A Ghana

I am directed by the Minister of Industry & Commerce to refer to your letter of 5th October from which it is noted that the Commissioners on the 9th October 1920 increased by resolution certain rates on traffic, with the exception of rates for Maure traffic the other rates increases appear to be within the statutory maximum and your Commissioners will therefore appreciate that any increases of excess of the Statutory maxima which have not been authorized by order of the Minister in accordance with the Harbours Docks and Piers (temporary increase of charges act 1920 are illegal.

The object of this act was to enable Statutory provisions regulating the charges to be temporarily modified to meet increased working costs so that an undertaking could be carried on without loss.

From an examination of the Wicklow Harbour Accounts for recent years it would seem that notwithstanding that practically no maintenance work was executed the income of the undertaking has not been sufficient to fully meet its liabilities and in the circumstances the Minister desires your Commissioners to fully consider the situation and to favour him with their observations thereon.

In connection therewith I am to request that you will submit with your reply a statement showing the loans at present outstanding the annual instalments

I am directed by the Minister of Industry and Commerce to refer to your letter of 29th ult. regarding the rate on Maunre traffic and to state that it is unusual to authorise an increase in the Statutory powers relating to one specific rate, I am however to point out that temporary orders have been made in a number of cases under the Harbours, Docks and Piers (Temporary Increase of Charges) Act 1920 increasing the statutory maximum rates by all round percentages, which vary according to circumstances, It is therefore for your Commissioners to decide in the exercise of their discretion whether or not it would be preferable to submit a formal application for such a percentage increase of the existing Statutory charges as they may consider is necessary to enable the undertaking to be properly

It is just possible that you might have noticed this boat lying at low water yesterday and if that was so. You would see she was right out of the Channel. altogether. Had the Boat been properly Pilated into the Harbour there is not the slightest doubt but she would

have reached my berth for discharge
yesterday morning

As you are aware. Steamer lay
all day yesterday on the Bank and
only berthed last night having lost
one whole day through sheer downright
incompetence in bringing her in

This is not the first time this has
happened and I beg to submit that
the matter is really worthy of the
attention of your Board and also
your Harbour Master

You will certainly admit
that an occurrence like this is bound
to do your Port harm and it certainly
personal injury in securing tonnage
for Wicklow in competition to Rosslare

I shall be glad to learn what
steps you intend to take in safeguarding
strange tonnage coming into your
Port in future

Yours faithfully

I am directed by the Minister for Industry & Commerce to refer further to your letter of 25th inst asking for authority to increase the tolls on Coals from 3^d to 6^d per ton and in connection therewith I am to refer you to my letter of 11th Nov 1925 in which it was stated that it is unusual to authorise an increase in the statutory powers relating to one specific rate and pointing out that temporary orders have been made in a number of cases under the Harbours, Docks and Piers (Temporary Increase of Charges) Act 1920 increasing the statutory maximum rates by all round percentages which was for your Commissioners to decide in the exercise of their discretion whether or not it would be preferable to submit a formal application for such a percentage increase of the existing statutory charges as they may consider is necessary to enable the undertaking to be properly worked and maintained.

Note of the evidence

If the case had been tried

without a way I would be very

confident of success in an appeal

to the High Court. The Verdict of a jury will not be set aside if there was any evidence to support it.

In this Case there was no evidence of a "trap" that is to say a concealed danger known to the defendants but of which the deceased was reasonably unaware.

If the deceased was a mere licensee upon the defendants premises as distinguished from an "invitee" there was no duty to provide for his safety further than the duty not to leave a trap for him.

Was the invitation limited to the open unobstructed road on the North Side of the Pier which was lighted by the Lamp or did the deceased continue to be invited while expatriating at "Largo" over the pier.

If the House of Lords and especially Lord Sumner were right in the view held by them in *Messy Docks Co v Proctor* 1923 H.C. the deceased in this case was a mere licensee when he was at the scene of the accident and on the evidence the defendants were entitled to a direction that there was no evidence of negligence fit to be left to the jury.

In these circumstances I have no choice but to advise that the Commissioners should proceed with the appeal.

Barman V Wicklow Harbour Commissioners

Dear Mr Mc Carroll

In all the circumstances I am of opinion that the Commissioners would be well advised to avail themselves of the leave given by the High Court and to appeal in this case to the Supreme Court.

I am not to be taken as guaranteeing a successful result but there is in my opinion a possibility of obtaining a decision that there is in law no obligation upon the Commissioners to keep every part of all their piers and quays so illuminated at all times as to constitute a safe promenade for persons who may be making their way to any landing place for the purpose of joining a ship in the Harbour.

It may be held that the Commissioners duty in this respect is discharged once they have provided an obvious and safe way across the quay or pier to the landing place. If this view of the obligation is taken then there was no evidence of any negligence fit to be left to the jury and the appeal should succeed.

Contrasting what is to be gained by a successful appeal with the extra costs that would be occasioned by an unsuccessful appeal the prosecution of such an appeal would appear to be well worth while.

Yours Sincerely

Dear Sir

I beg to acknowledge receipt of yours of the 24th and note that the Harbour Commissioners unanimously decided not to appeal in this case

I also received a letter today from the plaintiffs Solicitors copy of which I enclose herewith

The letter requires immediate attention as there will be an application to the Court for the appointment of a Receiver over the Harbour Tolls or in the alternative an application to sequester the assets and income of the Harbour Commissioners and this might probably lead to a dissolution

The letter require immediate
attention as there will be an
application to the Court for the
appointment of a Receiver over the
Harbour tolls or in the alternatus
an application to sequester the
assess and Income of the Harbour
Commissioners and This might
probably lead to a dissolution

Curran v Wicklow Harbour Commissioners

Dear Sir

In this case the plaintiff obtained judgement in the Circuit Court for the sum of £175 = with costs and expenses and the costs of the Circuit Court were subsequently taxed to the sum of £135 = 8 = 2 so that the total amount due on foot of the judgement of the Circuit Court is £310 = 8 = 2

An appeal was then taken by the defendants against the judgement in favour of the Plaintiff and this appeal was heard by the Court of Appeal on the 17th and 18th inst where defendants appeal was dismissed and costs of this judgement are also due to the Plaintiff and they will be taxed at an early date but in the meantime I must request you to obtain from the defendants the sum of £310 = 8 = 2 being the amount due on foot of the judgement of the Circuit Court

My client is only a poor labouring man and it is unfair to think that a public body discharging public duties should seek to delay payment of the money that is justly due to him

Referring to the verdict obtained by Thomas Curran against the Harbour Commissioners for the sum of £175 and costs and expenses I beg to say that there are no available funds out of which this can be paid and as a matter of fact there is a considerable amount due to the Board of Works.

The question therefore arises have the Board of Works priority over this claim under Section 5 of the Wicklow Harbour Advances Act 1872 and Section 34 of the Provisional Order 1907.

If they have not such priority the plaintiff will probably apply to the Court for the appointment of a Sequestator or Receiver by way of Equitable Execution.

Sir

With reference to my letter of 8th inst and to your reply thereto. I fail to understand why the characteristics of the Fog Signal should become changed through lack of use.

In order to have the matter rectified it will be necessary for the Harbour Commissioners to adopt either of the following alternatives (1) Have the clock adjusted to the advertised characteristics or (2) Apply for Statutory Sanction for the alteration and issue a Notice to Mariners accordingly.

I would be glad to be informed at your early convenience as to what action your Commissioners propose to take in the matter.

Sir/

I beg to submit for the information
of the Board that on the 6th August I
inspected the lights under the jurisdiction
of the Wicklow Harbour Commission
and found them in good order

I ascertained from the (Light
keeper) that these lights are not attended
during the night except in case of fog
when he puts the fog signal into operation
and keeps a watch at the East Pier

The three lights East Pier N Pier
and Quay should therefore be described
as "unwatched" and that alteration
will be embodied in the correction for
next year's Admiralty list of lights

I timed the fog-signal and found
that the characteristic was 2 strokes
in quick succession every 13 seconds
instead of 2 strokes with an interval
of 11 seconds between them every
48 seconds as described in the list
of lights

The attention of the Harbour
Commissioners has been drawn
to this matter and they have
