Topic

Regeneration of Communities & Places - Healthy Placemaking - Urban Design - Opportunity Sites in Arklow

Submission

The Arklow Running Track has suffered from years of neglect and lack of maintenance. The running surface has significant weed growth on it and much of the lighting does not work. The recent construction of a temporary access road to facilitate the new waste water treatment works resulted in part of the track being removed. Despite the current poor state of the track, it remains a popular facility and remains well used. The regeneration of the track would provide a valuable public facility for use by all residents of Arklow. The provision of proper lighting would result in a much improved facility that people would feel safer using during the dark winter nights. It is time to reverse the years of neglect and poor maintenance. It is time to restore the Arklow Running Track
