Community Development (incl. sports facilities & schools, etc.)

Submission

As part of the LAP process I would like to request WCC allocate sufficient space for a permanent Athletics facility. To include a standard 400m running track, internal area for field events and associated infrastructure such as toilets.

Athletics is one of the most popular sporting activities across Ireland. And one in which both young and old can fully take part. Currently Blessington (And West Wicklow) are without a dedicated athletics facility. This facility would be of great use to a variety of organisations, from schools, to athletics clubs, to wider disability sports groups.

A dedicated athletics facility would I feel prove to be seen as a fantastic addition to Blessington, one which would play its part in bringing the growing town together.

Thank you.

Local Transport Assessment / Transport Strategy Map

Submission

As part of the LAP process I would like to request WCC allocate sufficient space and infrastructure to support the efficient running of public transportation. Specifically to handle the increased volume of busses which the Bus Connects strategy envisions. And which the West Wicklow corridor is in such need of.

Thank you.

Submission

I would make the observation that the area covered by SLO8 would of better use if rezoned as Active Open Space.

Thank you.
