Infrastructure - Sustainable Movement - Transportation

Submission

Greystones-Delgany is located on the DART/rail line, has good quality bus links and easy access onto the N/M11.

Greystones/delgany and kilcoole do not have good bus link. The 184 takes over 1 hour to get to the luas at brides Glen. A 20 minute journey by car. The 84 runs once and hour and only goes to Blackrock. Both of these are blockers to using public transport for many. Additionally the n11 is now worse than the M50 for traffic. Massive growth and development all along the n11 has turned it into a car park. It needs to be upgraded with additional lanes (not just bus priority lanes)., this is not only costing people time and money but also carbon as they sit in traffic. Try get from kilcoole to Dublin city early morning or try get greystones to city west by public transport and see how good the service is.
