Ps: I was given two different email addresses . I have sent a copy to both 'to be sure to be sure'

# Garden of Ireland

The Spectacular rugged landscape is what defines Wicklow. It is its unique selling point. The Green New Deal and other global initiatives are inspiring governments to take revolutionary steps to change the way we live.

The Garden of Ireland Project merges these two concepts and imagines most of the hinterland of Wicklow developed as one large green entity. Within this area Innovations for a sustainable future for Ireland can be promoted and tested before being rolled out across the country.
