Section 3 – State Aid Questionnaire ***All required**

The Community Climate Action Programme is funded by State resources and as such the following three questions must be answered to determine whether or not funding your organisation's proposal could constitute state aid.

Does the funding confer an advantage on one or more undertaking over others?

☐ Yes ☐ No

Note:

An “advantage” can take many forms: not just a grant, loan or tax break, but also use of a state asset for free or at less than market price. Essentially, it is something an undertaking could not get in the normal course of business.

An “undertaking” is any organisation engaged in economic activity. - This is about activity rather than legal form, so non-profit organisations, charities and public bodies can all be undertakings, depending on the activities they are involved in. - An undertaking can also include operators and ‘middlemen’ if they benefit from the funding

“Economic activity” means putting goods or services on a market. It is not necessary to make a profit to be engaged in economic activity: if others in the market offer the same good or service, it is an economic activity.

Support to an organisation engaged in a non-economic activity isn't State aid, e.g. support to individuals through the social security system is not state aid.

Does this funding distort or have the potential to distort competition?

☐ Yes ☐ No

Note:

If the assistance strengthens the recipient relative to its competitors, then the answer is likely to be “yes”.

The “potential to distort competition” does not have to be substantial or significant: may include relatively small amounts of financial support to firms with modest market share.

Does the awarding of this funding have the potential to affect Trade between EU member states?

☐ Yes ☐ No

Note:

The interpretation of this is broad: it is enough that a product or service is tradable between Member States, even if the recipient does not itself export to other EU Markets.

Please confirm the total Euro value of all State funding your group has received in the last three-year period:

Commented [A1]: New statement

If the answer to all three of the above questions is “yes” then granting of funding through the Community Climate Action Programme would constitute state aid. In that case, please complete the De Minimis State Aid Declaration to accompany your application.

If the answer to any of the above questions is “no” this project does not constitute state aid. Please move on section 4.

Section 4 - Authorisation and Statutory Consent

Where a project will be delivered from a site/building(s)/floor space that are not in the ownership of the Local Authority, it must be in the ownership of the partner organisation of the Local Authority or either party must have a minimum five years lease must be in place from date of project completion. Where this is not possible there must be a written agreement with the site owner to enable access to the site for the benefit of the community for a period of five years.

Do you have all required planning and regulatory permissions and consents and have you secured the necessary authorisations and/or rights of access to all required land, buildings and property for all associated work required for your project?

☐ Yes ☐ No
