## Topic

Infrastructure - Sustainable Movement - Transportation

## Submission

Dear Sir Madam

I have made a submission on the portal already but I forgot to include on further matter under infrastructure . Can you please add this submission to my earlier submission please

Infrastructure

There has been talk in the past of a new link road from the N11 to Kilcoole via Woodstock road lands to reduce the levels of HGV and increased traffic volumes on the existing country roads that have no lighting or footpaths and are simply too narrow and not built for these levels of traffic.

The new link road was to facilitate the increasing traffic levels which will further increase as more homes and services are provided in the coming years in the Kilcoole Area.

I'd like to suggest this this new link road is included on the new local area plan to facilitate Kilcooles growth

Thank you  
Austin Baines
