Infrastructure - Sustainable Movement - Transportation

Submission

Poor bus service, Sunday service 7 days a week. Appreciate bus connects us on its way but 65 bus takes min 90 mins to city centre. Doesn't need to go all around Tallaght etc. a more direct route which takes approx 60 mins would get more users, like 65x. Local link bus too small also and kids regularly can't use it for school in Naas as it's full. If we are to get out of cars, need far more public transport options. Expanding town that only has bus no train or luas or dart so really needs to be much better. Only students seem to use buses, adults chooses to driver every single time.
