The Clerk's Report of Vaccination was read—(this on the first Meeting in every Month)—Number of successful cases :—

The Report of the Visiting Committee was read, and Orders were made thereon as follows:—

The flak reported that the ^{Met} Contractor, Mr. M. Guinn, had not perfected his bond by the surety named in his tender attending to sign the same.

Mr. W. Guirk having applied for permission to name Mr. Thomas Rinney of Lowell as his surety, instead of Mr. Sumner as stated in Index, which was granted.

A child named Horio, son of a Servant named Sarah, was admitted as a patient to the Dispensary. His mother has the sum of $5/-$ per quarter towards cost of his maintenance in said.

The Reports of the Master and other Officers were read, and Orders made thereon, as follows:—

The Master reported that he returned 37^{lbs} meat to the Contractor on the 30th May it being unfit for human food & supplied Tea, Sugar & Butter in lieu of the same.

He in explanation of same stated that the Meat, when it came into the Workshop looked fresh & good; but that on cutting it up afterwards he found it ulcerated in two places, called the attention of the Medical Officer there to & sent it back. The Guardians after considering the matter were of opinion the ulcers might have been caused from Blows received by the animal whilst alive & that it might not have originated from disease; but directed the Clerk to write to the Contractor severely reprimanding him & requesting him to be particularly careful to supply the best quality of meat in future.

That the Pump in Mrs. Gard is again out of order & the house in a very bad way for want of water

The Clerk was directed to write to Messrs J. Parker & Son forthwith, who undertook to keep the Pump in repair until the 14th August next, & have the same repaired without delay & in the event of their refusal to do so the Master be directed to employ Mr. Sykes the Plumber for the purpose.

The following Orders of the Local Government Board for Ireland were laid before the Board, and directions given thereon, as follows:—

That he attended the Petty Sessions at Tinsahilly on the 31st May ¹⁸⁷⁶ to prosecute Winifred (anore & Collyer) Ryan: the former for breaking a Window in Watchman's was sent to Gaol for 7 Days with hard labour. & the latter for deserting her two Children at the entrance of Watchman on the 28th was let off with a caution owing to her having returned on the 29th with a Relieving Officer's Ticket.

That he suggests it is time to advertise for coal. The Clerk was directed to invite Tenders to be considered this day & week to supply the Watchman with 120 Tons of Best Whitehaven Coal, & 25 tons of Belkenny Coal. The Master also stated that there are three Clocks in Watchman wanting cleaning, Ordered to be cleaned.

The following Letters from the Local Government Board for Ireland and others were read by the Clerk, and directions given to answer them respectively, to the following effect (or orders made on them respectively, as follows):

No. 10, 845—Miscellaneous

24th May 1876

An order under seal read from the Local Government Board assessing the sum of £52. 8. 2½ on this Union under the Cattle Diseases Act.

The Guardians direct the amount so assessed to be included in the estimate of new rates.

In reply to letter from Saned No. 10185 dated 18th May 1876 The Guardians desire to observe that in reference to the case mentioned in D. Collyer's letter of the want of water (Report from B. dated 22nd July 1875) the erection of a Pump in Tinsahilly with a full supply of water was quite sufficient to remove the cause of complaint of there being no water, the pump being erected in same place. It is well to observe also that the Cistern was only occasionally supplied & that from

the Mill stream, over which the Guardians had no control under the 18th & 19th vi Chap 121 sec 45 Sanitary Act, and not from the well itself.

D. Collyer next states that there is a filthy sewer at the end of some houses in the town of Tinsahilly and this matter did not receive the attention of the Sanitary Authority. Referring to the foregoing statement the Guardians observe that the only report of a filthy sewer they received from the Sanitary Officer, was in his Report Form B. 22nd July 1875. in which he says, "a sewer is kept in a filthy state at the end of John Chayman's house Tinsahilly" and that this nuisance was visited, inspected & stated in writing Sept. 23rd 75 by the Sub-Sanitary Officer as abated.

With regard to the observations of D. Collyer the Sanitary Officer, that if the Sub-Sanitary Officer is to decide whether a nuisance existed or not contrary to his opinion, he cannot be responsible for the Sanitary Condition of the District, we are not aware of any Case in which the Sub-Sanitary Officer stated a nuisance did not exist, and on of opinion as the Executive Sanitary Authority, that D. Collyer as Sanitary Officer is executing his duty by commenting on our proceedings as the Sanitary Executive Authority.

The Guardians proceeded, as advertised, to consider, and to supply the Workhouse with Swatmilk & Buttermilk for 12 Months from the 1st July next, when the following was accepted

Francis N. Symes Swatmilk at 7/9 per gallon
 same Buttermilk at 7/3 d.
 Elizabeth Hopkins Swatmilk at 7/9 d.
 same Buttermilk at 7/3 d.

Dublin 24th July 1886

Letter read from Local Government Board to acquaint the Board of Guardians that they have received a Report from their Inspector, Mr. O'Brien, relating to the Thellogh Union, the Workhouse and Hospitals of which he inspected on the 19th instant when he found the several Departments generally in good order, the Sanitary condition of the House good, the articles of food in store of good quality, and the inmates of the several classes suitably clothed—

As regards the Dietary Mr. O'Brien suggests that some arrangement should be made by which Classes 1, 2 & 3 of the Workhouse inmates would receive a third or supper meal in the day; and the

Board request the Guardians attention to this suggestion. The Workhouse Schools, Mr. O'Brien reports, appear to be successfully conducted, especially the Female Department, and the general appearance of the children was favorable on the day of his visit.

With regard to the state of repair of the Workhouse Buildings, Mr. O'Brien reports that the floors of the girls' privy and the idiot cells are much out of repair and require immediate attention.

In reference to foregoing letter with regard to Mr. O'Brien's suggestion respecting a change in the Dietary of Classes 1, 2 & 3, it was proposed by Mr. Moore seconded by Mr. Edward Byrne and passed unanimously "that the Dietary remain as it is"; the Guardians being of opinion that the present scale of dietary is quite sufficient & satisfactory, and that there is no necessity for any change in the arrangement of the same.
