Topic

Compact Growth - Housing – Population Growth

Submission

I would like to see the village boundaries of Kilmacanogue village extended as per the attached map. The extension of the boundary will facilitate building on a serviced site, with mains sewerage , in an area where there is a high demand for housing and the extension of this boundary line would accommodate a housing need in an already urban area.It is close to all amenities, schools, public transport, N11 and close to z public footpath leading to Kilmacanogue village.
