I object to the green communist agenda. We as a people didn't vote or give a democratic mandate to our electives representatives to follow a policy of forcing people out of their cars on to bikes and wasting our money on waste of space cycle lanes and other green vanity projects. That policy is not democratic and is just a diktat from above. What happen with Castlepark street is just beyond a joke and if you are not stealing road space then it's stealing parking spaces. Those cycle lanes north and south to nowhere are a bigger joke
