The following Letters from the Local Government Board for Ireland, and others, were read by the Clerk, and directions given to answer them respectively, to the following effect (or Orders made on them respectively, as follows):—

The following entry appeared in the Medical Officer's Journal:— "I beg to report that on Sunday last Oct. 20th Margaret Mullery an inmate beat an imbecile child named Mary Byrne aged 10 years, slapping her and evidently hurting the child enough to make her cry. Margaret Mullery is dumb but a strong able-bodied woman. She has a depraved disposition & a violent temper and when angry is liable to strike or injure others. She has been under my observation in the Dist. Pharmacy Ward since August 31st having been placed there for observation as to her mental state owing to her having attempted to assault the matron, & behaved with great violence when in healthy part of Workhouse. During the period from August 31st to Oct. 20th her conduct was quiet & she seems so far sane and accountable. I would strongly recommend her being prosecuted, as I think a sharp punishment would be necessary, as her ungovernable temper is a danger to the inmates of the House."

Order:— That the woman, Mullery, be prosecuted at next Petty Sessions.

The enclosure was as follows:—

"The Workhouse water supply is sufficient. as regards its purity, however, I reported on this matter last July and I understand that the Guardians directed their Engineer to submit a Specification and estimate for carrying out my recommendations, but he does not seem to have done so.

"The boys occupy a very large ward, portion of which might be partitioned off. This change would make the boys ward less cold and draughty.

3. "The ambulances are of the old two-wheeled type.

4. "The female consumptive ward should be plastered and ciled.

5. "The infirmary wards would be much improved if windows were placed on the eastern side to let in the morning sun.

"Bedside tables should be provided for the hospital wards.

"The surface drains in the yard are out of order and as a consequence there are pools of stagnant water in several places.

"There are several slates off the roof of the unused hospital wing. This building should be kept in proper order, even though it is not used at present.

"The fire grate in the healthy women's ward should be replaced.

the

"The Workhouse requires to be painted both inside and outside."

"The visiting committee must regularly, & attention is directed to the requirements of article 59 of the Workhouse Rules in this respect."
