Dear Sir,

Re: Wicklow County Council Development Plan 2016-2022, Wicklow County Council
Bray and Kilmacanogue Local Area Plan 2016-2022. **Written Submission.**

15 SEP 2017
PLANNING DEPT

We are most upset to hear of Wicklow County Council's proposal to link the existing "Woodies" roundabout on the Southern Cross Road directly to the eastern roundabout at Kilmacanogue village. We believe that this proposal will eat substantially into the lower slopes of the Little Sugarloaf mountain, and that it will impact greatly on the visual and the environmental balance of the entire Kilmacanogue valley.

1. A duty to protect our environment.

We believe that it is the duty of our Local Authorities to protect our environment, and particularly so where it is both beautiful and unspoiled. We believe that, in proposing this unnecessary roadway, Wicklow County Council is failing in that duty.

2. We only have so many mountains.

We have a very limited number of mountains in this country, and very few which are so close to our capital city. It is vital that we protect the unspoiled nature of these precious resources for the enjoyment of all our citizens, and particularly so, for those generations yet to come.

3. Vista from the Big Sugarloaf.

The proposed intrusion onto the slopes of the Little Sugarloaf is of such scale and crudeness, that it will detract greatly from those magnificent vistas which have been enjoyed for hundreds of years by climbers of the Big Sugarloaf Mountain. The vista from the Big Sugarloaf, Eastwards towards the Irish Sea, is one of the great views of our country, and must be protected at all costs!

4. Walking Barchuillia Commons.

Large numbers of walking groups, both local and national, access the upper slopes of the Little Sugar Loaf by way of Kilfenora Lane and Barchuillia Commons. Indeed, these areas are trekked by walking groups on a daily and weekly basis. These unique unspoiled hills are some of our favourite and most accessible gems, and must not fall victim to poorly thought-out road planning policy.

5. A rich natural habitat on the doorstep of Dublin.

The lower slopes of the Little Sugarloaf Mountain comprise a rich and diverse habitat, supporting large numbers of common deer, lizard, pine marten, and badger, not to mention pheasant, sparrowhawk, and a wide range of songbirds. Indeed, it is perhaps the nearest unspoiled habitat to Dublin City and, as such, should be treated as a valuable resource.

We ask that this unnecessary roadway be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray and Kilmacanogue Local Area Plan 2016-2022.

The lower slopes of the Little Sugarloaf Mountain comprise a rich and diverse habitat, supporting large numbers of common deer, lizard, pine marten, and badger, not to mention pheasant, sparrowhawk, and a wide range of songbirds. Indeed, it is perhaps the nearest unspoiled habitat to Dublin City and, as such, should be treated as a valuable resource.

We ask that this unnecessary roadway be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray and Kilmacanogue Local Area Plan 2016-2022.

Dear Sir,

**Re: Wicklow County Council Development Plan 2016-2022,
Bray and Kilmacanogue Local Area Plan 2016-2022. Written Submission.**

We are most upset to hear of Wicklow County Council's proposal to link the existing "Woodies" roundabout on the Southern Cross Road directly to the eastern roundabout at Kilmacanogue village. We believe that this proposal will eat substantially into the lower slopes of the Little Sugarloaf mountain, and that it will impact greatly on the visual and the environmental balance of the entire Kilmacanogue valley.

1. A duty to protect our environment.

We believe that it is the duty of our Local Authorities to protect our environment, and particularly so where it is both beautiful and unspoiled. We believe that, in proposing this unnecessary roadway, Wicklow County Council is failing in that duty.

2. We only have so many mountains.

We have a very limited number of mountains in this country, and very few which are so close to our capital city. It is vital that we protect the unspoiled nature of these precious resources for the enjoyment of all our citizens, and particularly so, for those generations yet to come.

3. Vista from the Big Sugarloaf.

The proposed intrusion onto the slopes of the Little Sugarloaf is of such scale and crudeness, that it will detract greatly from those magnificent vistas which have been enjoyed for hundreds of years by climbers of the Big Sugarloaf Mountain. The vista from the Big Sugarloaf, Eastwards towards the Irish Sea, is one of the great views of our country, and must be protected at all costs!

4. Walking Barchuillia Commons.

Large numbers of walking groups, both local and national, access the upper slopes of the Little Sugar Loaf by way of Kilfenora Lane and Barchuillia Commons. Indeed, these areas are trekked by walking groups on a daily and weekly basis. These unique unspoiled hills are some of our favourite and most accessible gems, and must not fall victim to poorly thought-out road planning policy.

5. A rich natural habitat on the doorstep of Dublin.

The lower slopes of the Little Sugarloaf Mountain comprise a rich and diverse habitat, supporting large numbers of common deer, lizard, pine marten, and badger, not to mention pheasant, sparrowhawk, and a wide range of songbirds. Indeed, it is perhaps the nearest unspoiled habitat to Dublin City and, as such, should be treated as a valuable resource.
