Submission

1. More affordable housing is required.
 2. Amenities to suit the housing and growing families eg a leisure centre that includes a swimming pool. Swimming is a life lesson that should be available to children in this area.
 3. A 400 meter running track so we can have a running club for our town which is rapidly growing. We shouldn't have to join clubs in Tallaght or Naas.
 4. Facilities for our soccer club to be facilitated in our town and not having to drive up to Crosschapel.
- Blessington is a vibrant, growing town with so much potential to add these facilities and ultimately improve the physical and mental health of our community.
