Reference:	BRAYLAP-150318
Submission Made	December 18, 2024 3:10 PM

Topic

Heritage – Biodiversity- Green infrastructure- Climate Action- Energy

Submission

Please consider building-dependent bird species which are present but declining in Bray. Please add to the plan: Swift bricks are a universal nest brick for small bird species and should be installed in new developments including extensions in accordance with best-practice guidance. Artificial next cups for house martins may be installed instead of swift bricks where recommended by an ecologist.
