

Joint submissions by Councillor Gerry O'Neill and Councillor Patsy Glennon
for consideration in the proposed new Local Area Plan for Blessington.

- The land between the Texaco station and Miltown Gate estate should be rezoned from employment/proposed employment to residential development
- Land at Burgage running from the current water treatment plant and encapsulating Nolan's bend, the subject of a submission by the current land owners for inclusion in the updated town plan. This proposal must include land to facilitate the provision of an upgraded waste water treatment plant for the further development of Blessington.
- The proposed road from Knockiearn bridge through Dorans Pit linking up with the N81 north of the town of Blessington should be immediately progressed. This has been included in various plans over the years dating back to 1970's .
- Any proposed sizeable development (in excess of 100 units) within the Local Area Plan must include adequate leisure facilities including multiple use playing fields as well as an athletics track
- Burgage Graveyard – The land proposed for the extension of Burgage graveyard in the outgoing LAP 2013 – 2019 must be retained for that purpose. The provision must also include adequate parking for the existing graveyard as well as the proposed extended graveyard
