LAP - Proposed Material Amendments No 26 Submission

Submission

Completely unacceptable to rezone from educational to residential. Access to pedestrians and cyclists thru Glebemount is not at all acceptable to us as residents as well as the plan for traffic existing opposite Lidl and sports retail park, which is already very busy intersection with long wait times.

This Fernhill hse site is a nesting area for many wild animals and birds eg buzzard and red kite. Any educational development would need to be sensitive to biodiversity
