Resolved that the following letter be sent to Lord Milton relative to the lighting of this portion of the Town

My Lord,

Your Lordship having objected to pay an annual Contribution to the lighting of the Town and having requested the Commissioners to name such a Sum, which as a final Contribution would be equivalent to the expectus annual Contribution, the Commissioners beg to refer your Lordship to their letter of the 11 instant in which they suggest that about one third of the annual payment, for which the Commissioners have Contracted would be about a fair proportion, that Contract being £75 per year, your Lordships proportion would be £25 which at 20 years purchase, would be £500 this Sum might be invested by the Commissioners as to be duly applicable to the public lighting of the Town.

The Commissioners have heard that your Lordship some difficulty between the Commissioners and the Gas Company, the Commissioners have Contracts with the Gas Company, but if your Lordship should prefer dealing direct with the Gas Company for the lighting of your Lordships property the Commissioners will be well pleased with that arrangement
