Addressing Homelessness in Partnership with Approved Housing Bodies

Homeless Supported Temporary Accommodation – Kilmantin Hill, Wicklow

Kilmantin Hill has 11 rooms to support persons either homeless, exiting a higher support facility, or in danger of becoming homeless.

There are 9 clients supported in the Kilmantin Hill facility, operated by Dublin Simon. There is continuous transition by the clients to suitable alternative accommodation.

A report is being undertaken at present to cost the refurbishment of the current rooms with a view to making them all ensuite. More details will be available over the coming months.

Homeless Family Service – Fitzwilliam Road, Wicklow

Dublin Simon are engaged by Wicklow County Council to operate and manage the facility at Fitzwilliam Road, Wicklow as a Family Homeless Service. Eleven families have now transitioned or are in the process of transitioning to a permanent home and the resulting vacancies are in the process of being occupied with families experiencing or in danger of homelessness.

It is envisaged that families will avail of the service for circa 6-months STA (Supported Temporary Accommodation) with key working support to enable families to transition from homelessness into Homeless HAP, or alternative longer-term accommodation.

Homeless Supported Temporary Accommodation – San Remo, Bray

San Remo is operated by Dublin Simon and incorporates a service model whereby there are a number of emergency/cold weather initiative beds and Supported Temporary Accommodation Beds (STA). There is on site key working support linking in with clients.

Six of these persons living in shared accommodation have now successfully moved into their forever homes and this in turn created space to move further people out of homelessness.

A homeless outreach service has been rolled out in Bray and is proving very successful.

Wicklow County Council has, to date, successfully accommodated 18 clients under Housing First. Other clients proposed for Housing First have been assessed by the team and are availing of key support work pending finalisation of sourcing of accommodation. The main issue facing this programme is the availability of 1-bed units in suitable locations with easy access to required services.

The Community Recognition Fund was first introduced last year to recognise the huge efforts made by communities in welcoming and supporting people coming to Ireland.

Wicklow County Council has been allocated €1,584,550 under the 2024 Community Recognition Fund.

Wicklow County Council

Chief Executive's Monthly Report - June 2024

The Community Recognition Fund 2024 aims to support the development of community infrastructure and facilities for the entire community, in recognition of the contribution being made by communities across the country in welcoming and hosting significant numbers of arrivals from Ukraine and other countries.

The scheme details set out that only areas which have high levels of new arrivals will be deemed eligible for this scheme.

Wicklow County Council sought expressions of interest for project proposals from community groups in areas where large numbers of citizens from other countries are currently living. Projects to be funded will be capital in nature, deliver medium to long term benefits for the communities in which they are located, and be capable of being delivered over the course of 2025 to 2026.

An information session was held online on 18th April 2024 at 5.30pm, with approximately 35 groups joining this online session.

A number of Expression of Interest Forms for proposed projects across the county, were received by the closing date of Friday, 10th May 2024. The proposed projects were submitted to the Department of Rural and Community Development, by Friday 31st May 2024 for final approval.

Local Community Safety Partnerships (LCSPs)

Replacing the existing Joint Policing Committees, the LCSPs will bring all services and the community together at local authority level, to serve as a forum for discussion and decisions on community priorities.

Community safety is a broad concept that goes beyond just policing and crime. It's about people being and feeling safe in their communities, and it includes everything from visible Gardaí to safe places for children to play. Community safety needs a multi-agency approach, where services work together to deliver on the needs of individual communities.

Wicklow County Council

Chief Executive's Monthly Report - June 2024

Local Community Safety Partnership (LCSP) gives local people a stronger voice to identify and tackle community safety issues.

Local Community Safety Partnerships - Proposed Structure

It is intended that membership of the Local Community Safety Partnership will include residents, community representatives, including representatives of youth, new communities and the voluntary sector, business and education representatives, relevant public services in the area, including HSE, Tusla, An Garda Síochána, the local authority and local councillors. As residents are central to identifying problems and solutions for their community, the partnerships will have a 51/49% split in favour of local residents and community representatives on the committee.

Local Community Safety Partnership – Structure

Local Community Safety Plan

The Local Community Safety Partnership will be responsible for developing a tailored and prioritised local community safety plan in conjunction with both community and public services. The intention is to build the capacity of local residents to enable them to engage meaningfully in the Local Community Safety Partnership and grow local community leadership and participation, and developing this will be a key aspect of the role of the Community Safety Coordinator. This will enable the Local Community Safety Partnership to function as a forum for dialogue between the community and service providers and should strengthen trust in the people providing services. The Local Community Safety Partnership will also work to identify specific initiatives where the community can support local services and An Garda Síochána in their community safety work, including outreach programmes.

An expression of interest will be sought shortly for the appointment of Chair of the new Local Community Safety Committee.

A medical card specific purpose clinic was hosted in one West Wicklow centre in May and the plan is to continue to include these as part of our client engagement, and to examine what other topics would support new arrivals, such as support to create MyGovID online accounts in order to access government services, and to provide overviews of education and other training opportunities in Ireland.

Residential Zoned Land Tax (RZLT)

The Government's [Housing For All – A New Housing Plan for Ireland](#) has introduced a new tax to activate vacant land for residential purposes as a part of the 'Pathway to Increasing New Housing Supply'. The draft RZLT maps for lands liable in 2025 was published on 01 February 2024. Submissions were invited on the draft maps up to 01 April 2024 with 9 submissions received. Submissions were invited on requesting a variation of the zoning of land up to 31 May 2024. No submissions were received on this stage. To view the draft RZLT maps click on the link below.

Vacant Site Levy

This programme is still ongoing and is affected by the proposed deferral of the RZLT. As liability to the RZLT is now proposed to be deferred for one year, it is considered appropriate to maintain provisions in legislation for the management and continued charging of the vacant site levy in respect of land which is identified on the register. This will continue to facilitate imminent placements on the register, conclusion of appeals and to facilitate the issuing of demands in relation to the levy for the period to the end of 2024. This will ensure that the use of the levy as an active land management measure will continue until the RZLT is in effect.

Steering Group for the Progression of URDF and RRDF Projects

The Chief Executive has established an interdisciplinary team for the progression of Wicklow County Councils URDF (Urban Regeneration and Development Fund) and RRDF (Rural Regeneration and Development Fund) projects. The group meet monthly to streamline the advancement of RRDF and URDF projects along with a sub-group that will meet fortnightly and report to the steering group. This is a significant step in setting up the structures for town regeneration in the County.

These groups continue to meet fortnightly and monthly for discussions on updates.

Blessington RRDF: Blessington has been awarded over €1m funding under the Rural Regeneration Development Fund (RRDF) to be used for the regeneration of Blessington Town Centre, the development of plans for public realm works, the redevelopment of a vacant/derelict property to create an eHub and a Visitor Centre for the forthcoming Blessington Lakes Greenway.

Baltinglass RRDF: The costings for Baltinglass Gateway to Southwest Wicklow has come in over budget on both the public realm and the Courthouse refurbishment. The proposals have been revised and the necessary technical plans are complete in order for the works to commence. Works on the Public Park and

playground are underway. Application for further funding on this project was made to the Department on the 7th February 2024. However, the submission was not successful.

Newtownmountkennedy RRDF: The project is under review at present due to revisions necessary to the public realm, due to contested issues regarding the design of the public realm. Following the necessary revisions, it is hoped that agreement will be reached, the plans will be signed off and submitted for Category 1 funding.

URDF: Urban Regeneration Development Fund

URDF Call 3: The URDF announced recently that Wicklow will receive €2.5 million to assist long term vacancy and dereliction. Four properties have been chosen (two in Arklow and two in Wicklow) and the process has commenced in acquiring these properties. An information gathering notice has been published on a number of the properties seeking information to be directed to the Council.

Another property has been identified in Arklow and we are now awaiting approval from the department to start the process of acquiring this property.

Bray Harbour Improvements: A tender will be issued when the URDF funding has been confirmed for the next phase of the project. A business case has been sent to DHL&H and a tender brief is being prepared for the procurement of engineering consultancy services to produce detailed designs, environmental reports and an application to An Bord Pleanála for the proposed works.

The digitised minute book of the Wicklow Borough Corporation is now available to access on Wicklow.ie. The minute book dates from 1662 to 1707 and is one of the earliest items in the County Archives. Written in the old secretary hand style, it has been transcribed into modern English and this transcription is also on Wicklow.ie. Local historian Therese Hicks produced the transcription for the County Archives along with an essay placing the minute book in historical context. The minute book opens a door into the world of Wicklow Town as it developed in the 17th and 18th centuries, detailing the proceedings of the meetings of the town burgesses.

M11N11 Junction 4 to 14 Improvement Scheme

The Option Selection report was published along with Bulletin #11 on the project website www.n11m11.ie on 14 December 2021. The publication followed the review of submissions received during public display in 2021. Phase 3 Design and Environmental Evaluation was due to commence in Q1 2022. The scheme is currently suspended as no funding is provided. The Wicklow County Council project team are continuing to meet with the public and any interested parties.

M11N11 Bus Priority Interim Scheme

The BPIS seeks to achieve the early delivery of bus priority measures in advance of the main scheme between Loughlinstown Roundabout and Junction 9 (Glenview). The scheme is currently at the Options Selection phase (Phase 2 of TII's Project Management Guidelines).

A non-statutory public display on the emerging preferred options for sections A and C took place in November 2022.

A further non-statutory public display event was held in the Glenview Hotel in September 2023 that presented the overall emerging preferred option for the BPIS between Loughlinstown Roundabout and Junction 9 (Glenview).

The public display documents are available to view on the project website www.n11m11bpis.ie.

A significant negative response was received during the public consultation to the proposed closure of the N11 access to the Herbert Road.

Further environmental studies and traffic analysis have been completed on elements of the emerging preferred option. As a result, further consideration is being given to the preferred options at J8 Kilmacanogue, J7 Bray south (including Herbert Road access) and J6 Fassaroe (including the R117 access).

N11 Parallel Service Road at Kilmacanogue

A noise assessment to the east of the new Parallel Service Road Scheme was carried out during April and May 2022. This information has been reviewed by the Design Team and the final design

The Detailed Design and Contract Documents (Phase 5) will now be progressed.

Park & Ride/Share at Hollywood

A feasibility report, funded by the Baltinglass Municipal District was prepared and submitted to TII in Oct 2021. This report considered an option for parking accessed from the N81. TII subsequently provided funding to further examine the feasibility and options.

TII have indicated that they do not support the proposed additional access to the N81. As a result, the option for a parking facility accessed from the N81 has been discounted from the traffic calming scheme. Suitable parking locations that can be accessed from the regional/local road network are being investigated.

N81 Blessington Gateway Project

The Feasibility and Options report (Phase 2) was finalised and approved by TII in October 2023. TII have also approved funding to proceed with the design phase in accordance with TII Standards. Baltinglass Town Centre Plan

Blessington Inner Relief Road

The current focus of the project is on the detailed design phase, including the preparation of associated documents such as the Compulsory Purchase Order (CPO) documentation. These efforts are crucial to advance the scheme towards obtaining statutory approval. Given the potential impact of the project on the Poulaphuca Special Protection Area (SPA), it is necessary to prepare a Natura Impact Statement (NIS) to assess and document any potential effects on the SPA. Once the detailed design and associated documents, including the NIS, are completed, the project will proceed to seek statutory approval from An Bord Pleanála.

Wicklow County Council Compulsory Purchase (Chapel Road Pedestrian and Cycle Infrastructure Improvement Scheme) No. 1 Order 2021

The CPO Notice to Treat was issued on all landowners in October 2023. Meetings and information sharing is ongoing with Irish Rail for their East Coast Rail Infrastructure Protection Project. Meeting with the National Parks and Wildlife Service (NPWS) took place in June 2023. The meeting provided an opportunity to engage with the NPWS and discuss important aspects related to the project. Greenway Project Consultant Atkins has issued a Constraints Report and a 4 week long public consultation period has recently been completed for the emerging route corridors. The project was presented at the April Council meeting with two public events taking place in Greystones and Wicklow during April.

Blessington eGreenway

Under Section 177AE of the Planning and Development Act, we have formally submitted our planning documents to An Bord Pleanála. Given the need to conduct comprehensive additional surveys and generate a substantial volume of supporting material, An Bord Pleanála granted an extension to the submission deadline for additional information to January 29th, 2024. As this information has been deemed significant additional information by ABP we are required to undertake a public consultation period taking place in May and June 2024 for a 6 week period.

14 new residential houses and 16 apartments were notified to LA for Commencement & 142 newly completed residential units plus 2 non-residential units were submitted, assessed and validated in May. There has been an increase in both Commencement Notice and Certificate of Compliance on Completion submissions compared to the same period in 2023. As speed of construction increases with seasonal changes, CCC submissions increased in May.

BER certificates for all newly completed units were requested & submitted to Building Control as per S.I. No. 243/2012 - European Union (Energy Performance of Buildings) Regulations 2012.

Building Control continued with site inspections in May to identify non-compliances with Building Regs onsite and 2 Section 11 Compliance Requests were issued.

Wicklow County Council Chief Executive's Monthly Report - June 2024

Revised Information requests remained high in May for both Commencement Notices and Certificates of Compliance on Completion, 70% of Commencement Notice submissions & 53% of Certificate of Compliance on Completion submissions required revised information. The Temporary Waiver in respect of Development Contributions which led to the urgency in submitting Commencement Notices prior to April 2024 has been extended until December 2024. Building Control have observed numerous Commencement Notice Submissions that are currently 'Revised Information' status on BCMS and awaiting validation.

Opt Out submissions are both extensions and single unit dwellings, generally from BCMS users who are unfamiliar with both BCMS and Building Regulations which leads to Building Control resources being directed to resolving both administration and technical issues with Opt-Out Submissions. Wicklow Building Control continues to perform rigorous assessment of submissions at commencement stage and onsite presence during construction. These methods remain the best way to promote compliance with Building Regs.

BCMS was upgraded at the end of April and BC Users noted several software issues which had to be resolved with developers during the first half of May.

In May, BC Staff attended a CPD day Part C - Site Preparation and Resistance to Moisture hosted by NBC&MS Office in Limerick.

Information Systems

Operations

- The IT Helpdesk continues to streamline the workflow for the technical support team with an average of 50 tickets a day this month, providing assistance for both in-house and remote workers.

GIS & Systems Analysis

- **Contour processing** from our DTM/DSM data for Waste Management. Processed contour data derived from our Digital Terrain Model (DTM) and Digital Surface Model (DSM) to improve waste management planning.
- Cleaned and uploaded **Arklow Storm water network** to the GIS system. Successfully cleaned and uploaded portions of the Arklow stormwater network data to the GIS system for Aklow MD's use. Further data cleansing is required to ensure accuracy and completeness of the dataset.
- **Updating missing Eircodes** from the Housing stock. The Housing department has requested assistance in updating missing Eircodes in their housing stock using the GeoDirectory Address fix tool.
- **Depot locations project.** Have collected most of the necessary data for the depot locations project. Final step involves processing this data and upload the depot locations and contact details to corporate GIS system.
- **Wicklow Town-Rathnew Local Area Plan** – data extraction - green spaces, field pasture, and unmanaged woodland. Converted Rathnew road options from AutoCAD to GIS format for better integration and analysis.
- **Arklow & Environs Local Area Plan.** Updates were made to the green infrastructure map as part of the Arklow & Environs Local Area Plan. These updates will support sustainable development and environmental conservation efforts.
- **Barn Owl Database.** Data from the Barn Owl Database was downloaded from the app and sent to relevant stakeholders. This data will contribute to ongoing research and conservation efforts for barn owls in Ireland.
- **Upgraded ArcGIS Pro** for Planning. Upgraded ArcGIS Pro for the Planning department and created a styling layer for all zoning codes. This enhancement will facilitate better visualisation and analysis of zoning information.
- Commenced development of an application for **Project Recording**. This application will streamline project management and collaboration across the organisation.

Infrastructure

- Ongoing upgrades of WAN connections at remote sites by Wicklow County Council aim to optimize performance and cost-effectiveness.
