1	PROCEEDINGS COMMENCED ON MONDAY, 3RD NOVEMBER 2025 AT
2	2:00PM, AS FOLLOWS:
3	
4	CATHAOIRLEACH: Good afternoon, Members. If you would all like to take your
5	seats, please. I would like to welcome you all this afternoon. Welcome to the
6	Members that are attending online, to the public and the press in the gallery. You're
7	all very welcome. I am going to go to Helen now for the ethic and for the roll call.
8	MS PURCELL: Good afternoon. I would just like to welcome everybody to the
9	meeting. Any of the Members who are online, if you would please keep your
10	cameras on and your microphone off unless you're speaking. Any staff members or
11	members of the public if you please leave your camera off. If anybody has any
12	technical issues if you could please contact me. I would also like to remind all
13	present they are bound by the Code of Conduct for Councillors and for employees. I
14	will now proceed with the roll call. Councillor Danny Alvey?
15	COUNCILLOR ALVEY: Present.
16	MS PURCELL: Present. Councillor Mark Barry?
17	COUNCILLOR BARRY: Present.
18	MS PURCELL: Present. Councillor Joe Behan?
19	COUNCILLOR BEHAN: Present.
20	MS PURCELL: Present. Councillor Sylvester Bourke?
21	COUNCILLOR BOURKE: Present.
22	MS PURCELL: Present. Councillor Melanie Corrigan?
23	CATHAOIRLEACH: Present.
24	MS PURCELL: Present. Councillor Avril Cronin?
25	COUNCILLOR CRONIN: Present.
26	MS PURCELL: Present. Councillor Erika Doyle? Councillor Malachaí Duddy?
27	Councillor Gail Dunne?
28	COUNCILLOR DUNNE: Present.
29	MS PURCELL: Present. Councillor Louise Fenelon Gaskin?
30	COUNCILLOR FENELON GASKIN: Present.
31	MS PURCELL: Present. Councillor Orla Finn?
32	COUNCILLOR FINN: Present.
33	MS PURCELL: Present. Councillor Pat Fitzgerald?
34	COUNCILLOR FITZGERALD: Present.

- 1 MS PURCELL: Present. Councillor Tom Fortune?
- 2 COUNCILLOR FORTUNE: Present.
- 3 MS PURCELL: Present. Councillor Patsy Glennon?
- 4 COUNCILLOR GLENNON: Present.
- 5 MS PURCELL: Present. Councillor Pat Kennedy?
- 6 COUNCILLOR KENNEDY: Present.
- 7 MS PURCELL: Present. Councillor Shane Langrell?
- 8 COUNCILLOR LANGRELL: Present.
- 9 MS PURCELL: Present. Councillor Peir Leonard?
- 10 COUNCILLOR LEONARD: Present.
- 11 MS PURCELL: Present. Councillor Pat Mahon?
- 12 COUNCILLOR MAHON: Present.
- MS PURCELL: Present. Councillor Jason Mulhall?
- 14 COUNCILLOR MULHALL: Present.
- MS PURCELL: Present. Councillor Miriam Murphy? Councillor Ian Neary?
- 16 COUNCILLOR NEARY: Present.
- MS PURCELL: Present. Councillor Dermot O'Brien?
- 18 COUNCILLOR O'BRIEN: Anseo.
- MS PURCELL: Present. Councillor Paul O'Brien?
- 20 COUNCILLOR PAUL O'BRIEN: Present.
- MS PURCELL: Present. Councillor Gerry O'Neill? Councillor Warren O'Toole?
- 22 COUNCILLOR O'TOOLE: Anseo.
- 23 MS PURCELL: Present. Councillor Graham Richmond?
- 24 COUNCILLOR RICHMOND: Present.
- 25 MS PURCELL: Present. Councillor Lourda Scott?
- 26 COUNCILLOR SCOTT: Here.
- MS PURCELL: Present. Councillor John Snell? Councillor Peter Stapleton?
- 28 COUNCILLOR STAPLETON: Present.
- 29 MS PURCELL: Present. Councillor Stephen Stokes?
- 30 COUNCILLOR STOKES: Present.
- 31 MS PURCELL: Present. Councillor Ned Whelan?
- 32 COUNCILLOR WHELAN: Present.
- 33 MS PURCELL: Present. Councillor Caroline Winstanley?

1	Thank you.
2	CATHAOIRLEACH: Thank you. Do we have any expressions of sympathy?
3	Councillor Louise Fenelon Gaskin.
4	COUNCILLOR FENELON GASKIN: Thank you, Cathaoirleach. Firstly, I would
5	like to express our condolences to our colleague Councillor Lourda Scott on the
6	recent passing of her brother-in-law Séan Brown and to all her extended family on
7	the sad bereavement. And also, to the family of Irene Carey who last month
8	unfortunately I had to express my sympathy to her husband Michael Carey, and
9	unfortunately she passed, his wife Irene passed away in the last few days, and so I
10	would like to express my sympathy to the family of Irene as well. Thank you.
11	CATHAOIRLEACH: Thank you. Councillor Joe Behan.
12	COUNCILLOR BEHAN: Thanks, Cathaoirleach. I want to propose a vote of
13	sympathy to the family of the late Andrew Tarrant, solicitor from Arklow, to his wife
14	Sinéad and his children Max and Emily. Andrew was a very well-known solicitor in
15	the Arklow area but I got to know him because he was a member of the board of
16	management of Ballycoog National School. A very fine and upstanding member of
17	the community and a great benefit to the school in the term he served on the board of
18	management. He died very suddenly, and his death has been a huge loss to his
19	family and also to commercial life and the people of Arklow, and the community in
20	Ballycoog.
21	CATHAOIRLEACH: Thank you. Councillor Paul O'Brien.
22	COUNCILLOR BOURKE: Thank you, Cathaoirleach. Can I propose a vote of
23	sympathy for the family of Michael (Mick) Lambert who sadly passed away after a
24	long illness last week. I know he will be sadly missed by his wife May and his two
25	sons Karl and Mark. And Mark Lambert I believe works for Wicklow County
26	Council as well. Thank you very much.
27	CATHAOIRLEACH: Thank you. Councillor Jason Mulhall.
28	COUNCILLOR MULHALL: Thank you, Cathaoirleach. I would just like to
29	propose a vote of sympathy to the family and friends of Bridget Kenny, Derry Drive,
30	Tinahely. The family would have been involved in GAA. They are quite
31	well-known in Tinahely and Wicklow. Thank you.
32	CATHAOIRLEACH: Thank you. Thank you. Councillor Gail Dunne.
33	COUNCILLOR DUNNE: Thank you, Cathaoirleach. I would like to propose a vote
34	of sympathy for Liam Vickers. Liam went to Boston about 35 years ago. He died

1	after a long illness, and for his wife, his five children and his family back in
2	Wicklow, the Vickers family can I just have a vote of sympathy. He happens to be a
3	first cousin of mine as well. Thank you.
4	CATHAOIRLEACH: Thank you. Councillor Stephen Stokes.
5	COUNCILLOR STOKES: Thank you, Cathaoirleach. If I could please propose a
6	vote of sympathy for Denis Luby of Wicklow Town who was previously a
7	distinguished member of the Irish Defence Forces and was very involved in the
8	Wicklow branch of the United Nations Veteran Association. So he would have been
9	very well regarded right across County Wicklow for the work that he was doing in
10	the community.
11	CATHAOIRLEACH: Thank you. Councillor Avril Cronin.
12	COUNCILLOR CRONIN: Thanks very much, Cathaoirleach. I'd just like to
13	express our sympathies to the family of John Norton. John was a colleague in
14	Wicklow County Council. He worked in the council yard in Dunlavin for a great
15	length of time. He served for 47 years, which I think is a huge service to the local
16	authority. His job obviously meant a huge amount to him, and at his funeral they
17	brought up his jacket that he would have wore on the road, and told many stories
18	about new shovels being given to him and a bit of slagging along the way as well,
19	but John gave great service to Wicklow County Council and he certainly was a very
20	valued member of staff in the Dunlavin team. Thank you.
21	CATHAOIRLEACH: Thank you. Councillor Miriam Murphy.
22	COUNCILLOR MURPHY: Thank you, Cathaoirleach. I would just like to express
23	sympathy to two very beloved community. One was Anthony Doyle who probably
24	everybody knows for his Christmas decorations, and Halloween. And he donates all
25	his donations to the first responders who is very close to his heart. He fundraised
26	thousands for over charities over the years. The other person was Jim Moore who
27	was a boxing coach, locally and nationally. He put so many children through the
28	discipline of boxing. And both people will be sadly missed in the community of
29	Arklow. Thank you.
30	CATHAOIRLEACH: Thank you. Councillor Warren O'Toole.
31	COUNCILLOR O'TOOLE: Thank you, Cathaoirleach. I just want to reiterate what
32	Councillor Murphy said about Anthony Doyle and Jim Moore, who pillars of our
33	community in Arklow. Jim Moore shaped Irish boxing. He had a wealth of
34	knowledge. He was not only a local trainer coach but he was one of the members of

1	the High Performance Team, which led on to international success and a
2	world-renowned boxer. So condolences to their families.
3	CATHAOIRLEACH: Thank you. Have we any staff?
4	MS PURCELL: We extend our sympathies to the families of our former colleague
5	John Norton, who has been mentioned by Councillor Cronin, and to Bridie Delaney,
6	mother of our friend and colleague Alan Delaney, and Michael (Mick) Lambert,
7	father of our colleague and friend Mark Lambert.
8	CATHAOIRLEACH: If we stand for a moment's silence please.
9	
10	(Moment of silence.)
11	
12	MS PURCELL: May their souls and the souls of all the faithfully departed, through
13	the mercy of God, rest in peace.
14	CATHAOIRLEACH: Thank you, Members. Before we start, we have had a request
15	for a suspension of standing orders proposed by Councillor Peir Leonard and
16	seconded by Councillor Joe Behan and Councillor Tom Fortune. So I am proposing
17	we bring that at half four, if everyone is in agreement? Thank you.
18	
19	And just another item. I am proposing that we bring item 9 forward to after number
20	7, presentation from the Wicklow Civil Defence, before we have the Chief
21	Executive's management report. If I could have a proposer and seconder for that?
22	Proposed by Pat Kennedy, and Paul O'Brien. Thank you.
23	
24	And just before we start the meeting, Members, I just want to address something that
25	happened at last month's meeting. So the meetings in the chamber and the conduct
26	of the Members is as set out by the Code of Conduct for Councillors, which we have
27	all been circulated with and which was circulated again on the 25th of September of
28	this year, and is part of the Local Government Act 2001 as amended by the Local
29	Government and Reform Act 2014. I am asking all Councillors to abide by this
30	Code of Conduct. We are public representatives and we have a duty to the public.
31	We also meet once a month for three hours in which we have a lot of important
32	matters on behalf of the public that we represent to discuss, and this time I feel is
33	very valuable and it should be used wisely and appropriately. At last month's
34	meetings there was interruptions on each other's speaking time and name calling, and

I am not allowing this to continue. I am asking each member to keep their speaking time to three minutes, and if they feel they have not had adequate time to raise their query or make their point that they can speak again -- apply to speak again. I am chairing the meeting and I want to ensure that all Members have the opportunity to speak if they wish to do so, and this can only be done if we are respectful of each other and of the process. And if disruptive conduct continues I will have no option but to suspend the meeting, and I have discussed this with the Chief Executive, and therefore we will be wasting valuable time of this meeting. I just want to read out a few items from the Code of Conduct that has been circulated: "The Councillors should abide by this code," and one of the items is: "Treat their colleagues and local authority employees with courtesy, respect and dignity." And: "Courtesy and respect should also be observed when using social media channels, messaging applications and written communications." And on that, I just want to note in 2021 we've had a motion which I have asked Helen to circulate after the meeting. I will just read it out as it was in 2021: "That Wicklow County Councillors have a responsibility to show leadership, to improve civility of public discourse on political matters. We, the Elected Members of Wicklow County Council, agree to regulate our own submissions on social media and will ensure that any inappropriate comments left by members of the public are removed in a timely manner. In order to monitor this commitment we propose that all Councillors sign declarations indicating agreement or non-agreement with the measure and that this will be published and updated annually on the Council website." So that was agreed in 2021, and I am proposing that we do it again. We're in a new council term. I just feel that the meeting should be conducted in a manner where we can get all the work that is needed over the line. I am asking you all respectfully to work with me and with each other and we will get through the meetings with adequate speaking time for all Members. Thank you. So we'll go onto the first item on the agenda then, which is: To confirm and sign

So we'll go onto the first item on the agenda then, which is: To confirm and sign minutes of ordinary meeting of Wicklow County Council held on Monday 6th

1	October 2025 (copy attached). Can I have a proposer and seconder, please?
2	Proposed by Orla and seconded by Councillor Avril.
3	
4	Item number 2: To consider the disposal of 3.0261 hectares or thereabouts in the
5	townland of Fassaroe, Bray, County Wicklow being the property originally acquired
6	from Borg Developments Unlimited Company by way of lease to The National
7	Transport Authority for a period of 30 years (as per notice previously circulated). A
8	proposer and seconder, please? Proposed by Councillor Whelan. I second it then.
9	All agreed? (Agreed.)
10	
11	Item number 3 is: To consider the disposal of 0.0127 hectares or thereabouts in the
12	townland of Knockanrahan Lower Td. being the property known as 8 Pearse Terrace,
13	Arklow, County Wicklow to Ms Gemma Kennedy (as per notice previously
14	circulated). Proposer and seconder, please? Proposed by Councillor O'Toole and
15	seconded by Pat. Did you want to come in on that, Pat?
16	COUNCILLOR KENNEDY: No, I don't
17	CATHAOIRLEACH: All agreed? (Agreed.)
18	
19	Number 4 is: To consider the disposal of 0.0057 hectares or thereabouts in the
20	townland of Dunlavin Upper Td. being the property known as 2 The Green,
21	Dunlavin, Co. Wicklow to Ms Fiona Kinsella, 2 The Green, Dunlavin, County
22	Wicklow (as per notice previously circulated). So a proposer and a seconder, please?
23	Proposed by Councillor Cronin, and Councillor Glennon. All agreed? (Agreed.)
24	
25	Number 5: To consider the disposal of 0.0182 hectares or thereabouts in the
26	townland of Oldcourt Td. being the property known as 9 Wolfe Tone Square North,
27	Bray, County Wicklow to Mr Patrick Breen in the estate of Elizabeth Breen deceased
28	(as per notice previously circulated). Proposer and seconder, please? Councillor
29	Neary and seconded by Councillor Whelan. All agreed? (Agreed.)
30	
31	That's great. Thank you. So the next item on the agenda then is: To consider and
32	adopt Wicklow County Council Litter Management Plan in accordance with Section
33	13 of the Litter Pollution Act, 1997.
34	

1 I would like to welcome Jim Callery who is going to make a presentation. Thank 2 you. 3 MR CALLERY: The Litter Management Plan, I hope you all got a chance to look at 4 it, and I will welcomes any questions and clarifications at the end of it, but I will try 5 and keep this one brief. 6 7 So under the Litter Pollution Act every local authority is required to have a Litter 8 Management Plan and review that plan on a three-year rolling base. So we currently 9 just completed our review of the plan to cover the period from 2026 to 2029. It is a 10 statutory requirement to undertake that review and go through a process of public 11 consultation on the plan, which we have done, and it should take into account any 12 changes in regulation and policy that have occurred during the lifetime of the last 13 plan. And probably the two key policy changes and regulation changes that have 14 occurred is: One, we now have the Deposit Returns Scheme in place; and also there 15 has been new regulation on the use of CCTV brought in under the Climate Action 16 and the Low Carbon Development Act to facilitate the use of CCTV by local 17 authorities. 18 19 Can I have the next slide, please? It's important to recognise in the Litter 20 Management Plan the responsibilities of everyone in the management of litter. So 21 ourselves as the local authority we have the primary role in the prevention and 22 control of litter in our jurisdiction, but we also need to take account of the 23 responsibilities of businesses in our local authority area and the wider public in 24 implementing litter management. So our role is to ensure the prevention and control, 25 to undertake enforcement action, to investigate and prosecute where littering and 26 dumping occurs, to awareness in education campaigns to have a greater awareness 27 on what are the current issues in litter management and what needs to be done, and to 28 ensure that there's a good provision of facilities for the public when it comes to litter 29 control. 30 31 For business, it is important that businesses play their part first and foremost looking 32 at their own properties and the management of waste and litter around their 33 properties ensuring that it's kept litter-free both on their property and any litter that 34 might be generated by their business in the immediate surroundings of their business

1 area. And it also covers things like the use of advertising and signage, removal of 2 graffiti on their property, and, very importantly, how they manage that, how their 3 waste is transported, ensuring that they use an authorised collector for their waste 4 management. 5 6 Similarly for the public, they have a duty to keep any visible part of their property 7 free of litter, to dispose of their litter correctly using a bin or taking it home. They 8 also have a duty to manage their waste they are collecting and use an authorised 9 waste collection. Under our bye-laws they are required to use an authorised waste 10 collection service for the handling of their waste, and just to refrain from disposing 11 their household waste in our public bins. 12 13 Can I have the next slide, please? The litter composition forms the categorisation of 14 litter. It's a national survey that's undertaken right around the country. Each local 15 authority is undertaking the survey using the same criteria for measuring how much 16 litter is being generated in the county, and it divides up that litter proportionally 17 based on a count of individual items of litter. And cigarettes come up on top there. 18 Forty-five percent of litter surveyed across the country is cigarette-generated, falling 19 slightly on previous surveys, but not much. But we are also seeing a new category 20 added to the litter composition surveys which vaping material, which is a growing 21 issue. 22 23 No big changes in the composition of litter between the last plan and this plan, but 24 we are expecting to see some movement as we are hoping to see a reduction in 25 packaging waste with the introduction of the bottle and can Deposit Return Scheme 26 in future. The latest litter composition survey are the results for 2024. The bottle 27 return scheme came into place. 28 29 Next slide, please. So there's a number of priority issues in our Litter Management 30 Plan to address when it comes to litter management. Top and foremost would be the 31 management of illegal dumping and fly-tipping. Of particular concern for us at the 32 moment is the construction and demolition sector; it is a very active sector of the 33 economy at the moment, and we are concerned where household renovation projects

are being undertaken. So that is a big priority for us as well.

We are also concerned about the issue of dog fouling. I am sure you are all aware it is one that causes a lot of nuisance in many of our communities and it is a source of many complaints on the issue. And then we're also very concerned about the food and drink packaging materials that we find right across the community. Whether they are coming from a pedestrian source or motorists, there's a significant amount of packaging from the food and convenience foods in particular sectors. Another concern would be the management of waste both by businesses and householders, making sure they present their waste in a manner that doesn't cause littering and pollution, so ensuring that bags aren't torn, and we certainly would have a strong focus on discouraging the use of bags for waste collection except where absolutely essential, and to encourage people to ensure that their bins are not overflowing.

If we go to the next slide, please. So in terms of our strategic focus in the Litter Management Plan, first of all, we have enforcement and regulation measures. We have a team of five enforcement officers working across the country. A primary concern for them would be investigating and prosecuting where there are issues of fly-tipping or dumping. They're also working to ensure that the business community are complying with all with all regulations that impact on them and that producer responsibility schemes are being operated correctly around the county. They undertake inspections at checkpoints with the Gardaí to ensure that waste is being transported correctly in the county, and they work also with -- they're also working with householders to ensure that householders are complying with their obligations to dispose of waste correctly.

The second area of strategic focus is on litter prevention and control measures. So for waste management this is all about how we work with municipal districts to ensure good litter control and prevention right across our districts. So it's looking at things like the provision of bins, their collection services, servicing of the bins, street cleaning in the main town centres, but also very importantly making sure that there's good collaboration between waste management and the districts to ensure that any issues that arise anywhere in the districts are dealt with promptly and effectively.

Under education and awareness the environmental awareness officer, who is here,

Sarah Rubalcava, is working across many different campaigns on the issue of waste management and litter control. Particularly important is her work with the Green Schools, the Tidy Towns Campaign, such as National Spring Clean. She is taking a targeted approach with campaigns on awareness measure relating to litter. This year the issue of textiles and dog fouling have been priorities in her campaigns. She is currently working with the climate action team on the clampdown of single-use coffee cups. It is very important in terms of changing behaviour in litter management around the county. The final area of strategic focus that is very important to us is the community participation. We are very lucky in County Wicklow to have such a strong participation by communities in every community. Every part of the county we have groups involved. There are thousands of volunteers giving up their time to help keep our county clean through a number of different formal campaigns, but also local groups and individuals getting out and doing their bit in their own area to pick up and control litter. So it is very important that we have structures in place to support that community participation, and also very important that we acknowledge and recognise that participation. So it is something that features every year in our sustainable development towards recognising that community participation in tackling and preventing litter. Okay. Next side, please. Just briefly to mention how we reviewed the plan. First of all, we had an internal review with waste management of the plan. We then brought the plan to the Climate Biodiversity Environment Recreational Amenity SPC for consideration, after which we brought the plan out to public consultation in early summer, and then amended the plan based on submissions made by the public at which point the plan was brought back to the SPC, and now we are bringing the plan to yourselves in the Council for consideration. Next slide, please. Just to mention briefly some of the topics that came up through the public submission which resulted in changes within the current proposed Litter

Management Plan. One, we had concern raised about quarry trucks in particular not

being covered. So we have specifically mentioned them in the plan, and to check

with waste management or enforcement section to see is it an issue that they're

addressing, and it is something that they will address when they're doing those checkpoints with the Gardaí looking at the movement of waste. They will also consider any other materials where covering is inadequate and take action where it is likely to lead to littering.

We were also requested to investigate dog DNA testing as a means of increasing enforcement on dog fouling, and there was specific reference to Leitrim County Council who undertook a pilot on the use of DNA testing. Unfortunately the feedback from Leitrim has been less than positive. They spent a lot of money. They found it very difficult to actually get samples of DNA from dogs. The only way they could get it was through the dog shelters. So any dog that was being released from the dog shelters, they took a sample there. And then any instance of dog fouling they collected samples which they had to send to the US for analysis, and it proved to be a very expensive project which resulted in zero prosecutions. We will continue to keep this open and if there is any opportunities to find a system that would work to collect samples of DNA from dogs in the county and then have them tested without going to major expense then, yeah, we would love to have dog DNA testing as part of our enforcement process, but at the moment it doesn't look like a viable option.

Another topic that came up repeatedly in the public submissions was garden and organic waste, which is actually not a material that is classified as part of the composition of litter. We believe it should be, because it is a significant source of dumping and it is unsightly when it is dumped. It is often dumped in quantities that does have an impact on local biodiversity. It can change the composition of vegetation. It can change the quality of soil, enriched soil. So it can have an impact on biodiversity, and most importantly it is leading to the spread of invasive species in the county. So garden and organic waste is one that we have added into the Litter Management Plan and we will be doing campaigns on.

We were also asked to focus specifically on transport hubs. This one from Bray in particular mentioned as one of the most highly used bus stops and transport hubs where a significant source of litter where people were congregating. Cigarette butts again came up in the submissions and it is something that we will specifically target over the lifetime of this next plan, to do a new campaign on cigarette butts. We're

1	also asked to promote the Re-Turn Deposit Scheme which very are happy to do. We
2	are also asked to do some circular economy projects under the Anti-Dumping
3	Initiative. This is something that we do already but we haven't mentioned
4	specifically in the plan but we have added that into the plan. There is already a
5	project underway this year looking at single-use coffee cups.
6	
7	That's me done, is it? Next slide. Yes.
8	CATHAOIRLEACH: That's great, thank you very much, Jim. I think you're right
9	when you said about community participation. We are very lucky in County
10	Wicklow that the Council work well with the community and congratulations on all
11	that work. So there's a few people coming in to speak. The first one is Councillor
12	Miriam Murphy.
13	COUNCILLOR MURPHY: Yeah, thank you, Cathaoirleach. And thank you, Jim,
14	for the great presentation. Just a few things there that I think needs to be highlighted,
15	and I think again it's down to awareness and I think some of your presentation just
16	shows the features that would catch your eye, but I am just a bit concerned about one
17	or two things. Myself recently I actually cleaned out two sheds and we brought them
18	out to the (inaudible) recycling and they wouldn't take them. Now, I had to send
19	them out to Avoca recycling. But I think in the future there's going to be a lot more
20	dumping, because some of not our own recycling centres, but independent ones,
21	and I feel there's going to be a major increase on our sad situation of people
22	dumping. And again, just from an estate area as well I think that a lot of people
23	would hoard a lot of their stuff. And I know this particular area where I live we have
24	an annual May Day fire celebration on May Day, and it is a huge, huge cost to the
25	Council, and they have cleaned it up every year. It would cost probably five or six
26	thousand every year. And I mean that is dreadful. But you can see actually other
27	people from the estates coming in here to bring their dumping, and I mean of every
28	type of stuff. So I don't know how we can curtail that. And also the dog fouling.
29	Again, I know from the road here there's not one dog poo container which is crazy on
30	a main road, when people are doing their walk to the beach. Maybe that could be
31	looked at as well as an area to be improved on. Thanks, Jim.
32	CATHAOIRLEACH: I'll take three at a time. So the next one is Councillor Orla
33	Finn.
34	COUNCILLOR FINN: Thank you very much. Thanks very much and thank you

very much, Jim, for that overview. It was great. I suppose I am concerned about all
the issues that you have raised but in particular in relation to Greystones, Kilcoole
and Newcastle. As you highlighted, one of our biggest issues is definitely around
dog fouling and dog poo bins. And if we could get more dog poo bins that would be
fantastic. That also leads to the issue around more dog wardens, which is a
countywide problem. Because if you are going to try bring in other measures to
make sure that people do adhere to the rules I think more dog wardens are absolutely
needed. In relation to the DNA testing, while I appreciate the sentiment behind it I
suppose I would personally rather see the money used for dog poo bins, as I said,
because I just think that it would be very hard to implement, and it is very interesting
that Leitrim have already tried it out and to see the results they got. So thank you.
CATHAOIRLEACH: Thank you. Councillor Danny Alvey.
COUNCILLOR ALVEY: Thanks, Cathaoirleach. I just wanted to also commend
Jim and all the environment team on their work in this area, and this really
comprehensive plan that they have. I want to take the opportunity to commend all of
our 31 Tidy Towns groups in the county who recently got their scores in the
competition and got very good results, including five gold medals. That is worth
noting in the discussion around litter management. I am one of those people that was
very curious around the DNA dog testing as Jim knows from our Environment SPC,
and it is something that has been successfully done in other regions and countries. I
don't think we're quite there yet in Ireland, but I think it is one of those things we
need to keep our eye on and if it becomes more cost-effective I think it would end
the problem overnight if people thought they are leaving behind evidence that they
will be charge on. But look, we're not there yet. I welcome including it to continue
looking at it on the plan. I wanted to give positive feedback, Jim. I know we had
problems in Tidy Towns in getting a good supply of bags to do the pick-ups we do
over the place, and I want to give feedback we're getting rolls now which is great
because you were only at one point handing out bags, but I wanted to pass that
positive feedback on and congratulate you on a very comprehensive plan. Thank
you.
CATHAOIRLEACH: Do you want to come back in?
MR CALLERY: Okay. First of all in relation to Miriam's query on the cleaning out
of sheds and the like, and disposal of items. Unfortunately our recycling centres
aren't set up to take materials for charges, to charge for the taking of materials, for

the disposable materials, which is what you would typically require when it comes to those contents of sheds. We're just not set up to handle those materials in terms of the costs involved. It is important that people have outlets that they can bring those materials to. We don't currently have a specific amenity site in Wicklow that takes materials specifically for disposable. We only take recyclable materials and we do offer that free of charge. There are options available for the public in neighbouring counties and we can provide that information to the public on where is their nearest location that they can bring materials. But I do agree with you, there is a need for more information for the public on how they dispose of that kind of item. It is something we can work on, promoting what the options are for that disposal. I do take that on board. It is an issue for members of the public how to dispose of different items and where they can bring them.

In terms of the dog fouling, again, yeah, the provision of bins that is something that we do work with the districts on the rollout of, specifically dog poo bins where they're needed on dog walks, but we've also always promoted the message of 'any bag, any bin' so that members of the public when they're walking a dog can use any bin they come across for disposing of dog fouling. It is not possible to put bins in all the locations that dog walkers want. We've frequently got requests to put them in areas like down the Murrough, which is a popular work, meanwhile there's three bins available at the car park at the start of the walk. So people need to understand when they take their dog out it is their responsibility to know where the bins are available and to use them, and that sometimes does mean carrying that bag back to the nearest location rather than expecting to have dog bins in natural areas. But it is something that we will continue to work on ensuring that there is an adequate network of bins available for people when they're out and about.

As I mentioned with the DNA, it is disappointing that there isn't a viable option at the moment but it is something that we will keep an eye on in the future and if we do see any potential to bring in DNA testing in the future with a viable more local service, and an opportunity to collect the samples we would love to have it. Because I think even the threat of having DNA sampling would be an important incentive to householders to pick up after their dog. So, yeah, it's certainly something that we will keep going.

On the supply of materials, there were some issues last year in relation to the collection of materials. I understand that was why bags at the time were restricted, because we just didn't have the resources to collect those bags afterwards. We're one of the few local authorities that supplies clean up material throughout the year. Many local authorities will only specifically do it during campaigns such as National Spring Clean in April. We're happy to work with any group right throughout the county right throughout the year. And we will continue to support them any time they want. Okay CATHAOIRLEACH: Thank you. Councillor Avril Cronin. COUNCILLOR CRONIN: Thanks very much, and thank you for the presentation. I was actually going to bring this up later on in the meeting but now that we have this on the agenda I am going to ask for your advice. I have a road in my area, Merrionstown, over the last six weeks there's been a huge amount of fly-tipping and illegal dumping. It's domestic waste being dumped. The residents are doing their best. And, as the Cathaoirleach said, we are very lucky in Wicklow we have huge communities that want to help and everybody wants to do their best to keep their area clean but unfortunately that's not always the case. In this situation the residents on the road, it's a very rural country road and the residents are out every day picking up this rubbish. In fairness to the Council I have reported it, every day I am sending in emails, videos, and photographs to them, and they are going out and they're helping the residents clean it up, but I don't know where to go with it. I don't know what to do next. We've asked for additional signage. It's very hard to catch the person when it's being done in the middle of the night, and that's when it appears to be happening. But over the weekend there was a huge amount of rubbish dumped there, and it's absolutely disgusting what was left there over the weekend. There's been black bags of rubbish and they're all opened out now and they're all along the side of the road. The residents in fairness to them they try their best to keep the road tidy but it gets to a point where it's gone beyond what they can manage now at the moment. I don't know is there anything else we can do. We asked for additional signage and the residents are doing their very best.

32

33

34

In relation to dog waste, no matter where or how many bins you put up or signs you put up it seems to be that people are going to just -- you know, the people that care

will pick it up and bring it home or put it in a bin somewhere, but there are others
unfortunately they're not going to take notice. In my own town we put up signs and
there are bins, but there are people who are going to ignore it. Also an issue we have
is in some of our areas people requested additional bins but we don't have the
resources to clean out the bins, and that's a big issue. Thank you.
CATHAOIRLEACH: Thank you. Councillor Lourda Scott.
COUNCILLOR SCOTT: Yeah, thanks, Cathaoirleach. And thanks, Jim. I wasn't
actually going to speak on dog fouling because I know I raised it previously and I
know back in Covid times I raised a question through the Council about DNA testing
and I did a bit of a deep dive on it myself at the time. Thanks for acknowledging that
possibility I suppose in the strategy. Dog fouling continues to be an issue but, you
know, dog waste that's left and not addressed at all. Particularly in our area,
particularly along the coast, we find dog waste bagged, where people don't bring it.
do agree with your strategy. I don't think throwing bins everywhere, here, there and
everywhere is going to help address this. It's laziness on behalf of some people, and
you know more bins isn't going to address it full stop. And again we do have a
challenge in our own district as well of limited resources and capabilities to clean our
bins, and the more bins we have then it's a difficult situation. My own opinion is I
don't think this DNA testing is going to work until there's national legislation which
compels dog owners to provide a faecal sample from their dogs, and that would
probably need to be linked with micro-chipping. There's no point unless you have a
database to match the samples to, until that comes down as a legal requirement. But
anyway, putting that aside, I want to stress the issue with cigarette butts. I know you
have it there as your number one litter source. I run a clean coast group and we take
part in a big beach clean survey every year, cigarette litter is by far at the top of the
list. Every time we go out on a beach clean, it's cigarette butts everywhere. I
honestly think an awareness campaign is long overdue and would go a long way to
really educate the people because I honestly don't think people realise that cigarette
butts are litter. I think they bury it in the sand or on the ground, they think it is going
to organically compost and isn't causing an issue.
I want to acknowledge and welcome the work that is going on, the coffee cup
initiative that is going in the climate section at the moment. Myself and Tidy Towns
in Greystones are working on trying to reduce the use of disposable cups. That is

quite a big issue in our area and I welcome an ongoing project that is cooking behind the scenes with the climate team and look forward to when that will get addressed.

Just a couple of quick notes on the plan itself. I do notice that the town teams are named as a kind of an action group or a stakeholder, and I was just wondering if you had any kind of more thoughts on how the town teams can link in with the roll in litter control or how that will be practically strategised? Because it is certainly not something that has come up at any town team meetings that I have been involved with. I also just want to point out, I know it is a bit late because we're just about to approve the plan, which is, an important group stakeholder that is missing from the management plan are Clean Coast groups. We have very active groups in Bray, Greystones and down in Arklow as well. They obviously take litter from the beaches but the surrounding areas and again have a good kind of eye on what sort of litter is coming up and just I suppose making that known really for the next iteration of the strategy. And other than that, thank you for all your work and particularly in Greystones for the environment team's work on working with the MD office and myself on addressing the issue of dumping around the clothes bins. That was a real, real issue this time last year and at the beginning of the year, and that fortunately seems to be addressed now but it did take collaboration, and I appreciate the work that went into that behind the scenes, thanks.

CATHAOIRLEACH: Thank you. Councillor Joe Behan.

COUNCILLOR BEHAN: Thanks, Cathaoirleach. Jim, I don't know how long you're in that job now at this stage but I have heard many presentations that you've given over the years, and I had the pleasure of being involved with you particularly when I was principal of St Fergal's School when you were involved in the Green Schools Committee and Green Schools Project. I want to thank you personally for the work and commitment you have shown in your various tasks working in the public realm. It is quite obvious, even in today's presentation, how committed you are to the work you do. I think a great credit is due to you for continuing your enthusiastic approach to this I suppose never ending issue of controlling litter and improving or environment, but I just want to say a particular well done to you for your work.

33

34

Secondly, if you are looking for a proposal for the plan to be adopted I am happy to

propose it, Cathaoirleach, unless the chair of the committee wants to do it which is fine by me, but I think it is an excellent programme and excellent plan. It is also I think an opportunity to congratulate all the members of the team, the Environment team and the Council, but also as has been said by many people the huge numbers of ordinary citizens in this county who play their part and many do a huge amount to improve their local environment through Tidy Towns, Pure Mile and all of the other initiatives that have been mentioned. So well done to everybody who has taken and continues to take part in those activities.

Just a couple of observations I would like to make. With regard to the dog fouling, there is nothing more disgusting or antisocial as a person who takes a dog out for a walk and allows them to defecate in a public area resulting in litter but also a very serious danger to children particularly if they put their hands in it. I think they should be condemned roundly by all of the public representatives for their irresponsibility, and we should unite in every way we can to try and find the culprits of this disgusting practice. I would be interested to know if we have had any successful prosecutions of people who have been guilty of this? I don't blame the animal. The animals are not responsible for this. It's the owners. Have we had any successful prosecutions of dog owners in that regard? That's the first question.

And second, I was disappointed that we don't have figures yet on the bottle return scheme, the plastic bottle return scheme, because I think it is a huge scam myself. I'd like to see the evidence that it has actually resulted in an improvement over all of the environment, because let's remember what happened and, and we weren't consulted on this, this was a Government decision in the last Government: The prices were raised on the plastic items, the plastic bottles, an extra tax was put on. There are companies now involved who are making huge profits on this. Not all of the plastic bottles are returned. And what's also happening is there's a cross-over, because anybody who has a contract with a refuse company has a recycling bin. And we were encouraged over many years to put our recyclable plastics in the recycling bin, and you have the recycling trucks going around the estates and yet you have people passing by the recycling truck, driving to the shop with their bag of plastic bottles. So the overall effect on the environment, I just wonder whether it has really made that much difference. But in particular I think sometime and I think somebody has

1	actually been doing some work on this we need to know what profits are being made
2	by the companies who are in the middle here. They're taking the tax from the
3	ordinary punter, they're making huge profits and we may not necessarily be seeing
4	the advantage that we hope to see. But overall, I just want to say again, Jim, thank
5	you, and excellent plan put before us today. Thank you
6	CATHAOIRLEACH: Thank you. Jim, do you want to come back on those three
7	queries?
8	MR CALLERY: Okay. In relation to the specific issue of dumping in an area, that
9	is something, yeah, bring that to our attention and we can see whether it is a case of
10	signage or something else. We do have the option now of CCTV. In order to use
11	CCTV we have to prove a case for deployment of it. We have to be able to
12	demonstrate that there is a repeated pattern of dumping occurring in the area, then
13	make our case for use of the CCTV. So, yeah, it is something that we look at where
14	there's a specific area where there's ongoing problems.
15	COUNCILLOR CRONIN: Just keep sending in their complaints?
16	MR CALLERY: Yeah. And certainly talk to us about the signage, we can look at
17	that one. Yeah, we'd be happy to look into it.
18	COUNCILLOR CRONIN: Thanks very much.
19	MR CALLERY: Yeah, again with relation to the resource to clean out the bins and
20	the provision of the bins, it is important to consider capacity at local level to manage
21	a bin. A bin is not always a solution. And if it is becoming a problem for
22	communities to manage it you would have to question whether it's the right bin in the
23	right place. These services do need keeping up all the time to ensure that the bin is
24	providing a service to the community without actually becoming a problem for the
25	community.
26	
27	In relation to the cigarettes, that will be our top priority for next year, to look a
28	campaign on cigarettes. So it is something watch this space in 2026. We hope to
29	deliver a campaign on it as a priority.
30	
31	And with relation to the Clean Coast groups, I am surprised to discover that we
32	haven't mentioned them in the plan. It's something we will certainly rectify because
33	we have several very strong Clean Coast groups in the county that go out on a

weekly basis or more to undertake clean-ups, and you do notice the difference

1 between a beach that has an active Clean Coast group and one that doesn't. So it is a 2 particularly important requirement when it comes to plastic littering. So the work 3 being done by coast guards is something which we very much recognise and 4 appreciate, and we do have a specific award for the coast guard groups as part of our 5 sustainable development awards. 6 7 With relation to prosecutions for the dog fouling, that is a difficult one. The burden 8 of evidence required to prosecute for dog fouling, you either need the enforcement 9 officer to be standing there beside the dog when it is fouling and being able to chase 10 up the owner, where they live, name and address, get the correct details and then you 11 can take a prosecution, or you need a witness who is prepared to sign a witness 12 statement and if necessary go to court. So it is a very difficult to prosecute. We do 13 get about one or two successful prosecutions every year, but we'd certainly like to 14 see more prosecutions taking place in Wicklow. Unfortunately to date that's not the 15 case. 16 17 On the Re-Turn Deposit Scheme, I can't comment on the national scheme in terms of 18 what proportion of bottles are coming back through the scheme, what's being done 19 with the revenue. I don't have that information. But the one information we are 20 receiving is some of the surveys that are being done to see is it having an impact on 21 the environment, and both An Taisce and Leave No Trace have undertaken surveys 22 to see is it having any impact. The IBAL survey would be another one where they're 23 measuring the impact. And those studies are indicating that it's leading to a 50% 24 reduction in plastic bottles and cans as litter. It is still very common as a litter item. 25 There's still plenty of bottles and cans out there but the surveys are indicating that the 26 numbers are decreasing as a result of the deposit return scheme. Okay. 27 MS PURCELL: Sorry, the Leas Cathaoirleach is just on her way now. We need to 28 keep going. Thanks. 29 COUNCILLOR WINSTANLEY: Councillor Snell. 30 COUNCILLOR SNELL: Thank you, Leas Cathaoirleach. I want to thank you for 31 the presentation today. An awful lot of work has gone into it. I want to support the 32 Litter Management Plan for the next three years. I want to pass on best wishes to all 33 the team because there's a huge amount of work gone into it, and it is obvious from

the report. I suppose fortunately, or unfortunately, I am around here a long time and

I have seen huge, huge changes in regard to litter management and the amount of works that's gone in it, but the one things that's repetitive year-on-year is the lack of finance as regards giving to the people who are rolling out this plan to actually implement. If you look at the dog fouling, and it's very disappointing to hear that there's only been one or two prosecutions in a year but it is understandable, Jim. And I suppose it is all down to education and awareness. A lack of education, a lack of awareness, and it is not for the want of trying. There's been so many campaigns rolled out there. When I hear about more dog bins, yes, I agree on occasions but when you actually go out and look there's people who go to the hassle of collecting the foul after the dog, bagging it, and actually dumping it beside the bins, hanging it out of trees. It just beggars belief. And when we talk about DNA testing on dogs, until such time as the dogs have the capacity to bag it themselves and put it in the bin, because it is the owners who are irresponsible. And, like, it is never going to be cost-effective to roll out this DNA testing. It will never ever, ever in this country be cost-effective when you're talking about sending it away to USA and the likes.

I am glad that the report has identified what used to be -- and I say used to be, because it has reduced significantly, certainly, and I don't know whether it is a downturn in the trade as regards public houses or public offices after Covid, but it's certainly going back a decade ago used to be a real black spot for all Tidy Towns throughout the country. I honestly believe people at that time thought they were doing no harm. They were throwing away what was a small item, a cigarette butt. But for the people who are going around to collect that, these volunteers, it's probably the one item that takes the most amount of time to gather up. And thankfully we've an awful lot of responsible business owners now out there who are taking up that mantle themselves and making sure that their staff clean outside their own facilities, but I am glad that you identified it within this litter plan.

I would ask, Jim, in regards to -- and it is a thing that hasn't been discussed, and if you could step me through it when you get an opportunity to come through it, but it's the abandonment of vehicles throughout the county. We have cars, we have vans that are abandoned. Some are left in prominent positions, as identified, some are left in housing estates, some are left in car parks that are not charging. For the people who are in the know and understand some of these are down to criminality, they're

there for the purposes of dropping off and collecting of drugs within particular areas,
but the sheer sight of these around, littered around our county is not acceptable. And
I have dealt with people who have tried to have them collected and moved for
obvious reasons, and the reality is that it's not Wicklow County Council's job alone,
but An Garda Síochána are involved. We have situations where vehicles you say
you can issue, under the legislation we can issue directives that they have to remove
their vehicles, that's if you know who owns the car. Some of these vehicles don't
have registration plates on them, some have fake plates on them, some of them can
sit in an area depending on how long they can get away with what they're doing for
the guts of a year with authorities knowing what is going on. And I understand it
might suit An Garda Síochána at times to watch to see what's happening, but purely
from an abandoned vehicle in any town or village or any housing estate it is not
acceptable, and it must be dealt with accordingly and quickly, and I'd just like to
have your opinion on that, if you don't mind. Thank you.
CATHAOIRLEACH: Thank you. My apologies for that interruption, Members.
Councillor Dermot O'Brien. And I think, sorry, before Councillor O'Brien wants to
come in I think Councillor Scott had indicated she wanted to second it. So proposed
by Councillor Behan, seconded by Councillor Scott.
COUNCILLOR DERMOT O'BRIEN: Thanks, Cathaoirleach. Just very briefly, and
again thanks to Jim and the team for the production of the plan. And for me I think
some of the things worthy of highlighting in terms of this is the process in particular,
and I really always feel it's important to acknowledge when a plan goes through a
flow that involves really significant (inaudible), and I think that's really clear in the
plan. Even when you read the Chief Executive's Report on the submissions from the
public and see, as Jim outlined, where the changes came in, I think that's a great
example of a process that's worthwhile. A couple of strengths I took from it was the
strategic focus, the four key areas; again just shows the challenge but also the
balance of how we must consider enforcement prevention, education and community
participation. And again, as Councillor Snell alluded to, the challenge of where do
we put resources so that we get the outcomes? Cathaoirleach, and not
underestimating and Jim has been doing this for a long time, but not to
underestimate the importance of the education and awareness because we are in the
business of needing to change attitudes that will change behaviour, that will flow in
attitudinal change but also a new pride about their country, about their community,

about their area. I'd love to see along the way when this is rolling out that we include
those types of metrics, that we have conversations with the public about where
they're at with their attitudes and where they're at with their behaviour and what their
sense of it is so that we can engage that change alongside the change that comes with
enforcement. I am here to propose that I think every new generation, and children
and young people in particular, are worthy of the positive regard that comes with the
attitude that we should be the attitude towards how precious our environment is. I
think if we paid more attention to the messages that they're sending us, I think things
would be transformed. A brilliant plan and thanks for all the work, Cathaoirleach.
CATHAOIRLEACH: Thank you. Councillor Silvester Bourke.
COUNCILLOR BOURKE: Thank you, Cathaoirleach. I would like to thank Jim for
all his hard work over the years in supporting the community groups especially in
my own area. He has never failed to supply us with lots of equipment and collect the
rubbish that we have picked up. And just a little bit of housekeeping, I was in Brittas
Bay there, Jim, twice the last week and the dog poo bins there are overflowing.
Other than that you're doing a great job. Keep up the good work.
CATHAOIRLEACH: Thank you. Do you want to come in on those three
comments, Jim?
MR CALLERY: Okay. Yeah, again the cigarettes. I would certainly see the
cigarettes as being like the dog fouling; they're two smelly items of litter that people
don't want to handle. It is a very difficult challenge for us to tackle those with
education and awareness, because it is not a simple case of giving them a message
about what they need to do, it is about changing behaviour and finding ways to
change that behaviour. I think we are making some progress on dog fouling, it is
become less and less acceptable to not pick up after your dog, and we need that to be
the case across both cigarettes and dog fouling in the future. That it's just not
acceptable to behaviour like that and that everyone understands that, and that's why I
require that we keep reinforcing that message about the dog fouling and cigarette
litter.
The abandoned cars, yeah, they are mentioned in the plan. I wasn't aware that it is
growing as an issue. Abandoned cars tend to wax and wane depending on the scrap
value of a car. I will have a chat with the waste team about that and bring those
concerns to them about the removal of abandoned cars when they're found. I would

1 be happy to have a discussion with the environment team about that one. 2 3 I think Dermot's suggestion of doing some -- and again, some metrics about attitudes 4 and behaviours is something that's a great idea. It's something that we will certainly 5 look at for the next Litter Management Plan, having conversations with communities 6 across Wicklow, particularly youth, about their attitudes and behaviours when it 7 comes to litter and waste. So yeah, I think that's something we will be quite happy to 8 take on board. 9 10 And then finally, the Brittas Bay dog fouling bin, I will certainly bring that up to see 11 if we can get that one solved quickly. Okay 12 CATHAOIRLEACH: Great. Thank you. There's still a few more Members wanting 13 to come in. Councillor Peir Leonard. 14 COUNCILLOR LEONARD: Thank you, Cathaoirleach. And thank you, Jim. Jim 15 is so knowledgeable across many areas. He's my go to person to ask for advice. And 16 I just think there's a lot of potential with a lot of the waste issues around circular 17 economy and innovation and creativity. I do think something that we should look at 18 going forward is utilising our recycling centres more for using space. The one in 19 Arklow is quite big. There's a huge car park attached to it. I would like to explore 20 the use of that for circular economy and maybe locating our sheds and other things 21 there, that we could use to create that circular economy but also it would have a 22 social value to get involved and tie it in with creativity as well. Sarah is doing great 23 work with the textiles, and, like, I sat in on some of the recent courses that she got 24 funded for and the education around that and the textiles is absolutely brilliant, and 25 there's so much potential with that. 26 27 Two areas that I am just not sure in the plan whether it covers is around the marine 28 space as well, and could we explore getting a sea bin into our harbour area? Because 29 a lot of the debris that comes down after a lot of heavy rainfall or, if the weather is 30 really bad, from upstream, it all ends up in the harbour. I have been looking at the sea bins across the wider international scene and they seem to work, and maybe is 31 32 that something that we could explore? 33

And then back to the dog fouling as well, I think it definitely that needs to come on

1	board. It can't be all the County Council. I think the area to look at is setting up
2	some sort of competition, zoning places and trying different pilots in different places.
3	And I just want to ask Jim has the idea of putting free bags on the bins ever been
4	mooted or was that ruled out? I know that you can lead a horse to water, but I do
5	think that it's worth trying in an area as a pilot. You know, there's certain routes and
6	walkways around each town that people go with their dogs and stuff. You know, it's
7	not the whole town but I think if we go into different areas it almost creates a
8	competitive environment and got people to buy into it, whether they were the shops
9	or local people that use that area, and that's something that we could look into going
10	forward. Thanks.
11	CATHAOIRLEACH: Thank you. Councillor Paul O'Brien.
12	COUNCILLOR PAUL O'BRIEN: Thank you, Cathaoirleach. Thank you, Jim. I
13	will be brief, a lot of what I said has been said. I take it we use the app See It Say It?
14	Because I have used it, and I have to say it is an excellent app when it comes to
15	illegal dumping. Can I also just agree with Councillor Scott and Councillor Cronin,
16	in terms of funding we're very good at looking after the likes of Brittas Bay during
17	summer months, and I have often heard it said we'll take the bins away because it
18	attracts rubbish. My attitude is I hope a bin attracts rubbish. But we need them
19	emptied during the winter months as well. Because after Covid well, during Covid
20	and after Covid, Brittas Bay became extremely busy, and it was great to see it
21	opened up to the public, both locals and beyond, for the winter months but we do
22	need more resources and more people on the ground. The easiest option is say we'll
23	take the bin away and they'll bring their rubbish home. We have to be realistic about
24	it: They won't. When you see them dumping their rubbish beside the bin when it's
25	full, you know. I know attitudes have to change, that takes time, but in the meantime
26	I think we have a duty off care to the beach, especially a blue flag beach, that we do
27	take away the rubbish on a regular basis. Thanks for all your work, Jim. Very much
28	appreciated.
29	CATHAOIRLEACH: Thank you. Councillor Warren O'Toole.
30	COUNCILLOR O'TOOLE: Thanks, Cathaoirleach.
31	CATHAOIRLEACH: There's too many on it. Councillor Fortune, can you come off
32	for one minute? Thank you.

COUNCILLOR O'TOOLE: Thanks, Cathaoirleach. And thanks, Jim, for the report.

You briefly discussed, Jim, about the likes of the CCTV. Dogs like people are

33

creatures of habit, and anyone can walk along different stretches and see the same type of dog fouling that's happening continuously. The likes of the CCTV, what is the parameters around that to get some of them activated in different locations, and maybe making a very public display and embarrassing these people? Because there's stretches that they could be tucked in or whatever and just make examples of certain people. And the same with some littering in different places, you can see the same types of littering, and obviously probably coming from the same type of people on these routes. Can we kind of look at the likes of that? Thanks. CATHAOIRLEACH: Okay. Do you want to come in on those three, Jim? MR CALLERY: Okay. Yeah, with relation to a sea bin. My understanding was that there was one due to be trialled in Greystones Harbour. I'm not sure did that one go in. But it was something that was going to be managed by the harbour itself. It's something I will bring up with our Ports and Harbour Office to see is there any potential of putting them elsewhere. But it is a question of how they can be managed and how accessible they would be for management would be the question. But yeah, I'll have that conversation with our ports office.

With relation to competitions, yeah, it's always a useful way to engage people. I know it is something that Sarah was talking about, running a competition to design some signage around dog fouling. So, was it dog fouling? Yes. So yeah, it is an engaging way and it can be a more effective way of getting the message out because people do like to see something that's coming from local kids in their own area making signage, it has more impact than something that's professionally designed. So we will look at the use of competitions to help us get that message out.

With relation to free bags for dog fouling. I know this is something that a number of districts have done over the years. They have tried it in a few of our towns, putting out free bag dispensers. I think most have found it quite problematic, when you put the bag dispenser out and fill it with bags someone comes along and empties it completely and takes all the bags. We take the opinion when it comes to dog ownership, if you're going to own a dog it is your responsible to look after it, to keep it on a lead, to make sure that you bring bags with you, and I don't think it is a big ask that a dog owner should be asked to supply their own bags. If there's particular areas where we want to pilot it, try it, we can do it, but certainly our experience in

other parts of the county has been that the dispensers empty very quickly and it just becomes a free provision of bags to a few dog owners rather than helping get the message out to all dog owners. Okay.

On the EPA See It Say It service, yes, it is something that we use in Wicklow County Council. We do receive complaints and reports of dumping and fly-tipping through the See It Say It app. The Pure Project also uses the See It Say It app. So it is a great service to have for the public to make those complaints and we're happy to use the service.

With relation to bins on Brittas Bay, it was one of the concerns that held up open access to Brittas Bay in the past; that we don't have the resources to manage it. The agreement that was made with the local community I believe was that a bin would be open -- or the car park would be open during the winter months for local people to use the beach but that we wouldn't be in a position to provide a bin collection service. It is something that we can bring again to the district to see if there's any scope to change that, to look at the amount of littering or materials that are being left behind in the car park and see what we can do. Because I would agree that our marine environment is particularly fragile and any type of litter once it gets into the sea you're not going to be able to get that back out, and it is going to break down into microplastics that will contaminate the marine environment. So yeah, I will discuss that with the district but I know it was part of the original agreement with the community that the car park would be opened without the provision of services.

Then finally, CCTV. What are the parameters around the use of CCTV? There are significant restrictions on how we use CCTV. We're not permitted ourselves to put the cameras out there and collect the data ourselves. We have to use an outside contractor. So we have to get a contractor in to do it, but before that we need to prove our case on the use of CCTV. So we can only use CCTV where we can clearly demonstrate that there is a significant and repeated issue of dumping occurring that we can tackle through the use of CCTV and then outsource the data management to comply with GDPR regulation. So it's quite a complex process waste management have to use to roll out the CCTV. They are doing it, and it is working for us. We did see a dip in the number of fines issued by Wicklow County

1 Council when we didn't have the option of CCTV as a tool for enforcement, and now 2 that we have that tool already in 2025 we're seeing a significant increase in the 3 numbers of fines being issued. So it is a very important tool but we have to use it 4 carefully and make sure it is fully compliant with GDPR to do so. 5 6 On the question of dog fouling, I don't think unfortunately that CCTV will work for 7 us because you have to be able to collect data that can identify the owner. And it 8 doesn't work by facial recognition. Where CCTV is particularly useful is where you 9 can identify something like a car reg plate that would identify the owner and prove 10 who they are. So it's not a case that the CCTV will solve all our enforcement issues, 11 but where it can help us to tackle problems of dumping we'll certainly use the CCTV. 12 Okay. 13 CATHAOIRLEACH: Thank you. Councillor Shane Langrell. 14 COUNCILLOR LANGRELL: Thank you, Cathaoirleach. And thank you, Jim, for a 15 great presentation. I suppose we touched a good bit there on dog fouling and, like, in 16 my opinion it is absolutely schools, education, it's all about mindset I suppose and it's 17 the children out there that can actually teach us. Like, for example, my daughter is 18 11 years of age and she's in a school in Ashford, and a garda came in last week to 19 talk to the children about the dangers of Halloween with fireworks and what have 20 you, and then on Thursday -- or on Friday when we're going out trick-or-treating 21 she's with her friends and there she was chatting away to her friends, and she 22 understood. So I am just using that as an example. I am not saying, Jim, that you 23 can go into every school in the county, of course you cannot, but is it the principal, is 24 it a teacher in the school who can be appointed to have a chat with the children? 25 Because believe me, if I am out walking with our dog and my dog does the dirty 26 deed, like, them eight-, nine-, ten-years-old, even younger, will not let you go on 27 without picking that up. Education, education, education. Absolutely. That's my 28 opinion. 29 30 And I suppose regarding the rubbish, the fly-tipping, Jim, I don't know if you can 31 answer me this right now. If not, that's fine, you can come back to me. Like, there's 32 a lot of these skip hire companies now. When you go and hire a skip you kind of get 33 a list of what you cannot put into the skip. There's one-off housing being built

around our own county here and people have said it to me, like, you're getting your

1 skip, you can only put X, Y and Z in it so then you fear what you cannot put into it. 2 Where is that going to end up? 3 4 And finally, Jim, last Thursday there's a building company in 5 Newtownmountkennedy that separate for years all their different waste. And it was 6 last Thursday they loaded up a trailer, on inbox trailer full of cardboard which was 7 dry and clean, and they went down to the recycling centre last Thursday before 8 lunch. The guy that brought it down was turned away because it was lunchtime. 9 And when he came back after lunch to get rid of the cardboard he was told they 10 weren't taking it. This building company has been doing this for years. The reason 11 they weren't taking it was because he said the cardboard was too big and it was 12 breaking the machine down. Now, to me if it is breaking the machine down, is it 13 really the cardboard's fault? Now, I understand, Jim, you might not be able to 14 answer that for me today but I would like a response back in the next few days, 15 please, as, like, this building company are doing their best, dividing all their material 16 and when they get a trailer load they went down to recycling last Thursday, they 17 were messed around to be honest with you now. He could have told them even 18 before lunch, before they went, that they weren't taking it. They waited around for 19 an hour, when they went back at two o'clock he was told they weren't taking it. Once 20 again thanks very much for your presentation, Jim. 21 CATHAOIRLEACH: Thank you. Councillor Graham Richmond. 22 COUNCILLOR RICHMOND: Thank you, Cathaoirleach. I will be brief because so 23 much of what has been said has been said before. But just on the two things, the dog 24 fouling we all know. I wouldn't agree with providing free bags because it's not that 25 expensive. But one thing I noticed in part of the UK that was trialled is if you're out 26 walking a dog and you don't have bags you get fined. That's one idea so you're not 27 waiting hiding to chat them. There's one area. Lastly, you talk about the cigarette 28 butts wastage, I'd be amazed if when you come back again and do this that the vape 29 wastage doesn't raise. Particularly, I think people think if you take a sticker off a 30 vape and put it on a bin that's not littering, but it is. And then the waste, they're 31 throwing at will, and as much as cigarette waste is up, when you've got this large 32 lump of plastic dumped, and they are dumped, particularly if you go out after 33 weekends, it is something that is going to get a bigger problem. Thank you. 34 CATHAOIRLEACH: Thank you. Councillor Lourda Scott.

COUNCILLOR SCOTT: Yeah, sorry, thanks, Cathaoirleach, I wanted to come in
again very briefly just to pick up on a point Councillor Behan made earlier regarding
the deposit return scheme as I think there was an implication that the scheme isn't
working or isn't valid, and I just wanted to state for the record the stats about the
success of the scheme are on the Re-Turn website, and it's actually been incredibly
successful notwithstanding that indeed there can be some tweaks or improvements
made to it. There's been over one and a half billion bottles and cans that have gone
through the Re-Turn scheme since introduced and recycling rates have increased
from less than 50% up to 91%, which is massive. But perhaps as important is, for
ourselves, myself included, for litter-pickers that you notice the difference in the
number of cans and bottles when you're going out to do your litter pick. Indeed a
Coast Watch Litter survey in 2024 recorded its lowest level of bottle and can level in
25 years. The Irish Businesses Against Litter reported a 50% decrease in bottle and
can litter across the country. So it has made a huge significance to certain litter
across the country. Thanks.
CATHAOIRLEACH: Thank you. Do you want to come in on those three
comments?
MR CALLERY: Okay. We certainly agree when it comes to education and
awareness it is absolutely vital that we get in and talk to young people about it. As to
whether I can get in to every school, I think I have been in every school over the
years, most of them multiple times, and I think Sarah is well on her way of having
been in every school in the county at this stage. Green Schools is one of the most
effective programmes that we have for delivering education and awareness because it
is not a one-off, you're going in and talking to the kids and getting them engaged.
And they'll work on a project over a number of weeks and build their understanding
of a topic. And certainly for kids when they have someone new coming in the school
it does leave an impression on them and they do go home and talk about the speaker
that's come in that day and what they had to say. So yeah, I would certainly agree it's
something that we need to keep working on.
On the issue of the cardboard waste being turned away from the recycling centre, I
wasn't aware of that one. I am not sure what the story is there. It is certainly
something that I will follow up on and report back on what the issue is and see if we
can get that one resolved quickly for that business.

On the UK fining for people who are not carrying a bag, I am not sure legally if we can do that but it's something we will look into. Whether it is something that would require national legislation or whether it is something we can do ourselves. I suspect we would need a national driver to be able to do it. But certainly, yeah, it is something that we can look in and see is it possible to pursue.

I can't even read my own writing. Oh, yeah, vapes. Vapes is certainly something that is on our radar. The amount of vapes being dumped as litter now is growing and it is awful to see it, electronic waste, which should not be dumped anywhere. It shouldn't even be going into a bin; they should be recycled. We will look at how we can tackle that issue of vapes and the proper disposal of them. Okay CATHAOIRLEACH: Thank you. Councillor Gerry O'Neill.

COUNCILLOR O'NEILL: That is Cathaoirleach. Yeah, thanks, Jim, for your presentation. I have quite a few experiences, especially Shane has touched on, where I talked about maybe, you know, with the dog fouling is an issue there, you'll hear day in and day out. And I am listening to it for a long, long time. How you go about educating, and it's mainly adults that are up to this, you know. In Blessington there we had, I mean whether you get free bags for the dog foul or not they were gathering up the bags of dirt and throwing it over the wall in the graveyard, the local

hundreds of bags of dirt. So I don't know how you get it into adults mainly you know, and maybe we could improve a little bit more in schools. But you know to see what's being done, it's not right.

graveyard. And the council there just cleaned it out some time ago, but there were

And also Shane mentioned the state of the area with fireworks and whatever, and I think this has grown into a huge issue. Halloween time is -- I mean I was around the town in Blessington there and it was like a bomb area. There was filth and dirt everywhere. I would like to see maybe more cooperation with the council and Gardaí. Fireworks are illegal. But it was only there we had a dreadful accident or whatever yesterday in the town and a little lad there, a 11-year-old boy, a wonderful boxer making a debut in four weeks' time and found a fireworks that hadn't been set off the night before and lit it with a very short fuse, he's lost a limb, he's in a Dublin hospital this morning. The kid is destroyed you know because there's massive

fireworks, they're like bombs. I just looked at the area there on Saturday on the
greens in Blessington and they were absolutely destroyed with it. Whether we as a
council work hand in hand with the Gardaí in whatever which we regulate this
maybe in the future, but when you see a young life destroyed, you know, looking
forward to his first debut in four weeks' time and now he'll never box again. Thanks
for your presentation.
CATHAOIRLEACH: Thank you. Councillor Tom Fortune.
COUNCILLOR FORTUNE: Thanks Cathaoirleach. And, Jim, thanks for your
presentation. And also I'd like to express my thanks to you as well for the
commitment and the passion you have for what you do over a long number of years.
Your plan today was excellent. It's all been said, but just a couple of things,
observations really. Tidy Towns I would like to acknowledge as well do a super job
all over the county, and I am wondering does your department, do ye sit down with
Tidy Towns groups, for example, once a year and have a chat? Because obviously
the amount of knowledge and stuff they do is invaluable. In fact, I wondered when
listening to the conversation early on, the notion just came to my head, what if there
was a seminar every year where the Tidy Towns people could come to and feed back
their hands-on experience on the ground? It might add value to the great stuff you
have been doing.
The other comment I would make very, very quickly is just picking up on what
Councillor O'Neill said, Halloween. I think Halloween needs to be managed.
Because even where I live, like I have never seen as many fireworks displays. There
was about five firework displays in a small village at the same time, and bonfires.
Different topic and different discussion. But the Gardaí don't have the resources to
do it. But it is an area that needs to be looked at because it is getting out of control
and, as Councillor O'Neill said, the fireworks now are like rockets. You know,
accidents. Like, it's terrible that incident that Gerry has described, but more will
happen if it is not managed. The local authority will say it is not our responsibility to
do X, Y and Z. There needs to be a coming together of the guards and local
authorities to have it managed because it is getting out of control.
CATHAOIRLEACH: Thank you. Councillor Winstanley.
COUNCILLOR WINSTANLEY: Thanks, Jim. I raised a question actually at the
CPG earlier this morning and thanks for getting back to me so promptly with the

answer, but I thought it was worth raising the question again because I thought the
response was really helpful. What struck me when I was reading the litter policy
was the difference in enforcement rates over the years. So I noticed in 2024 there
was a considerable dip in the amount of fines that were being issued. I know you
touched a little bit in some of your answers but just to I suppose ask is there any,
like, resourcing issues in kind of following through with this strategy? Because, like
it seems very comprehensive, the dip made me wonder whether there's on issue there
with enforcement. Thank you.
CATHAOIRLEACH: There's just two more speakers so I'll bring them in before we
finish. Councillor Mulhall.
COUNCILLOR MULHALL: Thank you, Cathaoirleach. Just, first of all, just to
commend Jim and the team on the effort they put into delivering the plan. It's really
extensive. A huge amount of work has gone into it. I suppose good to see that
quarry trucks were included in there and the need for it to be covered. It's a
particular issue in West Wicklow. On the cigarette butts, yeah, they're a big issue
but I do you know, as Councillor Richmond mentioned, I think vaping materials
are becoming a big issue as well. You know, we see it more and more frequently in
particular the disposable versions and there's a lot of stickers being placed on bins
now as well. So it's double issues.
On the dog fouling and stuff, yeah, nearly impossible to police it. Tried lots of
different things through the years but very little seems to work. It's very much about
personal responsibility and unfortunately some people, you know, have no
responsibility amongst themselves. I would like to maybe suggest that the dog
wardens could be a little bit more visible and out a little bit more frequently in the
districts. You know, they're not going to catch anybody but at least if they were out
and about it might worry some people.
On the deposit return scheme, you know I wouldn't fully agree with how it's being
implemented myself. I did find it a little punitive on those who were already
recycling, but I would, like Councillor Scott mentioned, definitely see a 50%
reduction week in week out with collecting plastic bottles and cans. You know, it's
definitely making a difference but it is a bit punitive on those who were already
recycling.

1	
2	Just as Councillor O'Neill mentioned about the fireworks, I think the fireworks in
3	particular in recent years have tied in a lot with antisocial behaviour as well.
4	Certainly cases in Blessington where in the new park, you know, they were
5	effectively being aimed at people who were walking in the park. And I know the
6	guards were contacted and stuff but there was very little they could do. I also
7	sympathise with the young man who has been severely damaged there.
8	
9	Yeah, I think just the same as Councillor Alvey mentioned to congratulate the Tidy
10	Towns group on their successes this year, a really good year for Wicklow. And just
11	acknowledge that the team in Wicklow County Council do supply us all with
12	different materials year in year out, so much appreciated. Thank you.
13	CATHAOIRLEACH: Thank you. Councillor Murphy.
14	COUNCILLOR MURPHY: Thank you, Cathaoirleach. Sorry for coming back in
15	there, but similar to what Councillor Fortune said earlier. In the Tidy Towns we
16	(inaudible) in every Tidy Towns, but especially in our county, it is a marking
17	maybe for not having enough dog bins or what is the marking on that? That's
18	something to look at with the Tidy Towns. And also, I'd just like to say for someone
19	promoting environmental issues the prompt response of picking up(inaudible)
20	there two weeks ago from my own area in Johnstown, where there was dumping of
21	meat. I'm sorry to bring this up, but of meat that was dumped right opposite the
22	church in Johnstown. And family passing every day and other people as well every
23	day walking by, and it was meat I suppose from a dead animal. That's the level of
24	dumping that is being done in rural areas. The prompt response from the
25	environment section in Wicklow County Council was highly recommended and
26	thank you. But I mean we value what the environmental section is doing in rural
27	Wicklow because it's horrific what they have to pick up or whatever, so huge
28	acknowledgment to those.
29	CATHAOIRLEACH: Thank you. That's all the speakers. And I think you can see
30	by the amount of Members that did want to speak the high regard and importance
31	that we have for the work that you and the whole team are doing. So thank you on
32	behalf of all of us there.
33	MR CALLERY: Yeah, I suppose the big one there is the issue of fireworks, and I
34	agree. We shouldn't be seeing that level of fireworks in every town and community

across the county. They are dangerous. They cause a lot of nuisance. They upset and cause an awful lot of anxiety. And I think it is something we can play a role in promoting better practice there. I am not sure that we would have a regulatory role with relation to fireworks. I think that would be more for the Gardaí but I think we do have a key role to play around that messaging in fireworks. I think also that Halloween is something that we have known for a long time we need to rethink, and it is something that we have done a lot of activities in our county particularly through our libraries organising events for Halloween for children to provide an alternative to that tradition of bonfires and fireworks. It's certainly something I think that's going to grow in the coming years. Fáilte Ireland are particularly keen that Halloween would become a major celebration on the Irish calendar. I think that is something that Wicklow County Council should be thinking of, about how could we have a celebration of Halloween that would attract visitors into the county? You can see the success of the Púca Festival in County Meath. There is funding starting to be made available by Fáilte Ireland so I think we need to get our thinking caps on, on how we want to celebrate Halloween in a better, more sustainable and more inclusive way for everyone in the community going forward, while working on that issue of fireworks and how we can prevent the illegal distribution of fireworks and setting them off.

On the Tidy Towns. An annual seminar is something that we always try to do with our Tidy Towns groups. We haven't managed it every single year, but most years we have run a seminar of some sort for Tidy Towns groups. We had a meeting in September, a number of speakers in, and we had great participation by groups from across the county. It was a very well attended event. That is an important opportunity for us to talk to the Tidy Towns groups. We also run our Annual Sustainable Development Awards. Tidy Towns would always be at the centre of those awards. And again, it is an opportunity to hear from them about the projects that they have delivered over the year and give them recognition for the work being done. We learn a lot from them, and it's a great opportunity to share experience with the Tidy Towns groups through both events, it is something that we will continue to do going forwards.

On the dip in enforcement. The dip in issuing of fines in 2024. We actually had a dip in the number of fines in both 2023 and 2024 to do so, and it was as a result of

bringing in new regulation through the Climate Action and Low Carbon
Development Act that we now have the right to use CCTV. We've started using it
again. So last year, in 2024, we had I think 94 litter fines issued and this year, in
2025, now that we can use CCTV again, the number of fines already issued this year
has gone back up, it's at 133 fines issued to date. So hopefully that will continue
going forward and we will catch increasing numbers of people who are fly-tipping
and dumping in our county.
Again the quarry trucks, that's something that we will continue to work on with our
enforcement team. We do recognise it's particularly an issue in West Wicklow, the
amount of quarry trucks there, passing through.
Stickers on bins is something I will bring to the attention of our enforcement team.
Yeah, vapes are already on our radar as something we need to target and we will be
targeting them.
As to the dog wardens being more visible, there are only two dog wardens in the
county, and I think their priority is always the control of aggressive dogs, where
there's reports of dogs causing a problem in a community. But yeah, we work with
them to see about getting them out into the communities and helping to deliver that
campaign around dog fouling.
In relation to Tidy Towns marking for dog bins, I don't think you would specifically
get marks for having dog bins, but you certainly would get marks under litter control
for having a dog campaign of some sorts as a Tidy Towns group, and I think it is
something most of our Tidy Towns groups have addressed in some form or other.
Dog bins are probably not the way for a Tidy Towns group to go because the dog
bins have to be managed. But certainly, yeah, engage in the issue through campaigns
can help to win marks for local Tidy Towns groups.
Okay. And yeah, on that issue of the dumping of meat, yeah, it is quite horrible to
see some of the stuff that is dumped or fly-tipped around our county, and it is
important that we can respond quickly to remove something like that in the local
environment. So it is important that where people see it that they report it to us so

1	that we can act on getting it removed.
2	
3	I think I have addressed all the questions there.
4	CATHAOIRLEACH: That is great. Thank you Jim. We have a proposer and
5	seconder. Are we all agreed to adopt the litter plan. Great. Thank you. Thank you
6	again, Jim, and to all your team. Thank you.
7	MR CALLERY: Thank you.
8	CATHAOIRLEACH: Sorry, Councillor Behan.
9	COUNCILLOR BEHAN: Cathaoirleach, can I propose a time extension, because
10	we're having another presentation now, we have the suspension at half four and we
11	haven't even got to start the CE's report, and there are certainly a number of issues I
12	want to raise in that heading, please?
13	CATHAOIRLEACH: Yes.
14	COUNCILLOR BEHAN: Half five.
15	CATHAOIRLEACH: Seconded by Councillor O'Brien. Thank you. We will move
16	on to the next item which is to note the NOAC Local Authority Performance
17	Indicator Report. So Leonora is going to read this out.
18	MS EARLS: Members, you will be familiar with this. This is the 11th performance
19	indicator report that has been completed by the National Oversight and Audit
20	Committee, which NOAC. So there's 46 separate indicators over 11 different areas
21	and it does supply very meaningful data to every local authority and it helps us to
22	identify trends and practices right across the sector. So the report is just for your
23	noting. Thank you.
24	CATHAOIRLEACH: Thank you, Leonora. So the next item on the agenda then,
25	which we have brought forward, is to receive the presentation from Wicklow Civil
26	Defence. I would like to welcome Edel Mullen, who is the Assistant Civil Defence
27	Officer, and also to welcome Michael Carroll who is the Civil Defence Officer as
28	well. Thank you. You're very welcome, Edel.
29	ASSISTANT CIVIL DEFENCE OFFICER MULLEN: Thank you very much,
30	Cathaoirleach, for having us here today. Thank you very much to the Chief
31	Executive, Senior Members and Members of the Council, ladies and gentlemen. I
32	Edel Mullen. I am the Assistant Civil Defence Officer here in County Wicklow. I
33	am going to deliver a presentation today to talk about who Wicklow Civil Defence is
34	and what our role is in the community.

Next slide, please. So one of the main questions that we get asked on a daily basis is: Who is Wicklow Civil Defence? Unfortunately the name doesn't really lend itself like the Dublin Wicklow Mountain Rescue, or the Coast Guard. So we often have to explain we're not members of An Garda Síochána, we don't have roles within the Defence Forces. We are completely separate entity.

Next slide, please. So we fall between two organisations: Wicklow County Council and the Department of Defence. So they work in conjunction with each other. On the County Council side of things it's the normal operations, your day-to-day activities. And that's myself and Michael Carroll, the Civil Defence Officer, who are managing those activities. From the Department of Defence we receive our policies, our governance, planning, funding and our direction. So as you can see on the slide there we have our Civil Defence Towards 2030 plan. So that is a national plan for Civil Defence all over Ireland, and what our plan Towards 2030 is. So we have our five main pillars that I am going to speak now in a moment. Within those five main pillars we're going to basically progress and grow as an organisation, both in our volunteer capacity but also within our assets and the services that we provide.

Next slide, please. So as it currently stands we have 50 active volunteers. So there are only two paid positions with Wicklow Civil Defence, and again that is myself and Michael Carroll. But the Civil Defence a fully volunteer organisation, and I have full pride in saying that they are professional volunteers. So the services and the training and that expertise that they provide are second to none in my opinion.

Next slide, please. So where we train these volunteers is on the Mill Road in Greystones. So some of you may or may not be familiar with the Civil Defence Training Centre, because that's where it was newly built, but now at the moment we have bushes all the way around, and we are just beside Aldi there, beside the other council people. That's where all our training happens on a weekly basis. On a Tuesday night, a Wednesday night and a Thursday night class, and that's not also including or Baltinglass class as well. So in a week we could have 50 volunteers going in and out through the training centre.

So who calls out the Civil Defence? So we have our principal response agencies as we all familiar with: That is An Garda Síochána, the local authority, and the National Ambulance Service. We also have our fourth kind of unofficial emergency service, which is the Irish Coast Guard, who we work closely with. We obviously have the helicopter asset there. We also have the voluntary on the ground team that we work closely with as well as the other voluntary teams, such as Dublin Wicklow Mountain Rescue, the RNLI, Glen of Imaal, and Order of Malta. Any of these agencies can deploy the Civil Defence. They can ask for our assistance or we can ask for theirs. We make it our mission within Wicklow to liaise with these different organisations because these are the people we're going to need when the times get tough for whatever reason, whether it is a medical issue or whether we are going out in adverse weather, so these are the people we are going to need to know and work quite closely with.

So those five pillars I spoke about. There's five main pillars that Civil Defence operate under, and our very first one is radiation monitoring, search and rescue, emergency response, our community assistance and our first aid.

So our very first one is first aid. Within Wicklow Civil Defence as of recently we now operate up to a paramedic response level. That means when we go out on our ambulance we can offer the same cover of that of the National Ambulance Service in regards to the level of practitioner that we have. In our training capacity we have everyone from community first responder level up to emergency medical technician, and we can train those people within Civil Defence both locally and nationally. From acquiring these different medical qualifications the volunteers then going forth and use their qualifications both in the community and obviously at our events here that you see a few pictures of. So our medical response is teamed a lot with our search and rescue response as well. So the volunteers will go out, they might retrieve a patient from whatever kind of terrain that might be, as well as treat the patient. So the first aid is usually in tandem with one of our other pillars. But it is something that they quite enjoy, it is something that we enjoy teaching to them, and it is something that gets us out into the community quite a lot is our first aid endeavours. Because we do a lot of first aid cover for local events, particularly the likes of your Wicklow Hospice events and that, which we covered recently in the

glen to glen hike up in Laragh.

In our search and rescue efforts we have all of our volunteers trained up to a search responder level. So when somebody does go missing at any hour of the day An Garda Síochána can activate Civil Defence or any of the PRAs can activate Civil Defence, and then we have fully trained search responders ready to go. We also have specialist equipment, including a comms truck that we have built here in Wicklow. It is specifically built here in Wicklow and it is one of a kind in the country. We also have access to the Sarman ICU hub. So again, An Garda Síochána can activate Civil Defence or ask for Civil Defence assistance in locating a missing person in a way that we can input their phone number into this particular hub, a message can go out to the despondent and they can choose to reply or not reply, or they can click on the link that is received on their phone and that will give us an updated in-time version of where they are so then we can go and locate them and bring them home safely.

The comms truck that I alluded to earlier. So this is state-of-the-art-built and one of a kind here in County Wicklow. It was a bit of a labour of love here in County Wicklow, and it is something that we have put a lot of thought, time and effort into. So as it stands, this particular vehicle is a standalone vehicle in regards to communications and infrastructure. It can be self-powered, so it doesn't need to be connected to any type of shoreline but we can operate it at any time of the day in any location because obviously it has four wheels and we can move it and it is quite easily manoeuvred.

Now, we also have a drone team, a specific specialised drone team here in County Wicklow that has recently been -- that basically has recently been deployed to such high profile events. Like I'm sure you all hear of the event of the young child that unfortunately fell off the Cliffs of Moher. So because Civil Defence is also a national team our drone teams were deployed to respond to that event. Our drone teams are also deployed to missing persons events here in Wicklow and they have been successful in locating missing persons due to their infrared camera.

Our emergency response pillar. We are assisting the -- sorry, in our emergency

response we assist the Fire Service on a regular basis. So here in this picture you can see we are assisting in a flooding event, and this is something we assist quite regularly, particularly in winter. Storms are increasingly getting worse so it is something that we are called out for quite a lot. We can assist with pumping and flooding response along with the Fire Service.

And in our kind of weather capacity again, every year we get called to the likes of the Sally's Gap up the Wicklow Mountains due to snow tourists, as we like to call them. Unfortunately people think they can drive up and have a look at the snow but they don't really plan on how they're going to get in and out in the same vehicle, and unfortunately they bring young kids with them. This was earlier this year when we had a bit of snow up in the Sally's Gap and we had to deploy some of our people out to rescue people out of the cars, and some of the cars had to be abandoned for obvious reasons. Unfortunately due to capacity of the guards they can't be everywhere all at once, so the Civil Defence has helped out in that means in regards to getting people out.

Another thing we offer is swift water defence. This is, as I am sure you all recognise, along the river in Wicklow. It is quite a regular place we train. Another area we use is up behind Lynam's in Laragh. We have a specialist unit trained to do this and can be deployed at any stage for swift water flood response. It is our main kind of area of flood response that we would use these guys for, so if for whatever reason, like what happened down the Dargle many, many years ago, people lost their homes to flooding and they had to be evacuated from their home, so this team would be deployed to help evacuate people out. And when I say evacuate, professional volunteers. These people know what they are about, they're very highly trained and we can trust them in these situations to get the job done.

Another capacity we offer here under our emergency response is we have two fully kitted-out boats. Again our specialist boat unit are trained to use the equipment. We have an SRK525 and we have a Whaly boat. Attached to our Whaly boat we have state of the art sonar equipment. We are the only emergency service within Wicklow that has sonar capability. Sonar is used if somebody goes missing and we need to locate them quite rapidly under the water. As you can see there that's what shows up

when a sonar is deployed over, say, a bicycle and that's the image that comes back. Our volunteers are trained to use the equipment. They're the only ones in Wicklow that have it. In recent events, like what happened in Wicklow Harbour we had a person going missing, so this type of technology was called for but was stood down just before we put a deploy into the water.

Quite close to our hearts is our community events because that's why we're here. We're here to serve our community in any way, shape or form. The community events that we're involved with is Darkness Into Light, the Glen to Glen that we did a couple of weeks ago. A lot of these events can't go forward unless our volunteers are there to offer medical cover, so that we why we train them to such a high standard so they can support at these events, and it is something that is very important to us. I am sure you all remember after the Covid 19 pandemic we were very quickly hit by the Ukrainian crisis. And again, part of community effort is that we can provide a community hub for lack of a better word, we can set up these rest centres and take people from flooding or such as what happened with the Ukrainian crisis. This is a few years ago now where we had to take over the community centre in Arklow and set up beds as well as tent areas and larger tent areas for bigger families that they could have some semblance of privacy and normalcy while they were being rehomed. Our volunteers rose to this occasion very, very effectively and manned the centre 24/7. These are volunteers.

Our last pillar is not the least effective but it is the one that we have done for longest, but it has a very, very small role nowadays. So it is radiation monitoring. Radiation monitoring is the initial reason that the Civil Defence was set up back in 1950 and we still continue with that work today. Every year the Civil Defence nationally is deployed to collect soil samples in your local area and then deliver those soil samples back to the Environmental Protection Agency so that they have a database of what samples are collected so in the event of a nuclear fallout we know what our baseline is, we know what our normal is and we know what is going on in our area. Again these volunteers are trained to collect these soil samples by using a chronic device that you see there in the presentation and deliver those soil samples back. So again going back to your professional volunteers that are very highly trained.

Another service we offer within the Civil Defence is critical incident stress management. As you can imagine when we're going out searching for despondent, missing persons, or even when we are treating someone with quite high acuity injuries, critical incident stress is something that anybody can feel at any time for any reason, it just has to be a high stress situation. So we have critical incident stress volunteers that go out to the classes and talk through some of these difficult situations and support them through these difficult situations. Within Civil Defence there is a counselling service that we offer. We can give them a card to a service that's offered through the Department of Defence that the volunteers can call at any time to support them through whatever they have been through.

Some of our taskings as of yet. So for our quarters two and three we've had 40 tasks so far. So that equates to 2,253 volunteer hours within County Wicklow. So for search and rescue we have had ten taskings so far in the area of Wicklow Town, Bray, Bray Head, Glendalough and Wicklow Harbour, and we assisted Kilkenny also that year. That by itself is 570 hours of searching for missing people. Within our community assistance we've had 29 events providing medical cover. There are multiple events. Like I said, Darkness Into Light, and we cover sport days with the likes of Cumann na mBunscol, and are very fortunate to be invited to the Michael Dwyer 200th anniversary event again that we also covered and we were delighted to be invited to. We also covered the lights of mountain bike events. So you might see us at the likes of Djouce Woods, Ballinasloe, again covering those events and giving medical support so they can run their event safely, and that equates to 1,183 volunteer hours.

We are also part of a national event as well, Fleadh Cheoil, this year. So for Wicklow Civil Defence alone that equated to 300 hours, volunteer hours covering the Fleadh Cheoil in Wexford that we were invited down to by the Wexford Civil Defence. We got to work along An Garda Síochána, our Wexford Civil Defence colleagues, as well as the Order of Malta, and it was something that our volunteers were very excited to attend as we attended last year as well. It is something they look forward to. They get to test their skills, they get to engage with the community and the community see them out in the public eye.

Other interagency training that we take part in every year as well is that with Dublin Wicklow Mountain Rescue. We also have a couple of events to plan next year to work with them. Again they do their highland very specialised search skills and we do our lowland skills, so we complement each other by calling each other to all these different events that we might not have the capability to cover so we call in our others agencies to work with. We also work quite closely with the Coast Guard and Wicklow Fire Service.

Recently we celebrated 75 years of Civil Defence. And here up in the top right-hand corner you can see one of our longest serving members, Sheila O'Neill from Baltinglass. Sheila this year now has celebrated 62 years in the Civil Defence. That is 62 years of 75 years of service. She's one of the longest serving members within Ireland. Sixty-two years here is Wicklow Civil Defence. I remember Sheila when I first joined as a Civil Defence volunteer 14 years ago and she's still sharp as a tack as she was then. You get nothing by her. So it was very important for Sheila to be there with us on our 75 years and receiving the medal, the 75th medal from Minister James Lawless.

So ongoing training that we have. So, as I said, we just celebrated our 75 years of Civil Defence. Currently we have four volunteers going forward for the national EMT course which myself I am helping to teach on. What this means for them is they have served their time in Civil Defence, they have done their hours and years and now they want to progress further into emergency medical technicians course. What that means is that they will be basically Level 1 Ambulance Operators. So what we give back to our volunteers is national training certs, we give them our time, as much as we can anyway, but we give them their training certs so they progress in their own careers. So with this particular qualification these four volunteers can then progress to work on an ambulance in the private or public sector. But they have given their time and their expertise so it is a little something small that we can get back to them. We have also brought on board our newest instructor for food safety, and that particular instructor again has given her time to the Civil Defence over the years and has shown interest in this particular subject, and what they wants to do then is ensure compliance in handling and preparing food. Within Wicklow Civil Defence we have a particular piece of equipment, we have a truck that we use for

equipment and also for the maintaining of volunteers when they are out, whether that
is a cup of tea, cup of soup, anything, just a warm meal when they're out in the rain
searching for someone that is missing. So this particular individual is now going to
make sure that everything stays to the high standard that it is at already and make
sure we bring on new volunteers that can help the volunteers when they're out with
preparing these meals and keeping them going.
Missing persons search instructor recertification. We have three of our instructors
going forward to re-cert in that. So we do have missing persons search instructors.
So again, our volunteers. We train our volunteers to be the instructors. We can't do
it all for them. They're going forward, they are becoming their own experts and they
are instructing their fellow volunteers on how to search for missing persons. Those
three people are going forward for certification.
Our minimum training standard that we hold our volunteers to is a minimum of
manual handling, CFR, which is our community first responder, their Tusla Cert and
their Garda vetting. That is the minimum training standard required of all
volunteers. So when you meet a Civil Defence volunteer this is the minimum
•
training standard that they all carry before they go out into the public. And, as I said,
we have a couple of inter-training days coming up in Laragh with water drones and search and rescue.
search and rescue.
So as of tonight we will have seven new Wicklow Civil Defence volunteers coming
on board to join the team. They will be trained in their manual handling, their CFR,
their Tusla certs, and their Garda vetting, and then they will go forward for their
search responders and they will be trained by their volunteers to go forward in these
other specialty groups. Like I said, we have the drones, boats and search and rescue,
so they're quite a special group. It is up to them usually to run their own training and
bring their own colleagues along.
Thank you very much.
CATHAOIRLEACH: Thank you, Edel, on a very comprehensive presentation. We
always knew how much the Civil Defence work do but never to that extent.

Congratulations to you all. I am going to pass to Orla Finn.

1	COUNCILLOR FINN: Thank you very much. Edel, I wanted to thank you, your
2	colleague and all the volunteers for everything that you do. I have been at numerous
3	events that you've attended and I am well aware that without your attendance at these
4	events they may not actually be able to go ahead. So you do provide an invaluable
5	service to the community and to the county, and I just want to say thank you very
6	much.
7	CATHAOIRLEACH: Thank you. Councillor Shane Langrell.
8	COUNCILLOR LANGRELL: Thank you, Cathaoirleach. Thank you, Edel. And I,
9	suppose Edel, I'd like to thank you and your crew for what yous do. I don't live too
10	far from the Sally Gap, and when these whatever we want to call them go for their
11	snow drive in the winter it's very frustrating, and you guys you put yourselves out
12	there in drifts of snow while we're all at home sitting around a fire, and it's very
13	much appreciated. So, Edel, thank you so, so much to you and your crew. Thank
14	you.
15	CATHAOIRLEACH: Thank you. Councillor Pat Kennedy.
16	COUNCILLOR KENNEDY: Thanks, Cathaoirleach. Edel and Mike, can I just say
17	the Civil Defence is something that's quite close to my own heart as I was in the
18	Civil Defence many, many years ago when the Civil Defence was up in Glenmalure.
19	And I remember back in the day when it was Tommy Duffy from Arklow who used
20	to come out and train us in those days. Tommy Duffy himself served as a Councillor
21	back in Arklow in the late sixties and we had great time for him. But the very
22	amazing work that yourself and Mike, and all the members of the Civil Defence do,
23	and you do it under the radar, you just go and do it, and I remember the work you
24	were doing during Covid as well when you were out bringing shopping, bringing
25	medicines to people, and you just get on with the work, and you are very, very
26	valuable resource in this county and the commitment and time that you give is very
27	much appreciated, especially in the rural areas and I'm sure it's in the urban areas as
28	well but I know up our way you're highly thought of. I want to thank you, both of
29	you, all of your team and volunteers that work with you for the very amazing work
30	and service you give to this county. Thank you.
31	CATHAOIRLEACH: Thank you. Councillor Dermot O'Brien.
32	COUNCILLOR DERMOT O'BRIEN: Thanks, Cathaoirleach. And thanks, Edel, for
33	the presentation. It is actually fascinating how in the modern world when we're often
34	awarded or get paid or get looked after or get something in return that you're there in

the middle of the night to give with no expectation of a return in terms of finance or
a tangible concrete reward other than to be part of something that has been around
for a long time and is rooted in community. So I'd love to get a sense of even from
your perspective, Edel, like, what do you think the hook is? What is it that brings
people in to want to be part of that organisation in a time when again time is precious
and people have lots of commitments? And I'm sure all you guys have lots of other
things going on, all the volunteers, but they still find time, make time for this work
and we rely on it, which I think is also really interesting. I come from the youth
work world and we have a similar view of this professional volunteer concept,
because it's astronomical the capacity of field, the levels that people are operating at,
and just because they're not paid doesn't mean that they're not the highest level in
their field. So again, the only time I ever feel like my drone is like a Fisher Price toy
is when I talk to you guys about drones. Really huge credit to you and the team.
Thank you, Cathaoirleach.
CATHAOIRLEACH: Thank you. Do you want to just respond there? Thank you.
ASSISTANT CIVIL DEFENCE OFFICER MULLEN: Thank you very much for
your kind works, Councillor O'Brien. The hook is community. That is the hook.
They get to see the hours and the results of feeding back into their own community,
and that's the feel good factor I suppose for lack of a better word. But yeah, that is
the hook. Because they can see their hours, efforts and time going back into their
community and feeding back into the people that they might not know, they might
not know them, but they know it is for their county of Wicklow, it is for the nation of
Ireland. That is the feel good factor that they get from it. Thank you.
CATHAOIRLEACH: Thank you, Edel. Whatever the hook is, we all can rest
assured that our community is safe. Thank you to you, to Michael and to all the
volunteers for all the amazing work that you do. Thank you very much for your
presentation today.
ASSISTANT CIVIL DEFENCE OFFICER MULLEN: Thank you very much.
Thank you having us.
CATHAOIRLEACH: So we will go on to the next item then: To consider the Chief
Executive's Monthly Management Report, October 2025 (copy attached). I will take
these three at a time, and again if you keep them at three minutes so we can get
through as many as possible. Thank you. Councillor Paul O'Brien.
COUNCILLOR PAUL O'BRIEN: Thank you, Cathaoirleach. Just a couple of

things real quickly. First of all, I want to congratulate my own district manager Brian Gleeson. We got an email this morning saying he's now the new Deputy Chief Executive. But I also want to pay tribute to the outgoing Deputy Chief Executive, Michael Nicholson, who has done trojan work for us, was always very approachable, even when there was a small matter that might have been small to him but big to us. I want to thank him for his courtesy, his professionalism and I wish everyone well in their new roles. Last month I brought up about a pedestrian crossing on the Ballynerrin/Leg of Mutton just in terms of a planning that went into a pedestrian crossing coming out on the Leg of Mutton. Planning made them do it. Now it's been fenced off because it comes out on to a busy junction. So I am looking for an update on that. Something that concerns me too is grants for older people and social housing. I am dealing with a number of people who need grant access for example for the likes of bathrooms and so forth, one is stuck in hospital, can't come home, but I believe we have run out of funding. It is something that is of serious concern to me given that we've another two months in the year.

Councillor Behan might bring it up in terms of looking for an update on the N11. The last two weeks I have been inundated with people, it is getting to the stage where it is affecting their mental health. Just reading your email earlier on that you sent us out in relation to the meeting with the Minister and the Tánaiste and the Taoiseach in relation to housing, I am delighted you brought up about congestion on the N11, about the lack of a train service south of Greystones. Because to me, the actions of Taoiseach and the Tánaiste, it was a cheap shot at local government to be quite honest to you blaming us for their failings when it comes to housing. It is all right to say we're going to go from R1 to R2, but we're the ones getting it in the neck about lack of school places, as if we can do anything about the congestion on N11, about the lack of train service, about the lack of sport infrastructure. So while it is well and good and we acknowledge we live in a housing crisis and have done so for almost a decade and it is not getting better, it is getting worse. And I think to lay the blame at local government is a cheap shot, unnecessary. And until they start addressing the other issues around housing it's going to get worse. So yes, they can come out with

the headlines, yes, they can come out with the plans, but they need to give local
government the funding to crack on and get on with the work of building houses and
supporting our communities. Because as someone said to me last week, and it's very
apt, we need solutions now and not in a few years' times. Because headlines are not
going to deliver housing, they're not going to deliver transport or sporting
infrastructures. Thank you very much for raising them. It is something that I had
planned on saying today anyway until I got your email. I look forward to your
response. Thank you, Cathaoirleach.
CATHAOIRLEACH: Thank you. Councillor Joe Behan.
COUNCILLOR BEHAN: Thanks, Cathaoirleach. In relation to the last item there
that Councillor O'Brien mentioned, the meeting that the Chief Executive attended
last Thursday. I am glad we got the report today. I was disappointed to hear about it
from Simon Harris on a Facebook post that day. I would have expected the Chief
Executive to be giving us that report last Friday. It is very disappointing that we
were kept out of the loop before the meeting. You knew you were having a meeting,
Chief Executive. There was no input from the Members into that meeting and I
would certainly take issue with it being presented now as being something where you
fought the case for Wicklow but that was it. Councillors around this table made the
argument, including Councillor Dunne, I don't know if he's still online, about
changing the designation from Residential 2 to Residential 1. That was made on
several occasions and you and your planning officials, Chief Executive, said we have
enough lands zoned in this county to manage for the foreseeable future. I read that
meeting as you as Chief Executive of Wicklow County Council being called in by
the Taoiseach and the Tánaiste to explain why you have not acted more quickly in
relation to the zoning of enough land for housing for this county. Because many of
the Members of this Council would agree that we are not doing enough but we're
being completely obstructed by national policies but also by the planning policy in
this Council of the permanent planning staff, which is that we don't need to zone any
further land. So I want to ask you specifically, Chief Executive: Did you explain to
the Taoiseach and the Tánaiste that we the Members have said we don't have enough
land zoned, that we have challenged your view on that? That's number one.
Secondly, I would ask again in relation to the difficulties that you mentioned that are

Secondly, I would ask again in relation to the difficulties that you mentioned that are facing the Council, and there's no doubt there's quite a list there, the whole question

of the N11, and the fact that the Government who called you into the meeting have suspended funding on improving the N11, did you specifically tackle them on the fact that the Government are blocking the funding of widening the N11 which would increase the capacity of the N11 but also deal with the horrible issue of the Herbert Road closure which is still a festering wound for many, many people in Bray?

I would certainly be interested in your answers on that, Chief Executive, but I want to move on as well to something else that's very, very controversial and very topical at the moment. I doubt if it came up at your meeting. It certainly isn't in your account. It's the question of the Cliff Walk and the fact that you as Chief Executive are going to be representing the people of Wicklow at a meeting with the Tánaiste at this next meeting of the Cliff Walk Task Force. And I want to ask you a few specific questions because we got an email there last Friday from Ms Carroll saying that the preferred options are being costed. What are the preferred options, first of all? Has the costing been done? What is the projected costing? When is the meeting take place? And when you go to the meeting what is your expectation of that meeting? In particular, what is the timeline for ensuring that work begins on fixing the Cliff Walk once and for all? And what is the process by which that timeline is going to be actually brought into effect? And when will we as Members receive a full report on your meeting with the task force? I attended, as quite a few Members did, a meeting in Greystones where there was huge annoyance expressed at the meeting about what is perceived to be the lack of action by this Council in dealing with this issue, not just recently but over the last number of years. And I look at the paper today, there's I think an email or a letter has been sent into you representing quite a lot of businesses in Wicklow who are talking about the number of businesses that are closing because of the absence of the Cliff Walk. So this is a golden opportunity. The Tánaiste is forever telling us he has an open door. He set up a task force, a task force that has only met once, however it is meeting sometime soon and hopefully, Chief Executive, you will get to tell us more about this now in a minute. But we need to be sure that we are going in looking for sufficient money that we will be able to get this walk open as soon as possible. I think the people are expecting us to do that and I think many will be expecting the response you are going to give today to those questions. Thank you.

CATHAOIRLEACH: Thank you. Councillor Avril Cronin.

COUNCILLOR CRONIN: Thank you very much. I just have two issues I'd like to bring up. The first one is in relation to Colbinstown Bridge. It's on the border of Wicklow and Kildare but it is actually in Wicklow. Last February €90,000 was allocated for bridge rehabilitation works for Colbinstown Bridge and today we have had no progress. What has happened with that 90,000? I first raised the issue in March 2023 and there doesn't seem to be any development at all on it. It is of serious concern. It's an old bridge. It badly needs works to cater for the volume of traffic. But unfortunately I am not making any progress in my queries to see where it stands in relation to an upgrade and where it stands with regard to the funding that was allocated. I have been told on numerous occasions that it's with the Department or that it's with different individuals but I haven't been able to get any response on where the works are and where the 90,000 is that was allocated. And my second point is just in relation to the N81, and I understand that there is huge frustration in the east of the county in relation to the halting of development of the N11 but unfortunately, as we raised time and time again, the N81 has been shelved for a number of years now. I was in a presentation with the SPC, the Economic Development SPC, and we had people in from the IDA in relation to investment in Wicklow but unfortunately we're never going to attract any business into -- any big industries into West Wicklow without the proper infrastructure in place. In response to a recent parliamentary question the Minister said that Wicklow County Council need to engage with TII. I am wondering what level of engagement is taking place? Myself and Councillor Glennon, as we stated before, made a submission to the National Development Plan in relation to getting the road back on the national agenda, and I am wondering what level of engagement is taking place within the Council. I know Councillor Glennon is going to speak on that topic so I will leave it at that, and you might be able to respond when he makes his contribution as well. Thank you. MS O'GORMAN: Thank you, Cathaoirleach. And thank you, Members. I'll ask Joe Lane to come in on the Leg of Mutton update and on the bridge as well for Councillor Cronin. And I might ask Michael to comment on the DPG funding in a moment.

with the Taoiseach and the Tánaiste last week. We got invited at very short notice. As I said, four chief executives, not the Greater Dublin Area, not -- I don't understand the rationale for the four counties that were called in. I was on annual leave on Thursday and Friday. I came in off annual leave to attend that meeting. That's why I only sent the email today, Councillor Behan, and I apologise for that. The meeting was very much framed around the National Planning Framework and housing delivery. And while we were commended for what we have done on our social housing and affordable housing, the sense in the room was very much that they want the Council to do more in terms of zoning of land. When the planning team assessed the new requirements when they came out in the summer we had adequate land zoned. We have now been asked at that meeting on Thursday to increase again. I think our housing target was 2,084 per annum, Minister Cummins says he wants us to deliver more than 3,000 units per year. I outlined to those present the proactive and pragmatic nature of our Council rezoning land. I have to say my experience has been that the Members in this chamber have never been found wanting with regard to listening to the needs in terms of zoning land, but I also outlined to them, as we have had this conversation in the chamber, the guidelines have a set order to things. You develop from the inside out. And that's how we approached all of our most recent plans, our framework plans and our local authority plans. That resulted in some lands being recommended as RN2 and that made sense in the sequential order of planning of our towns and villages. To move those lands from RN2 to RN1 is discounting the need for infrastructure, and I made this point in the planning and delivery of housing and zoning of lands. I made the point at the meeting that the zoning of lands alone will not deliver one extra house. It needs infrastructure. It needs the N11 to become a motorway fully, what it deserves to be. It needs proper public infrastructure to serve the people of Wicklow, both on the east and the west of the county. As I said, the train service isn't a train service beyond Greystones. It is infrequent at best, and it is overfilled. There is no proper public transport in West Wicklow. So West Wicklow cannot develop in the way it should naturally develop. I raised the issue of wastewater capacity in West Wicklow, I raised the issue of freshwater capacity in the Arklow area, acknowledging the fact that we have a new wastewater treatment plant in Arklow and you will see it start to happen, planning applications are coming in, but not a single decision of this Council to zone more land will deliver one extra house. That's the reality of it. I made the

1	point that we need the agencies of the State to work together. There's no point in any
2	of us here making a decision to allow a thousand units go ahead if it's going to be
3	stymied in the next three steps along the way.
4	
5	In the room was the Taoiseach and the Tánaiste, the Minister for Housing and
6	Minister for State and Housing, and a lot of advisers, and myself, Joe Behan and
7	Helena Dennehy came with me. Sorry, Joe Lane. We were in the room for 20
8	minutes.
9	COUNCILLOR BEHAN: Twenty minutes?
10	MS O'GORMAN: Twenty minutes. We got the invitation on Tuesday, we had to
11	submit a presentation by lunchtime on Wednesday. They had read the presentation
12	which was basically a presentation of all our numbers. We didn't get to present
13	because they were running behind time. So basically 20 minutes was the best we
14	had to make that position. That's why I sent the email today. I am happy to discuss
15	with everybody where we are at with it.
16	
17	We are being asked to do a lot of heavy lifting as a county. Wicklow is a very
18	desirable place to live, I get that, but it can't be to the detriment of the quality of life
19	for people in Wicklow. I would stand firmly behind that. I understand the
20	frustration of people travelling on the N11. It doesn't affect me in the same way but
21	it's been taking me five hours to get to work roundtrip for the last month or so. That
22	is not the N11's problem. That is a different problem again. That's the M50. But
23	that's my choice. So I can only begin to appreciate the level of frustration that the
24	citizens of Wicklow have in trying to get to and from work.
25	
26	On the N11 specifically, we didn't obviously get into a long discussion about it.
27	They accepted that there is a deficit in infrastructure and the Taoiseach was very
28	clear and said you zone land, we'll deliver the infrastructure. So we are now in a
29	situation where we are being asked to revisit our plans not just to take into the new
30	housing target by way of a variation to the Development Plan and just change our
31	core strategy, they have asked us very much to look at moving from RN2 to RN1
32	with obviously it's and I hate to say it, it's a matter for the Members, but I think
33	you know it would be the right thing to do where there is service land that can
34	deliver housing. We've also then been asked to look at additional zoning that's

serviced around the county, lands that are serviced around the county, and as I set out
in the email that's going to take significantly longer lead in time because it will
require SEA and AA screening. But it is a journey we have been asked to take. I
don't think we can walk away from it. I don't think any of the Members would want
to walk away from it. But it is very challenging. And I don't in good conscience
know how we can zone an additional, I don't know how many hectares of land
without a single spread of additional public infrastructure. It is difficult.
I might pass over to Joe Lane to answer on the Leg of Mutton and the bridge. The
Cliff Walk, sorry.
COUNCILLOR BEHAN: Just on the Cliff Walk?
MS O'GORMAN: On the Cliff Walk, there is a meeting scheduled for the 25th of
November, it's only been confirmed this afternoon, at 4 pm in Government
Buildings. My expectation of that meeting is when we first meet, it's the only
meeting held at that Cliff Walk Task Force, I told the Tánaiste that when we met
again I would be looking for a funding package, that's what I would be expecting.
To be fair to Jackie's team and the team in Greystones MD, the RPS consultants
work has been done, it's been presented to the chamber and Cliff Walk Management
Committee, and it has looked for their input into your views on what you see as the
most feasible route forward. That's been costed up. I don't think that's been
completed. I might let Jackie come in on that. I intend to present that package to the
Tánaiste and ask where are we getting the funding from. The committee want, the
task force want the Cliff Walk open as soon as possible. We want the Cliff Walk
open as soon as possible. But it has to be done in a way that is long-term
sustainable. I do appreciate the impact it is having on both business communities
either side of the Cliff Walk and we are conscious we need to get it open as soon as
possible.
I might ask Jackie to clarify on figures for you but I will go to Joe first if that's okay.
MR LANE: On the Colbinstown Bridge, there was temporary works done early on
last year. Consultants are being appointed to progress to design on the bridge with
an idea it will progress in 2026. On the Ballynerrin pedestrian I will have to look at
that. I am not familiar I am familiar with what you are talking about, I am not
familiar with the link between that and the road. I will have to get that one checked

1	out.
2	MS O'GORMAN: Michael.
3	MR NICHOLSON: Thank you. Councillor O'Brien, yes, we do get a specific
4	budget allocation every January for social housing, the EPGs, and private housing.
5	In previous years we wouldn't be too worried, we could top it up with internal capital
6	receipts, we don't have that luxury anymore, our budget is our budget. So we have
7	ran out of money for this year. However, I have retained a small amount of
8	emergency funding for an emergency situation, so if you talk to me afterwards,
9	Councillor O'Brien, because it's that actual scenario I had in mind, if somebody
10	cannot return to their family home for want of a grant. So talk to me afterwards
11	about a specific case and we'll try and sort something out. Thanks.
12	MS CARROLL: Thank you, Cathaoirleach. The Bray and Greystones members
13	have submitted the preferred options for remediation of the Cliff Walk Route. We
14	are currently costing those remediations. Primarily on the Bray side it is the
15	remediation of slopes, primarily on the Greystones side it is the rerouting of the
16	walk. It'll be a conservative estimate I suppose because we have to bear in mind that
17	we are talking about individual property rights and landowners on the Greystones
18	side and looking at the options for the spraying and the netting on the slopes of the
19	Bray side. I am very near completion of that cost estimate, that report, and I will be
20	submitting it to the Chief Executive as soon as that's completed. As I say, some of
21	the costs are going to be hard to anticipate bearing in mind that they're relating to
22	particular tracts of land that we are going to have to purchase and negotiate that
23	purchase with landowners, and also the fencing and remediation of areas of the
24	walks as well. So I hope to have that report finished in the next day or two, and I
25	will be submitting to the Chief Executive for the onward submission to the task force
26	for funding passage request in that area.
27	MS O'GORMAN: Just to say we'll circulate that to the Members.
28	COUNCILLOR BEHAN: Thank you.
29	CATHAOIRLEACH: As it's half four, we'll move on to the suspension of standing
30	orders. I am going to ask Helen to read out the wording of the suspension of
31	standing orders.
32	MS PURCELL: So the suspension of standing orders is proposed by Councillor Peir
33	Leonard and co-seconded by Councillor Tom Fortune and Councillor Joe Behan.

The wording is: "That Wicklow County Council write to the Minister for Enterprise,

1	Trade and Employment, the IDA, Enterprise Ireland, and other relevant State
2	agencies to convey the deep concern of this Council regarding the announced closure
3	of the Merck facility in Arklow in 2028, and to seek assurances that a comprehensive
4	local transition and support framework will be established at the earliest opportunity.
5	
6	Further, that Wicklow County Council actively participate in any task force
7	established, and that the Chief Executive coordinate with the Local Enterprise Office
8	and local stakeholders to ensure timely communication of supports, promote
9	retraining and upskilling, assist affected small businesses, and protect local
10	employment and economic stability."
11	CATHAOIRLEACH: Councillor Leonard, did you want to come in on that?
12	COUNCILLOR LEONARD: Yes, please, thanks very much. I just want to thank
13	Councillor Tom Fortune who is in charge of the Economic Policy Committee for
14	seconding this, and Joe Behan.
15	
16	The announced closure of the Merck facility in Arklow is a major blow - not only for
17	the 100 skilled workers directly affected, but for the wider Wicklow economy.
18	These are high-value technical and manufacturing roles that sustain local families,
19	small businesses, and community confidence. The ripple effect will be felt across
20	Arklow's service sector, retail, and local suppliers, so we need an urgent,
21	coordinated response.
22	
23	Wicklow County Council must be fully involved in a local transition task force from
24	the outset - working with the IDA, Enterprise Ireland, the ETB, and our Local
25	Enterprise Office to secure retraining and redeployment supports. The skills
26	developed at Merck are highly transferable to growth sectors like renewable energy,
27	advanced manufacturing, and data centres, and we need to keep that talent within our
28	county.
29	
30	We also need early clarity on the future of the Merck site. It's a prime, serviced
31	industrial location that should not be allowed to lie idle - it must be marketed
32	proactively as part of a long-term strategy for sustainable industry and green
33	investment in Wicklow.

Finally, local SMEs that depend on Merck's presence will need targeted assistance to
stay afloat and adapt. This motion sends a clear message: Wicklow stands with the
workers and the community of Arklow, and we expect the State agencies to deliver a
fair, forward-looking transition. To ensure this happens, the Council should request
regular progress reports from the task force and State agencies, so we can track
outcomes on retraining, job replacement, and site redevelopment - and hold all
parties accountable for delivering real results for the people of Wicklow. Thank you.
CATHAOIRLEACH: Thank you. I have made a note of who wants to speak on the
Chief Executive's Report but if anybody wanted to speak on this. Councillor
Fortune. Councillor Langrell, could you just knock yourself off and I will bring you
back in?
COUNCILLOR FORTUNE: Thanks, Cathaoirleach. Yeah, no, I just want to
second Councillor Leonard's proposal. And she has articulated it fully what the
situation is and outlined it very well. I want to commend her as well. Obviously this
is not happening until 2028 but I think now is the time to be preparing for it. And
when we get back to the Chief Executive's Report I want to make a couple of
comments about the IDA, and the IDA and people like that will play a serious role in
it. So I think what we need to do is approve this motion by Councillor Leonard and
immediately put in train contacts with the relevant agencies, and as I said I'll talk
about it IDA when we're talking about the report. Okay.
CATHAOIRLEACH: Thank you. Councillor Bourke.
COUNCILLOR BOURKE: Cathaoirleach, thank you very much. I'd like to support
this motion proposed by Councillor Leonard and seconded by Councillor Behan. It's
very timely. I met with Deputy Brennan and the Minister Bourke actually last week
in Arklow. He happened to be down at Servier visiting them. I think that anything
we can do we should be doing to help salvage something from this I call it a debacle
more than anything, because from listening to the workers that spoke to us they're all
very skilled and operating in a very profitable business it seems to be at the moment,
it is not in trouble or loss-making. So it is a shame that the executives of this
company are making a decision affecting the lives of young people who recently
have taken out mortgages and are setting up a family and home. We need to do what
we can as a council to ensure that we mitigate this decision and try to find a
replacement, help to find a replacement industry. We have a very viable going
concern here that needs to be helped. Thanks very much, Cathaoirleach.

1	CATHAOIRLEACH: Thank you. Councillor Kennedy, did you want to come in?
2	COUNCILLOR KENNEDY: Yes. Thanks, Cathaoirleach. I fully support this
3	motion as well, as Councillor Bourke has outlined already. I won't go over it and
4	hold up the meeting. I want to support it as well.
5	CATHAOIRLEACH: Thank you. Councillor Murphy online.
6	COUNCILLOR MURPHY: Yeah, thank you, Cathaoirleach. And, yes, I echo what
7	the other two Arklow Councillors have said, and Councillor Leonard has brought up
8	very sensitive discussion I suppose and again I would like to strongly say that I think
9	the IDA and a lot of other stakeholders can be involved in it, and my fear is that
10	(inaudible) start of locally and nationally being in danger. So it's very important
11	that we meet with the stakeholders involved. Can I just actually say that Councillor
12	Mahon has had his hand up there for a long time and he hasn't been brought in there?
13	Okay.
14	CATHAOIRLEACH: Thank you. He's next to speak on the Chief Executive's
15	Report. I will bring the Chief Executive in first.
16	MS O'GORMAN: Just very briefly, Members. Look, I thank Councillor Leonard
17	for the motion and for the support of the chamber. I think it is hugely, hugely
18	important we are proactive here. We have the Local Enterprise Office and the suite
19	of supports that are there, so we will use that office to reach out to the workers and to
20	the different agencies because there's very strong working relationships there. As it
21	happens, the Mid-East Region Skills Task Force is meeting in the next couple of
22	weeks, Regional Task Force, in Wicklow. So we will highlight the need for
23	intervention at State level too. Thank you. We'll get that off today.
24	CATHAOIRLEACH: Great. Thank you. So I think that's all agreed. Thank you,
25	Members, and thank you, Councillor Leonard, for that. So we will go back to the
26	Chief Executive's Report, and Councillor Pat Mahon is next.
27	COUNCILLOR MAHON: Thank you, Cathaoirleach. Yeah, I will be very short.
28	The RRDF in Baltinglass. It was one of the first things I raised in the chamber when
29	I came on to the Council and that's a year ago believe it or not, and it is still not
30	advanced. We're gone beyond trying to tell people tenders, reports, et cetera, et
31	cetera, and all the people involved are asking when is this project going to get
32	finished up and get delivered? I also want to know who is responsible for delivering
33	the project and who is on the ground delivering the budget? We just need to get it
34	off the ground. It seems to be gone dead in the water. There's report after report

1 after report. Engineers' report, costings. We get reports, reports, reports. They need 2 to know when is this going to take place. When is it going to happen? That's all. 3 Thank you. 4 CATHAOIRLEACH: Thank you. Councillor Louise Fenelon Gaskin. 5 COUNCILLOR FENELON GASKIN: Thank you, Cathaoirleach. First of all, I just 6 want to thank the Chief Executive and Michael Nicholson for progressing the works 7 in Farrankelly. As you know, it's one of my pet projects. But what I would like to 8 know is when can we expect to have a full detailed report on the works to be done 9 per the house and also the costing, which is very important, from the new system, as 10 we would like to see the extent of the survey that has been finished and also the 11 timeline for the works. It is great to see the works starting there, they have been 12 measuring doors, and it is happening. It is great to see the work, but it would be 13 great to see what is the whole project and what is the extent of it. 14 15 I will just say just on the Cliff Walk, and agreeing with Councillor Behan, from the 16 Greystones side, that I work closely obviously with the businesses and public there 17 and did stand up in front of them at that meeting, whether I was going to be shot or 18 not, but just something, can I ask that before the task force meeting to be sure that it 19 is productive, especially when you say like the other day you only had 20 minutes at 20 a meeting, that the relevant reports and everything are in before them well in advance 21 so as that that meeting is productive for a day because obviously we want to see 22 results coming back on it to make it worthwhile and that we can all move forward 23 with that. And if we could get an update on that report as soon as possible after that 24 meeting it would be very much appreciated. 25 26 And the other thing I just wanted to ask about, and I hope I have read it right in the 27 report, again it goes back to the N11, and part of Kilpedder falls into my district, but 28 it was on what is known as the Kilpedder Rat Run, that the feasibility study has been 29 approved for funding there for a road safety improvement scheme, a feasibility study 30 for it, and I was just wondering when would that happen. That's all. Thank you. 31 CATHAOIRLEACH: Thank you. Councillor Peter Stapleton. 32 COUNCILLOR STAPLETON: Thank you, Chair. And thank you for bringing me 33 in. Nearly blew a lid there thinking that we were finished with the Chief Executive's 34 Report after sitting through 90 minutes of dog shit and not getting to say my little

CATHAOIRLEACH: It has been addressed.

piece here. That is not to belittle the scourge that dog fouling is in the priority but it did get me thinking about the priorities of this chamber that it took us 90 minutes to get to Councillor Behan's point around housing, around future infrastructure in this county, some of the most consequential things for the people who live here and probably isn't discussed in this chamber enough. Because, for instance, even having just had that exchange between the Chief Executive and Councillor Behan, it got me thinking that there must be a huge number of people within the county who are living in their parents' houses, living in rented accommodation, that would be living in these new homes that aren't necessarily going to be necessarily putting additional pressure on infrastructure. I don't know if we have any stats on that but I know even in planning it's allowable to put in conditions that it be for people who live within the county. So maybe if we had zoning with those restrictions it would give us more confidence to kick on and zone more housing for the people of Wicklow. That's just a by-the-by something to think by as you said that. Also it seems like a pretty fair exchange between the Taoiseach and ourselves that if we zone more land the infrastructure will come. So you have to take that as a positive, whether you can take it at that word is another question, but I think that is the positive in that. Finally to the point I wanted to raise. It is just around road markings on the road between Shillelagh and Tullow. I know conversations have been going on about ring-fencing money in the budget for line markets on our regional and local roads. I just want to stress that is so important, particularly in reference to this road. A very, very fast regional road that sees a lot of traffic that has next to no line markings on it, and unfortunately was the location of a tragic accident in the last number of weeks. Now, I have to stress that the lack of line markings was absolutely nothing to do with what was an horrific accident. It draws the attention back to the lack of line markings amongst the public and they have asked me to raise it here again. Is there any way we can get it done in the near future? That would be brilliant thanks CATHAOIRLEACH: I did mention conduct earlier. I didn't think I would have to mention language in the chamber also. I will pass over to the Chief Executive. COUNCILLOR STAPLETON: I apologise for that. MS O'GORMAN: Thank you, Members. COUNCILLOR O'NEILL: Language! Language! Dreadful.

1	COUNCILLOR O'NEILL: You're a member of the right party.
2	CATHAOIRLEACH: Sorry, Councillors, the Chief Executive is about to speak.
3	Sorry, thank you.
4	MS O'GORMAN: Thank you, Cathaoirleach. I will ask Helena Dennehy to come in
5	on the RRDF in Baltinglass, Councillor Mahon. So it sits in that directorate. It is
6	part of planning, economic and rural development. It sits within the Town Centre
7	First Town Regeneration team. They are the primary vehicle for delivering the
8	RRDF and URDF projects in the county, notwithstanding that it has significant
9	support from the Baltinglass MD as well in terms of the expertise on the ground. I
10	will ask Helena to give an update on that now in a moment.
11	
12	Councillor Fenelon Gaskin, I will ask Michael to come back in on Farrankelly and
13	where we are on it. My understanding is that the funding has to be spent by year end
14	so the works will continue at pace there but just in terms of getting detailed reports
15	on the costings.
16	
17	In relation to the Cliff Walk, absolutely we will send in our options of feasibility
18	well within advance to the meeting. As I say, literally sitting in the meeting today
19	the date was confirmed for the 25th. It's moved a couple of times. As soon as we
20	have our report finalised we will circulate it to this chamber and we will circulate it
21	to the members of the task force so they have time to consider it in advance.
22	
23	I will ask Joe to come in on the Kilpedder feasibility study as well and on the road
24	markings.
25	
26	Councillor Stapleton, on the infrastructure. We don't have any statistics around how
27	many people are living at home. And yes, there probably is a sizable population
28	within Wicklow that would like to be living in Wicklow. How feasible it is to stitch
29	something like that into zoning we have been challenged, as you know, by vulture
30	funds on, it is a very important part of our Development Plan, on apartment blocks,
31	we have stitched that into our Development Plan, it has been challenged at every
32	turn. But we do have very strong local residency policies within Wicklow but I
33	wouldn't like to see us constrain housing availability to those that are only resident
34	and from Wicklow. I would I suppose hopefully share your optimism in if we zone

1 the infrastructure will come, and the Taoiseach was very clear it shouldn't be a 2 barrier on funding, but the proof is in the pudding on that. 3 4 I will hand over to Helena on the RRDF, then Michael and Joe. 5 MS DENNEHY: So, the Baltinglass RRDF. We have completed the tender 6 documents in relation to the public realm element of that. The detailed design has 7 actually been submitted to the Department and we're just waiting for clarification and 8 confirmation from the Department to move to the next step. And just to say I have 9 actually got a meeting with the Department on Wednesday about both Baltinglass 10 and Blessington URDF. So I am hoping to have an answer following Wednesday's 11 meeting about that project and progression of it. 12 COUNCILLOR MAHON: Thank you. 13 MR NICHOLSON: In relation to Farrankelly, I am hoping, Councillor Fenelon 14 Gaskin, you will be getting phone calls tomorrow, Wednesday, from your residents 15 informing you the work has started because it is due to start tomorrow Wednesday. 16 We are doing 11 houses. It is purely windows and doors. We did do a full survey of 17 all the properties but our focus at the moment is on windows doors. We felt that was 18 the best use of the 200 grand we have left in the repairs scheme. This is phase one. 19 We intend to continue in the new year when we get more money, I'm confident we 20 will, to finish the rest of the houses. When the contractor does the report it's loaded 21 onto iHouse and the Adjust system, it doesn't produce report, so we are trying to 22 manually extract from that what exactly was in those reports, and when I do that I'll 23 send them onto the Members. Certainly work is starting tomorrow on windows and 24 doors and I think the tenants will be very, very happy with that. Thank you. 25 MR LANE: As regards the N11, the safety improvement schemes, a feasibility 26 option report has been approved by the TII to support the proposed statutory 27 approval process that is currently being prepared. The objective of the scheme is to 28 deal with the safety issue and the rat running. As regard Shillelagh, I might talk to 29 the Councillor because I might have missed the exact location, there may be 30 sensitivities around that but I'll talk to you. But in general there's limited monies for street lighting. We are looking in the context of the budget going forward. I want to 31 32 talk to you about that. I might have missed something there. 33 CATHAOIRLEACH: Thank you. Councillor Patsy Glennon.

COUNCILLOR GLENNON: Thank you, Cathaoirleach. Thank you very much. I'd

1	like to start by thanking the Chief Executive for her update on her meeting with the
2	Taoiseach and the Tánaiste and for the clarity she gave after Joe Behan's questions.
3	That's very much appreciated.
4	
5	Coming back to my initial question, Hollywood Cross is being reconstructed, and
6	that's a welcome development. There's a great job being done. It is anticipated that
7	it will be finished by the end of December, ahead of schedule, as it is moving along
8	well. But unfortunately it will be of limited use unless we get our park and ride to
9	park cars there for the people coming from surrounding areas to take them out of the
10	cars and onto the bus. I have checked with the Director of Finance that the monies
11	would be available should a piece of land come up but I would like that to be
12	progressed as much as possible, as speedily as possible.
13	
14	My colleague Councillor Cronin mentioned the N81. The N81 is a much forgotten
15	road when it comes to this chamber. I say that with the greatest respect. The N11 is
16	very important to a lot of my colleagues. But the N81 is not fit for purpose. It was
17	mentioned by Minister Buttimer recently in answer to a Dáil question, that it was up
18	to Council to progress it with TII. So I would like that to be progressed. Now, there
19	is another crossroads quite close on the Blessington side, Heron's Crossroad, but is
20	absolutely lethal. And both myself and Councillor Cronin are prepared to spend
21	some of our discretionary money to try to get a consultants' report to see what can be
22	done about it. It is certainly lethal and unfair to people using it. The safety scheme
23	south of Blessington was discussed at length with TII and it must be close on two
24	years because the delegation was led by Aoife Flynn Kennedy when she was
25	Cathaoirleach, and it still hasn't happened. It is progressing but not happening as fast
26	as it should. So those are issues I would like to see raised.
27	
28	And Local Link doesn't serve either Donard or Hollywood, two reasonable villages,
29	but there is no services whatsoever in them, so I don't know how we go about
30	addressing them because I think we're falling between two stools with the organisers
31	of the Local Link. Perhaps you will have someone look into that for us.
32	
33	I bear the frustration expressed by Councillor Mahon because me and my other
34	colleagues from Baltinglass have been mentioning the RRDF for considerably longer

1 than a year, but I have heard Helena's adequate response to it so there is no answer to 2 look for there, but perhaps the other matters you would throw some light on for me. 3 Thank you. 4 CATHAOIRLEACH: Thank you. Councillor Lourda Scott. 5 COUNCILLOR SCOTT: Yeah, thanks, Cathaoirleach. I will start off with a 6 question about Farrankelly. And just following on from your response to Councillor 7 Gaskin in terms of getting the data from this new system, I think we have been 8 looking for this for the last two months, since September, and I appreciate that 9 whatever way that system is set up it is not easy to extract the data from it but I 10 would expect even going through it manually, there's only 50-odd houses there, that 11 we would have a report of sorts, that we know exactly what we are dealing with and 12 what sort of money we need to get to progress beyond these 11 houses, getting the 13 doors and windows done. It is welcome to hear that is starting. 14 15 On a similar note, I would like to ask on progress on seeing the property on Mill 16 Road being brought onto disposal notice in front of the Council. Again I know that 17 the plan is to have that money ring-fenced for the rest of the works that needs to be 18 done in Farrankelly and obviously will be a slow process probably to get that sold 19 and I am anxious to see it in front of us so at least that step is taken as soon as 20 possible. 21 22 Just moving on from that to the email I received from the Chief Executive about the 23 20-minute meeting, which, to be frank, is disrespectful to yourselves and it is 24 disrespectful to us as Councillors who are constantly working for the best needs for 25 their community. To have a meeting on zoning taking 20 minutes casually by the 26 Taoiseach and the Tánaiste is frankly disgraceful, and it shows how little they are 27 doing to tackle housing crisis properly. To think that zoning additional land is going 28 to achieve more houses being built is naive I feel. There needs to be more 29 discussions on the houses, the tens of thousands of housing that have planning 30 permissions currently and haven't started to be built let alone the thousands of vacant 31 homes that need to be addressed and brought back into the property. Specifically on 32 your comment, Chief Executive, on how the need for infrastructure has been 33 discounted. Like, Wicklow may be doing the heavy lifting here but Greystones 34 district, which is my concern, will be doing the heavy lifting on behalf of Wicklow.

At the last Council meeting we discussed our Local Area Plan, and that was led by the need for infrastructure in our area to catch up after extensive development. To remind everybody, the Tánaiste lives in Greystones. He knows about the lack of school places we have there. He knows there's schools there waiting for their extensions. He knows there's people who can't get childcare places, all our sporting facilities, that have nowhere to train or play. I know the trains are incredibly poor south of Greystones, they're also not too great going to Greystones. Again last bank holiday weekend, no trains going. This has a massive effect on the businesses in our town, with one of our restaurants sadly giving notice they have to close during the week. This is part of the problem. Our own MD doesn't have another outdoor staff at the moment to service the area let alone when we build additional houses there. There's a whole discussion to be had on infrastructure. A school in Newtown is needed. There's no sign of that happening, if ever. We have one of our secondary schools still operating out of prefabs six years after it was sanctioned for a new school to be built. So while we are saying naively, oh, if we build housing infrastructure will come, if you believe that is going to happen in conjunction with the housing being built I'd have a better chance of that happening if I put it on my Santa list this December than relying on the Taoiseach and the Tánaiste to deliver that. Because the infrastructure hasn't come already. We have a lot of houses built in Greystones and we do not have the infrastructure. So the question is will it come, it is when will it come? Thank you CATHAOIRLEACH: Thank you. Councillor Gail Dunne. COUNCILLOR DUNNE: Thank you, Cathaoirleach for letting me in there. Sorry, just one second. I listened with great intent to what our Chief Executive said about the meeting with the Taoiseach and the Tánaiste and Minister Browne. I also have spoken to Minister Browne, and one of his ideas was that he was trying to bring in land that had water and sewerage but it had no zoning on the outskirts of the town. And that would increase, that would obviously increase housing but it would also give more zoning to housing around Wicklow Town which has a lot of facilities. Our problem is the DART. There's no point of in saying anything else. It's now put back to 2030. Going forward, now I'm not sure whether I got this right, but are we going to do a variation of the County Development Plan? Because if we are going to look at proper planning and proper houses on the outskirts of the town that we can bring in that has water, sewerage and proper infrastructure are we going to do it?

1	And maybe the Chief Executive would answer that. Bray and Greystones are the
2	major growth centres and Wicklow Town has grown, I think 2,150 are the new limits
3	with a headroom to 3,000. I wouldn't like to see housing every(inaudible) In
4	my opinion, and proper planning I think is really important. That we do get housing
5	for the large amount of people that are on the housing list and people who are
6	looking for housing. I think we shouldn't forget that(inaudible) going forward,
7	and either zoning land or getting lands ready to zone. Because it's terrible to see
8	anybody who deals with houses in my area I deal with a lot of houses, and it's
9	terrible to see young people looking for affordable housing, looking for housing,
10	social housing and can't get any. And we get 20%, 10%, of all the schemes that are
11	done. So it's really important that we do it properly. But I know in fairness
12	(inaudible) looking at all of this. I want to know, my question is: Are we going
13	for a variation in the County Development Plan? Thank you.
14	MS O'GORMAN: Thank you, Cathaoirleach. And thank you, Members. Councillor
15	Glennon, a lot of issues there around different elements of the roads in West
16	Wicklow. I will ask Joe to comment on what he can on it. I am going to suggest, I
17	am going to write to TII and see will they meet us specifically around the issues on
18	the N81 and the various crossings on them, and if I get a meeting with them we
19	might invite the members of the district and try and do it that way. Because I know
20	we're going around in circles, and it is very important that we have that meeting with
21	them at a high level. Joe might be able to clarify on the park and ride and Heron's
22	Crossroad and South Blessington as well.
23	
24	On the Local Link, I had spoken to NTA about it. I will speak to them again,
25	because they're the funders of the Local Link, and for the need to extend to Donard
26	and Hollywood. I will certainly do that.
27	
28	Michael might clarify again for Councillor Scott on Farrankelly and the Mill Road,
29	183.
30	
31	Just to be clear, I suppose there wasn't any zoning decisions made at that meeting.
32	That's not the meeting within the Taoiseach and the Tánaiste and others. That's
33	not within their gift. What they have asked us to do is look more broadly at our
34	zoning of land. So to answer Councillor Dunne's question, yes, we will be proposing

to vary the County Development Plan. We have to vary it to take in the new housing
targets into our core strategy, so what I am suggesting is that we look in the first
instance at moving that RN2 to RN1. I think we may have a two-stage, two
variations to the plan, one to do that piece, subject obviously to the Members'
agreement, and secondly then to look at those lands that are on the fringes of our
townlands and hinterlands that have services that weren't zoned in the last iterations
of either LAPs or IPFs and to see whether they can be brought into the County
Development Plan. To do the second piece, those lands that aren't currently zoned,
will require the full rigours of the development plan process, as in the screening and
all the consultants' reports that go with that. So that is going to take much longer.
The timeline for doing that piece of work, you're probably talking from now until
next summer. To look at the core strategy and the RN2 potentially to RN1 you're
talking the very start the end of Q1, start of Q2. So you're talking March, possibly
bringing it to the full Council at that stage. But we're in the process of working it
through. We will be in touch, the planning team will be in touch with the Members
in the next week or so just setting out what we are looking at progressing and then
working with yourselves through that.
So yes, at a very minimum we are required to vary our plan to take into the new
targets but I think well, we have been asked to look at moving our RN2 to RN1
and then looking at what other additional lands that we could potentially zone that
have services that are on the hinterlands of our towns. Thank you.
So I will go over to Joe first on roads.
MR LANE: On the Heron's Cross, thanks for the offer, I will look for that. We
spoke earlier and I talked about that particular one, and I will make sure you get
progress reports on the N81, the safety measures on the N81 south of
Blessington sorry, south of Blessington, yes. The report I have on the park and
rides are just TII-funded ones. I will have to check that one for you. Outside the
formatting of the report. I will get that for you.
MR NICHOLSON: Cathaoirleach, I would imagine the tenants in Farrankelly would
prefer to get new windows and doors rather than read a report telling them they are
getting new windows and doors. So our focus has been on actually getting the
windows and doors in. My staff pulled out the most amazing thing to have it done in

are doing that because we have to claim by the end of November. All claims have to
·
be in the Department by the end of the month. We're under time pressure to get the
money spent to have the claim made to get the money. We will pull out the reports
from the Adjust and iHouse system, but our priority has been on actually getting the
work done.
As regards Mill Road, yeah, the first five houses I will bringing them to the Council
meeting in December. I had hoped to have it on the agenda today but we are waiting
for a couple of small pieces of information. So section 183 should be on the agenda
for December. That included the Mill Road. The one advantage of there being a
delay is the value of those houses increased significantly. We believe the Mill Road
has almost doubled from the original price we were told to expect. That's good news
for Farrankelly; it means more money available. So the delay in this case in the
works is to our advantage. Thank you, Cathaoirleach.
CATHAOIRLEACH: Thank you. So I have made a note of the requests for
speaking from before the suspension of standing orders. So the next one on the list
was Councillor Silvester Bourke.
COUNCILLOR BOURKE: Thank you, Cathaoirleach. Just two questions for Joe
Lane. In I think it was March we passed the Part 8 for the first phase of houses in
Church View in Arklow and we were told it would be commencing in November.
Could you give us an update on that? There's no sign of anything happening there
yet. And secondly, in relation to the second part of that, which was linked in a
bundle within the Public Private Partnership Scheme, the first part of that, I think in
Blessington has been rejected, you might correct me if I am wrong, but on cost
considerations. And what effect will that have, if any, on the phase two for Church
View for the 125 units that we also passed? Thanks very much.
CATHAOIRLEACH: Thank you. Councillor Shane Langrell.
COUNCILLOR LANGRELL: Thank you, Cathaoirleach. Chief Executive, thank
you for the update with the meeting with the Tánaiste and Taoiseach. I suppose
Councillor Scott touched on it there. We have to be very careful. It's all right for the
Taoiseach and the Tánaiste to I suppose go zone land and we look after things after.
11 0
For example, Councillor Scott touched on it there, in Newtownmountkennedy we
have lands zoned educational back in 2002 and only a few months ago myself and

Councillor Alvey have set up a little bit of a committee with a lot of parents in the Roundwood, Laragh, Newcastle, Newtownmountkennedy area. And I got an email back -- I probably said this in the chamber before, I got an email back from Helen MacEntee to say there was no immediate plans for a school in Newtownmountkennedy, which is crazy. Newtownmountkennedy is going to double in size from two and a half thousand to five thousand in '28 and '29, where we crying out for a secondary school. It is a knock-on effect to Greystones and Kilcoole where we need our own secondary school. So absolutely, thank you for that, and I will be meeting with the Tánaiste the week after next I think and I will be bringing this up with him as well. Chief Executive, you said you were going to be in touch on the Local Link there. The 199 Local Link bus route from Glendalough to Bray, through Annamoe, Roundwood, Kilmacanogue, I got an email saying it was going to start on the 22nd of September. There was a delay on it. Then it was put back to some date in October. Now we're the 3rd of November and it's a year ago that the NTA was here and said it would be up and running early '25. The first quarter of 2025 is what I was told. We had a meeting with the transport and infrastructure there six weeks, two months ago, and the Director I think his name was John Knock was at our meeting and he said it will be up and running by the end of October. Here we are in November. I sent an email through Linda Healy here in the Council which she forward on to the NTA, and the response back a few days later was very vague. And, like, I'm representing the community of Glendalough, Roundwood and Laragh and I am being inundated with messages when is this Local Link going to be up and running. And furthermore, this job has been awarded to Nolan Coaches where I only spoke to there last Friday, they've gone and purchased this bus. The bus is sitting there with nothing coming back from the NTA. So, Chief Executive, if you could please send an email to see can you get any clarification on it. Thank you very much. CATHAOIRLEACH: Councillor Miriam Murphy. COUNCILLOR MURPHY: Yeah, thank you, Cathaoirleach. Just a few things there I want to bring up. I brought up actually a year ago in relation to the out of hours contact and I am just wondering was that ever improved? I know our CEO was to look into it. And I am wondering was there any improvement in it whatsoever?

Secondly, I was delighted to know that there was a drop-in information session on
people with disability recently. I would like a report on what information was
gathered on that, what was gained at each drop-in centre. And also, do the other
Councillors know about it? And thanks to Wicklow County Council information I
got to know of it, an information session in Arklow library. I think the information
would have been maybe other Members did know. I didn't. But I think Members
in our chamber would benefit from the information on that because(inaudible)
such needs and situations, and also on what(inaudible) I think we can all see it
in our districts with the same issue. Again Arklow being a huge forthcoming benefit
with houses on both sides of the town and literally lack of infrastructure, both
transport wise and congestion, and schools and public transport, and I think
(inaudible) and you know, we need transport studies, and for a 30-year plan I
mean being realistic you know people are not going to wait that long for
improvements, and hopefully these developments in this district, we need to be
looking for funding for that as soon as possible. Thank you very much.
MS O'GORMAN: Thank you, Cathaoirleach and Members. Councillor Bourke, I
think all your questions were directed to Joe so I will get him to come in on that now
Councillor Langrell, on the Local Link 199, I will definitely make contact. I am
shocked by that to be honest with you.
And, Councillor Murphy, I don't know about the drop-in service for people with
housing need with disabilities. Michael might be able to give a bit of information on
that. In relation to the out of hours services, we had looked at that. It was a
miscommunication I suppose in terms of when calls were being picked up and
dropped. Leonora might be able to clarify for you. I will go to Joe first.
MR LANE: We are currently working through design on that. Tender documents
should be going out early in quarter 1, '26. Now when you say there's no works were
being done, at the moment there is preliminary works, clearance on-site at the
moment. We reckon we will go to tender in quarter 1, '26.
MR NICHOLSON: Cathaoirleach, in relation to people on the list requiring
disability provision for houses, what we have done is we're going through our
housing list at the moment to make sure that every single person has identified on
their housing application form exactly what they require, and whether we can adapt

the property or whether we have to get a property specifically built for them.
Regardless of what happened at the drop-in clinics we're doing the exercise anyway,
just to make sure. Some people for some reasons don't obviously claim on an
application form what they need. We are going to make sure we have a full list, so
we can liaise with Joe and his team as regards constructing houses or make sure we
can adapt them, or build specifically, or use the disability grant. I will talk to you
privately on that, Miriam.
MR LANE: I forgot about Tinahask, and I might even pre-empt a question coming
from Councillor O'Neill regarding Burgage. So, Burgage is different to PPP. That
was suspended, that particular PPP. The others, which is Tinahask and Burnaby
there's currently a review of the PPP process, and we're awaiting that to see what
we're doing. That's for the Burnaby and Tinahask Phase 2 which is the extra part of
that development. Burgage, Wicklow County Council have decided rather than
waiting for the NTA and the Department to move on with the most of the schemes,
they are Kildare and Dublin mainly, and ourselves, there was a process where they
would go for a design, for a tender for all of those. We have decided rather than that
we will progress it ourselves. So we will be going to tender ourselves for the
Burgage. I am pre-empting a question that wasn't asked by the way. So Burgage
will be moving ahead by the local authority on its own. We're not waiting for the
PPP process or what is left from the NTA process. Once that review is done for
Tinahask, which is different from Burnaby, we will then decide whether we're going
to we will see what comes out of that, and whether we will break it up and go
ourselves again. We will have to see about that. Again, just one of the strengths of
the PPP was while they were doing that our team was doing something else. When
we're not doing that, it stretches us, and we still have challenges recruiting
professional staff. So just keep that in mind.
MS EARLS: Councillor Murphy, just in relation to the out of hours. We have been
in contact with the service providers and we have updated all the contact details for
Wicklow County Council with them. Now, there's still a bit of ongoing work with
them just to try and look at some of the glitches in the system so it's ongoing. So we
will keep Members informed.
CATHAOIRLEACH: We have another five people looking to speak. I am
conscious we have two notice of motions sorry, three notice of motions and we do
have people in the chamber waiting on those. Could we go quickly to those and then

1	go back to the Chief Executive's Report? I need a proposer and seconder of that?
2	COUNCILLOR FORTUNE: Can we not deal with the report first?
3	CATHAOIRLEACH: I just want to do this quickly and then we go back. It's up to
4	you, Members, if you want to continue on with the Chief Executive's Report?
5	COUNCILLOR FORTUNE: I just think this report is the best part of the meeting,
6	so
7	CATHAOIRLEACH: That's fair enough. I wanted to put it out there. Fair enough.
8	So the next person to speak then sorry is Councillor Dermot O'Brien.
9	COUNCILLOR DERMOT O'BRIEN: That's grand, Cathaoirleach. Fire ahead with
10	the next person. All good.
11	CATHAOIRLEACH: Are you sure, Councillor O'Brien? Do you want to email in
12	your queries? The next one then is Councillor Pat Kennedy.
13	COUNCILLOR KENNEDY: Can you hear me? Yeah. Thanks, Cathaoirleach. I
14	suppose my question is for the Chief Executive just in relation to the meeting with
15	the Taoiseach and the Tánaiste, and something that I have mentioned to the
16	Taoiseach on many occasions and I have mentioned it in this chamber is the use of
17	package treatment plants on-site, where you bring in on-site treatment and then
18	connect into the foul sewer line. I did have a meeting, and I have mentioned it many
19	times here in this sorry, before I that say that, Chief Executive, I do want to
20	acknowledge that you came off your annual leave to go to that meeting. I just
21	wanted to put that on the record.
22	
23	Something that I have mentioned many times in this chamber is the fact that there's
24	no capacity in the Wastewater Treatment Plant in Aughrim. And there have been no
25	houses built there for maybe 16 years now and we do have a waiting list in Aughrim
26	for housing. I did have a meeting with Irish Water two weeks ago specifically about
27	Aughrim, I did ask them about the use of package treatment plants, and they did
28	indicate to me that they do hope to lodge an application for a new wastewater
29	treatment plant over the next year or 14 months to the Council here for that. So I did
30	ask them can we use or will they allow the use of package treatment plants if a
31	developer was prepared to put one in, subject to complying with all environmental
32	regulations and suitably sized, and the answer was if a developer was prepared to put
33	in a package treatment plant they will accept that provided it meets all the legislation
34	and criteria. And I suppose my question, Chief Executive, is: That if a developer

1 does want to do that, that will meet no barriers in the Council? That if Irish Water is 2 accepting it that Wicklow County Council will accept it? Is that fair? Thanks, 3 Cathaoirleach. 4 CATHAOIRLEACH: Councillor Stephen Stokes. Councillor Stokes, did you have 5 a query? We will go on to Councillor Tom Fortune. 6 COUNCILLOR FORTUNE: Thanks, Cathaoirleach. Thanks, Chief Executive, for 7 your report. There's lots of good stuff in it. I have just a few specifics I want to 8 highlight or ask about. One would be housing. The question I would have on 9 housing is: Where we have an emergency and a one-bed is the solution to it and we 10 don't have a one-bed in the system, is it possible in particular cases we'd look at a 11 two-bed even if it meant sometime in the future swapping it around? I think it's 12 something that should be considered because if not we're going months and months 13 and months without being able to deal with an issue. 14 15 And just very quickly on the Economic Development SPC. We had a visit from the 16 IDA. Now, just to give you a couple of pointers, and I wanted to ask something 17 specific as well falling out of it. The meeting itself was okay. It was the same as the 18 meetings we've had here over the years, where they come down and do a kind of dog 19 and bone show about what they're about, but nothing ever seems to be happening at 20 least in the way we would look at it. They were asked, like, for example, about in 21 what way would they treat Wicklow as a priority versus, say, Kildare or Meath? 22 That it appeared that we weren't getting project -- that was our perception, we weren't 23 getting the projects. So they gave us their standard answers on that. We also raised 24 with them specifically about the media campus in Greystones that is a massive 25 project and it's sitting on ice as we speak, and what they confirmed was that they 26 would have an answer about its future by Christmas. So it was that kind of 27 conversation. We talked about the idea of the lack of proper big industry throughout 28 Wicklow affects the rate base and affects the economics of running our county. 29 They were some of the rationale of stuff we put to them. So they told us then as part 30 of our feedback to us that -- because we talked about meetings and having meetings 31 that are productive. They said they meet with Wicklow County Council regularly, 32 they even said they meet monthly. I'm not sure whether that happens the way they 33 described it or not. But what I would ask falling out of what I have said is: Is it 34 possible, Chief Executive, that on your monthly report we would get some kind of a

1	paragraph or some update on what is happening IDA wise? Because as I referred to
2	there a moment ago, we have a problem in the county on the rate base levels, and we
3	need to be pushing the likes of the IDA to do what we want done. So maybe that
4	would be productive from what's going on.
5	
6	If I could make a quick observation on the Cliff Walk without trying to repeat what's
7	been done. With the meeting you're having on the 25th of November. Obviously the
8	costing is very important. We need to get that costing done and clear. Also,
9	hopefully what might come out of that or the feedback out of that might be who is
10	going to be in charge of making the project happen and then confirm the timeline.
11	Because there is an expectation especially, say, on the south side of the walk, and I'm
12	sure on the Bray side as well, that it could be open by next St Patrick's Day. That's
13	the kind of pressure that is on locally. We need to know how real that is. Because
14	on the Greystones side there's also a strong view that there's about 300 metres of the
15	walk that really just needs moving in. I don't know if that's correct, but at least
16	maybe falling out of all of this once and for all we can establish that so we're not
17	having meeting after meeting and getting nowhere. In other words, there's a solution
18	to what is going on rather than a whole lot of talk. So that'd be important.
19	
20	Also is there any update there's a lot of talk going on backwards and forward about
21	a greenway project going from Bray to Arklow or Greystones to Arklow, and there's
22	loads of difficulties in making that happen. Where is that? And what's the
23	involvement of the local authority? Can we get an update on it? And is it possible to
24	have regular updates on that as well?
25	
26	Again thank you for your update last Thursday with the Taoiseach and the Tánaiste,
27	Chief Executive. It sounds like the meeting, despite it seems like it was a good
28	meeting. But I think what's important coming out of that meeting as well is
29	timelines, because we as public reps need to know that. That's going to be in the
30	media, it's there already, so we're going to get inundated now with what was said and
31	what wasn't said, so we do need to know that we're talking from a factual base.
32	That's very important.
33	CATHAOIRLEACH: Councillor Fortune, can I hurry up there?
34	COUNCILLOR FORTUNE: Yeah, you can. I am just finished. Yeah, on that point

1	as well, as a group in our own area when we were discussing the Local Area Plan, or
2	the LAP, we did a lot of what ifs around it, so we have had conversations in our
3	district already around this potential stuff happening, so feedback to us is very
4	important.
5	
6	Then my last comment, Chair, is the IDA, NTA I have problem. If we are relying on
7	them to come down here to us and explain to us in proper language and proper
8	solution-based language I think it is a lot of wishful thinking. So we need to give
9	them a brief of some sort before they come near us so they don't come in and give us
10	a standard we don't need to know who they are. We can read that online.
11	CATHAOIRLEACH: Thank you, Councillor O'Neill. There's only one or two
12	minutes left.
13	COUNCILLOR O'NEILL: Thanks, Cathaoirleach. I just wonder there two points.
14	What's the situation as regards the court proceedings against Quanta Limited, the
15	people building 65 houses in Bray without any planning? Is that still going ahead
16	next Monday I think?
17	
18	Number two, in talking about the Hollywood traffic calming I would like to remind
19	Councillor Glennon that long before himself or Councillor Cronin were involved in
20	politics that I was very much involved in the N81 and trying to upgrade it, and for
21	years I tried to get this famous bus stop. And we do have the bus stop is on the
22	way and there's traffic calming. There over a million euro being spent on the traffic
23	calming in the area. But if you look at the plan of it, and maybe the CEO would look
24	at this to ensure that this doesn't happen, having spent over a million the speed limit
25	is to remain the same. And that's there in black and white in the plans for this. So I
26	know the people of Hollywood are very concerned that the whole idea of the traffic
27	calming would be to reduce the speed not to leave it at the 80 kilometre that it is at
28	the moment.
29	
30	On the N81 again, could I just briefly? There's a lot of talk from my colleagues
31	about south of the N81 from Blessington on down to Dunlavin and whatever, but
32	there's very little said about north, and the busiest part of the N81 is from
33	Blessington to Dublin. And there's been proposals there for some time for a
34	carriageway, but I would be of the view I am going to find out also you know, it

is not the first time we met ministers on the N81, we haven't been getting too far with them, but I wish you the best of luck, and I hope you include the municipal district councillors in any meetings with ministers. I'd love to meet them again. I think that we should seriously consider a proposal I have been making here for a while, and that instead of a dual carriageway to go from Brittas into Blessington that we look at it again and build a decent road. Because in the building of a carriageway into Blessington, into Wicklow, it would be the only artery from the city. At the moment it's the only road that's cyclists can use. And what I would really be looking for maybe is a plan to improve the road, to improve the road as it is and have a cycle lane either side. Because still that is one part that the people of Dublin can get on their bikes and travel. It is very unsafe, it is an unsafe road for cyclists at the moment where lorries are passing and beeping. But we could go about building a decent road there, and especially it would be some time maybe getting the greenway in Blessington in place. So I would look at the whole plan of that to be done. Also it's important to know that South Dublin County Council have taken their section of the N81 off their Development Plan. So we're left in no-man's-land there. So I think that proposal of mine should be considered.

You know, as I say, we do talk a lot about south of Blessington, you know, whereas I think the northern part where we have heavy lorries coming out, the gravel and whatever, you know is needed in Dublin, but as I pointed out before we don't really get -- we don't get back anything that we give. We get free water to Dublin. Dublin Corporation and City Council can charge commercial rates for water, we give it for nothing. We give them the sand and gravel and stone, but we still are working off the same road that we have been working off for a hundred years. So honest to God I hope that you are successful in meeting the Ministers. And also, you did meet the Taoiseach and the Tánaiste and the Minister for 20 minutes the other day or whatever, but I hope you reminded them too that you know them preaching about planning here in Wicklow that it was only two months ago the third Minister, Minister for Housing you met there, Browne, that he actually shelved the building of 106 houses in Blessington. So I take the three of those boys with a pinch of salt. I mean they're talking about rezoning in the county and then at the same time where a site had started, the development of the site in Burgage had starred. We're in dire straits for social housing.

1	CATHAOIRLEACH: I hate to interrupt you but we have gone over time and the
2	Chief Executive wants to respond to the queries.
3	COUNCILLOR O'NEILL: Okay. Grand.
4	CATHAOIRLEACH: Thank you for your patience. Just before we do. I want to
5	apologise to the members of the public in the gallery that we didn't get onto the
6	notice of motions, but to thank you for your patience in waiting. I will let the Chief
7	Executive come back on those issues.
8	MS O'GORMAN: Very, very briefly, Members, because I know you are probably
9	all browned off at this stage. Councillor Kennedy, just on those package treatment
10	plants, we'll have to look at it. If they're acceptable to Uisce Eireann, because we
11	would consult with them when we're looking at the water side of things, so we will
12	certainly look at it.
13	
14	Councillor Fortune, very briefly, on somebody who has a one-bed need in
15	emergency accommodation. Our priority is to get people out of if they're in
16	emergency situations and we look at all options. It is not preferable to put somebody
17	into a two-bed but we will look at all options.
18	
19	The Cliff Walk, we're talking and there's about a kilometre or so, that's a rough
20	estimate of what needs to be rerouted. So it is not 300 metres, it's a bit I know, but
21	it is not significant, it is not 5 kilometres at the same time. We have to see how that
22	bears out, and we're dealing with private landowners there.
23	
24	On the greenway from Greystones to Arklow, I will certainly have to come back to
25	you on that.
26	
27	Including an update from the IDA in the Chief Executive's Report. We can ask the
28	IDA. I don't know whether they'll provide a report but we will certainly ask them.
29	
30	Councillor O'Neill, just to confirm, yeah, we are in the High Court next Monday with
31	that case. I note your comments around Hollywood and the N81. Yeah, look, I am
32	going to seek a meeting with TII. I think it is far more practical to meet with them,
33	and if we do secure a meeting with them that we invite members of the Baltinglass
34	MD to that meeting. Thank you, Members.

1	CATHAOIRLEACH: Just before I close the meeting, Councillor Winstanley, did
2	you want to come in quickly there?
3	COUNCILLOR WINSTANLEY: Sorry, Cathaoirleach, I just wanted to chance my
4	arm in case anyone didn't my motion, if anyone didn't feel that it was particularly
5	contentious, would people be happy to agree for the Chief Executive to send out a
6	letter? It was only because of the timely nature of it because the legislation is being
7	reviewed at the moment in Government.
8	COUNCILLOR BEHAN: I second that.
9	MS PURCELL: Sorry, Councillor Barry is not here, so you're happy to second
10	instead Councillor Behan, and that that letter will issue? Is there any objection to
11	that? (No.) The first motion, is that similar, Councillor Scott? That the Council
12	resolves the Chief Executive write to the Department? Again you need a seconder
13	because Councillor Doyle is not present.
14	COUNCILLOR WINSTANLEY: Yes.
15	MS PURCELL: Councillor Winstanley. Are you happy with that? So we can issue
16	both sets of letters then if that's agreeable to call. Thank you.
17	CATHAOIRLEACH: Thank you, Members, and thank you for your attention. We
18	have the budget meeting on the 24th November at 10 o'clock in the chamber, and
19	we're hoping before under 'Any Other Business' we're hoping to have a civic
20	reception for Lara Gillespie. She is Ireland's first female World Track Cycling
21	Champion. We'll see you back on the 24th November. And thank you very much
22	for your attention today.
23	
24	(Meeting concluded at 5.37 pm)
