LAP - Proposed Material Amendments No 26 Submission

Submission

Proposed Material Alteration No. 26

I oppose this proposed change of use from unzoned/outside the LPF boundary to AOS 'Active Open Space' as currently designated. Currently the plan proposes cutting through existing native wetlands and the Brown Trout stream to create access to the site. There is absolutely no need to do this, as access already exists via Ballydonagh lane to these lands. The area has already been damaged recently by the landowner, obviously in an attempt to circumvent proper planning and to avoid having to carry out environmental assessments on this potential access route. This proposal goes against the current WCC strategy to protect biodiversity.
