HOUSING – POPULATION – COMPACT GROWTH

Wicklow Town – Rathnew will need c.1,500 new homes built between now and 2031.

To facilitate compact growth, 30% of new homes need to be in the existing built-up area and town/village centres.

Wicklow County Council are required to identify and reserve an appropriate amount of land in the best locations to meet this housing target.

These homes must be provided for in a sustainable manner, aligning with the provisions of the Core Strategy of the County Development Plan, and having regard to established and sustainable settlement patterns and the natural environment.

Sample Questions, All Ideas are Welcomed

- Where should higher densities be located?
How do we deliver higher densities?
- Where do we deliver our new housing without contributing to urban sprawl?
- What sites in the town / village could be redeveloped to maximise opportunities?
- Where are the vacant or underutilised sites in the settlement? How can the plan maximise use of these sites?

REGENERATION OF COMMUNITIES & PLACES - HEALTHY PLACEMAKING - URBAN DESIGN - OPPORTUNITY SITES

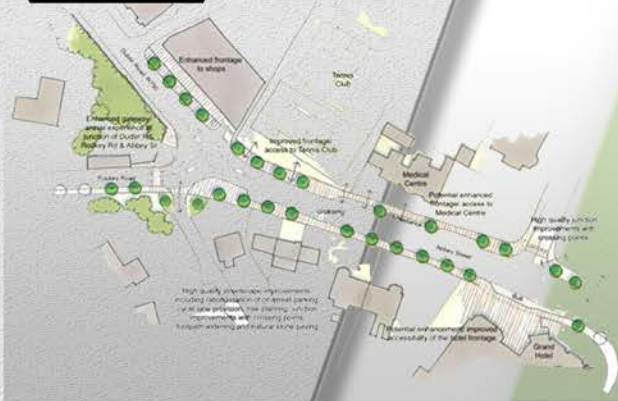

The local area plan will focus on regeneration in order to achieve more vibrant and sustainable communities. As well as identifying opportunities for development that can give new purpose and function to existing places, sites and buildings, there is a need to address the evolving needs of communities, in response to demographic and lifestyle changes, as well as addressing such issues as overdevelopment, decline, etc.

The local area plan will promote healthy place making through quality urban design, public realm and active travel, which in turn helps create a healthy environment for healthy communities to grow.

The regeneration of vacant sites has the potential to improve the vitality and viability of the traditional town centre and environs; and in particular the regeneration of sites like the Bayview Hotel, former VEHA factory, opportunity sites at Fitzwilliam Square, the North and South Quay,

How can we revitalise / regenerate the following areas:

- Wicklow Town Centre
- Rathnew Village Centre
- The Murrough Area
- The Port and Harbour
- The Quayside / Riverside

Sample Questions, All Ideas are Welcomed

- What urban design standards should apply in Wicklow Town and Rathnew Village?
- What are the unique features of Wicklow Town - Rathnew's urban environment that should inform future policy?
- Where do you see potential to enhance the public realm in Wicklow Town and Rathnew Village?
- Are there any areas/ vacant buildings you would like to see redeveloped/regenerated? What uses and design would you like to see?

ECONOMIC OPPORTUNITY – TOURISM - SHOPS & SERVICES - COMMUNITY FACILITIES –

Economic development and the creation of employment opportunities are fundamental to the creation of sustainable communities. The role of the local area plan is focused on land use objectives and zoning land, however these are essential elements that can support economic and tourism development. Wicklow's 'Local Economic & Community Plan' and 'County Tourism Strategy' address a wide range of issues around delivering employment and tourism actions, such as encouraging new employers to locate in the county, marketing, training, financial support, etc.

It is important to protect the traditional role of the town/village centres as the primary retailing and business core, while also facilitating their expansion.

There is a need to ensure that there is enough land zoned within the settlement to meet the projected future educational, community, sport and recreational uses, in order to meet needs of the future population.

While the area is well serviced with schools, community facilities, sport and recreational facilities, the enhancement of these services will be required to accommodate the level of future growth envisaged.

Wicklow County Campus at Clermont, Rathnew, is home to; the Local Enterprise Office, Wicklow Film Office, Teagasc, the South East Technological University and Clermont Enterprise Hub with Wicklow Naturally Food Incubation Centre.

Sample Questions, All Ideas are Welcomed

- What can be done to increase the amount of jobs within the settlement?
- Are all of the tourism assets (e.g the Murrough, Leitrim River, Gaol, Black Castle, Wicklow Beaches) in the settlement fully exploited?
- What new education, community, sport and recreation facilities are needed and where should they be located?
- What is needed to improve Wicklow town centre and Rathnew Village?

- HERITAGE - BIODIVERSITY - GREEN INFRASTRUCTURE - CLIMATE ACTION - ENERGY

The Wicklow Town- Rathnew area has a rich variety of built and natural heritage. The protection and enhancement of the area's natural and built assets is key to the future development of the town in a sustainable manner.

The local area plan has a key role in climate action by including measures to adapt to climate change and transitioning to a low carbon and climate resilient town. The local area plan will promote sustainable settlement and transport-led development strategies, in particular in relation to the location, layout and design of development. The local area plan will also include an emphasis on reduction in energy demand and greenhouse gas emissions. Management of areas prone to flooding and the coastal zone will also be addressed in the new local area plan.

**Sample Questions,
All Ideas are
Welcomed**

- How do we continue to develop the area while protecting and enhancing its natural heritage and biodiversity?
- Are there any additional buildings, places, trees, views etc worthy of protection in the area?
- Are there any 'green corridors' you would like to see enhanced?
- When it comes to land use, what are the key actions we can take to reduce the impacts of climate change?
- How can the Plan address flood risk and build resilience to better cope with the increasing frequency of extreme weather events?

- INFRASTRUCTURE - SUSTAINABLE MOVEMENT - TRANSPORTATION

The provision of adequate infrastructure is critical to facilitate and sustain growth. It is acknowledged that Wicklow Town - Rathnew has a range of strategic transport infrastructure including the port.

The continued improvement of the local transportation network, including the provision of footpaths, cycle lanes, traffic management proposals, etc, are important considerations for incorporation into the plan.

The provision and operation of water, waste, energy and telecommunications services infrastructure is a key element in supporting economic growth and providing a satisfactory quality of life for existing and future residents within the settlement area through sustaining environmental quality.

**Sample Questions,
All Ideas are
Welcomed**

- What are the key transport and movement issues affecting residents, workers and visitors?
- What are the issues to overcome in moving from the private car to public transport or walking and cycling?
- Are there any services infrastructure issues in the area?

- OTHER TOPICS FOR YOU TO HAVE YOUR SAY ON!

Environmental Assessment

As part of the LAP preparation process the Council is required to carry out a Strategic Environmental Assessment (SEA), Appropriate Assessment Screening (AA) and Strategic Flood Risk Assessment (SFRA). The purposes of these assessments are to ensure that the environmental consequences of the objectives of the plan are assessed during the plan process.

Plan Implementation and Delivery

The Planning Authority reviews the implementation and delivery of the plan objectives. With regard to the actual delivery of the plan objectives, the local area plan influences strategic and local investment in infrastructure and services by the public and private sector. With the public sector, in a plan-led system, Project Ireland 2040 aligns capital investment with the local area plan's strategies.

Any Other Issue

Is there any other issue you would like to see addressed in the Local Area Plan?

**Sample Questions,
All Ideas are
Welcomed**

- Do you have any issues / comments on the SEA/ AA / SFRA that will be done with the draft LAP?
- Do you have any other issues you wish to be taken in to consideration in the drafting of the local area plan?

RELEVANT INFORMATION

WHAT IS THE WICKLOW TOWN -RATHNEW LOCAL AREA PLAN?

The local area plan is the main public statement of planning policies for the local community. It sets out the objectives of the planning authority for the development of land. It includes objectives for land use zoning, infrastructure, community facilities, design and environmental /heritage protection. The plan consists of a written statement and a series of maps, including the land use zoning map for the area.

Who makes the plan?

The making of the plan is a function reserved for the Elected Members (i.e. councillors) of the Planning Authority. It is their duty to adopt the plan with the technical help of their officials (the Chief Executive, planners, engineers etc.). The plan is to be prepared in consultation with the public and statutory consultees.

How does the plan affect me?

The plan is the main blueprint for planning decisions in your area. For example, it sets out where potential new roads and community facilities can be provided and it zones land for particular purposes (housing, shopping, schools, industry, etc.). This will affect what type of buildings can be constructed and the use to which land can be put. It affects many facets of daily economic and social life – where you can live, what services are available and where developments with job opportunities are to be sited.

How does the plan affect planning applications?

All planning applications are measured against the local area plan to assess their conformity with the plan's objectives. Proposed development must normally be in accordance with the plan in order to be permitted.

What is the effect of zoning?

When land is zoned for a particular type of development in the plan, this is a clear indication that a proposed development for this form of development may be granted. Zoning may also indicate restrictions on development (e.g. number of houses per hectare, certain types of industry only etc.) and permitted development will be limited accordingly.

WHAT IS THE WICKLOW COUNTY COUNCIL BIG PICTURE 'STRATEGY' FOR THE DEVELOPMENT OF WICKLOW TOWN -RATHNEW?

Healthy Placemaking - Climate Action - Economic Opportunity - are the three overarching cross-cutting themes that inform and shape all aspects of the County Development Plan 2022 -2028. These three themes will form the basis for the Wicklow Town -Rathnew Local Area Plan.

The County Wicklow '**Core Strategy**' which is contained in the Wicklow County Development Plan 2022- 2028 sets out the following strategy and objectives for the future development of Wicklow Town - Rathnew:.

+ Wicklow Town - Rathnew is designated as the Level 2, 'Key Town' within the Core Region; a large economically active service town and county town, with high quality transport links and the capacity to act as a growth driver to complement other growth centres in the region.

+ Wicklow Town is serviced by rail and bus and is located on the N/M11 strategic transport corridor. Wicklow port is of regional significance.

+ There is a population allocation of c.18,500 persons for 2028 (from a population of c.14,100 persons in 2016).

+ There is a housing growth target of c.1,500 from 2022 to 2031.

+ With regard to employment, the Regional Strategy identifies Wicklow-Rathnew as a key town in the region that shall act as an economic driver and should aim to be a strategic employment location; and to improve the settlements economic base by increasing the ratio of jobs to workers.

+ Wicklow Town is designated a Level 2 Major County Town Centre in the Retail Strategy for the Greater Dublin Area. Rathnew is designated a Level 4 Neighbourhood Centre / Local Centre in the hinterland also.

+ Wicklow Town - Rathnew provides for the service needs of the residents within the settlement as well as a large geographical area.
