Regeneration of Communities & Places - Healthy Placemaking - Urban Design - Opportunity Sites in Arklow

Submission

why are the owners of all the derelict buildings in the town not being held accountable for them? Many are unsafe. There is a shortage of houses in the area why can these not be done up and used for social housing? there is planning for 100's of new houses in the town so there will need to be more restaurants / shops etc to meet these needs.

Topic

Heritage – Biodiversity- Green infrastructure- Climate Action- Energy

Submission

if you want the town to be know as a heritage town where do all the plastic pencils that have been erected in the town fit into this? why not change these plastic bollards for something more green and environmentally friendly. they have totally destroyed the town and are not fit for purpose and people still park up against them

Topic

Infrastructure - Sustainable Movement – Transportation

Submission

the number of roadworks / stop and go systems in place (both entrances to the town) show a need for a second bridge for the town.

more parking will be required especially now with the number of planning for additional houses in the town.

you go 10 mins to gorey and its thriving and arklow has been left behind.

footpaths are a major issue in the town, I know wicklow coco have spent well over €2m in trips and falls so why are they not addressed before people have to fall on them?

the bottom of st mary's road by the church requires a yellow box its a nightmare trying to get out at the bottom on this road
