## Topic

LAP - Proposed Material Amendments No 26 Submission

## Submission

I am against this proposed amendment. Amendments like this end up leading to development of the land. This is way too close to the Glen of the Downs Nature reserve, a special areas of conservation. Areas like these are slowly being destroyed and impacted upon by development. We should be looking to increase these areas of natural beauty rather than developing right up to their boundary. The Glen is home to many common and not so common species of wildlife and needs to be protected.
