Heritage – Biodiversity- Green infrastructure- Climate Action- Energy

Submission

Hi there, as a resident of Kindlestown Upper, Delgany since 1990. I am opposed to any change to zoning of the land north of my property, just under Kindlestown Wood.

These lands have amazing biodiversity. Infact they should be zoned "Area of natural beauty" due to proximity to Kindlestown Wood and they can be seen from most of Greystones. They are currently outside the town boundary and I would like to see that remain. For as long as I can remember, Buzzards are nesting in the large Monterey Pine, north of my boundary to these lands.
