Gentlemen.
Having met with a serious accident while in the discharge of my duty at your Union on Saturday last, I now beg to apply for 3 weeks leave of absence from Saturday next forward and I recommend Dr. Foley who has been doing my duty for past week as my "locum tenens" to bring the nearest Medical Officer belonging to the Union.

Yours faithfully
Henry J. Battusky

A Certificate was read from Dr. Foley of Tralee as follows:
Dr. Battusky is suffering from fracture of the collar bone, also spitting of blood the result of sword concussion caused by the fall on Saturday last. He is unable to leave his bed & requires absolute rest for a few weeks.
Richard Foley June 6th 1884

The Reports of the Master and other Officers were read, and Orders made thereon, as follows:—

The Master reports that about 3 tons of straw are required for bedding purposes and 1/2 dozen pairs of boots for the orphan children.

That Dr. Battusky Medical Officer of the Workhouse has been unable to perform his duties since Saturday last 31st ultimo owing to an accident that happened to him whilst driving from the Lodge up to the Workhouse.

The window got off the horse's head and he ran away. The car came in contact with the big tree opposite the Hall Door, was upset, Dr. Battusky thrown out and seriously injured.

I telegraphed to Dr. Foley of Tralee and he has been performing Dr. Battusky's duties ever regularly since the above mentioned day.

No 20.696: 88

4th June. 1887

Letter read from the Local Government Board for Ireland to inform the Board of Guardians of the Shillelagh Union that they have received the Half-yearly report of their Inspector, Dr MacCabe, which is of a satisfactory character as regards the general management of the Workhouse.

With respect to the financial condition of the Union Dr MacCabe reports as follows:—

The ordinary and unavoidable expenditure from the date of inspection to the close of the current financial year cannot fall short of £1200. and to meet this the assets available will not exceed £300. At the date of inspection outstanding liabilities (estimated to close of May) amounted to £600. It is clear that the Guardians will be in debt about £1,500 on the 30th September and probably to the extent of £2000 before the new Rates are in course of Collection and lodgment. This is not a satisfactory condition and the attention of the Guardians has repeatedly been drawn to the insufficiency of the provision they make from year to year to meet the necessary expenditure of the Union.

Dr MacCabe states a new stove will be required in the men's day room

before the Winter sets in.

With respect to the arrangements for nursing the sick Dr MacCabe reports that they are not sufficient. He adds. This subject has already been under the consideration of the Guardians on a report from the Master respecting the impossibility of finding suitable persons in the Workhouse to act as assistants or wardmaids in the Hospital Wards. He pointed out that except women of a class that it is not desirable thus to employ, he had no females available for the duty.

Dr MacCabe states that on the day of his inspection there were 40 patients and 40 lunatics in the general hospital department; and the Board have to refer the Guardians to their letter of 27th March last and to request that the subject may receive their earnest and careful consideration.

With respect to the condition of the sick and infirm inmates of the Workhouse Dr MacCabe reports that the patients in the fever Hospital are exposed to much avoidable suffering owing to the absence of window blinds and the Board request that the defect complained of may be remedied.

It appears that painting is much required both inside and out not having been done since 1878; and the Board request that this matter may receive the prompt consideration of the Guardians.

Dr MacCabe reports that the Guardians provide no special clothing for the use of patients in the Fever Hospital of the Union and that article 59 of the Workhouse rules is not attended to, there being no entry in the Visiting Committee's Report Book since 1879; and the Board request that the several matters referred to may receive attention.

With regard to Dr MacCabe's report respecting the Window blinds for the Fever Hospital the Guardians directed the Master to inform them by the next Board day of the number of Windows in same and their dimensions, & at same time expressed their opinion that there was no necessity to make any change in the present arrangements in regard to assistant-nurses, and the consideration of the several other matters in the aforesaid report were postponed until this day fortnight.

N. 24. 567. 1884

3rd July 1884

Letter read from the Local Government Board in Ireland to state they have had before them the resolution of the Board of Guardians of the Shillelagh Union of the 20th ultimo requesting their sanction to allow a sum of money to Mr. Whelan of Rathduffmore as compensation for the loss of bedding and clothing which was destroyed in the destruction of certain premises in the Union in which cases of fever had occurred, and the Board desired to inform the Guardians that the efficient destruction of premises when dangerous from infectious diseases has prevailed right in all cases to be advised by and carried out under the supervision of the responsible officers of the Sanitary Authority. It is not clear from the particulars of this case, as given in the Minutes of Proceedings of the Sanitary Authority whether the destruction was so directed and carried out but under the circumstances the Local Government Board will not object to compensation being given for the clothing destroyed provided the Board is in the opinion of the Guardians a reasonable one.

The relieving officer Mr. Ellis, was directed to ascertain the value of the clothing referred to in the foregoing letter.

my house and family were infectious and that my family should be shunned and avoided: notwithstanding up to this time he had not ever cautioned or warned me or any member of my family that the sickness was Fever or infectious. Caring to this report when my children who were then in situations came to attend their Father's funeral when they returned to their respective situations after the funeral they were each and all dismissed and turned away owing to the Doctor's report and they had to remain out of situation for three months. The first intimation I have had from the Doctor that the case was Fever was a notice served on me by the Sanitary Authority to disinfect my house.

Coupled with the notice some cases of Fever broke out in the locality and I having so large a family to house I became alarmed and I burned four beds and bedding and some articles of wearing apparel and some old furniture that I deemed likely to retain the infection. It is true I had no direct order from the Doctor to burn anything nevertheless his report and the fact of Fever being present in the immediate neighbourhood warranted me in doing what I did provided his sickness was Fever and which appeared to have baffled the skill of the Doctor. I told the Doctor immediately after having burned my effects and he approved of my having done so and concurred in saying it was necessary and as an Officer of your Board I ask you to judge of the matter. I have not stated anything in the foregoing but what I will support and prove on inquiry.

Major Norton J. T. proposed & Mr. Sullivan seconded that no complaint of Mr. Whelan of Rathdaffm. be urged to D. Corp and considered this day fortnight.

The following letter was read from Dr. Henry Medical Officer of the Tripartite & Skeragh Dispensary District.
Tripartite July 31st 1882
To the Chairman and Board of Guardians Skeragh Union.
Gentlemen

In compliance with a resolution of your Board of the 18th inst. the Clerk of the Union forwarded to me a copy of the statement of Mrs. Whelan of Rathdaff in relation to the illness and death of her husband Owen Whelan aged about 60 years.

I beg to make the following reply—
On Saturday the 2nd March last I received a visiting ticket from Mr. Foley Minister of the Dispensary Committee. I visited the patient on the same day at a distance of about 8 miles from my residence. I found the man suffering from the effects of an epileptic fit. I ordered nourishment, viz. Milk, chicken broth, &c. at this period there was no symptoms of fever, and I felt that there was no cause for anxiety. The medicine which I prescribed (a tonic) was not sent me until the following day when a messenger reported that the patient had "a good night and was better." The directions given were, to let me hear again in a day or so, or, if any change in the case occurred. On Thursday morning I visited the patient and found him in a happy state, then indicating the commencement of a low form of fever. I ordered the nourishment to be continued, and provided him and whiskey at Mr. Graham's Shop, and I then wrote an order for tea to make beef tea. I administered an enema, and impressed the necessity of perseverance with the nourishment which was the principal treatment required. Before leaving the house, I said I would call to see the patient on the following day. Mrs. Whelan states that I did not warn any of her family against danger of infection. I beg to say, that I cautioned the eldest son who was in attendance, not to inhale his father's breath, as the case was passing into a low form of fever. Mrs. Whelan being present placed her apron or handkerchief over her mouth. I told her that she had better leave the room as she seemed nervous. I also advised the

Children from the apartment.
 I must emphatically deny having heard of Whelan's death whilst inside a public house at Knockananna. The facts are as follows. I left my house on the Friday for the sole purpose of visiting Whelan, and on arriving at Knockananna (the only available place for putting up my horse Whelan's house being situated on the bog and totally inaccessible by road) Mr. & Miss Graham came out of their shop and without alighting from my vehicle, told me that Whelan had died. I then returned home.

In the discharge of my duty I felt justified in advising precautions to shopkeepers and others as the case was lapsing into a low form of fever, principally winced by frustration. Immediately after interment Mr. Whelan had the house disinfected by burning sulphur, limewashing &c. No other case of fever was in the neighbourhood nor did any occur until April the 6th.

I may add that the motion of Mr. Whelan's widow's statement after the lapse of nearly four months was obviously to try to induce me to "give an order" (as she expressed it) to your Board to compensate her at an exorbitant demand (i.e. £5 for a bed & to be supplied with four new bedsteads) for the loss of the articles which she alleges she found.

In acknowledgement of my professional services I beg to enclose a copy of a letter received from Mr. Whelan, thanking me for my kindness."

The Board considered the foregoing reply from Dr. Gray most satisfactory & the statements of Mr. Whelan who was present and acknowledged having told Dr. Gray the same. The statements were read with a view to compensation & discharging the claim.
