- Roads & Transportation Strategy Maps

Maps:

I object to the wasting of public funds on cycle lanes other anti democratic actions against motorists. The electorate has never given a mandate to the government

for the "Green Agenda". Just like the Gender Recognition Act this ideology is being forced upon us by ideologues and NGOs. The cycle lanes north and south of Arklow are not a success as you claim they are very under utilised. All the French crossing signs on the Knockmore roundabout are just a joke. How about you get about cleaning up the shop fronts and getting more businesses on the main street and a take a break from making people's live more miserable for your communist like "utopian" vision of the future.
