Category	WAP Action Code	WAP Action	WAP Sub-action	Lead Org	Delivery Date	Target Description	RMCEI Target	2025 Assessment (Progress Update Status)	2025 Assessment (No. Achieved)	2025 Assessment (Comment)
Agriculture - NAIP (National Agricultural Inspection Programme)	Agri 2	Inspection and enforcement relating to **agricultural diffuse pollution.**	**Inspections, enforcement and reporting** undertaken as outlined in the National Agricultural Inspection Programme and **cross report to DAFM** where non compliances are identified	**Local Authorities**	Annual	Inspections on approximately 4,500 farms nationally per annum and follow up inspection, enforcement, cross reporting & reporting. The number of inspections allocated per county is proportional to the numbers of water bodies with agriculture as a significant pressure in that county.	6.4.4. Farm Inspections under GAP Regulations conducted by Local Authority (not including farm inspections by DAFM	Partially Achieved	76	WCC fell short of the 81 farm inspection required under the National Inspection Pland due to Staff shortages. This has now been addressed.
Local Catchment Assessment & Restoration Measures	Action 5.3	**Implementation of appropriate restoration measures in each Area for Action (restoration)** where environmental objectives are not being met.	Local Authorities carry out **local catchment assessment/** inspections **in Areas for Action**	**Local Authorities**	2023-2027	Identification of local pressures on water quality. Provision of the scientific evidence base uploaded to the WFD app	6.4.8. No. of days of locally lead investigative assessments (including SSRS, sampling, river walks, etc.)	Achieved	13	Ahead of target
							6.4.9. WFD investigative monitoring samples and analysis by Local Authorities	Achieved	114	**Ahead of target**
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 4	**5,800 inspections** between 2022 and 2026 under the **National Inspection Programme.**	**Inspections planned and completed** each year as set out in the NIP	EPA; **Local Authorities**		All inspections completed per the NIP	6.4.12. DWWTS inspections under National Inspection Plan	Achieved	57	Ahead of target
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 3	**Engagement with householders** to improve awareness of septic tank issues	Written **plan** in place to complete the **engagement activates** as set out in the **NIP**	EPA; **Local Authorities**		Engagement activities at level appropriate to the scale of reliance on DWWTS in the Local Authority functional area completed	6.4.13. No. of DWWTS Engagement Activities	Achieved	4	On target
Local Authority Water Action Work Plan	Action 1.2	Development of Catchment Management Work Plans.	**Local Authority Water Action Work Plan** for reporting to Catchment Management Work Plans.	**All implementing bodies including Local Authorities**	Ongoing	Local Authority Water Action Work Plans provided for online reporting in the 46 Catchment Management Work Plans.		n/a	n/a	Not required for 2025. First iteration due in 2026.
Local Authority Water Action Work Plan	Action 1.2	Development of Catchment Management Work Plans.	Annual **Action Plan implementation data** for online reporting in the 46 Catchment Management Work Plans	**All implementing bodies including Local Authorities**	Ongoing	Implementation progress tracked via online reporting in the 46 Catchment Management Work Plans		n/a	n/a	Not required for 2025. First iteration due in 2026.
Local Catchment Assessment & Restoration Measures	Action 5.3	**Implementation of appropriate restoration measures in each Area for Action (restoration)** where environmental objectives are not being met.	Local Authorities work with relevant agencies to **action the local measures** required to address the pressures identified	**Local Authorities**	2023-2027	Measures to improve water quality in Restore Areas for Action as identified during Local Catchment Assessment implemented		Ongoing	n/a	Farm inspections and follow-up ongoing and liaison with UE on urban wastewater pressures is ongoing
Local Catchment Assessment & Protection Measures	Action 5.4	**Implementation of appropriate protection measures** in areas that are meeting their environmental objectives.	Local Authorities carry out **local catchment assessment/ inspections** and implement **planning and regulatory controls** in Areas for Action (AfAs) with a **Protect objective**	**Local Authorities**	Q4 2025	Protection Plans for AFAs with protect measures actioned	6.4.8. No. of days of locally lead investigative assessments (including SSRS, sampling, river walks, etc.) 6.4.9. WFD investigative monitoring samples and analysis by Local Authorities	n/a	LCA data has not been separated into restore, protect, or unassigned categories. Refer to rows 3 and 4 for the combined figures.	LCA data has not been separated into restore, protect, or unassigned categories. Refer to rows 3 and 4 for the comments.
Resoration & Protection Measures in Blue Dot Areas	Action 5.5	New **Blue Dot Programme** work plan for waters with a High Status Objective.	**Restoration and protection measures** advanced in all Areas for Action with Blue Dots	**Regional Operational Committees; Local authorities**	Q4 2027	Implementation of measures as set out in the Blue Dot Programme work plan in LA Areas for Action with Blue Dots		n/a	n/a	The Blue Dot Programme Work Plan is subsumed into the Catchment Management Planning process and the LA Work Plans. Not required for 2025.

Agriculture - NAIP (National Agricultural Inspection Programme)	Agri 2	Inspection and enforcement relating to **agricultural diffuse pollution.**	**Training** will be provided for local authority staff undertaking inspections under the GAP Regulations.	EPA/NIECE **Local Authorities** / LASNTG / LAWPRO	Q4 2023	No of staff trained		Ongoing	n/a	Farm inspections and follow-up ongoing and liaison with UE on urban wastewater pressures is ongoing
Urban Runoff Pressures -Nature Based Solutions	Urban Runoff 4	DHLGH to establish a **pilot project** to investigate solutions to **urban runoff using Nature-based Solutions**.	1. Study impact of urban runoff on water quality over 2 years 2. Develop and construct a Nature-based solution to mitigate impacts of urban runoff on water quality 3. Monitor performance of Nature-based Solution for 2 years		5 years	Final report on performance of Nature-based Solution to mitigate urban runoff		Partially Achieved	2	Nature based solution are being trialled in road drainage upgrades in Greystones and Kilcoole. This involves diverting water falling on raods into rain gardens planted with native and pollinator firendly species, before discharging to our rivers.
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 3	**Engagement with householders** to improve awareness of septic tank issues	**Ringfenced resource established** for this action	EPA; **Local Authorities**		Resources assigned		Achieved	4	Adds were placed in the local press, information posted on social media, info on our website and house to house calls before inspections
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 3	**Engagement with householders** to improve awareness of septic tank issues	Local Authorities to **document and report** activities	**Local Authorities**	Annually	Annual report to DHLGH and EPA submitted		Achieved	1	reported via EPA Template each year
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 4	**5,800 inspections** between 2022 and 2026 under the **National Inspection Programme.**	**Ringfenced resource** established for this action	EPA; **Local Authorities**		Resources assigned		Achieved	55 per year	ahead of target each year
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 5	**Enforcement of advisory notices** under the National Inspection Plan.	**Ringfenced resource established** for this action	EPA; **Local Authorities**		Resources assigned		Achieved	n/a	Only 1 advisory notice remains open before 2025
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 5	**Enforcement of advisory notices** under the National Inspection Plan.	**Enforcement progressed** in line with the Water Services Act and NIP	EPA; **Local Authorities**		Number of advisory notices closed in line with the Water Services Act and NIP		Achieved	19	WCC works closely with hoseholds to help close out notices and has a high close out rate.
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 5	**Enforcement of advisory notices** under the National Inspection Plan.	**Document and report** activities	EPA; **Local Authorities**	Annual	Annual report to DHLGH and EPA		Achieved	1	reported annually via DWWA app
Domestic Wastewater Discharges (Septic Tanks)	Domestic WW 6	**Research project** into the application of zero discharge nature-based solutions and their applicability within Ireland's climatic conditions.	Complete research project on sustainable nature-based options to achieve zero discharge from domestic wastewater discharges	TCD / **Leitrim County Council**	Q2 2025	The research output aims to advance the management practices for domestic wastewater discharges in areas of low permeability soils where there are higher risks to groundwater and surface water quality		n/a	n/a	n/a
Unknown Pressures - Local Catchment Assessment - Unassigned Waterbodies	Unknown 2	**Assessments of water bodies where the pressures are unknown** (outside priority areas for action)	**Assess unassigned WBs**	**Local Authorities**	Q4 2027	Significant pressures identified for unassigned waterbodies	6.4.8. No. of days of locally lead investigative assessments (including SSRS, sampling, river walks, etc.) 6.4.9. WFD investigative monitoring samples and analysis by Local	n/a	LCA data has not been separated into restore, protect, or unassigned categories. Refer to rows 3 and 4 for the combined figures.	LCA data has not been separated into restore, protect, or unassigned categories. Refer to rows 3 and 4 for the comments.
Public and Stakeholder Engagement	Action 7.1	Create opportunities for young people to engage, upskill and use their voice for sustainable development, through **youth-led and youth-focused groups,** organisations and networks.	Support the engagement of local communities through environmental restoration projects and environmental awareness programmes	DHLGH / DRCD DECC / **Local Government**	Ongoing	Environmental restoration projects and environmental awareness programmes launched		Achieved	14 days	14 days engaging with LAWPRO and community groups and projects
