Topic

Rathnew Village Centre Strategy

Submission

The knock on affect of poor planning locally evident everywhere. The N11 turning into one giant car park . Schools not able to offer places to students from the locality . Doctors unable to offer appointments for maybe 4 weeks . Not too mention the increase in electrical outages due to the extra demand . Our water and sewage service not able to cope as it has previously reached capacity . The likelihood of flooding is increased as well as ecological disasters for our rivers , lakes and the sea .

This needs to be address before building more houses
