Economic Opportunity - Tourism - Shops & Services - Community Facilities

Submission

For a town of this size to have one very poor playground as the only facility is an absolute disgrace. I feel we need now not in ten years time a sports facility/complex that would provide a swimming pool, sports facilities such as Astro soccer facilities, tennis, basketball, recreational hall, this facility would suit all ages and I am sure the council has a plot of land they could zone for this facility.

This facility would in turn create jobs at the pool, bookings for sports facilities, maintenance and could also be used by the schools to improve the services they can offer to students.

If the council continue to approve land for housing they must improve the services/facilities to the town otherwise there will be anti social behaviour as children/teens have nothing or no where to go which in turn affects every generation within a town.

Education the secondary school needs to be prioritised it is not secondary redevelopment that this had been put on hold the children don't even have an option to attend anywhere else transport link are also a disgrace a bus every 2 hours that's so full you can't even get into it

How this is all acceptable in this day and age is beyond me

this sports facility and secondary schools needs to happen now it's too late in 10 years time
