Re: RZLT Liable Lands WW873

To whom it may concern,

We believe circa 7 acres of our land has been identified as liable for the Residential Zoned Land Tax.

While these lands are zoned (R2.6) they are not serviced and therefore we believe should not be included as liable for the tax.

To be specific there is no access to the zoned land via a public road or footpath and there is no sewage or water available at present.

We respectfully request these lands are not included as liable for Residential Zoned Land Tax.

Kind regards,
