Bray Municipal District Local Area Plan 2018 Heritage Schedule/Record of Protected Structure, B44 entry: "Victorian Pillar Boxes". Location: "Main Street(junction of Sidmonton Road and Loreto Avenue and elsewhere". This entry, in my opinion, is too vague to give sufficient protection to the historic post boxes which are part of our heritage. Attached is a Schedule of 9 such structures with locations and photos.

Further information on the importance of these post boxes is available:
