Dear Sir/ Madam,

Submission to the Wicklow County Council Bray Municipal District Local Area Plan 2016-2022.

We are deeply upset to hear of Wicklow County Council's proposal to construct a new roadway commencing at the Kilmacanogue East roundabout, and routing Northwards to the Southern boundary of Brennanstown Riding Stables and Equestrian Centre. We are even more upset by the Council's intention to finance this unnecessary roadway by re-zoning the lower slopes of the Little Sugarloaf Mountain as commercial and housing development land. We believe that this is just the thin end of the wedge, and that it is the Council's ultimate intention, to push ahead with the pointless Kilmacanogue to Woodies roadway over the course of the next two Development Plans, and to rescind the protected "green belt" status which currently separates Bray from Kilmacanogue.

1. The Council's proposal is entirely incompatible with the activities of the riding school.

The ultimate conclusion of the Council's proposal is that Brennanstown Riding School and Equestrian Centre will find itself misplaced in an urban setting, entirely cut off from the vital 1000 acre trekking area which is so important to its survival. The imposition of commercial and residential development on this unspoiled mountainside is entirely incompatible with the activities of the riding school, and particularly with the business of equine tourism. The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!

2. An important tourist amenity.

Brennanstown Riding School and Equestrian Centre attracts large numbers of visitors from both the greater Dublin area, and from countries right across the world. They come to enjoy the very best of horse riding in the most beautiful and unspoiled of surroundings. Wicklow County Council's insensitive proposal will obliterate this wonderful setting, and destroy a thriving and much-loved tourism amenity.

3. Scenery and wildlife.

The wonderful mountainside trekking grounds which surround the riding school provide a rich and diverse habitat for large populations of deer, pheasant, badger, and otter, as well as for a wide array of small birds and wild flowers. This proposal by Wicklow County Council will destroy this magnificent uplands habitat forever!

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

5. An unnecessary roadway paid for by unnecessary re-zoning.

The Council propose to pay for the proposed roadway by re-zoning the mountainside alongside it. The plan goes from bad to worse. This unnecessary roadway is now to be paid for by unnecessary re-zoning of unspoiled mountainside.

6. Another hurdle to surviving these difficult times.

Running a large tourism business is difficult, and outrageous proposals like this from Wicklow County Council do not help. We suggest that the business of our Local Authorities should be to support and to nourish conditions in which existing businesses can trade with confidence into the future!

We ask that this pointless proposal be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray Municipal District Local Area Plan 2017-2023.

We believe that this is just the thin end of the wedge, and that it is the Council's ultimate intention, to push ahead with the pointless Kilmacanogue to Woodies roadway over the course of the next two Development Plans, and to rescind the protected "green belt" status which currently separates Bray from Kilmacanogue.

1. The Council's proposal is entirely incompatible with the activities of the riding school.

The ultimate conclusion of the Council's proposal is that Brennanstown Riding School and Equestrian Centre will find itself misplaced in an urban setting, entirely cut off from the vital 1000 acre trekking area which is so important to its survival. The imposition of commercial and residential development on this unspoiled mountainside is entirely incompatible with the activities of the riding school, and particularly with the business of equine tourism. The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!

2. An important tourist amenity.

Brennanstown Riding School and Equestrian Centre attracts large numbers of visitors from both the greater Dublin area, and from countries right across the world. They come to enjoy the very best of horse riding in the most beautiful and unspoiled of surroundings. Wicklow County Council's insensitive proposal will obliterate this wonderful setting, and destroy a thriving and much-loved tourism amenity.

3. Scenery and wildlife.

The wonderful mountainside trekking grounds which surround the riding school provide a rich and diverse habitat for large populations of deer, pheasant, badger, and otter, as well as for a wide array of small birds and wild flowers. This proposal by Wicklow County Council will destroy this magnificent uplands habitat forever!

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

5. An unnecessary roadway paid for by unnecessary re-zoning.

The Council propose to pay for the proposed roadway by re-zoning the mountainside alongside it. The plan goes from bad to worse. This unnecessary roadway is now to be paid for by unnecessary re-zoning of unspoiled mountainside.

6. Another hurdle to surviving these difficult times.

Running a large tourism business is difficult, and outrageous proposals like this from Wicklow County Council do not help. We suggest that the business of our Local Authorities should be to support and to nourish conditions in which existing businesses can trade with confidence into the future!

We ask that this pointless proposal be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray Municipal District Local Area Plan 2017-2023.

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

5. An unnecessary roadway paid for by unnecessary re-zoning.

The Council propose to pay for the proposed roadway by re-zoning the mountainside alongside it. The plan goes from bad to worse. This unnecessary roadway is now to be paid for by unnecessary re-zoning of unspoiled mountainside.

6. Another hurdle to surviving these difficult times.

Running a large tourism business is difficult, and outrageous proposals like this from Wicklow County Council do not help. We suggest that the business of our Local Authorities should be to support and to nourish conditions in which existing businesses can trade with confidence into the future!

We ask that this pointless proposal be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray Municipal District Local Area Plan 2017-2023.

Dear Sir/ Madam,

Submission to the Wicklow County Council Bray Municipal District Local Area Plan 2016-2022.

We are deeply upset to hear of Wicklow County Council's proposal to construct a new roadway commencing at the Kilmacanogue East roundabout, and routing Northwards to the Southern boundary of Brennanstown Riding Stables and Equestrian Centre. We are even more upset by the Council's intention to finance this unnecessary roadway by re-zoning the lower slopes of the Little Sugarloaf Mountain as commercial and housing development land. We believe that this is just the thin end of the wedge, and that it is the Council's ultimate intention, to push ahead with the pointless Kilmacanogue to Woodies roadway over the course of the next two Development Plans, and to rescind the protected "green belt" status which currently separates Bray from Kilmacanogue.

1. The Council's proposal is entirely incompatible with the activities of the riding school.

The ultimate conclusion of the Council's proposal is that Brennanstown Riding School and Equestrian Centre will find itself misplaced in an urban setting, entirely cut off from the vital 1000 acre trekking area which is so important to its survival. The imposition of commercial and residential development on this unspoiled mountainside is entirely incompatible with the activities of the riding school, and particularly with the business of equine tourism. The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!

2. An important tourist amenity.

Brennanstown Riding School and Equestrian Centre attracts large numbers of visitors from both the greater Dublin area, and from countries right across the world. They come to enjoy the very best of horse riding in the most beautiful and unspoiled of surroundings. Wicklow County Council's insensitive proposal will obliterate this wonderful setting, and destroy a thriving and much-loved tourism amenity.

3. Scenery and wildlife.

The wonderful mountainside trekking grounds which surround the riding school provide a rich and diverse habitat for large populations of deer, pheasant, badger, and otter, as well as for a wide array of small birds and wild flowers. This proposal by Wicklow County Council will destroy this magnificent uplands habitat forever!

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

Wicklow County Council.
County Buildings, Wicklow Town, Co Wicklow.

Dear Sir/ Madam,

Submission to the Wicklow County Council Bray Municipal District Local Area Plan 2016-2022.

We are deeply upset to hear of Wicklow County Council's proposal to construct a new roadway commencing at the Kilmacanogue East roundabout, and routing Northwards to the Southern boundary of Brennanstown Riding Stables and Equestrian Centre. We are even more upset by the Council's intention to finance this unnecessary roadway by re-zoning the lower slopes of the Little Sugarloaf Mountain as commercial and housing development land. We believe that this is just the thin end of the wedge, and that it is the Council's ultimate intention, to push ahead with the pointless Kilmacanogue to Woodies roadway over the course of the next two Development Plans, and to rescind the protected "green belt" status which currently separates Bray from Kilmacanogue.

1. The Council's proposal is entirely incompatible with the activities of the riding school.

The ultimate conclusion of the Council's proposal is that Brennanstown Riding School and Equestrian Centre will find itself misplaced in an urban setting, entirely cut off from the vital 1000 acre trekking area which is so important to its survival. The imposition of commercial and residential development on this unspoiled mountainside is entirely incompatible with the activities of the riding school, and particularly with the business of equine tourism. The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!

2. An important tourist amenity.

Brennanstown Riding School and Equestrian Centre attracts large numbers of visitors from both the greater Dublin area, and from countries right across the world. They come to enjoy the very best of horse riding in the most beautiful and unspoiled of surroundings. Wicklow County Council's insensitive proposal will obliterate this wonderful setting, and destroy a thriving and much-loved tourism amenity.

3. Scenery and wildlife.

The wonderful mountainside trekking grounds which surround the riding school provide a rich and diverse habitat for large populations of deer, pheasant, badger, and otter, as well as for a wide array of small birds and wild flowers. This proposal by Wicklow County Council will destroy this magnificent uplands habitat forever!

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

5. An unnecessary roadway paid for by unnecessary re-zoning.

The Council propose to pay for the proposed roadway by re-zoning the mountainside alongside it. The plan goes from bad to worse. This unnecessary roadway is now to be paid for by unnecessary re-zoning of unspoiled mountainside.

6. Another hurdle to surviving these difficult times.

Running a large tourism business is difficult, and outrageous proposals like this from Wicklow County Council do not help. We suggest that the business of our Local Authorities should be to support and to nourish conditions in which existing businesses can trade with confidence into the future!

We ask that this pointless proposal be omitted entirely from both the Wicklow County Council Development Plan 2016-2022, and the Bray Municipal District Local Area Plan 2017-2023.

The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!

2. An important tourist amenity.

Brennanstown Riding School and Equestrian Centre attracts large numbers of visitors from both the greater Dublin area, and from countries right across the world. They come to enjoy the very best of horse riding in the most beautiful and unspoiled of surroundings. Wicklow County Council's insensitive proposal will obliterate this wonderful setting, and destroy a thriving and much-loved tourism amenity.

3. Scenery and wildlife.

The wonderful mountainside trekking grounds which surround the riding school provide a rich and diverse habitat for large populations of deer, pheasant, badger, and otter, as well as for a wide array of small birds and wild flowers. This proposal by Wicklow County Council will destroy this magnificent uplands habitat forever!

4. An unnecessary roadway.

The roadway proposed by the Council is entirely unnecessary. It duplicates a proposal published in April 2017 by Transport Infrastructure Ireland to provide a "local service road" immediately alongside the N11 motorway at Kilmacanogue. The TII proposal is simple, sensible, and cost-effective, and it does not adversely impact the slopes of the Little Sugarloaf Mountain.

5. An unnecessary roadway paid for by unnecessary re-zoning.

The Council propose to pay for the proposed roadway by re-zoning the mountainside alongside it. The plan goes from bad to worse. This unnecessary roadway is now to be paid for by unnecessary re-zoning of unspoiled mountainside.

6. Another hurdle to surviving these difficult times.

Running a large tourism business is difficult, and outrageous proposals like this from Wicklow County Council do not help. We suggest that the business of our Local Authorities should be to support and to nourish conditions in which existing businesses can trade with confidence into the future!

We ask that this pointless proposal be omitted entirely from both the Wicklow County Council
Development Plan 2016-2022, and the Bray Municipal District Local Area Plan 2017-2023.

Dear Sir/ Madam,

Submission to the Wicklow County Council Bray Municipal District Local Area Plan 2016-2022.

We are deeply upset to hear of Wicklow County Council's proposal to construct a new roadway commencing at the Kilmacanogue East roundabout, and routing Northwards to the Southern boundary of Brennanstown Riding Stables and Equestrian Centre. We are even more upset by the Council's intention to finance this unnecessary roadway by re-zoning the lower slopes of the Little Sugarloaf Mountain as commercial and housing development land. We believe that this is just the thin end of the wedge, and that it is the Council's ultimate intention, to push ahead with the pointless Kilmacanogue to Woodies roadway over the course of the next two Development Plans, and to rescind the protected "green belt" status which currently separates Bray from Kilmacanogue.

1. The Council's proposal is entirely incompatible with the activities of the riding school.

The ultimate conclusion of the Council's proposal is that Brennanstown Riding School and Equestrian Centre will find itself misplaced in an urban setting, entirely cut off from the vital 1000 acre trekking area which is so important to its survival. The imposition of commercial and residential development on this unspoiled mountainside is entirely incompatible with the activities of the riding school, and particularly with the business of equine tourism. The presence of large roadways on both sides will make survival impossible. The proposal is simply outrageous!
