

Draft Wicklow Town – Rathnew LAP Submission - Report

Who are you:	Private Individual
Name:	Amanda Cummins
Reference:	DWTRLAP-151653
Submission Made	November 17, 2024 3:38 PM

Topic

Residential Development

Submission

I am a resident of Wicklow Town for 25 years and always valued the green space and access to facilities and school although I always found the transport link poor. However to say that I am appalled at the lack of vision and insight that has resulted in this plan being produced is the understatement of the century. The relentless building off housing estates one on top of the other with no green space and pouring out onto a really poor road network is beyond belief. I understand planners had a view that most people would work locally which is farcical. I am working in cabinteely and there is no way for me to drop my daughter to school at 8.15 and get into work for 9 am. I now cannot get out of the town under 15 mins with the massive increase in the volume of traffic. I either have to put my daughter into pre school care or reduce my hours and income. All this because of poor planning. Also children are now being refused places in schools as there is none and appointments with any doctor is virtually impossible. WCC ruined Greystones it is just awful to see how they allowed the town to be destroyed and they are planning to do the same with Wicklow. The rathnew relief Road which will relieve nothing is criminal and when WCC were offered by the builders of the port Road to build out the rocky road they declinedcivil servants and the proposed further development of housing apartments in Rathnew only further demonstrates the lack of skill in our supposed council to understand the needs and wants of the inhabitant's
