen and we certainly shouldn't  
2 facilitate it with a policy that might restrict our  
3 role.

4 CATHAOIRLEACH: Cllr. Snell.

5 CLLR. SNELL: Thanks, Cathaoirleach. We in East  
6 Wicklow discussed this at length, Cathaoirleach, and we  
7 agree with it, however, I was just looking for clarity  
8 in relation to if it was 3:3 in our Municipal Districts  
9 with the six Councillors we felt that we should be  
10 entitled to refer it to the full Council rather than  
11 the sitting chair deciding and I just want to clarify  
12 that that could happen.

13 CATHAOIRLEACH: We'll get clarity on that.

14 MS. GALLAGHER: Cathaoirleach, just to say that there  
15 is built into the policy a mechanism for the resolution  
16 of differences or disagreements regarding what  
17 Municipal District reserved function lies in and that  
18 is the Chief Executive in consultation with the  
19 Cathaoirleach can call it in and it will be dealt with  
20 and the decision will be made at CPG level and that's  
21 in accordance with the regulations.

22  
23 In terms of Cllr. Snell's question in relation to  
24 Part 8, if it is even 3 and 3, well then the  
25 Cathaoirleach has the casting vote because that  
26 function is enshrined in other legislation which you  
27 can't fly in the face of. So the Cathaoirleach of the  
28 day would have the casting vote in relation to the Part  
29 8, if he chooses to exercise that.

1 CATHAOIRLEACH: Nobody else in now that's it. Finished  
2 with. I'm going for a vote on this. The fact of the  
3 matter is it's gone to the five Municipal Districts.  
4 No nobody put in any motions in regard to this  
5 whatsoever. Now I'm of the opinion, and have always  
6 been as much power as possible should go to the  
7 municipal authorities. That would be my understanding  
8 which is the best thing to do but. You know,  
9 Councillors can't have it every way because Councillors  
10 when a difficult discussion comes up at Municipal  
11 meetings they run a million miles away when there's 20  
12 people outside the door looking to get into the  
13 meetings. They can't have it every way. I'm not  
14 confident that in some Councils in a lot of occasions  
15 when it comes to a vote that those people who say:  
16 Listen, we want all the power here but not really on  
17 this one. So I mean that's my attitude to this that I  
18 would prefer if most of this went into the Municipal  
19 Authorities and people were either had the balls to do  
20 it or they hadn't. Sorry about the language. But  
21 that's exactly it. That's my particular opinion on  
22 this. But unfortunately it's not working out that way  
23 and people like to refer it on to the County Council  
24 when things are getting difficult in their own areas.  
25 I'm going for a vote on this. It was proposed by?  
26 MS. GALLAGHER: First of all Cllr. Behan proposed the  
27 adoption of it with the amendment to 100 houses but is  
28 that possible with the strategic?  
29 CATHAOIRLEACH: I'm going to take that, if there's a

1           seconded for that I'm going to take that.  
2           CLLR. BEHAN: Hold on a second. I want to thank  
3           Cllr. McLoughlin for pointing out about the 100 houses.  
4           As a compromise can I propose 50?  
5           CATHAoirLEACH: Is there a seconder for that?  
6           MS. GALLAGHER: Seconded by Cllr. Kavanagh.  
7           CATHAoirLEACH: Is there a proposal that we accept it  
8           as it is?  
9           MS. GALLAGHER: Then we have a proposal without  
10          amendment from Cllr. Matthews. Is there a seconder for  
11          that?  
12          CATHAoirLEACH: Is there is seconder for  
13          Cllr. Matthews' proposal that we accept what the whole  
14          five Municipal Authorities have done.  
15          MS. GALLAGHER: Seconded by Cllr. Walsh. We can vote  
16          on the amendment first.  
17          CATHAoirLEACH: The amendment is to accept it as it was  
18          proposed in the five local authorities.  
19          CLLR. BEHAN: Hold on.  
20          MS. GALLAGHER: With an amendment of 50 houses.  
21          CATHAoirLEACH: Cllr. Behan's proposal.  
22          [VOTE TAKEN]  
23          MS. GALLAGHER: We have 12 for; and 12 against; and we  
24          have 8 not present.  
25          CATHAoirLEACH: I use my casting vote for.  
26          CLLR. FOX: What about the local decision!  
27          CATHAoirLEACH: Well, my attitude to it is, let the  
28          local Councillors come out and support something like  
29          that. It's not happening, it hasn't happened in the

1 last few years in my experience anyway so it's about  
2 time they took responsibility for some of the difficult  
3 decisions in their own area.

4 FROM THE FLOOR: Hear, hear.

5 CATHAOIRLEACH: That's my attitude to this. We're  
6 moving on.

7 MR. CURRAN: Cathaoirleach, I will just mention one or  
8 two items on the Chief Executive's report. One is the  
9 town and village enhancement. Again, we got funding  
10 for some good schemes there. One is the Wicklow  
11 lighting 120,000. 120,000 Newtownmountkennedy public  
12 realm enhancement. Rathdrum public lighting, 70,000  
13 there very welcome. The recycling centre in Tinahely  
14 76,000. Blessington public realm 100,000. Hollywood  
15 upgrade to the footpaths 30,000 there. And Newcastle  
16 health check 30,000. So we're going to drive on with  
17 those as soon as we can working with the communities.

18  
19 We will, of course, be going out to the Municipal  
20 Districts, meeting the various community groups now,  
21 straightaway to get projects for next year and we'll be  
22 getting the Municipal District administrators and the  
23 planning and environment sections involved in working  
24 with community groups and getting more projects in to  
25 apply for those next year again.

26  
27 There's 318,000 then extra for the Local Improvement  
28 Scheme. That's over and above the 310,000 that was  
29 there earlier in the year. We also got 500,000 for

1 weather damage, which is road improvements, something  
2 we weren't expecting actually. We got that. That's in  
3 addition to the 600,000 payment for overtime that was  
4 spent during the storm events.

5  
6 There's a grant for 25,000 for branding and marketing  
7 of Wicklow Taste Food and Beverage. We're doing a food  
8 strategy for the County and the LCDC will make a  
9 presentation on that at a future date.

10  
11 The Commuter Survey started this week. The survey of  
12 people commuting, where they're commuting to, be it  
13 Dublin or wherever, the skills, levels of education  
14 they have, how they are commuting, etcetera. We need  
15 that information. It's something that the IDA asked  
16 you to do that they felt would be very useful if they  
17 want to encourage businesses to use hubs and stuff  
18 within the County. So that started this week.

19  
20 Contracts for three new playground sites signed also,  
21 Annacurra, Laragh and Roundwood.

22  
23 We sign a contract tomorrow with Arup Consulting  
24 Engineers for N11/M11, that's the design for junction 4  
25 right out to Coyne's Cross. It is bringing it up to  
26 CPO and Bord Pleanála stage, so the full design of that  
27 scheme.

28  
29 The RSES went on display this morning. Now thankfully

1 with the Cathaoirleach here and the other members, a  
2 lot of the issues that we wanted to raise are already  
3 in the draft such as the issues like the removal of the  
4 Luas extension as a short-term, enabling infrastructure  
5 development for Bray Golf Club. We need to get that  
6 out. There was issues around Fassaroe and we wanted a  
7 Phase 1 that would be mentioned in there. There was  
8 improvements to the M11/N11 right down to Wexford. The  
9 rail. We wanted to create an industries film list in  
10 relation to Wicklow in (inaudible) opportunities. The  
11 N81 for Tallaght, we wanted that in. Again thanks to  
12 the Cathaoirleach and the other members on the Eastern  
13 Regional Authority that's now in. Improvements to  
14 DART, greenways listed on the development of greenways.

15  
16 We'll go through it in detail and we'll be back here  
17 with a presentation to Councillors seeking any  
18 observations or recommendations that people want to  
19 make and feed that back through the consultation  
20 process. Thanks, Cathaoirleach.

21 CATHAOIRLEACH: Cllr. Behan, could we be as briefly as  
22 possible because I can't to get through the other  
23 things. Cllr. Behan, Cllr. Matthews and  
24 Cllr. Mitchell.

25 CLLR. BEHAN: Cathaoirleach, first of all,  
26 congratulations to yourself and the other members of  
27 Regional Authority for the success you had in ensuring  
28 that the priorities of this Council were addressed and  
29 are in a draft document. Obviously we look forward to

1           having a proper discussion and feeding into it over the  
2           next few months.

3  
4           I also want to thank again the Chief Executive for this  
5           innovation of this monthly report which gives a very  
6           good snapshot of what's happening in the County. But  
7           it also gives us an opportunity, and I want to mention  
8           four items very, very, very quickly. In relation to  
9           rural broadband which is now becoming a major issue  
10          throughout the County. Maybe for the next estimates  
11          meeting or the next Council meeting can I ask for a  
12          report on what is the status regarding rural broadband  
13          in this County at the moment, particularly, as I  
14          discovered recently the bizarre situation that in  
15          Wicklow Town new housing developments, people on the  
16          same cul-de-sac within ten doors, some of them are on  
17          rural broadband and some of them are on broadband that  
18          they can actually connect properly. I know it's a  
19          detailed issue but I would like a report on it. It was  
20          mentioned in the Chief Executive report. Secondly,  
21          there's in Kilbride Lane a housing site lying vacant  
22          for nearly two months now. The Chief Executive talked  
23          about a housing crisis. We have a housing development  
24          that is approved, funded by the Department and nothing  
25          is happening because the developer is in examinership.  
26          I'm getting very concerned about the fact that there  
27          doesn't seem to be any move on this. I know the  
28          officials are working behind the scenes but I would  
29          like a statement from him today as to where we are with

1 this, or are we going to go to retender because it is  
2 going on far too long in my opinion.

3  
4 Thirdly, I see Michael Geany is here in the gallery and  
5 I know he has responsibility for roads, but for the  
6 estimates I would like to see some reintroduction of a  
7 footpaths restoration fund in this County. When Bray  
8 Urban District Council and Bray Town Council was in  
9 operation there was a specific footpaths fund which  
10 allowed for work to be done on footpaths, irrespective  
11 of what money came for roads. I stopped when Wicklow  
12 County Council took over responsibility. And it should  
13 be reintroduced, particularly as the people working on  
14 the footpaths are the people paying the property tax  
15 which keeps this place going.

16  
17 Finally, could I have a comment on rumours that are  
18 circulating in Bray at the moment that there's some  
19 major change going to happen in the management of the  
20 Springfield burial ground that may not necessarily  
21 result in an improvement in service to the people who  
22 have to use it. Thank you.

23 CATHAOIRLEACH: Cllr. Matthews, just questions now  
24 please because, as I say, I want to get the other  
25 people in. There's no useless complaining. This  
26 winter programme is vital if anything happens in the  
27 wintertime. Please be brief as possible.

28 Cllr. Matthews.

29 CLLR. MATTHEWS: Thanks, Chairman. There's reference

1 to rapid build in this report. Can we have a  
2 description of what is rapid build versus conventional  
3 build and are the differences in it? You answered the  
4 question on the town and village renewal already.

5  
6 The urban regeneration fund, when would we expect to  
7 know the date for successful applications there? And  
8 the rates collection I see is at 58%. I'm just  
9 wondering is that normal for September in the year?  
10 What target are we expecting to achieve by the end of  
11 the year? Thank you, Cathaoirleach.

12 CATHAOIRLEACH: Cllr. Mitchell.

13 CLLR. MITCHELL: I was going to ask could the Chief  
14 Executive include in the report a report on the N11  
15 progress, but also because it was mentioned, the  
16 progress on Greystones to Delgany, Blacklion Road which  
17 should be in progress. I'd also like details, the  
18 Chief Executive mentioned that there was a contract  
19 signed in relation to the M11. I'd like some details  
20 on that.

21 CATHAOIRLEACH: That's being signed tomorrow.

22 CLLR. MITCHELL: I'd like some details of that when it  
23 is done.

24 CATHAOIRLEACH: Grand. Cllr. Ruttle.

25 CLLR. RUTTLE: Cathaoirleach, I'd like to congratulate  
26 you and your colleagues on the Regional Authority for  
27 getting the N81 and the greenway into the planning.  
28 Well done. We were out of the game for awhile. Thank  
29 you.

1 CATHAOIRLEACH: You were, yeah. It was a very good  
2 thing that actually the seven items that we asked for  
3 we got which we were delighted with. Cllr. Walsh and  
4 then I'm going to the Chief Executive.

5 CLLR. WALSH: Thanks to the Chief Executive for the  
6 most comprehensive report once again. Just a quick  
7 comment on the housing figures. I'm not going to go  
8 into the detail but reading through the figures and the  
9 number of people on the Housing List and the number of  
10 houses expected to come on stream both social and the  
11 Part 5 over the next two years. There's an  
12 overreliance on the private sector to meet our housing  
13 needs. I won't go into that. I'll leave more detail  
14 for another day. I welcome the appointment of the  
15 homeless situation, the homeless HAP.

16  
17 Just one other quick point in relation to an article I  
18 read recently in the last week which was resulting from  
19 an FoI request on housing that only over half of the  
20 local authorities have made an attempt to use CPOs. We  
21 are one of the counties listed as made no attempt. The  
22 figures I think are 184,000 vacant properties and this  
23 was only in the Central Statistics Office but obviously  
24 taking a small percentage of those houses it would go a  
25 long way in the meeting our housing needs. I just  
26 wonder if you could comment on that. As I say, I know  
27 one of Wicklow was one of the counties mentioned that  
28 made no effort to use a CPO. Thank you.

29 CATHAOIRLEACH: Okay. Chief Executive.

1 MR. CURRAN: Thanks, Cathaoirleach. Just on the rural  
2 broadband. I think Donal O'Keefe, who is our  
3 broadband officer, we might bring him to the December  
4 meeting to do a full presentation on it because he has  
5 done a lot of work on it and has a lot of information.

6  
7 Kilbride, we have got a lot of information back from  
8 the company in examinership. We are going to have to  
9 make a call this week whether to go with the other  
10 contractor or retender.

11  
12 In relation to footpaths. We do provide funding and  
13 will be providing funding in the project for footpath  
14 replacement from an IPB fund and there's a fund set  
15 aside from the previous development contribution for  
16 footpaths as well. We'll address that during the  
17 budget.

18  
19 I'm not aware of the situation in the Springfield  
20 burial ground. I'm not aware of any change there.  
21 Maybe someone can enlighten me.

22  
23 The urban regeneration and development fund, I haven't  
24 got a date on their decision. I know they're being  
25 analysed at the moment. There's one or two queries in  
26 but haven't got a date yet. I would suspect first  
27 quarter of next year.

28  
29 Rates. Yeah, that's normal. I think we may be even

1 slightly ahead for this time of year. I don't know if  
2 Brian wants to comment on that.

3  
4 You mentioned the contract yesterday, that brings it  
5 right up to the stage where everything can be submitted  
6 to An Bord Pleanála, CPO, planning documents, etcetera,  
7 that's the function of that.

8  
9 On the housing side, we're still on target to do out  
10 14,000 units by 2021, if not exceed it. We have done a  
11 lot of work actually on vacant houses and we've about  
12 ten that we're going to progress to the CPO stage but a  
13 lot of them were unsuitable, they were areas where  
14 there wasn't a demand, or there were (inaudible) but  
15 they were unsuccessful. But we have put a lot of work  
16 on the ground and Joe might elaborate on that.

17  
18 Just to describe the rapid building process. It's all  
19 about reducing the delivery of time at construction  
20 stage. It's designed to a very high standard. The  
21 contractor will come in, it's designed, there's a  
22 timber frame construction and a steel frame  
23 construction and that's where the time saving is.

24 MR. GLEESON: Just to clarify the Chief Executive's  
25 response to Cllr. Matthews. The rates would be  
26 slightly ahead of target this year. I suppose it might  
27 look quite small compared to the year end it would be  
28 about 80%. We'll be looking at achieving 80% in 2017.  
29 However the write-offs for vacant premises or when

1 business goes into liquidation they aren't applied  
2 until the year end and that would actually bring up the  
3 percentage significantly at that stage.

4 CATHAOIRLEACH: We're in 13 now.

5 MS. GALLAGHER: To approve an overdraft accommodation  
6 of €20 million for the financial year ending 31st  
7 December 2019. If I could get a proposer and seconder.

8 MS. GALLAGHER: Cllr. Bourke.

9 CATHAOIRLEACH: Proposed by Cllr. Bourke and seconded  
10 by Cllr. Timmins. Okay. That's agreed.

11  
12 Item 14: To receive the emergency management  
13 presentation.

14 MR. CURRAN: We have the Chief Fire Officer, Civil  
15 Defence Officer and Senior Engineer (Roads) in that  
16 area.

17 CHIEF FIRE OFFICER: Good afternoon, ladies and  
18 gentlemen. I'm here to open the discussion on major  
19 emergency management in preparation for the winter  
20 season.

21  
22 Through a process of post incident review in  
23 consultation with our Major Emergency Management  
24 Committee, which the Chief Executive chairs on a  
25 regular basis, we've updated the Severe weather Plan  
26 for County Wicklow. We had already prepared detailed  
27 flood plans for the Municipal Districts and for the  
28 County in 2017 and, therefore, this version of the  
29 Severe weather Plan looks at frost, ice, heavy snow,

1 severe winds, storms and hurricanes, which,  
2 unfortunately, the staff of Wicklow County Council, the  
3 fire service, Civil Defence and outdoor workers are  
4 very experienced in dealing with at this stage. Their  
5 experiences have fed into the plan and the experiences  
6 of the other responding agencies from outside the Local  
7 Authority such as the gardaí.

8  
9 we looked first in the development of the plan at the  
10 consequences of severe weather and from our experiences  
11 we understood the negative impacts that individuals  
12 would require rescue from homes and vehicles, as had  
13 happened in the past. Road closures, isolation and  
14 other similar problems for the elderly and vulnerable.  
15 A disruption of water supplies and power supplies.  
16 Closure of schools, public transport and businesses.  
17 Disruption to the supplies of food, medicine and fuel.  
18 Problems with feeding and shelter of animals. And  
19 damage to infrastructure such as roads, railway and  
20 power lines. All of which have happened in the last 18  
21 months.

22  
23 That led us to define, within the plan, the response  
24 objectives: Rescuing persons threatened; protect  
25 critical infrastructure; to minimise the impact on  
26 affected communities; to minimise the environmental  
27 impacts; to provide for places of safety in the event  
28 of evacuation; to ensure, insofar as practicable, the  
29 safety and help of all responders; to speed recovery

1 and the return of normality to affected communities;  
2 and to maintain services to the wider community.

3  
4 As I mentioned, flood plans were developed in 2017 in  
5 great detail for all of the Municipal Districts and for  
6 the County in general and the work and the content of  
7 the plan was greatly informed by the OPW's risk  
8 assessment and flood maps.

9  
10 Examples of flooding that we've experienced recently  
11 include the photographs there of the strand road in  
12 Wicklow in March when fire fighters pumped water,  
13 cleared houses and built sandbank defences.

14  
15 Similarly, in 2015 we did similar work on the South  
16 Quays, as was discussed during the previous  
17 presentations.

18  
19 And more recently we have been dealing with more severe  
20 weather events such as the heavy snow of March this  
21 year.

22  
23 Interestingly from this photograph, this is the same  
24 fire crew that would, the following day, be dealing  
25 with the flooding on Strand Road but on this occasion  
26 they were dealing with an overturned car early on in  
27 the first day of the heavy snow.

28  
29 we rely heavily on the resources of the Local Authority

1 both through the stocks that they keep of sandbags, and  
2 other resources in the Council yards. But to reinforce  
3 that and to provide an out-of-hours service that's  
4 immediate, we have, over the last five years, purchased  
5 vehicles to support major emergencies including severe  
6 whether represents like we're discussing here. Both of  
7 those vehicles are available and we restock them,  
8 depending on the season.

9  
10 we have expanded our role into flood response. The top  
11 two photographs show fire fighters who, this year, have  
12 been trained and equipped to respond to flood  
13 incidents. This is a capability that exists within the  
14 Civil Defence but now we provide an immediate response  
15 to allow Civil Defence and other agencies to ramp up  
16 their resources. The bottom photographs shows rafts  
17 that have been purchased by the Department of housing  
18 and that we will be trained to use before the end of  
19 the year.

20  
21 other specialist roles that are available include the  
22 response to hazardous materials incidents that was  
23 updated in terms of training and equipment in 2017.  
24 And in 2016 we focused on major railway incidents and  
25 provided training to those stations along the line of  
26 the coastal railway.

27  
28 In 2018 we've expanded into confined space rescue. The  
29 photograph shows crews responding to a simulated

1 incident in the Poulaphouca Hydroelectric Plant.

2  
3 So when an incident occurs we begin with the severe  
4 weather response plan and the flow chart that is on the  
5 screen, whose text will not be readily visible to you,  
6 but I can explain in the following slides. But what  
7 you can see at the top is the yellow, amber and red  
8 boxes and they relate to the Met Éireann status alerts  
9 that may be received. That's our primary source of  
10 information on forthcoming severe weather events. It's  
11 augmented by our own knowledge on the ground in  
12 relation to flash floods, and from the OPW in terms of  
13 high water levels, high sea levels. That then informs  
14 the Senior Management of Wicklow County Council as to  
15 what level of response to designate for the forthcoming  
16 event. The response is similarly coded yellow, amber  
17 or red. And yellow, as was the case last night with  
18 heavy rains forecast, was simply to monitor the  
19 situation and is to respond with normal resources. If  
20 it goes to an amber level the Crisis Management Team  
21 comes together and outside agencies are invited to  
22 attend Wicklow County Council's offices to discuss the  
23 implications and to plan for the specific event. And  
24 red would relate to incidents such as earlier in the  
25 year with the heavy snows.

26  
27 The major element of the plan is coordination.  
28 Coordination internally within the Local Authority  
29 structure, Civil Defence, the Municipal Districts area

1 engineers and the Fire Service, and also externally  
2 through the gardaí, the HSE and voluntary agencies.  
3 Personnel are trained and practised in crisis  
4 Management Teams, onsite coordination teams that  
5 operate out on the ground, local coordination groups  
6 that operate from here, regional coordination groups if  
7 there's a larger geographic area involved. And we've  
8 also been invited, on occasion, to present to the  
9 National Emergency Response Coordination Committee, who  
10 keep us updated on a daily basis during major  
11 emergencies.

12  
13 I was asked to focus a little on the status messages  
14 because there was some confusion during the ploughing.  
15 The status yellow alert, which was in place for Wicklow  
16 and for Offaly during the National Ploughing would be  
17 an incident that would be responded to with normal  
18 resources and a higher level of vigilance. That is the  
19 case and that is the successful situation. Moving on  
20 to the next slide you'll see that within Wicklow that  
21 involved a few fallen trees that the local engineers  
22 and ourselves dealt with as a matter of course.  
23 However, what happened in the next slide in Offaly at  
24 the ploughing was temporary structures affected by the  
25 exact same weather were much more severely impacted.  
26 So we reviewed our plan based on the information. We  
27 felt that it beholds us to be careful for any temporary  
28 structures we're aware of, or even roadworks and cones  
29 and signs that are put out during yellow and red and

1 amber alerts, but in terms of the successful in  
2 relation of the plan during recent events it's still  
3 robust and it still would stand up to scrutiny.

4  
5 Just for the members, for an amber alert you're talking  
6 about just the same criteria, wind, rain and coastal  
7 warnings but just higher levels of wind, greater  
8 quantities of rain or higher wind speeds along the  
9 coast. And the red we had in the last 18 months and  
10 that resulted in a far higher level of preparation and  
11 response, including manning fire stations for periods  
12 to eliminate the risk of responders coming to the  
13 station, that they were already there and ready to go  
14 in full protective equipment and vehicles.

15  
16 The new element to the plan is the monitoring and  
17 assessment where we've expanded out into the Municipal  
18 Districts to create what's referred to as a severe  
19 weather assessment team; people that are out on the  
20 ground observing and can differentiate between the  
21 impact in different parts of the County, as we saw with  
22 the heavy snows where different parts of the County  
23 were affected differently.

24  
25 we're still working towards better plans, better  
26 preparedness. Two examples are we are in the process  
27 of upgrading our plans for evacuation and rest centres.  
28 we're working at a regional way through  
29 Michael Richardson in the Civil Defence to bring

1 together regional resources to prepare for the  
2 possibility that a number of houses or people would be  
3 evacuated temporarily or slightly longer.

4  
5 Finally, we have Paul Ivory and Tom Griffin working, at  
6 a regional level, on oil pollution to assess what  
7 primary equipment we need in Wicklow to be reinforced  
8 by regional resources in the event of such an event.

9 CATHAOLRLEACH: Thank you. Michael, when you're ready  
10 there please. Michael Richardson is the Civil Defence  
11 officer.

12 MR. RICHARDSON: Good afternoon. What I'll do is just  
13 run through a few slides of the resources available to  
14 you from the Civil Defence.

15  
16 Currently in Wicklow we have 65 active members all  
17 Garda vetted. They are dispersed across the County in  
18 five units, training in different locations.

19  
20 Those units specialise in the auxiliary fire service,  
21 in our Search and Rescue Unit, our Water Unit, our  
22 Communication Unit and our First Aid Unit.

23  
24 Our resources available to the PRAs are search for  
25 missing persons which we would support An Garda  
26 Síochána quite regularly throughout the County. In  
27 support of the Local Authority and our fire service our  
28 support with flood response, first aid, water rescue,  
29 with the setting up and managing of evacuation rest

1 centres. Our severe weather response, which was put to  
2 task earlier this year for a couple of weeks with our  
3 snow and flooding. We would support community events  
4 in the County; i.e. the likes of the Bray Air Show,  
5 Round Ireland Yacht Race, and other smaller community  
6 events. We also can depend on support within our  
7 region which would be Dublin, Kildare, Wexford and  
8 Meath Civil Defence if we were not in a position of  
9 dealing with the situation ourselves.

10  
11 At the moment our fleet which we're currently and  
12 continuously upgrading, we have five jeeps available to  
13 us which were quite over-used during the snow of late  
14 February and early March. Mostly what we did was  
15 assisted the Health Service with bringing patients to  
16 Elm Park Hospital for dialysis and chemotherapy where  
17 the taxi service that they would normally travel in  
18 weren't available to them. The Civil Defence supported  
19 that from north Wexford and right across the County  
20 bringing patients to hospital for dialysis.

21  
22 We also have two ambulances one four-by-four ambulance  
23 and one standard ambulance as in the photograph.

24  
25 From an equipment point of view, to support mainly our  
26 flood response we have a number of dry suits which  
27 would be similar to what you would have in the Fire  
28 Service and flood suits, life jackets, personal  
29 flotation devices, search poles which is for wading in

1 water when we would have (inaudible). We have throw  
2 bags which, rather than entering the water we would  
3 have a procedure where you throw a line to the person  
4 who needs to be recovered. We have a flood raft there  
5 similar to what the Fire Service have and we have an  
6 inflatable platform where we can wade in with and  
7 evacuate people whether from vehicles, or from their  
8 homes.

9  
10 Other equipment for non-flood response: For  
11 contamination we have inflatable shelters. We've  
12 pop-up tents, as in the bottom picture there. We've an  
13 excessive quantity of portable pumps. We've  
14 decontamination, as I said. We've a sonar search unit  
15 that we can put off the side of our boat unit. All our  
16 radios are GPS tracked, so we know where our members  
17 are from the position on the radios. We have our Tetra  
18 radio system that can link in with the Garda Síochána  
19 and the Fire Service and National Ambulance Service.  
20 Defibrillators. And as mentioned, to set up rest  
21 centres we have a limited quantity of fold-up beds  
22 which were used earlier in the year with a temporary  
23 shelter set up in Bray.

24  
25 Regional available to us, I'm sure some of you have  
26 seen this on RTÉ news is an all-wheel drive Hagglund  
27 unit that's based in Dublin Civil Defence, but it is a  
28 national asset and we used it successfully this year  
29 over in Manor Kilbride to evacuate a family from a home

1 during the snow blizzard.

2  
3 we also have a canine cadaver dog, a search dog. Again  
4 we've used it successfully here in the County,  
5 particularly with the recovery of the body parts in the  
6 Wicklow Mountains during last year. The dog was  
7 brought in from Dublin which assisted the guards in  
8 recovering the lady's remains up there.

9  
10 As Aidan mentioned, the Civil Defence are trained in  
11 the deployment of the portable morgue unit, which can  
12 be deployed in the County on the request of the  
13 pathologist for the temporary storage of bodies.

14  
15 New to Wicklow this year are three pilots are  
16 qualifying through the Irish Aviation Authority for a  
17 pilot's licence on 24th November. We now have a drone  
18 unit in the County that's available and we've trained  
19 up three pilots and five camera operators for the drone  
20 and we've successfully used that in monitoring the  
21 fires in the middle of the summer and got some very  
22 good footage for the Fire Service that we could use for  
23 future fires. They could see the extent of the fires.

24  
25 Again, our resources, we've continuously upgraded our  
26 fleet. Each year we apply to the Department for grant  
27 aid for replacing fleet where appropriate. Thank you.  
28 CATHAoir LEACH: Okay. Thank you very much. And now we  
29 have Michael Flynn, who is the senior engineer in

1 roads, Michael. We'll have questions after this.

2 MR. FLYNN: Just a brief run through our winter  
3 maintenance plan review.

4  
5 Our winter season, as you can see there, starts on 15th  
6 October and runs right through to 29th April and we  
7 hope that's the end of it. We have a winter service  
8 plan and this sets out our approach to provide a  
9 response to cold weather events and that's frost, ice,  
10 snow. This plan is currently updated and will be  
11 available on the website. Just moving along.

12  
13 This is showing the routes which were gritted, where we  
14 spread the salt on roads at night when we have a  
15 forecast of low temperatures. We've nine distinct  
16 routes. They're colour-coded, as you see there. The  
17 N81 is red in the west and you see green there in the  
18 east, which is the marked contract on the N11. Then  
19 we've all the regional roads. We have what are called  
20 Priority 1 and Priority 2 responses depending on what  
21 the forecasts are. On any given night if we respond to  
22 both Priority 1 and Priority 2 we cover 500 kilometres  
23 of route each night we go out. Dotted along those  
24 roads there we have five depots where we store our salt  
25 and they're located at Newtown, Carnew, Roundwood,  
26 Baltinglass and Blessington. We have a capacity for  
27 4,000 tonnes of salt and presently we have a stock of  
28 2,500 tonnes and a further thousand on order. So we're  
29 well prepared for the season ahead.

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25  
26  
27  
28  
29

Just moving on. That graph there is just a screenshot of our Visalia Icecaps System. This is the computerised system that we use to make decisions as to what nights we go out and when we don't go out. Essentially it's linked to a network of weather stations which are located around the road network and it's monitored continuously by three duty engineers from the head office here. Based on forecasts from the data gained from weather stations, decisions are made as to when we go out and we don't go out.

Finally there you have one of our winter trucks, winter maintenance trucks. We've nine of those operating on any given night.

Just a few facts and figures. The annual spend in Wicklow is typically in or around 800,000 per annum. Last year we were out on 70 occasions. We have, in addition to the mapping and the trucks going around the area, we also have grit deposits located in stockpiles at key strategic locations. About 80 of those. There's a map on our website which will tell you where those locations are.

Finally just one thing, winter maintenance is not an exact science and drivers should always drive with extra care when there's snow or ice forecast. Just because a route is on that map does not mean it would

1 be necessarily clear of ice. So just a matter of  
2 caution. I'll finish on that. Thank you.  
3 CATHAOIRLEACH: Is nobody for questions?  
4 CLLR. FOX: I have, Cathaoirleach.  
5 CATHAOIRLEACH: Okay. Just briefly. I have a question  
6 to answer in a few minutes from Cllr. Whitmore so I'll  
7 take the three briefly if we possibly can and then I'll  
8 move on to Cllr. Whitmore. Cllr. Fox.  
9 CLLR. FOX: I'll be very brief, Chairman. Just in  
10 relation to the gritting and the gritting route. For  
11 the last number of years there are some roads on the  
12 gritting route which fall into two engineering areas;  
13 half the route can be gritted one part of the day  
14 whereas the other half of the route... So we can often  
15 have a road that is half open but still unpassable  
16 because half of it is in another engineering area and  
17 it remains blocked. Is there any possibility that  
18 there could be agreements reached between Municipal  
19 Districts, staff of Municipal Districts that Districts  
20 can take a road in its entirety in charge. Thanks,  
21 Chairman.  
22 CATHAOIRLEACH: Okay. Cllr. Ruttle.  
23 CLLR. RUTTLE: Yes, Cathaoirleach. I'd like to thank  
24 all the presentations made. I'll be quick. It's an  
25 item that I've raised here before. If we look at the  
26 areas, the standard gritting areas, the Wicklow Gap,  
27 parts of the Sally Gap and the regional roads. It's  
28 always this issue that comes up about the gritting of  
29 the lap of the lake at Blessington, the whole lake area

1 because that releases hundreds and hundreds of people  
2 and I have asked and will continue to ask that that  
3 issue be revisited.

4  
5 The other thing is the local access only issue.  
6 Cllr. Fox and myself put down a motion here where we  
7 suffer, if you live in certain areas, where I do, in  
8 Sally Gap you have the snow tourists who arrive, go up  
9 have a look, get trapped, block the road, make it  
10 impossible for the locals to get in or get out and make  
11 rescue services very difficult. What progress can we  
12 make on that? During severe weather if we get the  
13 signs up: Local access only.

14  
15 The other one is could we expand further the  
16 distribution of heaps of grit and sand to specific  
17 locations where vulnerable people themselves will put  
18 them on vulnerable pieces of road because we're well  
19 aware the Council can't be everywhere. A lot of people  
20 will take responsibility for shovelling stuff out of  
21 locations. If that could be advanced. Thank you,  
22 Cathaoirleach.

23 CATHAOIRLEACH: Thank you. Cllr. Blake.

24 CLLR. BLAKE: Thank you, Cathaoirleach. I'd like to  
25 thank Michael for the presentation. Cllr. Fox has  
26 alluded to different districts there, but we have  
27 another issue down in our area and that is a different  
28 Local Authority. In the past we had an agreement with  
29 Wexford County Council in terms of the Carney/Gorey

1 road who gritted that particular section of road? I  
2 know Wicklow County Council were crossing the border  
3 for a period of time there. I'm just wondering will  
4 that agreement continue for the coming year as well?  
5 Equally so, the R747 between the section of it from  
6 Hacketstown to Kiltegan, that runs from County Carlow.  
7 And, again, while Wicklow County Council are actually  
8 gritting the R747 it's very intermittent in terms of  
9 Carlow County Council gritting the remaining part that  
10 is actually in County Carlow. I'm just wondering what  
11 level of communication do we have with other local  
12 authorities in terms of that? Thank you, Chairman.

13 CATHAOIRLEACH: Okay. Michael, can you come in there.

14 MR. FLYNN: The issue with the two engineering areas,  
15 and certainly if you tell us exactly which areas those  
16 are, we can talk to them and see what we can do. The  
17 routes can take anything from three to four hours and  
18 coordinating the route that will start and end the  
19 route may not be just straightforward. But I feel it  
20 wouldn't be exceptional where it's done and there's a  
21 gap between half the road being done and half not. So  
22 we'll try and see if we can do something about that.

23  
24 The Wicklow Gap and the lake at Blessington, this  
25 gritting route has evolved, primarily based on our  
26 ability to respond. We've nine lorries out and spend  
27 800,000. It's probably a question of resources. If  
28 the Wicklow Gap is impassable it's not possible to get  
29 up with a truck when we get heavy snow.

1

27  
28  
29

The lake at Blessington, we'll talk to the local engineer and see what can be done there.

In relation to local access only, I'm aware of the motion put down earlier in the year. It's not something that's generally done. I mean we've had a look at it, policing it will certainly be an issue. But I mean again particular locations we might be able to look at it on a trial basis. It's one to be looked at again.

The grit locations, as I said already there's over 80 already and that's coming from local requests and certainly if there are other areas where people want deposits of grip we can certainly look at that and see if we can assist. If you could just bring that to the local engineer, I've no doubt they'll help on that.

We do have meetings, generally informal meetings with other local authorities, Carlow, Kildare, Wexford and Dun Laoghaire. Again, if there are issues around those if you make us aware we'll try and get in touch with the relevant engineers.

The Hacketstown and Carlow, again, we have, in our Maintenance Plan, the contact details for all the adjoining counties. So certainly we will make contact with them if you make us aware of an issue. And the

1 names and contacts that are in the winter Service Plan  
2 is our website.

3 CATHAOIRLEACH: Okay. That's grand. There's a  
4 question there in regard to Cllr. Whitmore and it's has  
5 Wicklow County Council had any discussions with  
6 stakeholders or the Department regarding the purchase  
7 of lands at Luggala? I'll let the Chief Executive take  
8 this.

9 MR. CURRAN: A number of organisations like  
10 Mountaineering Ireland have written in relation to the  
11 State Purchasing Act. If this Council wants to do that  
12 that's fine. There's a big price on it now, it's  
13 28 million. It was in State ownership and those issues  
14 could be addressed.

15  
16 As it happens, the State have appointed planning  
17 consultants and they've asked to meeting ourselves,  
18 myself and Sean Quirke are meeting them next week and  
19 they said they'll discuss those issues as well in  
20 relation to walking routes and other issues that we  
21 raised. They've one or two other items as well. We'll  
22 talk to them about that.

23 CATHAOIRLEACH: Cllr. Whitmore, just on that.

24 CLLR. WHITMORE: I know the estate itself is up for  
25 28 million but the proposal from Mountaineering Ireland  
26 and National Parks as well is that housing 4,000 or  
27 5,000 acres is bought and I think that was estimated at  
28 less than 2 million. So it's actually a very, very  
29 small amount of money and I think from a recreational

1 and tourism perspective it would be really important  
2 that the Minister and State buy it. Interestingly, one  
3 thing that hasn't been discussed is the impact on the  
4 sale, or any potential impact of a sale on the film  
5 industry. I spoke to someone today who is actually the  
6 location manager in the studios and he has said that if  
7 Luggala was not open to them as a site for filming it  
8 would have a huge impact on the film industry. He  
9 described it as the jewel in the crown of Ireland for  
10 film. He said when a foreign director comes into  
11 Ireland they are shown Ashford Studios and they are  
12 shown Luggala. It is that important. So from our  
13 perspective as a Council it is strategic. I'm  
14 proposing that we write as a council to the Minister  
15 and I have it written out. Do you want me to read it  
16 out as a proposal?

17 CATHAOIRLEACH: Yeah.

18 CLLR. WHITMORE: The proposal is that Wicklow County  
19 Council writes to the Minister and request that the  
20 State acquire the uplands surrounding Luggala Estate in  
21 County Wicklow for the public's recreational use, and  
22 that it be incorporated for Wicklow National Park. I  
23 would also request that this letter be sent to Mr. Sean  
24 (inaudible) rural and community development for his  
25 consideration. I think the importance of the site for  
26 film industry in Wicklow is outlined in it and that the  
27 letter also be cc'd to the Irish Film Board because I  
28 think it's important that we make our concerns also  
29 known to them. This is a very, very important

1 strategic site for us.

2 CATHAOIRLEACH: Cllr. Kavanagh, do you want to propose  
3 that? I think everyone would agree with that. That's  
4 agreed.

5 MS. GALLAGHER: Cllr. Whitmore, will you e-mail that  
6 proposal to us?

7 CLLR. WHITMORE: I will, yeah. Cllr. Matthews is  
8 seconding it.

9 CATHAOIRLEACH: Cllr. Kavanagh, you're seconding that,  
10 are you?

11 CLLR. KAVANAGH: I am, yeah.

12 CATHAOIRLEACH: I think that's agreed.

13 MS. GALLAGHER: Cllr. Matthews is seconding that. He  
14 was on the submission.

15 CATHAOIRLEACH: Sorry, Cllr. Matthews. I think we'd  
16 all agree with that. It's very desirable that it comes  
17 into State ownership. Okay.

18 MS. GALLAGHER: We will note the annual report.

19 CATHAOIRLEACH: We will not the annual report there as  
20 well. That's been agreed.

21 MR. NICHOLSON: I won't delay the meeting. This is a  
22 presentation, Cathaoirleach, on the findings of a  
23 report on the resettlement of a number of Somali  
24 refugees in Arklow Town in 2013.

25

26 There are two purposes in doing this; firstly to review  
27 the experiences good and bad of the Somali settlement  
28 in Arklow; and also to prepare us for any additional  
29 refugees that we may be asked to resettle in a few

1 years and, in particular, the expected arrival of  
2 refugees from Syria in the very near future.

3  
4 So I'm just going to go through a quick presentation.  
5 It won't take long.

6  
7 Just in case no one knows where Somalia is, that's  
8 where it is (indicating). It's in Africa. Most people  
9 would find it hard to pick it out on a map so I thought  
10 I'd show you a map to show you where it was.

11  
12 I just thought that I'd start off by telling you the  
13 rights of refugees under the resettlement programme,  
14 because they do have some particular rights that some  
15 of you may not be aware of. The right to seek and  
16 enter employment in the State; the right to carry out  
17 any business in the State; the right to access  
18 education and training in a like manner to the same  
19 extent as an Irish citizen; the right to receive the  
20 same medical care and services and the same social  
21 welfare payments, including to housing; the same rights  
22 of travel to and from the State, the same as Irish  
23 citizens; the right to apply to the Minister for  
24 Justice and Equality for permission for a member of the  
25 family to enter and reside in the State; and the right  
26 to reside in the State for at least three years.

27  
28 Just to start off. We were asked to initially take  
29 three, we actually ended up getting six Somali families

1 in 2013. We were told more would follow. In fact no  
2 more families came, we just had the six. We set up an  
3 Reunification Committee with support direction from the  
4 Department of Justice and Equality.

5  
6 The six families consisted of 14 young people and six  
7 adults and they came to us through that reunification  
8 process. We were fortunate in Wicklow insofar as these  
9 families didn't come directly from Somalia, they came  
10 from Somali to Malta and then from Malta to us. So  
11 they weren't straight from Somalia.

12  
13 The difficulty we had was, in 2018 this had grown to 45  
14 people. A lot of these families had other members of  
15 their family scattered all over Europe and when we  
16 accommodated them initially in the houses in Arklow,  
17 other members of the family joined them later on and  
18 that has led to some problems because we now have  
19 overcrowding in some cases.

20  
21 Four of the six households are headed by women while  
22 70% of those who came are under 22. There's quite a  
23 large number of children.

24  
25 We set up, as I mentioned earlier, we set up a  
26 Committee. It came under the LCDC Children and Young  
27 Persons Services Committee and the Citizens'  
28 Information Board. We have identified a need to  
29 consult with Somali families and these are the issues

1 which I'm going to show you later on what came up.

2  
3 We got funding through the office for the Promotion of  
4 Migrant Integration and the Citizens' Information Board  
5 to carry out the research. We procured a consultant,  
6 Dr. Sally Daly, and she has done the review which is  
7 being launched after the meeting by the Cathaoirleach,  
8 Pat Vance. Really we asked her to look at the issues  
9 and recommendations, identify best practice and develop  
10 an inter-agency approach to rolling out responses.

11  
12 The Resettlement Programme was funded by the Department  
13 of Justice and Equality. This ended in 2015.

14 Following this there was a declined link-in service with  
15 the families. One of the problems we discovered was  
16 that when the funding dried up and the resources dried  
17 up there was very little contact with the families.  
18 This is where the problem arose, this whole integration  
19 of families into Irish society.

20  
21 There was a huge need for an increase in services,  
22 particularly when the additional numbers arrived from  
23 all parts of Europe. We involved a number of local  
24 agencies in Arklow, including the Vault Youth Services,  
25 Springboard and CIS.

26  
27 As I mentioned earlier, some households have grown  
28 significantly larger than originally anticipated when  
29 they were originally housed. Some were suffering from

1 unassessed trauma and associated mental health issues.  
2 The challenge really is to mainstream services and  
3 agencies in the County. They're having difficulty  
4 accessing mainstream services.

5  
6 Some of the findings that we discovered in the report,  
7 access to services are challenged or denied because of  
8 a failure to understand the rights and the programme  
9 for refugees. A lot of them didn't understand what  
10 rights they had and what rights the rest of the members  
11 of their family had. Obviously there was a huge  
12 language barrier - none of them spoke English and our  
13 Somali woman wasn't great either.

14  
15 They had difficulty understanding our technology and  
16 our terminology. They had difficulty in filling in  
17 complex forms. They may not seem complex to us but  
18 obviously if English isn't your first language they're  
19 very complex. We had difficulty even accessing  
20 translator services. There are very few people in  
21 Ireland who actually speak Somali.

22  
23 They had a lack of understanding of the systems in  
24 place. For example, how you go about registering for  
25 school transport. It seems obvious to us but to them  
26 it's a very, very difficult thing to do. They just had  
27 overall difficulty getting into mainstream and getting  
28 employment.

29 There's a need for training for State agencies to

1 understand the needs and rights of refugees; need more  
2 direct support for the Somalian community; need for a  
3 better coordinated inter-agency response to ensure the  
4 needs are met. Also to learn from this so that when  
5 the next batch of refugees come we're better prepared  
6 we don't make the same mistakes we may have made.

7  
8 So our next steps is we have to develop an integration  
9 strategy. We have a duty under the 2014 Act to promote  
10 equality of opportunity and protect the human rights to  
11 both staff and the person to provide the services to.  
12 Any future refugee resettlement programme will be  
13 guided by the recommendations of this report.

14  
15 From the LCDC point of view, the LCDC (inaudible)  
16 considered the responses and recommendations of this  
17 report.

18  
19 Since then they have set up the working group to  
20 develop responses to the recommendations of this  
21 report. We had hoped that Minister David Stanton, who  
22 is Minister for State and has responsibility for this,  
23 would join us this evening. He can't make it but he  
24 has asked us to attend his office after the launch  
25 today and make a presentation to him. He is fascinated  
26 with the findings of the report, we sent him a copy of  
27 it and he thinks it was great work.

28  
29 Just a thank you to the Somali community for sharing

1 their experiences. Some of them will be outside after  
2 the meeting. To all the agencies that took part in the  
3 review, and obviously to Dr. Sally Daly who produced  
4 this in-depth review. Which we believe is the first  
5 time a review of this nature has been done by any Local  
6 Authority. Any questions?

7 CATHAOIRLEACH: Cllr. McLoughlin.

8 CLLR. McLOUGHLIN: Just very briefly, Michael, on as  
9 Chair of the SPC I want to thank you for all the work  
10 that was involved with this. You know it's such a  
11 small number of people and yet the issues are huge and  
12 complex. If we are to take responsibility as people  
13 and have more people coming into our country, people  
14 that need our help, we have to take on board everything  
15 that's in this report. It's obviously not just for  
16 Somalis, it's for any other communities that come in.  
17 I think it's really, really worthwhile. I think  
18 everybody should have a read of it. Particularly the  
19 infographic is very simple to understand and we don't  
20 have long reams of papers to read.

21  
22 So congratulations. I think it's worthwhile and as  
23 chair I'm very proud that we've done it. Thank you.

24 CATHAOIRLEACH: Cllr. O'Brien, and two more, just very  
25 briefly because we're coming up to 5:00 o'clock and  
26 it's finished then. Cllr. Dermot O'Brien.

27 CLLR. DERMOT O' BRIEN: Thanks, Cathaoirleach. I know  
28 Cllr. McLoughlin said that she was very proud of the  
29 report and I think even today with the couple of

1 presentations we can be proud of wicklow and the fact  
2 that we are putting ourselves out there, we're learning  
3 from experiences. I think the collaboration that was  
4 involved in this project between all relevant agencies,  
5 all stakeholders, including the Somalians, including  
6 the young people from that community, I think is a  
7 testament to what the report will tell us. I think  
8 it's important that we recognise it's about integration  
9 not assimilation, that these people are something to  
10 contribute but that they also have their own identities  
11 that they're bringing with them. I think there's  
12 something about how wicklow can be a place where  
13 refugees can come and flourish.

14  
15 so I think the challenge ahead of us is how we take on  
16 the recommendations and bring them to life at all  
17 levels.

18 CATHA O'RLEACH: Thanks very much for that. Cllr. Behan  
19 and then Cllr. Murphy.

20 CLLR. BEHAN: I just want to congratulate Michael and  
21 the team and everybody involved on what obviously has  
22 been a very, very worthwhile project. I did note  
23 something he said that the support from the State, if  
24 you like, seemed to end in 2015. Now it's the  
25 Governments of the countries who decide to accept  
26 refugees. It's not acceptable that they would suddenly  
27 cut off support in 2016 or 2015 and leave it to local  
28 authorities, who are already underfunded, to manage the  
29 scheme. When you're meeting David Stanton I would

1 propose that there should be a view expressed by this  
2 Council that this support should be continuous, not cut  
3 off arbitrarily after a year or two. I'd like to make  
4 that proposal.

5 CATHAOIRLEACH: I'd certainly second that. Will you  
6 take that up, Michael?

7 MR. NICHOLSON: Yeah.

8 CATHAOIRLEACH: Cllr. Murphy.

9 CLLR. MURPHY: Certainly I echo what Cllr. Behan and  
10 yourself have said. With many projects that I've been  
11 involved in over the years, especially with the  
12 community work with Wicklow Partnership when I've been  
13 involved in minority groups this has happened. They  
14 pump in a lot of money for the first year or two then  
15 the funding is cut off and the minority of people is  
16 just stranded again. You know, they're only finding  
17 their feet. I certainly welcome this and anything I  
18 can do as Cathaoirleach to be involved in the project  
19 just ask. Thank you very much.

20 CATHAOIRLEACH: Thank you very much for that. Could I  
21 just say to Michael again well done on these things in  
22 regard to this. I wasn't aware this was happening and  
23 I certainly wasn't aware the amount of work that has to  
24 go in. I can understand what needs to be done but I  
25 didn't realise how difficult it would be as well.  
26 Certainly that's an eye-opener for me as well. The  
27 launch is at 5:15. The protocol meeting is here now at  
28 5:00 o'clock.

29 MS. GALLAGHER: Just there's correspondence there,

1 Cathaoirleach. The members have been circulated with a  
2 letter that the Chief Executive received in relation to  
3 the public meeting for the 29th Threemilewaters 2018  
4 7:30 p.m. to 8:30 p.m. Centre of Excellence  
5 Ballinakil1, Rathdrum.

6 CATHAOIRLEACH: we'll circulate that.

7 MS. GALLAGHER: It has been circulated.

8  
9 THE MEETING THEN CONCLUDED
