Topic

Economic Opportunity – Tourism - Shops & Services - Community Facilities

Submission

Arklow needs to invest in better facilities for young people. At present there is little or no places the young people of Arklow can come together and learn tolerance, partnership and how to have fun together. I suggest a youth focused leisure hub where young people (primarily) can meet and do activities - art, music, theatre, gaming or simply nothing at all. Investing in our youth is the most efficient thing we can do to get the greatest and longest term return on investment.
