Compact Growth - Housing - Population Growth

Submission

We at Kilcoole GAA club would like to have our club grounds re zoned to residential.

The rational behind our request is that with our ever growing membership numbers, especially LGFA we do not have the space required to facilitate everyone.

This would not be a decision that we would not take likely as we have recently upgraded the club carpark, added a much needed club gym and are currently in the process of realigning our pitches in the hope to obtain some more training space.

If there was land locally we could rent/purchase it would be the first option for us but to have something in our price range could be difficult to achieve
