Tourism Development / Greenway Supporting Infrastructure Map

Submission

We have a facility for recreation around Blessington lake where people can go for kayaking provide by Poulaphouca paddlers kayak club. It is a wonderful club. I have joined it last summer and met a lot of new people. It is a really good hobby for socialising. It would be nice to extend it with a club house where we could have a meeting room, Showers and changing room. We could also extend it by providing community gym. This place is located on the blessington lake where lit of people come for walks on the Greenway trail.
