Economic Opportunity – Tourism - Shops & Services - Community Facilities

## Submission

The children's park in saint peters place is in need of upgrades and design updates aswell as new equipment. This park is used by so many in the community and apart from the new fence for public order requirements this park has no upgrades in the 12 years I have lived beside it in saint peters place. There is also a lack of seating for parents and camera system is needed to prevent vandalism (the fence has done a good job but I have seen issues with kids breaking equipment on purpose) . The other parks in the town hav3 seen benifits of new equipment and upgrades in the last few years and it would be fantastic to see this play ground be given a new lease of life . It would also encourage parents to use the shops around the park as they all within walking distance. There is also a large space around the outside of the fence of the playground that is currently going to waste and could be developed into an out door gym or something further .
