Submission Made	November 20, 2024 10:48 PM

## Topic

Overall Vision and Strategy of LAP

### Submission

Rathnew has become overdeveloped as is , it has lost its unique character and is turning into a soulless commuter town- the people of Rathnew were not consulted or considered in these developments- our young people are now being out priced by people who in turn have been out priced in Dublin! It is time to halt further developments as there are not going to be enough school places and further facilities for this increased population! The new proposed road through Tinakilly will destroy one of our last green /nature areas, it is unnecessary as alternative routes for relief of traffic from Wicklow town are available-ie Rocky road route to motorway and or upgrade to marlton road to beehive connection!
