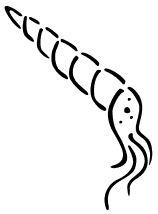
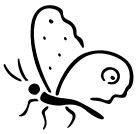
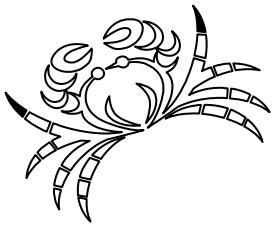
Arklow Beach Hunt

Collect only the things that you return safely and without damaging anything.







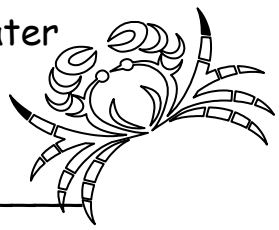
1. A feather
2. Three different kinds of shells
3. Something round
4. Five pieces of man-made litter
5. Something fuzzy
6. Something soft
7. Something beautiful
8. Something that makes a noise
9. Mermaid's Hair
10. A sun trap
11. How many wind turbines for making electricity can you see out at sea? _____
12. Can you spot any man-made dangers on the beach?

    _____

13. Spot an insect. What is it?_____
14. Name two types of objects that are out at sea.

    1._____2._____

15. There are lots of different plants growing in the sand on the dunes. How do you think they manage to grow in the sand without water or soil? _____



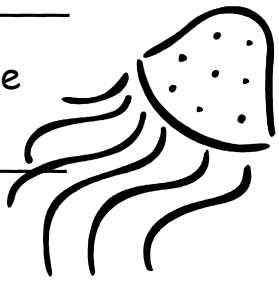
_____

16. Seahorses live in the Irish Sea. Are they fish or animals?_____

17. Name an animal, NOT a fish, that lives in the Irish Sea._____

18. Can you name an insect that stings?_____

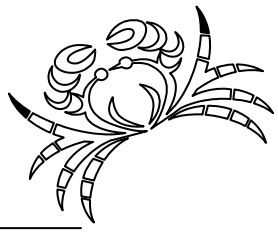
19. Name a sea creature that is sometimes found in the water here that stings? _____



20. Find an animal's home.

21. Can you find a leg down near the water? What creature does it belong to?_____

22. Find a piece of wood. How did it get onto the beach?_____



23. Write down one water safety tip. _____

_____

24. Can you spot a seed that floats in the wind? _____

25. Can you spot litter on the beach or in the dunes? What damage does it do? _____

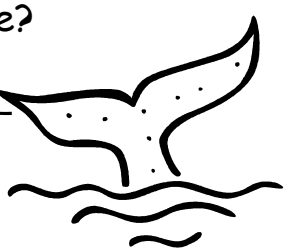
26. What county are we in?_____

27. Name another beach to visit in Wicklow. _____

28. Whales have been spotted recently off the coast in the Irish Sea.

What neighbouring country has a name that sounds the same?

_____



29. Name all the pictures on the page (and you can colour them later!)

30. Bring back a big smile.

Lots of wildlife have their home in the sand and near the sea. You can help to mind their home by not picking plants that grow on the dunes, by not leaving litter and staying out of areas that have fences around them.
