Overall Strategy of the LAP

Submission

Submission for Development of Athletics TRACK. My sister Keira Eva Mooney is setting up a junior running programme with LAKE SHORE STRIDERS. My extended clan have been big in the running areas and though our time has passed in the competitive field we want to delivery on bringing on our children and all children of the community.

I've just moved home from London with my two teenagers. I feel the support of the community around me in Ballymore and Blessington is where we play soccar.

A running track will allow our children to compete at a National Level but more importantly its a cool resource to have and it will draw young folk for the cashee .

And that is who we are looking to give help to .

Please allow an athletics track for the young folk in the plan

Yours sincerely

Jo Mooney
